Plan Administrator and Board of Trustees
The Morey Corporation 401(k) Profit-Sharing Plan
Woodridge, Illinois

We were engaged to audit the financial statements of The Morey Corporation 401(k) Profit-Sharing Plan (the Plan) as of and for the years ended December 31, 2010 and 2009 and the supplemental schedule as of December 31, 2010 as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the Plan Administrator instructed us not to perform and we did not perform, any auditing procedures with respect to the information summarized in Note 3 which was certified by ING Life Insurance and Annuity Company (the Custodian), except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the Custodian holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained certification from the Custodian as of December 31, 2010 and 2009 and for the years then ended that the information provided to the Plan Administrator by the Custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the Custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

THE MOREY CORPORATION
401(k) PROFIT-SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

1. Description of the Plan

The following description of The Morey Corporation 401(k) Profit-Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General:

The Plan is a defined-contribution plan maintained on a calendar year basis.

Any employee of The Morey Corporation (the Company) who is a citizen or resident of the United States of America, has attained 18 years of age, has completed three months of service and works a minimum of 83 hours per month is eligible to participate. Eligible employees can enter the Plan quarterly, following the date eligibility requirements are met. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions:

Contributions to the Plan may include employee deferral contributions, employee rollover contributions, employer matching contributions and employer discretionary profit-sharing contributions.

The employer discretionary contributions are allocated to each participant's account based upon permitted disparity (Social Security integration) rules. This provision allows additional contributions to be made for participants earning greater than the Social Security taxable wage base. Such additional contributions are designed to offset the lower contributions made to Social Security on behalf of affected employees. Contributions are limited to an amount equal to the maximum amount deductible by the Company for purposes of federal income taxes.

The employer matching contribution percentage for a Plan year is discretionary and is determined in December of the previous year. In March 2009, the Company suspended the discretionary match. The discretionary match was reinstated in October 2010. During the months in which the discretionary match was in effect, the Company contributed: an amount equal to 100% of each eligible employee's deferrals up to 3% of compensation; an amount equal to 50% of each eligible employee's deferrals on the next 1% of compensation; and an amount equal to 25% of each eligible employee's deferrals on the next 2% of compensation contributed. Maximum employer matching contribution is 4% of each eligible employee's compensation.

1. Description of the Plan (continued)

Contributions: (continued)

Employee deferral contributions cannot be less than 2% or more than 93% of the participant's earnings for the year. For allocation purposes, a participant's earnings consist of total cash compensation including overtime pay and excluding bonuses and commissions in a Plan year. Deferral contributions by a participant cannot exceed $16,500 for 2010 and 2009. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Total contributions, after catch-up, cannot exceed $22,000 for 2010 and 2009.

Total contributions per participant are limited under present Internal Revenue Code sections to the lesser of $49,000 for 2010 and 2009 or 100% of compensation (not to exceed $245,000 during 2010 and 2009).

Participant accounts:

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings and may be charged with an allocation of administrative expenses. Allocations are based on the participant's earnings or account balances, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants self-direct their contributions and their share of the Company's contribution among the investment options described in Note 3.

Vesting:

Participants are always 100% vested in their employee deferral contributions, employee rollover contributions and earnings thereon. Participants are also fully vested if their employment with the Company terminates after age 59-1/2 with five years of service while a participant or for reasons due to death or disability.

1. Description of the Plan (continued)

Vesting: (continued)

Participants vest in their employer matching contributions and their profit-sharing accounts (allocations of the employer discretionary contributions) and earnings thereon in accordance with the following table:

Completed years of service	Percentage of account balance vested
Less than 1	0%
1 but less than 2	0%
2 but less than 3	20%
3 but less than 4	40%
4 but less than 5	60%
5 but less than 6	80%
6 or more	100%

Participant loans:

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at the prime rate plus 1%. Principal and interest is paid ratably through payroll deductions.

Payment of benefits:

Benefit payments are generally paid in a lump sum as soon as practicable after employment with the Company has ended. Participants who are not 5% owners may elect to defer commencement of distributions until the later of April 1st of the calendar year following the calendar year in which the participant attains age 70-1/2 or April 1st of the calendar year following the calendar year in which the participant retires. Participants who terminate employment with account balances greater than $5,000 may elect to leave their account balances in the Plan. Until such time as the funds are distributed, the participant is entitled to receive a pro-rata share of fund earnings. Benefits may also be paid directly to an eligible retirement plan as an eligible rollover distribution.

1. Description of the Plan (continued)

Forfeited accounts:

At December 31, 2010 and 2009, forfeited nonvested accounts totaled $78,972 and $57,802, respectively. These accounts will be used to pay administrative expenses and to reduce future employer contributions. The amounts used from forfeited nonvested accounts to pay administrative expenses were $9,755 and $6,935 for 2010 and 2009, respectively.

2. Summary of significant accounting policies

Significant accounting policies are described below and have been consistently applied.

Basis of accounting:

The accompanying financial statements are prepared on the accrual basis of accounting.

Investment valuation and income recognition:

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. Shares of mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year-end.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of benefits:

Benefits are recorded when paid.

2. Summary of significant accounting policies (continued)

Notes receivable from participants:

As described in Note 1, the Plan allows participants to borrow against their vested account balance and the loans are secured by the participant's account balance. Participant loans are valued at their unpaid principal balances plus any accrued but unpaid interest. The Plan is required to review the collectability of the outstanding loan balances and record an allowance for loans considered to be uncollectible. As of December 31, 2010 and 2009, no allowance for uncollectible loans was necessary.

Administrative expenses:

All administrative costs, charges and expenses are paid by the Plan to the extent not paid by the Company.

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets available for benefits during the reporting period. Accordingly, actual results could differ from those estimates.

Adoption of new accounting standard:

In September 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (the Update) No. 2010-25, Plan Accounting – Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Plans. The objective of the Update was to clarify how loans to participants should be classified and measured by defined-contribution pension benefit plans. Participant loans were previously treated as investments under the Plan and were to be presented at fair value. The Update requires that participant loans be classified as notes receivable from participants, which are segregated from Plan investments and are no longer subject to fair value measurement, however are measured at their unpaid principal balance plus any accrued but unpaid interest. This Update was effective for fiscal years ending after December 15, 2010, was adopted by the Plan during the Plan year ended December 31, 2010 and retrospectively applied to the Plan year ended December 31, 2009. The Update relates to the reclassification of participant loans on the statement of net assets available for benefits and there was no effect on the beginning net assets available for benefits or other components of net assets available for benefits and no effect on the current year additions to or deductions from net assets available for benefits.

3. Investments (information prepared and certified by Custodian) (continued)

The Custodian also certified to the completeness and accuracy of the interest and dividends and net appreciation in fair value of investments.

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Custodian of the Plan has certified to the completeness and accuracy of investments included in net assets available for benefits as of December 31, 2010 and 2009, the schedule of assets (held at end of year) as of December 31, 2010 and related investment activity reflected in the statement of changes in net assets available for benefits for the years ended December 31, 2010 and 2009.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements.

4. Fair value measurements

Financial Accounting Standards Board Accounting Standards Codification 820 (FASB ASC 820) *Fair Value Measurements and Disclosures* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

4. Fair value measurements (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual funds:	Valued at the net asset value (NAV) of shares held by the Plan at year-end.
Guaranteed investment contract:	Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer (see Note 5).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan Administrator believes that the Plan's valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. Fair value measurements (continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009.

Assets at fair value as of December 31, 2010:

	Level 1	Level 3	Total
Mutual funds:			
Asset allocation funds	**$ 463,297**		**$ 463,297**
Balanced funds	**1,732,551**		**1,732,551**

Total assets at fair value	**$ 11,746,451**	**$ 3,681,031**	**$ 15,427,482**

Assets at fair value as of December 31, 2009:

	Level 1	Level 3	Total
Mutual funds:			
Asset allocation funds	$ 553,533		$ 553,533
Balanced funds	1,409,077		1,409,077
Bond funds	1,051,143		1,051,143
Domestic equity funds	5,762,113		5,762,113
International equity funds	785,099		785,099
Money market funds	408,194		408,194
Guaranteed investment contract		$ 3,001,347	3,001,347
Total assets at fair value	$ 9,969,159	$ 3,001,347	$ 12,970,506

4. Fair value measurements (continued)

Level 3 gains and losses:

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 asset for the year ended December 31, 2010:

	Guaranteed investment contract
Balance, beginning of year	**$ 3,001,347**
Purchases, sales, issuances and settlements, net	**679,684**
Balance, end of year	**$ 3,681,031**

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 asset for the year ended December 31, 2009:

	Guaranteed investment contract
Balance, beginning of year	$ 3,405,703
Purchases, sales, issuances and settlements, net	(404,356)
Balance, end of year	$ 3,001,347

5. Investment contract with insurance company

The Plan has entered into a benefit-responsive investment contract with ING Life Insurance and Annuity Company (ING). ING maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by ING. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2010 and 2009 was $3,681,031 and $3,001,347, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 3.00%. Such interest rates are reviewed on a yearly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: amendments to the Plan documents (including complete or partial Plan termination or merger with another plan); changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan; or the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average yields:	**2010**	2009
Based on actual earnings	**3.25%**	3.25%
Based on interest rate credited to participants	**3.00%**	3.00%

6. Party-in-interest transactions

Some of the Plan investments are shares of mutual funds managed by the Custodian and, therefore, these transactions qualify as party-in-interest transactions.

7. Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in all of their account balances.

8. Tax status

The Internal Revenue Service has determined and informed the Company by a letter dated July 20, 1995, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code. The Plan has been amended since then and a favorable determination letter dated March 31, 2008, has been received applicable to the amendments.

9. Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

10. Subsequent events

The Plan Administrator has reviewed and evaluated subsequent events from December 31, 2010, the financial statement date, through September 20, 2011, the date the financial statements were available to be issued. No events have occurred in this period that would be required to be recognized and/or disclosed in these financial statements as required by generally accepted accounting principles.
