INDEPENDENT AUDITORS' REPORT

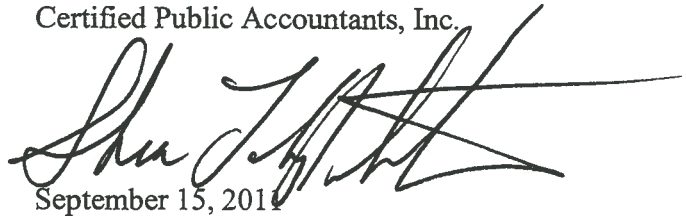

TO THE PLAN ADMINISTRATOR AND PARTICIPANTS
OF RIVERBED TECHNOLOGY, INC. 401(k) PLAN

We were engaged to audit the accompanying statements of net assets available for benefits of the RIVERBED TECHNOLOGY, INC. 401(k) PLAN (the "Plan") as of December 31, 2010 and 2009 and the related statement of changes in net assets available for benefits for the year ended December 31, 2010 and the supplemental Schedule H – Line 4i: Schedule of Assets (Held at End of Year) as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4 which was certified by Standard Insurance Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of December 31, 2010 and 2009 for the year ended December 31, 2010, that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

RIVERBED TECHNOLOGY, INC. 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2010

NOTE 1 – DESCRIPTION OF THE PLAN

The following description of the Riverbed Technology, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan was established on January 1, 2003 to provide retirement benefits for the employees of Riverbed Technology, Inc. (the "Company"). The Plan is a defined contribution plan covering all employees meeting certain eligibility criteria who have attained twenty-one years of age. Employees are eligible to participate if they are not nonresident aliens, interns, or part-time, temporary or seasonal employees. The Plan is subject to the provisions of ERISA and certain provisions of the Internal Revenue Code ("IRC").

The Plan provides for a plan administrator who is responsible for keeping accurate and complete records with regard to the Plan's operations, informing participants of changes or amendments to the Plan, ensuring that the Plan conforms to the law and to government regulations, and providing participants with any reports and documents required by law.

In August 2010, the Plan was amended to allow discretionary employer match contributions.

Participant Contributions – Participants may elect to contribute up to 100% of their pretax annual eligible compensation, as defined in the Plan agreement, limited to $16,500 of pretax compensation for 2010. Any participant age 50 or older may defer up to an additional $5,500 into the Plan for the year ended December 31, 2010. Participants are also allowed to roll over contributions from other qualified employer-sponsored retirement plans and individual retirement accounts.

Employer Contributions – The Company may make discretionary matching or profit sharing contributions. For the year ended December 31, 2010, the Company made matching contributions equal to 50% of each participant's pretax contribution, up to a maximum of 4% of each participant's pretax contribution per payroll period, subject to the limitations each quarter and the annual limitation.

Participant Accounts – The Plan maintains an account for each participant which is credited with the participant's contributions and allocations of (a) the Company's contributions, if any, and (b) Plan investment earnings or losses. Allocations are based on participant earnings or account balances, as defined by the Plan agreement. The benefit to which a participant is entitled is the benefit that may be provided from the participant's vested account.

NOTE 1 – DESCRIPTION OF THE PLAN (Continued)

Vesting – Participants are immediately vested in 100% of their voluntary contributions as well as 100% of employer contributions, plus actual earnings thereon.

Investment Options – Participants are allowed to direct the investment of their account balance into the various investments offered through the Plan.

Notes Receivable from Participants – Participants may borrow from their vested account balances provided they meet the Plan's eligibility requirements. The minimum loan amount is $1,000 and the maximum amount is the lesser of one-half of the participant's vested account balance or $50,000. The duration of the loan is not to exceed five years, except for loans used to finance the purchase of a primary residence, in which case repayment must be made within ten years. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing lending rates, as determined by the Plan administrator. Principal and interest are paid ratably through payroll deductions. At December 31, 2010, interest rates ranged from 3.25% to 8.00%.

Payment of Benefits – Upon termination of service, upon attainment of age 59½, death, disability, or retirement, a participant may receive a lump-sum distribution or a direct rollover distribution into another qualified plan. A participant may also be eligible for a withdrawal due to financial hardship in certain circumstances. Minimum required distributions must be made by April 1 of the calendar year following the year the participant reaches age 70½. At the time of retirement or termination of employment, if a participant's account balance is in excess of $5,000, the participant may delay the receipt of distributions. If a terminated participant's balance is between $1,000 and $5,000 and no instructions have been received from such participant, the amount will be rolled over to an individual retirement account, as designated by the plan administrator. A balance less than $1,000 will be distributed directly to the participant as a lump-sum payment.

Administrative Expenses – The Company has elected to fund substantially all administrative costs other than those associated with certain participant-directed transactions, such as participant loan fees.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The Plan's financial statements are prepared under the accrual basis of accounting, in conformity with accounting principles generally accepted in the United States of America.

Adoption of New Accounting Standards – In January 2010, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2010-06, *Improving Disclosures about Fair Value Measurements*. ASU 2010-06 amended Accounting Standards Codification 820, *Fair Value Measurements and Disclosures* ("ASC 820"), to clarify certain existing fair value disclosures and to require a number of additional disclosures. The guidance in ASU 2010-06 clarified that disclosures should be presented separately for each "class" of assets and liabilities measured at fair value and provided guidance on how to determine the appropriate classes of assets and liabilities to be presented. ASU 2010-06 also clarified the requirement for entities to disclose information about both the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements. In addition, ASU 2010-06 introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2, and 3 of the fair value hierarchy and to present information regarding the purchases, sales, issuances, and settlements of Level 3 assets and liabilities on a gross basis. With the exception of the requirement to present changes in Level 3 measurements on a gross basis, which is delayed until 2011, the guidance in ASU 2010-06 is effective for reporting periods beginning after December 15, 2009. The Plan adopted ASU 2010-06 for the plan year ending December 31, 2010, and the adoption does not have a material impact on the Plan's net assets available for benefits or its changes in net assets available for benefits, as changes are related to the fair value measurement disclosures.

In September 2010, the FASB issued ASU No. 2010-25, *Reporting Loans to Participants by Defined Contribution Pension Plans*. ASU No. 2010-25 requires participant loans to be classified as notes receivable from participants and measured at their unpaid principal balances plus any accrued but unpaid interest. ASU No. 2010-25 is effective for years ending after December 15, 2010, with early adoption permitted. Previously, loans to participant were classified as investments and measured at fair value. The Plan adopted ASU 2010-25 for the year ended December 31, 2010. Participant loans have been reclassified to notes receivable from participants as of December 31, 2010 and 2009. Interest income related to notes receivable has been reclassified to interest income on notes receivable from participants.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets, liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results may differ from those estimates.

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (see Note 3).

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits – Benefits are recorded when paid.

NOTE 3 – FAIR VALUE MEASUREMENTS

The FASB ASC 820 defines fair value and establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level l measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

NOTE 3 – FAIR VALUE MEASUREMENTS (Continued)

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used by the Plan for assets measured at fair value.

Pooled Separate Accounts: Based on the quoted market prices of the underlying assets, which represent the net asset value of shares held by the Plan at year-end.

Guaranteed Investment Contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations.

These methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 3 – FAIR VALUE MEASUREMENTS (Continued)

NOTE 4 – INFORMATION CERTIFIED BY THE CUSTODIAN OF THE PLAN

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, except for the fair value of the Stable Asset Fund II, Standard Insurance Company ("Standard"), the custodian of the Plan, has certified to the completeness and accuracy of all investments and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of December 31, 2010 and 2009, the supplemental Schedule H, line 4i: Schedule of Assets (Held at End of Year) as of December 31, 2010, and the related investment and notes receivable from participants activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2010. All investments are in participant-directed funds. Standard maintains the contributions in separate accounts, which are invested in various fund options as directed by each participant (see Note 1). The accounts are credited with actual earnings, contributions and unrealized appreciation or depreciation on the investments and charged for Plan withdrawals and miscellaneous expenses.

The following is a summary of the certified information prepared by Standard, furnished to the plan administrator and included in the Plan's financial statements and supplemental schedule as of December 31:

Net Appreciation in Fair Value of Pooled Separate Accounts	$ 2,809,746
Interest Income on Guaranteed Investment Contract	$ 71,379
Interest Income on Notes Receivable from Participants	$ 6,554

NOTE 5 – GUARANTEED INVESTMENT CONTRACT

As part of the Stable Asset Fund II, the Plan entered into a benefit-responsive guaranteed investment contract ("GIC") with Standard. Standard maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a monthly basis for resetting.

Certain events may limit the ability of the Plan to transact at contract value with Standard. Such events include termination of the contract, spin-offs, divestitures, layoffs, corporate relocation, partial or total plan termination, retirement incentive programs, and the liberalization of plan withdrawal or transfer rules. Upon occurrences of any of these events, a market value adjustment may apply. The plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The Standard may terminate the contract with 30 days advanced written notice to the contract owner for reasonable cause, which includes the following: (a) the Plan's failure to abide by state or federal law; or (b) the failure to render performance necessary to comply with the terms of the contract; or (c) failure to maintain assets of at least $25,000; or (d) Plan disqualification; or (e) failure to adopt the Plan in a reasonable period of time. Upon termination by the Standard, a market value adjustment may apply.

As described in Note 2, because the GIC is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the GIC. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawals or transfer of all or a portion of their investment at contract value.

During the years ended December 31, 2010 and 2009, the average yield generated by the GIC was as follows:

	2010	2009
Based on Actual Earnings	2.86%	3.03%
Based on Interest Rate Credited to Participants	2.80%	3.10%

NOTE 6 – TAX STATUS

The Company adopted a prototype plan which received a favorable opinion letter from the Internal Revenue Service ("IRS") on March 31, 2008 stating that the prototype plan and related trust are designed in accordance with the applicable sections of the IRC. The Plan has not filed for a separate determination letter, however, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Accordingly, no provision for federal or state income taxes is reflected in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in process. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

NOTE 7 – RELATED PARTY TRANSACTIONS

Certain Plan investments are managed by Standard. Standard is the custodian, as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. The trustees of the Plan are members of management of the Company. Fees paid by the Plan for the investment management services are netted against net appreciation in fair value of investments.

NOTE 8 – PLAN TERMINATION

The Company has established the Plan with the expressed intention and expectation that it will continue the Plan. However, if circumstances make it impossible or inadvisable to continue the Plan, the Company reserves the right to terminate it at any time subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. Benefits will be held in the trust fund which will remain in existence until the Company requests the discontinuance of the trust agreement.

NOTE 9 – RISKS AND UNCERTAINTIES

The Plan provides for various investment options in any combination from among the funds sponsored by the Plan. Investment securities are exposed to various risks, such as interest rate, market fluctuation and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in investment value in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and in the statement of changes in net assets available for benefits.

The underlying securities of the Plan's investments could include securities with contractual cash flows, such as, but not limited to, asset-backed securities, collateralized mortgage obligations, commercial mortgages and real estate. The value, liquidity and related income of these securities may be particularly sensitive to changes in economic conditions, including real estate values, delinquencies or defaults, or both, and may be adversely affected by real or perceived difficulties of issuers, changes in interest rates and conditions in the financial markets.

NOTE 10 – SUBSEQUENT EVENTS

Subsequent to year end, the Company changed custodians of the Plan from the Standard to Charles Schwab Trust Company ("Charles Schwab"). In May 2011, all assets of the Plan were transferred from the Standard to Charles Schwab.

The Company has evaluated subsequent events through September 15, 2011, the date the financial statements were available to be issued.
