Best Cutting Die Company
Employees' Profit Sharing Plan and Trust
Notes to Financial Statements
December 31, 2009

Note (1) Description of Plan

The following description of the Best Cutting Die Company Employees' Profit Sharing Plan and Trust (the "Plan") is provided for general information purposes only. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

A. General

The Plan is a defined contribution plan covering substantially all employees of Best Cutting Die Company (the "Employer") who are age 21 and have completed one year of service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was established on February 19, 1973.

B. Contributions

Each year, participants may contribute up to the maximum percentage allowable, not to exceed the limits of Code Sections 401(k), 402(g), 404 and 415, as defined in the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified individual retirement accounts and qualified rollovers. The Employer, through January 31, 2009, made a matching contribution in the amount of thirty five cents for each dollar that a participant contributed limited to 10% of each participant's compensation. In addition, at its discretion, the Employer may also make annual contributions on behalf of eligible participants. For 2009, the Employer did not make a discretionary contribution.

C. Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of (a) the Employer's matching contribution, (b) Employer's discretionary contribution, and (c) self-directed plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled, is the benefit that can be provided from the participant's vested account.

Note (1) Description of Plan - Continued

D. Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Participants are fully vested in the Employer's matching and discretionary contribution accounts, plus actual earnings thereon, upon completion of six years of service.

E. Forfeitures

Forfeitures that occur during a plan year will be used to reduce employer matching or discretionary contributions. As of December 31, 2009, there were $4,898 of available forfeitures.

F. Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount, or in installments over a specified period. For termination of service due to other reasons, a participant will receive the value of the vested interest in his or her account as a lump-sum distribution.

In addition, a participant, who is employed by the employer may request an "in service distribution." To be eligible for such, a participant must be fully vested in his or her accounts. The maximum amount of an in service distribution is the lesser of one-third of a participant's account balance or $20,000. No more than one in service distribution may be made in any five year period.

G. Administrative Expenses

Administrative expenses of the Plan are paid by the Plan Sponsor.

Note (2) Summary of Accounting Policies

A. Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

B. Accounting Standards Codification

In June 2009, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards No. 168, "The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles - a replacement of FASB Statement No. 162". This standard establishes the FASB Standards Accounting Codification ("Codification") as the source of authoritative accounting principles generally accepted in the United States of America ("U.S. GAAP") recognized by the FASB to be applied to nongovernmental entities. The Codification supersedes all of the existing accounting and reporting standards, but is not intended to change or alter existing U.S. GAAP. The Codification changes the references of financial standards within the Plan's financial statements. All references made to U.S. GAAP use the new Accounting Standards Codification ("ASC") and the Codification numbering system prescribed by the FASB. For ease of transition, the former references of referring to the specific accounting principles will be shown parenthetically.

C. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenues and expenses during the reporting period. While actual results may differ from those estimates, management does not expect the differences, if any, to have a material effect on the financial statements.

Note (2) Summary of Accounting Policies - Continued

D. Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note (4) for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

E. Payment of Benefits

Benefits are recorded when paid.

F. Investment Contract with Insurance Company

During 2006, the Plan entered into a benefit-responsive contract (The Stable Value Fund) with Fidelity Management Trust Company (the "Fidelity"). Fidelity maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note (2) A, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Fidelity, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2009 and 2008 was $2,229,730 and $2,116,007, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than one percent. Such interest rates are reviewed on a quarterly basis for resetting.

Note (2) Summary of Accounting Policies - Continued

F. Investment Contract with Insurance Company - Continued

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example: divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Based on Actual Earnings	1.36%	4.17%

Note (3) Information Prepared and Certified by Trustee - Continued

All the net appreciation/depreciation in fair value of investments arises from investments in participant directed mutual funds. During 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $1,594,178.

Note (4) Fair Value Measurements

Effective January 1, 2009, the Plan completed its adoption of the fair value measurements and disclosures topic (formerly, FAS No. 157, "Fair Value Measurements"). This topic defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. It does not require any new fair value measurements, but may require some entities to change their measurement practices.

The fair value measurements and disclosures topic defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. It describes three approaches to measuring the fair value of assets and liabilities: 1) the market approach, 2) the income approach and 3) the cost approach. Each of these approaches include multiple valuation techniques. It does not prescribe which valuation technique should be used when measuring fair value, but does establish a fair value hierarchy that prioritizes the inputs used in applying the various techniques. Inputs broadly refer to the assumptions that market participants use to make pricing decisions, including assumption about risk. Level 1 inputs are given the highest priority in the hierarchy while Level 3 inputs are given the lowest priority. Assets and liabilities carried at fair value are classified in one of the following three categories based upon the nature of the inputs to the valuation technique used:

Level 1 - Observable inputs that reflect unadjusted quoted prices for identical assets or liabilities in active markets as of the reporting date. Active markets are those in which transactions for the asset or liability occur in sufficient frequency and volume to provide pricing information on an ongoing basis.

Level 2 - Observable market-based inputs or unobservable inputs that are corroborated by market data.

Level 3 - Unobservable inputs that are not corroborated by market data. These inputs reflect management's best estimate of fair value using its own assumptions about the assumptions a market participant would use in pricing the asset or liability.

Note (4) Fair Value Measurements - Continued

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Mutual Funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies and assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2009:

	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 7,270,887	$ 0	$ 0	$ 7,270,887
Guaranteed Investment Contract	0	0	2,226,816	2,226,816
Total Assets at Fair Value	**$ 7,270,887**	**$ 0**	**$ 2,226,816**	**$ 9,497,703**

Note (4) Fair Value Measurements - Continued

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2008:

	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 5,527,639	$ 0	$ 0	$ 5,527,639
Guaranteed Investment Contract	0	0	2,059,528	2,059,528
Total Assets at Fair Value	**$ 5,527,639**	**$ 0**	**$ 2,059,528**	**$ 7,587,167**

The following table sets forth a summary of changes in fair value of the plan's level 3 assets for the year ended December 31, 2009:

	Guaranteed Investment Contract
Balance - Beginning of Year	$ 2,059,528
Realized Gains/(Losses)	0
Unrealized Gains/(Losses) Relating to Instruments Still Held at the Reporting Date	91,095
Purchases, Sales, Issuances, and Settlements (Net)	76,193
Balance - End of Year	**$ 2,226,816**

Note (5) Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer accounts.

Note (6) Tax Status

The Internal Revenue Service has determined and informed the Employer that the prototype plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note (7) Related Party Transactions

Plan investments are shares of mutual funds managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee as defined by the Plan, and, therefore, these transactions qualify as party-in-interest transactions.

Note (8) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note (9) Subsequent Events

The Plan has adopted the subsequent events topic (formerly, FAS No. 165, "Subsequent Events"). This topic establishes principles and requirements for identifying, recognizing and disclosing subsequent events. It also requires that an entity identify the type of subsequent event as either recognized or unrecognized, and disclose the date through which the entity has evaluated subsequent events. The Plan evaluated all significant events or transactions, that occurred through July 21, 2010, the issuance date of these financial statements. During this period, the Plan did not have any material recognizable subsequent events.
