NOTES TO FINANCIAL STATEMENTS

(1) DESCRIPTION OF THE PLAN

The following description of First Choice Medical Supply, LLC 401(k) Plan (hereafter referred to as the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of First Choice Medical Supply, LLC (hereafter referred to as the "Company") who are twenty-one years of age and have completed one year of service. An employee may begin participation in the Plan on the first day of the quarter following the date on which the employee meets the requirements for eligibility. The Company's board of managers and the Plan administrator control and manage the operation and administration of the Plan. Capital Bank and Trust Company serves as the trustee of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may contribute up to 15 percent of their pretax annual salary, limited to $16,500 for 2010, as adjusted annually by the Secretary of the Treasury. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Additionally, participants age 50 and older can elect to make additional catch-up deferrals (limited to $5,500 for 2010). The Company matches an amount equal to 50 percent of up to 4 percent of each participant's deferral contribution.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution and Plan earnings. Allocations are based on participant earnings or account balances, as defined. Forfeited balances of terminated participant's nonvested accounts are used to reduce employer contributions for the year. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching contribution portion of their accounts plus actual earnings thereon is as follows:

All costs of plan administration are paid by the Company.

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Any unrealized appreciation or depreciation in fair value of investments for the year is reflected in the statement of changes in net assets available for benefits. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Risks and Uncertainties

The Plan invests primarily in various types of mutual fund investments. Mutual funds are exposed to various risks, such as interest rate and market risks. Due to the level of risk associated with certain mutual funds, it is at least reasonably possible that changes in the values of these mutual fund investments will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

The Plan invests in mutual funds which may include investments in securities with contractual cash flows, such as asset backed securities, collateralized mortgage obligations and commercial mortgage backed securities, including securities backed by subprime mortgage loans. The value, liquidity and related income of these securities are sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Subsequent Events

Subsequent events were evaluated by the Plan through September 21, 2011, which is the date the financial statements were available to be issued.

(3) INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE

Pursuant to the provisions of 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan's independent accountants did not perform any auditing procedures with respect to the information certified by the Capital Bank and Trust Company, the trustee, except for comparing the information to the related financial statements and supplemental schedule. All information included in the financial statements and the accompanying notes and supplemental schedule relating to investments and appreciation and depreciation of investments was obtained from the trustee's certification and is unaudited.

The following table presents the fair values of participant directed investments. Investments that represent 5 percent or more of the Plan's net assets are separately identified.

Investments at fair value	
The Growth Fund of America	$ 20,878
Europacific Growth Fund	17,416
American Funds 2025 Target Date Fund	24,014
American Funds 2030 Target Date Fund	50,023
American Funds 2035 Target Date Fund	41,122
American Funds 2040 Target Date Fund	20,979
Other mutual funds certified by Capital Bank and Trust Company	72,207
	$ 246,639

During 2010, the Plan's participant directed investments in mutual funds for which fair value was determined by quoted market price (including investments bought, sold and held during the year) appreciated in value in the amount of $17,349.

(4) FAIR VALUE MEASUREMENTS

Accounting Standards Codification Topic 820, *Fair Value Measurements,* (formerly FASB Statement No. 157) establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurement). The three levels of the fair value hierarchy are described as follows:

- Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

(4) FAIR VALUE MEASUREMENTS - Continued

- Level 2 - Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets at fair value.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

The preceding methods may produce a fair value calculation that may not be indicative of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010.

Assets at Fair Value as of December 31, 2010

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 246,639	$ -	$ -	$ 246,639
Total investments at fair value	$ 246,639	$ -	$ -	$ 246,639

(5) INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan administrator and the Plan's tax counsel believe that the plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan recognizes interest and penalties, if any, related to unrecognized tax benefits as a component of income tax expense. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
