INDEPENDENT AUDITORS' REPORT

To the Participants and Administrator
Coastal Construction Group 401(k) Plan
Miami, Florida

We were engaged to audit the accompanying statements of net assets available for benefits of Coastal Construction Group 401(K) Plan as of December 31, 2010 and 2009, and the related statements of changes in net assets available for benefits for the years then ended, and the supplemental schedule of assets (held at end of year) as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Principal Life Insurance Company ("Principal), the custodian of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the custodian as of and for the years ended December 31, 2010 and 2009, that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with U.S. generally accepted auditing standards and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

COASTAL CONSTRUCTION GROUP 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

(1) Description of plan

The following description of Coastal Construction Group 401(K) Plan (the "Plan"), provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General - The Plan is a 401(k) savings plan covering all eligible employees of Coastal Construction Group ("Coastal") and (collectively the "Company"/"Employer"), who have attained the age of 21 and have completed six months of service.

Contributions - Contributions to the Plan consist of the following:

Employer Safe Harbor Match Contributions
The company contributes 100% of the first 1% participants contributed to the plan and 50% of the next 5% participants contributed to the plan.

Employee Salary Deferrals
Participates are automatically enrolled to contribute 3%, unless they elect to opt out. Participants may make voluntary contributions to the Plan up to the lesser of 100% of annual compensation or the maximum allowable annual deferral established by the Internal Revenue Service. In addition, participants may contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Contributions are subject to certain limitations imposed by the Internal Revenue Code.

Participant investment account options - Upon enrollment in the Plan, a participant may direct contributions into any of the several investment options offered through the Plan's investment contract with Principal Life Insurance Company ("Principal"). Each investment option has its own investment strategy, which can be obtained through the prospectus of the respective fund. Participants may change their investment options at their discretion.

Participant accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, (b) plan earnings, and (c) forfeitures, and is charged with Plan administrative expenses and applicable loan and disbursement processing fees. Allocations are based on either participant's compensation or account balance as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their contributions plus earnings thereon. Starting January 1, 2008, participants are vested in the safe harbor contributions made by the Company after two years of service. Prior to January 1, 2008, employer contributions are subject to the following vesting schedule:

Years of Service	Vested %
1	0%
2	25%
3	50%
4	75%
5	100%

(1) Description of plan (continued)

Notes receivable from participants - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance on the date of the loan, whichever is less. Loan terms cannot extend beyond five years from the date of the loan. The loans are secured by the vested portion of the participant's account, and bear interest at 3%. Principal and interest is paid ratably through payroll deductions and maturity dates range through March 2016.

Payment of benefits - Participants are allowed in service withdrawals of their separate accounts attributable to rollover contributions, upon attainment of retirement age or in the event of a financial hardship. Upon termination of service due to death, disability or retirement, participants or their designated beneficiary may elect to receive a lump-sum payment equal to the value of their vested account balance, monthly annuity payments or a combination of both.

Forfeited accounts - At December 31, 2010 and 2009, forfeited non-vested accounts totaled approximately $26,000 and $53,000, respectively. The fund is first used to reduce the Plan's ordinary and necessary administrative expenses, and the remaining amounts are reallocated to participants. In 2010 and 2009, Plan expenses were reduced by approximately $2,000 and $1,500, respectively, from forfeited non-vested accounts. The remaining balances are reallocated among participants.

(2) Summary of accounting policies

Basis of accounting - The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits presents fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value, if applicable. The statements of changes in net assets available for benefits are prepared on a contract value basis.

Use of estimates - The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

(2) Summary of accounting policies (continued)

New accounting pronouncements - The following new accounting pronouncements were adopted during the year ended December 31, 2010:

Fair Value Disclosures - In January 2010, the Financial Accounting Standards Board ("FASB") issued guidance which expanded the required disclosures about fair value measurements. In particular, this guidance requires (i) separate disclosure of the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements along with the reasons for such transfers, (ii) information about purchases, sales, issuances and settlements to be presented separately in the reconciliation for Level 3 fair value measurements, (iii) fair value measurement disclosures for each class of assets and liabilities, and (iv) disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements that fall in either Level 2 or Level 3. This guidance is effective for annual reporting periods beginning after December 15, 2009 except for (ii) above which is effective for fiscal years beginning after December 15, 2010. Net assets available for benefits and changes in net assets available for benefits of the Plan were not affected by the adoption of the new guidance.

Notes Receivable from Participants - In September 2010, the FASB issued guidance clarifying the classification and measurement of participant loans by defined contribution pension plans. Participant loans are required to be classified as notes receivable from participants (rather than investments) and measured at their unpaid principal balance, plus any accrued but unpaid interest. The guidance, which must be applied retrospectively, is effective for fiscal years ending after December 15, 2010 with early adoption permitted. The Plan adopted this guidance in its December 31, 2010 financial statements and has reclassified participant loans at December 31, 2009 from investments to notes receivable from participants. Additionally, interest income on notes receivable from participants has been reclassified from interest income for the year ended December 31, 2009. Net assets available for benefits of the Plan were not affected by the adoption of the new guidance.

Investment valuation and income recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussions of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year. Brokerage fees are added to the acquisition costs of assets purchased and subtracted from the proceeds of assets sold.

Payment of benefits - Benefits are recorded when paid.

Administrative expenses - Certain expenses of the Plan are paid by the Company and are not included in the statements of changes in net assets available for benefits.

(3) Investments

The following table presents investments that represent 5% or more of the Plan's net assets:

	December 31, 2010	December 31, 2009
Money Market Fund	$ 966,116	$ 944,696
LifeTime 2020	587,861	562,756

LargeCap Blend I	430,842	374,468
International Emerging Mkt	* N/A	361,761

* Not applicable, amount below five percent

During 2010 and 2009, the Plan's investment (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

	December 31, 2010	December 31, 2009
Pooled separate accounts	$ 826,170	$ 818,923
Guaranteed interest accounts	(2,116)	(6,744)
	$ 824,054	812,179

(4) Custodian's certification

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Principal, the custodian of the Plan, has certified that the following data included in the accompanying 2010 and 2009 financial statements and supplemental schedule is complete and accurate:

- Investments at fair value
- Notes receivable from participants
- Net appreciation in fair value of investments
- Interest and dividends
- Interest income on notes receivable from participants
- Schedule of assets (held at end of year)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

(5) Fair value measurements

FASB Accounting Standards Codification ("ASC") 820, (formerly SFAS No. 157*), Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Guaranteed interest accounts: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer. The guaranteed interest account promises contract value for a benefit event (termination, death, disability and retirement); however, there is a possible market value adjustment when funds are withdrawn prior to maturity. Therefore, the guaranteed interest account is not considered benefit-responsive and is valued at estimated fair value as determined by Principal Life Insurance Company. The crediting interest rates ranged from .067% to 4.18% and 1.19% to 4.18% for the years ended December 31, 2010 and 2009, respectively. For the years ended December 31, 2010 and 2009, the average net return for the guaranteed interest account was 2.16% and 2.34%, respectively.

Pooled Separate accounts: Valued at the underlying investments held in the separate account as determined by Principal Life using U.S. generally accepted accounting practices and applicable law.

(5) Fair value measurements (continued)

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2010.

Balance, end of year	$ 756,276	$ 322,569	$ 1,078,845

Gains and losses (realized and unrealized) included in the changes in net assets for the periods above are reported in net appreciation in fair value of investments in the statements of changes in net assets available for benefits.

(6) Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their account balances.

(7) Tax status

The Internal Revenue Service has determined that the prototype 401(k) profit sharing plan is designed in accordance with applicable sections of the Internal Revenue Code (the "IRC") and informed (trustee/custodian) of such in a letter dated March 31, 2008. The plan administrative committee/plan administrator has adopted the prototype plan and believes that the Plan is currently being operated in compliance with the applicable requirements of the IRC.

(7) Tax status (continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

(8) Parties-in-interest transactions

Certain Plan investments are managed by Principal, who is the custodian of the Plan, and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to Principal for the investment management and recordkeeping services amounted to $18,936 and $12,616 for the years ended December 31, 2010 and 2009, respectively.

(9) Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

In 2008, due to the state of the real estate market, Principal Life Insurance Company took action to protect participants' interests in the Principal U.S. Property Separate Account ("Separate Account"). Effective September 26, 2008, Principal implemented a pre-existing contractual limitation in the group annuity contract to delay payment of most requests for withdrawal from the Separate Account. This allowed Principal to manage the Separate Account and satisfy withdrawal requests over time and fairly among all those who request a withdrawal.

The withdrawal requests will be honored proportionately as sufficient cash becomes available for distribution, in accordance with the terms of the group annuity contract. Death and disability benefits are not affected by this limitation and will be processed as usual. Transfers and contributions into this Separate Account are also being accepted as usual.

This limitation applies only to U.S. Property Separate Account and does not apply to other retirement plan separate accounts or Principal Funds.

(9) Risks and uncertainties (continued)

As of November 5, 2009, participants became able to view their pending U.S. Property transactions via the participant website, as well as cancel pending investment transfer or rebalance requests from the U.S. Property account. A list of all pending activity related to the U.S Property account for a specific retirement plan can be obtained from the Plan's Client Service Associate/Manager upon request. As of October 21, 2010, 3:00 p.m., all pending requests for withdrawals effective prior to that date have been fully satisfied. However, the limitation for withdrawal still remains for future requests.

(10) Subsequent events

The Plan has evaluated subsequent events through September 13, 2011, which is the date the financial statements were available to be issued. No significant matters were identified for disclosure during this evaluation.
