401(K) PLAN FOR
BROWN DISTRIBUTING COMPANY, LTD.

NOTES TO FINANCIAL STATEMENTS

A. Description of Plan

The following is a brief description of the 401(k) Plan for Brown Distributing Company, LTD. (the "Plan"). It is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

1. General. The Plan is a contributory discretionary plan covering substantially all employees of Brown Distributing Company, LTD. (the "Company"). It is subject to the provisions of the Employee Retirement Income Security act of 1974 (ERISA).

2. Trust Fund Management. TD Ameritrade Trust Company (the "Trustee") serves as the trustee for the Plan during 2010 and 2009 and Retirement Horizons Inc. serves as the recordkeeper for the Plan. Under the terms of the agreement, the Trustee is responsible for the safekeeping of assets and the maintenance of records relating to receipts and disbursements. The Trustee and recordkeeper are parties-in-interest.

3. Eligibility. Employees are eligible to participate in the Plan if they have attained the age of eighteen and completed one month of credited service. Once an employee has satisfied the Plan's eligibility requirements, the employee will become a participant in the Plan on the first day of the subsequent month.

4. Contributions. Employer contributions are not required and are at the discretion of the employer. As of December 31, 2010 and 2009 employer contributions have been made at 50% of the salary reduction contributions, limited to 6% of compensation per participant. Additional employer contributions may be made at the discretion of the Company's management. Participants direct the investment of their contributions into various investment options offered by the Plan.

5. Participant Accounts. Each participant's account is credited with the participant's contribution and allocations of (a) Employer contributions, and (b) Plan earnings. Allocations of earnings are based on account balances, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

6. Vesting. Participants are fully vested in their salary reduction contributions at all times. Vesting in the employer contributions is graded, with participants becoming 100% vested after six years of eligible service. A year of eligible service is defined as a Plan year in which the participant works at least 1,000 hours. Participants' vested percentages are based on their years of service. Regardless of years of service, however, an employee is 100% vested upon death, disability or retirement date.

7. Payment of Benefits. Vested benefits are paid to participants upon death, disability, retirement or termination of employment, by either arranging for a rollover to another plan, lump sum payment, or installments. Hardship withdrawals are also permitted if certain criteria are met.

Continued

8. Forfeitures. Forfeitures by participants of non-vested Company contributions are first used to reduce Plan administrative expenses, then reduce employer matching contributions and lastly, may be allocated to Participants as an additional employer non-elective contribution.

   During the years ended December 31, 2010 and 2009, respectively, $24,007 and $31,883 were forfeited by participants. During the years ended December 31, 2010 and 2009, $21,060 and $28,272 of forfeitures were used to pay administrative expenses, respectively and $9,698 and $6,207 was used to reduce employer matching contributions during December 31, 2010 and 2009. At December 31, 2010 and 2009, unallocated forfeited non-vested accounts were $3,829 and $10,580, respectively.

9. Administrative Expenses. All reasonable expenses related to Plan administration may be paid from Plan assets, except to the extent the expenses are paid by the Company.

10. Participant Loans. Participants are permitted to borrow from their account when a financial hardship or specified financial need occurs as described in the Summary Plan Description. Participants may borrow the lesser of 50% of their vested account balance or $50,000. The minimum that can be borrowed is $1,000 and only one loan can be outstanding at a time. Repayment of the loan is required through payroll deduction within a period of one to five years at an interest rate of prime (as published in the Wall Street Journal) plus one percent.

B. Summary of Significant Accounting Policies

1. Basis of Presentation. The accompanying financial statements have been prepared on the accrual basis of accounting and present the net assets available for plan benefits and changes in those net assets.

2. Use of Estimates. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

3. Risk and Uncertainties. The Plan provides for various investment options, as described in the supplemental schedule. These investments are exposed to various risks, such as interest rate, prepayment, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in value of investment securities, it is at least reasonably possible that changes in the near-term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

4. Valuation of Investments. Quoted market prices are used to value investments where available. The market values of investments are based on closing market values provided by TD Ameritrade Trust Company (Trustee) as of December 31, 2010 and 2009. Loans receivable from participants are valued at cost, which approximates fair value.

5. Net Appreciation in Fair Value of Investments. Realized gains (losses) and unrealized appreciation (depreciation) are recorded in the accompanying financial statements as net gain (loss) in the fair value of investments.

6. Recognition of Benefits. Benefits are recorded when paid.

7. Notes Receivable from Participants. Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest.

8. Change in Classification. Participant loans have historically been classified as investments and measured at fair value in the Plan's statement of net assets available for benefits. However, in September 2010, the FASB issued ASU No. 2010-25, *Plan Accounting – Defined Contribution Pension Plans* (Topic 962): *Reporting Loans to Participants by Defined Contribution Pension Plans.* ASU No. 2010-25 requires participant loans to be classified as notes receivable from participants and measured at their unpaid principal balances plus any accrued but unpaid interest. ASU No. 2010-25 is effective for years ending after December 15, 2010. The guidance in ASU No. 2010-25 has been applied retrospectively to prior periods presented in these financial statements.

C. Investments

The Trustee holds the Plan's investments and executes investment transactions. The investments and earnings listed below have been certified as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. No auditing procedures were performed with respect to the information listed below except for comparing the information with the related information included in the financial statements and supplemental schedule.

The following presents investments at December 31, 2010 and 2009 as certified by the trustee and not audited by independent auditors. Investments that represent five percent or more of the Plan's net assets are designated with an asterisk:

D. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts and distributions will be made as soon as administratively practicable after the Plan terminates.

E. Tax Status

The Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan was restated in 2009. However, the Plan sponsor believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

F. Withdrawing Participants

Participants requested distributions from the Plan prior to the Plan year-end but received those distributions after the Plan year-end. The respective amounts were $2,041 and $8,658 for the years ended December 31, 2010 and 2009. Line 1g of the Form 5500, which is unaudited, reports benefit claims processed and approved for payment as $0 and $8,658 for the years ended December 31, 2010 and 2009. These payables have not been accrued in the financial statements.

H. Fair Value Measurements

ASC Statement No. 820, previously FASB Statement No. 157, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC Statement No. 820 are described as follows:

Level 1: Quoted prices are available in active markets for identical assets or liabilities;

Level 2: Quoted prices in active markets for similar assets and liabilities that are observable for the asset or liability; or

Level 3: Unobservable pricing inputs that are generally less observable from objective sources, such as discounted cash flow models or valuations.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Continued

Money Market: Valued at one dollar per share.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Other receivables and payables: Valued at cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth, by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010:

	Fair Value Measurements Using		
	Level 1	**Level 2**	**Level 3**

The following table sets forth, by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009:
