Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

REPORT OF INDEPENDENT AUDITORS

To the Employee Benefits Committee
Mansfield Plumbing Products, LLC
Cash Balance Pension Plan
Perrysville, Ohio

We were engaged to audit the accompanying financial statements of the Mansfield Plumbing Products, LLC Cash Balance Pension Plan (the "Plan") as of December 31, 2010 and 2009 and for the years then ended, as listed in the accompanying contents page. These financial statements are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by New York Life Trust Company, the trustee of the Plan and the Retirement Plans for Mansfield Plumbing Products, LLC Master Trust (the "Master Trust") in which the Plan has a beneficial interest, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the trustee holds the investment assets of the Plan and the Master Trust and executes investment transactions. The Plan administrator has obtained certifications from the trustee as of December 31, 2010 and 2009 and for the years then ended that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements taken as a whole. The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Actuarial Cost Method

Funding Target / Target Normal Cost

An Actuarial Cost Method is an allocation of the expected cost of a pension plan on a year-by-year basis. The primary objective of an Actuarial Cost Method is to accumulate enough assets prior to each participant's retirement to provide the promised pension benefits.

The Pension Protection Act of 2006 (PPA) mandates the use of the Traditional Unit Credit Actuarial Cost Method. Under this method, the accrued benefit is estimated based upon service and, if applicable, earnings as of the valuation date. The Funding Target is equal to the actuarial present value of all accrued benefits as of the valuation date. The Target Normal Cost is the actuarial present value, as of the valuation date, of the expected increases in projected accrued benefit attributable to service expected to be completed during the plan year (i.e. if applicable, one year's salary growth is reflected in the determination of Target Normal Cost).

For tax deduction purposes, the Funding Target may reflect the value of future pay increases on accrued benefits, if applicable.

PPA Discounting Method

The plan sponsor is responsible for making the following decisions with regard to the discounting method:

- Full yield-curve spot rates or a segmented yield-curve of a 24-month average rates of corporate bond rates
- If the segmented yield curve is used, the rates as of the month of the valuation may be used or as of a lookback month up to 4 months prior to the valuation date (the full yield curve must use the rates as of the month of the valuation starting in 2010)

For purposes of this valuation, the following discounting method was used and is assumed to be approved by the plan sponsor:

- Rates for the month of December preceding the valuation date.
- Segment Rates

Asset Valuation Method

The Plan Assets for purposes of this Actuarial Valuation are valued under the asset averaging method, including, if applicable, discounted receivable contributions. The value of plan assets is set equal to the average of the fair market value of assets on the valuation date and the adjusted fair market value of assets (including expected earnings) determined for the two earlier annual determination dates. Expected earnings are calculated using the third segment rate of the segmented yield-curve in effect at the beginning of each valuation year. The resulting average value must be constrained so that it falls between 90 and 110 percent of the fair market value of assets on the valuation date.

Account Balance:	The Account established and maintained for each Participant. Such Accounts are intended only as bookkeeping accounts and neither the maintenance nor the credits thereto shall be considered an allocation of any assets to such Account. Benefits provided under the Plan shall be considered an allocation of any assets to such Account. Benefits provided under the Plan shall be paid from the general assets of the fund.
Initial Account Balance:	The present value of the benefit accrued by a participant at the date that cash balance accounts were established in the plan. This present value was based on an interest rate of 8% and a mortality after assumed commencement of UP-1984.
Account Pay Credits:	5% of Monthly Compensation credited at the end of each month if service as of that date is less than 15 years. 6.5% of Monthly Compensation credited at the end of each month if service as of that date is 15 years or more. No further pay credits shall be credited after July 31, 2007.
Account Interest Credits:	Credited at the end of each month. The rate is the one month average of One-Year Treasury Constant Maturities for the 12 months ending the November 30 prior to the plan year the interest is credited in. If this average rate is not a multiple of ¼%, the closest higher interest rate which is a multiple of ¼% is used.
Pre-Retirement Death Benefit:	A benefit shall be payable to a participant's Beneficiary in accordance with (a) or (b) below as applicable and subject to adjustment as provided for in (c) below: (a) For Non Spousal beneficiaries, there shall be paid to such Beneficiary as of the first day of the month following the month in which the Participant's death occurs an amount equal to the value of his Account as of the last day of the month in which the death of the Participant occurs.

(b) If the Participant's Beneficiary is the spouse, such spouse shall be entitled to receive a Retirement Benefit for life commencing on the date the Participant would have attained Normal Retirement Date if he had survived to such date. Such benefit to the spouse shall be a single life annuity, payable monthly, where such annuity is the Actuarial Equivalent of the Accrued Benefit to which such Participant would have been entitled had he terminated employment on his date of death, survived to his Normal Retirement Date, and commenced to receive a Retirement Benefit as of such date. Notwithstanding the foregoing, the spouse of a Participant may elect to commence receiving a Retirement Benefit for life in the form of a single life annuity commencing on the first day of any month on or after the date the Participant died. The monthly amount of such benefit to the spouse shall equal the monthly amount payable under a single life annuity where such single life annuity is the Actuarial Equivalent of the Retirement Benefit to which such Participant would have been entitled had he terminated employment on his date of death, survived to such commencement date, and commenced to receive a Retirement Benefit as of such date. Alternatively, the spouse may request to receive, in lieu of any other benefits under the Plan, a distribution of the value of the Participant's Account as of his date of death, payable as soon as practicable after the Participant's death.

(c) The foregoing provisions shall apply in the case of the death of a Vested Terminated Participant who was less than 100% vested on his termination of employment only with respect to that portion of his Account (or Accrued Benefit) in which he is so vested on his date of death.

Actuarial Cost Method

Funding Target / Target Normal Cost

An Actuarial Cost Method is an allocation of the expected cost of a pension plan on a year-by-year basis. The primary objective of an Actuarial Cost Method is to accumulate enough assets prior to each participant's retirement to provide the promised pension benefits.

The Pension Protection Act of 2006 (PPA) mandates the use of the Traditional Unit Credit Actuarial Cost Method. Under this method, the accrued benefit is estimated based upon service and, if applicable, earnings as of the valuation date. The Funding Target is equal to the actuarial present value of all accrued benefits as of the valuation date. The Target Normal Cost is the actuarial present value, as of the valuation date, of the expected increases in projected accrued benefit attributable to service expected to be completed during the plan year (i.e. if applicable, one year's salary growth is reflected in the determination of Target Normal Cost).

For tax deduction purposes, the Funding Target may reflect the value of future pay increases on accrued benefits, if applicable.

PPA Discounting Method

The plan sponsor is responsible for making the following decisions with regard to the discounting method:

- Full yield-curve spot rates or a segmented yield-curve of a 24-month average rates of corporate bond rates
- If the segmented yield curve is used, the rates as of the month of the valuation may be used or as of a lookback month up to 4 months prior to the valuation date (the full yield curve must use the rates as of the month of the valuation starting in 2010)

For purposes of this valuation, the following discounting method was used and is assumed to be approved by the plan sponsor:

- Rates for the month of December preceding the valuation date.
- Segment Rates

Asset Valuation Method

The Plan Assets for purposes of this Actuarial Valuation are valued under the asset averaging method, including, if applicable, discounted receivable contributions. The value of plan assets is set equal to the average of the fair market value of assets on the valuation date and the adjusted fair market value of assets (including expected earnings) determined for the two earlier annual determination dates. Expected earnings are calculated using the third segment rate of the segmented yield-curve in effect at the beginning of each valuation year. The resulting average value must be constrained so that it falls between 90 and 110 percent of the fair market value of assets on the valuation date.

annuity, commencing at Normal Retirement Date, where the single life annuity is the Actuarial Equivalent of the current value of the Account Balance.

Early Retirement Benefit:

An actively employed Participant who has attained age 55 may elect to retire prior to his Normal Retirement Date. In such case, he shall receive a Retirement Benefit, commencing on his Normal Retirement Date, equal to his vested Accrued Benefit as of his Normal Retirement Date.

In lieu of such Retirement Benefit commencing on his Normal Retirement Date, the Participant may, at any time on or after his termination of employment, elect a reduced Retirement Benefit to commence as of the first day of any month thereafter which is prior to his Normal Retirement Date. In such case, the Participant shall receive a Retirement Benefit which is the Actuarial Equivalent of his vested Accrued Benefit as of his Commencement Date.

Late Retirement Benefit:

If a Participant remains employed beyond his Normal Retirement Date, he shall be entitled to receive a Retirement Benefit equal to his Accrued Benefit as of his Late Retirement Date, commencing on his Late Retirement Date.

Vesting:

In the event of termination of employment, the percentage of the Accrued Benefit to which a Participant shall have a nonforfeitable right shall be determined from the following table by reference to the completed years of Service at the date of termination of employment:

Account Balance: The Account established and maintained for each Participant. Such Accounts are intended only as bookkeeping accounts and neither the maintenance nor the credits thereto shall be considered an allocation of any assets to such Account. Benefits provided under the Plan shall be considered an allocation of any assets to such Account. Benefits provided under the Plan shall be paid from the general assets of the fund.

Initial Account Balance: The present value of the benefit accrued by a participant at the date that cash balance accounts were established in the plan. This present value was based on an interest rate of 8% and a mortality after assumed commencement of UP-1984.

Account Pay Credits: 5% of Monthly Compensation credited at the end of each month if service as of that date is less than 15 years.
6.5% of Monthly Compensation credited at the end of each month if service as of that date is 15 years or more.
No further pay credits shall be credited after July 31, 2007.

Account Interest Credits: Credited at the end of each month. The rate is the one month average of One-Year Treasury Constant Maturities for the 12 months ending the November 30 prior to the plan year the interest is credited in. If this average rate is not a multiple of 1/4%, the closest higher interest rate which is a multiple of 1/4% is used.

Pre-Retirement Death Benefit: A benefit shall be payable to a participant's Beneficiary in accordance with (a) or (b) below as applicable and subject to adjustment as provided for in (c) below:

(a) For Non Spousal beneficiaries, there shall be paid to such Beneficiary as of the first day of the month following the month in which the Participant's death occurs an amount equal to the value of his Account as of the last day of the month in which the death of the Participant occurs.

Summary of Plan Provisions

(b) If the Participant's Beneficiary is the spouse, such spouse shall be entitled to receive a Retirement Benefit for life commencing on the date the Participant would have attained Normal Retirement Date if he had survived to such date. Such benefit to the spouse shall be a single life annuity, payable monthly, where such annuity is the Actuarial Equivalent of the Accrued Benefit to which such Participant would have been entitled had he terminated employment on his date of death, survived to his Normal Retirement Date, and commenced to receive a Retirement Benefit as of such date. Notwithstanding the foregoing, the spouse of a Participant may elect to commence receiving a Retirement Benefit for life in the form of a single life annuity commencing on the first day of any month on or after the date the Participant died. The monthly amount of such benefit to the spouse shall equal the monthly amount payable under a single life annuity where such single life annuity is the Actuarial Equivalent of the Retirement Benefit to which such Participant would have been entitled had he terminated employment on his date of death, survived to such commencement date, and commenced to receive a Retirement Benefit as of such date. Alternatively, the spouse may request to receive, in lieu of any other benefits under the Plan, a distribution of the value of the Participant's Account as of his date of death, payable as soon as practicable after the Participant's death.

(c) The foregoing provisions shall apply in the case of the death of a Vested Terminated Participant who was less than 100% vested on his termination of employment only with respect to that portion of his Account (or Accrued Benefit) in which he is so vested on his date of death.

To the Employee Benefits Committee
Mansfield Plumbing Products, LLC
Cash Balance Pension Plan
Perrysville, Ohio

We were engaged to audit the accompanying financial statements of the Mansfield Plumbing Products, LLC Cash Balance Pension Plan (the "Plan") as of December 31, 2010 and 2009 and for the years then ended, as listed in the accompanying contents page. These financial statements are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by New York Life Trust Company, the trustee of the Plan and the Retirement Plans for Mansfield Plumbing Products, LLC Master Trust (the "Master Trust") in which the Plan has a beneficial interest, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the trustee holds the investment assets of the Plan and the Master Trust and executes investment transactions. The Plan administrator has obtained certifications from the trustee as of December 31, 2010 and 2009 and for the years then ended that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements taken as a whole. The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTES TO FINANCIAL STATEMENTS
December 31, 2010 and 2009

NOTE 1 - DESCRIPTION OF THE PLAN

The following brief description of the Mansfield Plumbing Products, LLC Cash Balance Pension Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General: The Plan is a defined benefit pension plan covering salaried employees and specified non-bargaining hourly employees of Mansfield Plumbing Products, Inc. (the "Company"). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Effective January 1, 2001, the Plan was amended and restated in its entirety to incorporate certain legislative changes and was renamed the Mansfield Plumbing Products, LLC Cash Balance Pension Plan.

The Plan was amended to freeze accruals effective July 31, 2007.

Effective January 1, 2009 the Plan was restated to incorporate certain legislative changes.

Eligibility: Prior to April 1, 2005, each salaried or specified non-bargaining hourly employee was eligible to participate in the Plan upon the completion of 1,000 hours with the Company. Effective April 1, 2005, the Plan was frozen, not allowing any employee hired after that date to become a participant in the Plan.

Normal Retirement Benefit: Prior to July 31, 2007, on a monthly basis, a percentage, based on years of service, of each participant's compensation (as defined) was credited to the participant's retirement benefit account (the "contribution benefit"). The contribution benefit earns interest monthly at varying rates as defined in the Plan. The combination of the contribution benefit and the interest earned thereon by the participant is referred to as the "accrued benefit". Effective July 31, 2007, participants no longer received a contribution benefit and only received monthly earnings on the accrued benefit. Each participant who retires from employment on his/her normal retirement date, as defined in the Plan agreement, shall be entitled to receive a retirement benefit equal to the actuarial equivalent of his/her accrued benefit on that date. The normal form of benefit payable to a participant is expected to be in the form of an annuity for the life of that participant or a joint and 50% survivor annuity, if married. A lump-sum payment may be elected in lieu of an annuity.

Termination of Employment: Upon termination of employment, the participant's nonforfeitable percentage of the accrued benefit is determined as follows:

<u>Completed Years of Service</u>	<u>Percentage of Accrued Benefit</u>
Less than 3	0%
3 or more	100%

Participants are immediately 100% vested upon death, disability, and attainment of normal retirement age.

All forfeitures are used to reduce the cost of the Plan to the Company and are not allocated to the remaining participants.

A lump sum payment based on completed years of service is available at any age following termination.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation: The accompanying financial statements have been prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition: The Plan's interest in the Retirement Plans for Mansfield Plumbing Products, LLC Master Trust (the "Master Trust") is reported at estimated fair value based upon the fair values of the underlying assets held in the Master Trust. Purchases and sales of securities are reflected on a trade-date basis. Dividend income is recorded on the ex-dividend date.

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

- Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.
- Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.
- Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique is used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held as underlying investments of the Master Trust:

Registered Investment Companies: The fair values of mutual funds are determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make significant estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates. It is reasonably possible that a significant change may occur in the near term for the estimate of the actuarial present value of accumulated plan benefits.

Risk and Uncertainties: Contributions are made to the Plan and the actuarial present value of accumulated Plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics. Due to the changing nature of these assumptions, it is reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The investment securities held by the Master Trust are exposed to various risks, such as interest rate, overall market volatility, liquidity and credit risks. Due to the level of risk associated with certain investment securities, it is possible that changes in the value of investment securities will occur in the near term and such changes could materially affect the amount reported in the statement of net assets available for benefits.

Payment of Benefits: Benefits are recorded when paid.

NOTE 3 - PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA and its related regulations. In the event the Plan terminates, the net assets of the Plan will be allocated among the participants and beneficiaries of the Plan in the order provided by ERISA.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC") if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Whether all participants receive their benefits should the Plan terminate at some future time depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the Pension Benefit Guaranty Corporation at that time. Refer to the Plan document for specific priorities on termination.

NOTE 4 - ADMINISTRATIVE EXPENSES

The Company may pay all expenses incurred in the administration of the Plan, but they are not obligated to do so. Thus, any such expenses and fees not paid by the Company shall be paid by the Plan. Certain administrative expenses of the Plan were paid by the Company during 2010 and 2009.

NOTE 5 - FUNDING POLICY

The Company contributes such amounts as are necessary on an actuarial basis to provide the Plan with assets sufficient to meet the benefits to be paid to Plan participants. The Plan has met the minimum funding requirements of ERISA for 2010 and 2009. Earnings or losses on the Plan's investments are used to reduce or increase the Company's contributions to the Plan and are not distributed to participants.

NOTE 6 - INVESTMENTS – UNAUDITED INFORMATION

New York Life Trust Company, the trustee of the Plan and the Master Trust, holds investment assets and executes transactions therein, and substantially all information pertaining to the Plan's and Master Trust's (Note 7) investments included in the financial statements has been certified by them. This information has not been audited by independent accountants.

The following table presents the fair value of investments. Investments that represent 5% or more of the Plan's net assets are separately identified.

	<u>2010</u>	<u>2009</u>
Investments in the Retirement Plans for Mansfield Plumbing Products, LLC Master Trust	\$ 2,436,927	\$ 1,787,556

During 2010 and 2009, the Plan's net investment gain in the Master Trust (including gains and losses on investments bought and sold, as well as held during the year and dividend income) was \$236,832 and \$338,159, respectively.

NOTE 7 - ASSETS HELD IN MASTER TRUST

The Plan's investment assets are held in a trust account at the New York Life Trust Company, the trustee, and consist of an undivided interest in an investment account of the Master Trust. Use of the Master Trust permits the commingling of trust assets of a number of pension plans of the Company for investment and administrative purposes. Although assets of the plans are commingled in the Master Trust, the trustee maintains supporting records for the purpose of allocating the net gain or loss of the investment account to the participating plans.

The net investment income of the investment assets is allocated by the trustee to each participating plan based on the relationship of the interest of each plan to the total of the interests of the participating plans.

The Plan's interest in the Master Trust was approximately 12% and 10% at December 31, 2010 and 2009 respectively.

The following table presents the net assets of the Master Trust.

	December 31, <u>2010</u>	<u>2009</u>

NOTE 8 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated Plan benefits are expected future periodic payments that are attributable under the Plan's provisions to the service employees have tendered. Accumulated Plan benefits include benefits expected to be paid to either the employees or their beneficiaries. Benefits payable to Plan participants are based on credited years of service, as defined under the Plan agreement.

The actuarial present value of accumulated Plan benefits is that amount which results from applying actuarial assumptions to reflect the time value of money (through discounts for interest) and the probability of payment (by considering factors such as death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the December 31, 2009 and 2008 valuations were as follows:

Rate of return on investments	8.0%
Mortality basis	RP-2000 Combined Healthy Mortality Table
Assumed retirement age	55-60: 5% 66: 32% 61: 10% 67: 34% 62: 20% 68: 38% 63: 10% 69: 42% 64: 5% 70: 100% 65: 72%
Cash balance interest crediting rate	4%

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits. An actuarial valuation of the Plan as of December 31, 2010 has not yet been completed.

The actuarial present value of accumulated Plan benefits as of December 31, 2009 and 2008 are as follows:

	<u>2009</u>	<u>2008</u>
Vested benefits of participants and beneficiaries receiving payment	\$ 594,289	\$ 368,689
Other vested benefits	<u>1,931,180</u>	<u>2,234,004</u>
Total vested benefits	2,525,469	2,602,693
Nonvested benefits	<u>46,948</u>	<u>60,147</u>
Total actuarial present value of accumulated Plan benefits	<u>\$ 2,572,417</u>	<u>\$ 2,662,840</u>

NOTE 8 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (Continued)

The following is a reconciliation of the change in the total actuarial present value of accumulated Plan benefits between the December 31, 2009 and 2008 valuation dates:

Present value of accumulated Plan benefits at December 31, 2008	\$ 2,662,840
Change in present value of accumulated Plan benefits due to:	
Benefits accumulated and experience	(113,683)
Benefits paid	(182,604)
Decrease in discount period	<u>205,864</u>
Total actuarial present value of accumulated Plan benefits at December 31, 2009	<u>\$ 2,572,417</u>

As of January 1, 2010 and 2009, the Plan's Adjusted Funding Target Attainment Percentage ("AFTAP") did not meet the minimum threshold of 80% established by the Pension Protection Act of 2006 ("PPA"). As a result, the following restrictions apply to the Plan:

1. Effective January 1, 2008, the Plan can not be amended or changed to increase the retirement benefits provided to participants. This restriction applies until the funded status increases above 80%. The 80% threshold is determined after taking into account any new amendment to the Plan that would increase benefits.
2. Effective April 1, 2008, the availability of a lump sum distribution is generally limited to 50% of the present value of the benefit. These restrictions will remain in effect until the funded status is above 80%.

NOTE 9 - INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated November 25, 2002, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. The Plan has applied for a new determination letter from the Internal Revenue Service. Although the Plan has not yet received a favorable determination letter, Plan management believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

NOTE 10 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor (DOL) regulations as any fiduciary of the plan, any party rendering service to the plan, the employer, and certain others. The Master Trust is managed by New York Life Trust Company, the trustee of the Plan. The trustee represents a party-in-interest as they also provide administrative services to the Plan. Administrative expenses were paid by the Plan to New York Life Investment Management, LLC, the actuary, and New York Life Trust Company, the trustee, which constitute party-in-interest transactions. Other fees were paid to investment advisors and auditors, which also constitute party-in-interest transactions.
