RAYMOND HANDLING SOLUTIONS, INC.
SAVINGS & PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2010 AND 2009

## 1. DESCRIPTION OF PLAN

The following description of the Raymond Handling Solutions, Inc. Savings & Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

### General

The Plan is a prototype defined contribution 401(k) salary reduction and profit share plan. Substantially all employees of Raymond Handling Solutions, Inc. ("the Company") are eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. Employees of the Company are eligible to participate in the salary deferral and employer matching portions of the Plan upon reaching age 21 and after completing 90 days of service. Participants who have attained 21 years of age, completed 90 days of service and are employed on the last day of the plan year are eligible to receive an allocation of employer profit sharing contributions.

### Administration

The Plan is administered by The Raymond Corporation, the parent company of Raymond Handling Solutions, Inc.

### Contributions

Participants may elect to contribute up to 50% of eligible compensation, not to exceed the limits of the Internal Revenue Code (the IRC). Participants direct the investment of their contributions into various investment options offered by the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Company may make matching and/or profit sharing contributions as determined each year by resolution of the Company's Board of Directors. For the year ended December 31, 2010, the Company matched 25% of the participant's deferral, up to the first five percent of compensation. For the year ended December 31, 2010, the Company made no discretionary profit sharing contributions.

1. DESCRIPTION OF PLAN - (Continued)

Participant Accounts

Each participant's account is credited with the participant's contributions, employer matching contributions and allocations of the Company's profit sharing contributions, Plan earnings and forfeitures (if applicable). Allocations are based on participant's eligible compensation, participant contributions, investment elections and/or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account or an annuity. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Participants may also elect to rollover their account to another tax deferred account or remain in the Plan until they are legally required to begin taking distributions. All vested account balances not exceeding $1,000 may be immediately distributed in a lump-sum payment. All vested account balances exceeding $1,000, but not exceeding $5,000, will be rolled into a Merrill Lynch Individual Retirement Rollover Account. With the plan administrator's approval, participants may withdraw all or part of their aggregate contributions in the event of financial hardship.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching contributions plus actual earnings thereon, is based on years of service according to the following schedule:

| Years of Service | Vested Percentage |
|---|---|
| Less than 2 | 0% |
| Greater than 2 | 100% |

Vesting in the Company's profit sharing contributions, plus actual earnings thereon, is based on years of service according to the following schedule:

| Years of Service | Vested Percentage |
|---|---|
| Less than 3 | 0% |
| Greater than 3 | 100% |

1. DESCRIPTION OF PLAN - (Continued)

Forfeitures

The unvested portion of a terminated participant's account will be forfeited and used first to reduce future Company contributions, then to pay Plan expenses. Any forfeitures remaining will be allocated to eligible participants. As of December 31, 2010 and 2009, the amount of available forfeitures totaled $3,284 and $1,892, respectively.

Notes Receivable from Participants

Participants may borrow from their deferral and employer matching fund accounts a maximum amount equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from 1 to 5 years or within a reasonable period of time that is longer than 5 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a designated rate. The interest rate is determined annually by the Company's Board of Directors. Principal and interest is paid ratably through payroll deductions.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Effective with the Trustee's October 6, 2010 approval of a resolution to terminate the Retirement Preservation Trust (the Trust) and commence liquidation of its assets, this investment option changed from a stable value fund to a short term bond fund. For the period from January 1, 2009 through October 6, 2010, investments held by the Trust were reported at contract value. As described in guidance issued by the Financial Accounting Standards Board (the FASB) for reporting of fully benefit-responsive investment contracts held by certain investment companies, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value was the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value was the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by the guidance, the 2009 statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. In 2010, the most significant change was the elimination of the Trust's wrap contracts and the change from contract value to fair value accounting as the investment option was no longer a fully benefit-responsive investment contract.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the period.

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus accrued interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan agreement.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses and Plan Fees

Administrative expenses and plan fees are generally paid by the Company, unless paid by the Plan.

Subsequent Events

The Company has evaluated subsequent events through the date of the independent auditors' report, which is the date the accompanying financial statements were available to be issued.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

New Accounting Pronouncements

In January 2010, the FASB issued guidance which expanded the required disclosures about fair value measurements. In particular, this guidance requires (i) separate disclosure of the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements along with the reasons for such transfers, (ii) information about purchases, sales, issuances and settlements to be presented separately in the reconciliation for Level 3 fair value measurements, (iii) fair value measurement disclosures for each class of assets and liabilities and (iv) disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements for fair value measurements that fall in either Level 2 or Level 3. This guidance is effective for annual reporting periods beginning after December 15, 2009 except for (ii) above which is effective for fiscal years beginning after December 15, 2010. The partial adoption of this guidance did not have a material effect on the Plan's net assets available for benefits, changes in net assets available for benefits or related disclosures.

In September 2010, the FASB issued guidance which requires participant loans to be measured at their unpaid principal balance plus any accrued but unpaid interest and to be classified as notes receivable from participants. Previously, loans were measured at fair value and classified as investments. This guidance is effective for fiscal years ending after December 15, 2010 and is required to be applied retrospectively. The adoption of this guidance did not have a material effect on the Plan's net assets available for benefits or the changes in net assets available for benefits. Participant loans have been reclassified to notes receivable from participants as of December 31, 2009.

In May 2011, the FASB issued Accounting Standards Update 2011-04, Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in US GAAP and International Financial Reporting Standards (Topic 820) – Fair Value Measurement ("ASU 2011-04"), to provide a consistent definition of fair value and ensure that the fair value measurement and disclosure requirements are similar between US GAAP and International Financial Reporting Standards. ASU 2011-04 changes certain fair value measurement principles and enhances the disclosure requirements, particularly for Level 3 fair value measurements. ASU 2011-04 is effective prospectively for the year ending December 31, 2012. The adoption of this guidance is not expected to have a material effect on the Plan's net assets available for benefits.

## 3. PARTY-IN-INTEREST TRANSACTIONS

The Plan allows for transactions with certain parties who may perform services or have fiduciary responsibilities to the Plan. Certain Plan investments are managed by Bank of America, N.A. Merrill Lynch (BofA), the trustee and record-keeper of the Plan. The Plan paid $2,540 in distribution and loan administration fees to BofA during 2010. The Plan issues loans to participants, which are secured by the balances in the participants' accounts. The Company paid certain administrative expenses of the Plan, including recordkeeping and audit fees. These transactions qualify as party in interest transactions for which a statutory exemption exists.

## 4. FAIR VALUE MEASUREMENTS

FASB Accounting Standards Codification (ASC) 820 provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

4. FAIR VALUE MEASUREMENTS - (Continued)

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

*Registered investment companies:* These investments are public investment vehicles valued using the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and classified within level 1 of the valuation hierarchy. However, the NAV of the Invesco International Growth Fund is based upon the market value of the underlying investments and certain unobservable inputs and is classified within level 2 of the valuation hierarchy.

*Common/collective trust (CCT):* Assets held by the CCTs are valued based upon the nature of the investments. Short-term fixed income investments are stated at amortized cost, which approximates market value. Investments in regulated investment companies are valued at the net asset value per share/unit on the valuation date. Debt securities are valued on the basis of valuations furnished by a pricing service approved by the Trustee, which determines valuations using methods based on market transactions for comparable securities and various relationships between securities which are generally recognized by institutional traders. The common/collective trusts are classified within level 2 of the valuation hierarchy.

*Interest-bearing cash*: Interest-bearing cash consists of money market investments and cash balances held at financial institutions. The carrying value is believed to be representative of its fair value based on its short term nature and is classified within level 1 of the valuation hierarchy.

4. FAIR VALUE MEASUREMENTS - (Continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

| Description | Total | Level 1 | Level 2 | Level 3 |
|---|---|---|---|---|
| December 31, 2010 | | | | |

| Total investments at fair value | $ 4,865,592 | $ 4,111,955 | $ 753,637 | $ - |

There were no transfers between Levels 1, 2 and 3 during the year ended December 31, 2010.

5. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to terminate or amend the Plan at any time, subject to the provisions of ERISA. In the event of Plan termination, participants become 100% vested in their accounts.

6. TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the trustee by a letter dated March 31, 2008 that the prototype plan, used by the Plan, is tax-exempt under the appropriate sections of the Internal Revenue Code (IRC). The Plan sponsor and the Plan's legal counsel believe that the Plan is currently designed and operated in accordance with the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010 and 2009, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

7. INVESTMENTS

The following table presents investments that represent 5% or more of the Plan's net assets as of December 31, 2010 and 2009:

| | 2010 |
|---|---|
| PIMCO Total Return Portfolio Fund | $ 1,371,164 |
| BlackRock Basic Value Fund | 782,215 |
| BlackRock Small Cap Index Fund | 640,801 |

| American Growth Fund of America Fund | 412,680 |
| Dodge & Cox International Stock Fund | 307,857 |
| Perkins Mid Cap Value Investment Shares Fund | 261,620 |

During 2010, the Plan's investments (including investments bought, sold and held during the year) appreciated in value by $500,024 as follows:

| | |
|---|---|
| Registered investment companies | $ 472,498 |
| Common/collective trusts | 27,526 |
| | $ 500,024 |

8. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

9. INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, BofA, the trustee of the Plan, has certified to the completeness and accuracy of the following information which is included in the financial statements and supplemental schedule as of December 31, 2010 and 2009, and for the year ended December 31, 2010.

9. INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE – (Continued)

| | 2010 | 2009 |
|---|---|---|
| Registered investment companies | $ 4,874,918 | $ 4,111,955 |
| Common/collective trusts | 772,714 | 797,385 |
| Interest-bearing cash | 5,089 | - |

| Dividend income | 151,101 | n/a |
| Interest income on notes receivable from participants | 17,461 | n/a |

10. INVESTMENT CONTRACT WITH BANK

From January 1, 2009 through October 6, 2010, the Plan held assets in a benefit-responsive investment contract with BofA. Prior to the termination of the wrap contracts, the Trust invested in traditional guaranteed investment contracts (GICs) and wrapped portfolios of fixed income investments (synthetic GICs). Collectively, these investments are referred to as investment contracts. BofA maintained the contributions to the investment contracts in a general account. The account was credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer was contractually obligated to repay the principal and a specified interest rate that was guaranteed to the Plan.

As described in Note 2, because the investment contract was fully benefit-responsive, contract value was the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by BofA, represented contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There were no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate was based on a formula agreed upon with the issuer, but it could not be less than 0%. Such interest rates were reviewed on a monthly or quarterly basis for resetting.

10. INVESTMENT CONTRACT WITH BANK - (Continued)

Certain events limited the ability of the Plan to transact at contract value with the issuer. Such events included the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Company or other Company events that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from Federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator did not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, was probable.

The Declaration of Trust which established the Trust may be amended or terminated by the Trustee at its sole discretion. As noted in Note 2, effective October 6, 2010, the Trustee approved a Resolution to terminate the Trust and commence liquidation of its assets.

| *Average yields*: | 2010 | 2009 |
|---|---|---|
| Based on actual earnings | 1.89% | 2.35% |
| Based on interest rate credited to participants | 1.44% | 2.35% |

11. SUBSEQUENT EVENT

Effective February 14, 2011, the custodian discontinued the Retirement Preservation Trust as an investment option and replaced it with the Wells Fargo Stable Value Return Fund. An automatic transfer of assets for those participants holding investments in the Retirement Preservation Trust occurred on February 14, 2011. Certain restrictions were imposed on the transfer of assets from the Retirement Preservation Fund to other competing investments, however, participants were notified of such restrictions prior to the discontinuance date.
