International Specialty Products Inc. 401(k) Plan for the Minerals Group

Notes to Financial Statements

December 31, 2010

1. Plan Description

The following plan description is provided for general information purposes. Participants in the International Specialty Products Inc. 401(k) Plan for the Minerals Group (the “Plan”), should refer to the Plan document for a more detailed and complete description of the Plan’s provisions.

General

The Plan, which was established on January 1, 2007, is a participant-directed defined contribution plan covering eligible employees of ISP Minerals Inc. and its Affiliates as defined in the Plan (“ISP Minerals”). ISP Minerals Inc. is the Plan Administrator. The Plan is subject to the provisions of the Employee Retirement Income Security Act (“ERISA”). The Plan invests in mutual funds of Vanguard Fiduciary Trust Company (the “Trustee”).

Contributions

Participants are required to determine into which investment funds their contributions are to be invested. Contributions may be allocated to any combination of funds in multiples of 1%. Participants are also permitted to change the allocation among investment funds of future and previous contributions. Such changes are subject to certain plan limitations.

Under the terms of the Plan, allowable contributions are outlined as follows:

Elective Contributions

Participants may elect to defer up to 30% of their annual compensation, as defined, and have this amount contributed to the Plan.

In order to satisfy the nondiscrimination requirements of Section 401(k) of the Internal Revenue Code of 1986 (the “Code”), contributions are limited to the extent necessary so that the actual deferral percentage for the highly compensated group is in compliance with the limitations, as defined by the Code. In addition, total individual pre-tax contributions and Roth 401(k) contributions were limited to a maximum of \$16,500 plus a “catch-up” contribution up to a maximum of \$5,500 for participants who have attained the age of 50 for 2010 and 2009. Furthermore, in order to satisfy the rules of Section 415 of the Code, in no event shall the annual additions, as defined, exceed the lesser of \$49,000 for 2010 and 2009 or 100% of a participant’s compensation, as defined.

1. Plan Description (continued)

Voluntary Contributions

Participants may elect to make voluntary after-tax contributions to the Plan which shall not exceed 10% of their compensation, as defined, for the Plan year.

Matching Contributions

ISP Minerals makes matching contributions for each participant equal to 66-2/3% of the sum of each participant's voluntary contribution but not in excess of 4% of the participant's compensation for the Plan year, as defined. Additionally, for each Plan year, the employer shall contribute a nonmatching contribution equal to 3% of each participant's compensation, as defined, plus an additional annual contribution ranging from \$50 to \$750, based on the participant's age, to each participant's account. ISP Minerals has the right under the Plan to discontinue its contributions at any time. Effective January 1, 2009 ISP Minerals amended the Plan and suspended matching and nonmatching contributions for eligible non-union participants. Effective October 1, 2009, ISP Minerals amended the plan and reinstated the nonmatching contribution for eligible non-union participants. Effective April 1, 2010, ISP Minerals amended the Plan and reinstated the matching contribution for eligible non-union participants.

Eligibility

All full-time employees are eligible to participate in the Plan on the first day of the calendar month immediately following the date on which an employee completes six consecutive months of service.

All part-time employees are eligible to participate in the Plan on the first day of the calendar month immediately following the date on which an employee completes at least 1,000 Hours of Service, as defined, within the 12-month period beginning on the employee's date of hire or within any calendar year that begins thereafter.

Notes to Financial Statements (continued)

1. Plan Description (continued)

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. All employees are vested immediately in the employer's contribution. For 2010 and 2009 there were no forfeitures reducing employer contributions. Unallocated forfeiture balances as of December 31, 2010 and 2009 were \$12,177 and \$54,889, respectively.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the employer's contributions, (b) Plan earnings or losses, and (c) charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Rollovers

Participants may elect to rollover amounts from other qualified plans into this Plan upon filing a written request with the Plan Administrator, which shall determine if the rollover contribution meets the requirements for a tax-free rollover, as defined in the Code.

Transfers from/to Other Qualified Plans

Participants may elect to transfer amounts from other qualified plans into the Plan as follows:

- (i) Participants who have an interest in another qualified employee benefit plan (as described in Section 401(a) of the Code) may transfer the lump sum value of their accrued pension benefits directly into the Plan.
- (ii) Participants may contribute amounts which were received from a qualified employee benefit plan in which they previously participated and which are permitted to be contributed to the Plan in accordance with the Code.

1. Plan Description (continued)

Participant Loans

The Plan allows participants to borrow against their aggregate balance outstanding in the Plan. Total loans to a participant cannot exceed the lesser of 50% of the participant's account balance based upon the most recent valuation or \$50,000 (reduced by the highest outstanding loan balance in the previous 12 months). The minimum amount of any loan granted to a participant shall be at least \$1,000. Each loan bears interest at rates ranging from 3.25% to 10.0% as determined by the Trustee. Loans are required to mature within five years, unless used to purchase or acquire a qualified dwelling.

Loans are offset against the participant's account and the related portion does not share in any income, expenses, gains, or losses (other than the interest on the loan) which are realized by the Plan. The entire unpaid principal amount of the loan will become immediately due either upon the participant's termination of employment or a default in payment of either principal or interest. Participant loans are recorded at their unpaid principal balance, plus, any accrued but unpaid interest.

Payment of Benefits

Participants may withdraw funds from their vested account in the event of normal retirement, late retirement, death, termination or hardship withdrawal, as defined. In addition, upon attainment of 59-1/2 years of age, as defined in the Code, participants may withdraw all or any portion of their remaining participant account balance in the Plan. Upon termination of employment or death of a participant, the vested account balance will be distributed to a participant or beneficiary either in the form of a lump sum payment or monthly installments. If the value of a participant's vested account balance exceeds \$1,000, the participant or beneficiary may elect to defer distribution in accordance with Plan provisions.

Participants are allowed to withdraw all or any portion of both their voluntary and rollover contributions and any accumulated earnings related thereto. The Plan allows a participant who has not attained the age of 59½ the ability to withdraw all or part of their vested participant account, subject to certain limitations as defined in the Plan and upon determination by the Plan Administrator that the participant has suffered a financial hardship within the meaning of the final regulations issued under Code Section 401(k). Such withdrawals shall not exceed the amount necessary to meet the need created by such hardship.

International Specialty Products Inc. 401(k) Plan for the Minerals Group

Notes to Financial Statements (continued)

1. Plan Description (continued)

Plan Termination

Although it has not expressed any intent to do so, ISP has the right under the Plan to terminate its participation in the Plan, subject to the provisions of ERISA. In the event of a Plan termination, participants who are not yet fully vested will become fully vested in their account balances.

2. Summary of Significant Accounting Policies

Following is a summary of the significant accounting policies of the Plan:

Basis of Accounting

Accounting records of the Plan are maintained on the accrual basis. Purchases and sales transactions are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Capital gains and losses are included in dividend income. Benefits are recorded when paid.

Fair Value Measurements

Accounting Standards Codification (“ASC”) 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

- Level 1 – Quoted prices for identical instruments in active markets;
- Level 2 – Quoted prices for *similar* instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations whose significant inputs are observable;
- Level 3 – Instruments whose significant inputs are unobservable and for which estimates of fair value are determined using related market data.

International Specialty Products Inc. 401(k) Plan for the Minerals Group

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

There have been no changes in the valuation methodologies used for assets measured at fair value at December 31, 2010 as described below.

The methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

- (b) This category represents investments in other Vanguard mutual funds according to a fixed formula that over time should reflect an allocation of approximately 60% of the fund's assets to bonds, 20% to short-term reserves, and 20% to common stocks. The fund's bond holdings are a diversified mix of short-, intermediate-, and long-term U.S. government, U.S. agency and investment-grade corporate bonds, as well as mortgage-backed securities. Its indirect stock holdings consist substantially of large-capitalization U.S. stocks and, to a lesser extent, mid- and small-cap U.S. stocks.
- (c) This category represents investments in up to five other Vanguard stock, bond, and money market mutual funds. Each Target Retirement Fund is designed to provide an investment portfolio for investors who would rather use asset allocations developed by Vanguard than try to build their own retirement investment portfolios.
- (d) This category represents investments in Vanguard's Retirement Savings Trust V. The fund invests primarily in synthetic investment contracts backed by high-credit-quality fixed income investments and traditional investments issued by insurance companies and banks. Investments in the Retirement Savings Trust can be transferred out into a stock fund, a balanced fund, or a bond fund with an average duration of more than four years as often as the Plan allows. The funds must remain there for 90 days before they can be transferred into a shorter-term bond or money market fund. Funds can always be transferred back into the Retirement Savings Trust, even if they were transferred out within the last 90 days. If the Plan were to eliminate this fund as an investment option, Vanguard can, at its option, require that the Plan's investment in the fund remain invested for a one year period. The Plan's portfolio manager and the Plan participants must also be notified.

Investment Valuation and Income Recognition

The Plan's investments in mutual funds and common and collective trust are stated at fair value. Quoted market prices are used to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year end. Securities transactions are recorded on the trade-date (the day the order to buy or sell is executed). Dividend income is recorded on the ex-dividend date.

International Specialty Products Inc. 401(k) Plan for the Minerals Group

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

The Plan holds an investment in the Vanguard Retirement Savings Trust which is a common and commingled trust (the Trust). That Trust holds investment contracts issued by high-quality insurance companies and banks as rated by Vanguard (the advisor to the trust's sponsor). These are interest bearing contracts in which the principal and interest are guaranteed by the issuing companies. The contracts are considered fully benefit-responsive and are comprised of Guaranteed Investment Contracts ("GICs"). The fair value of GICs is modeled using observable inputs. The fair value of GICs equals the total of the fair value of the underlying assets calculated using the present value of contract cash flows.

In determining the net assets available for benefits, the GICs are recorded at fair value with a corresponding adjustment to reflect these investments at their contract values, which are equal to contributions plus interest less benefit payments and expenses. An investment contract is generally valued at contract value, rather than fair value, to the extent it is fully benefit-responsive. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are currently no reserves against contract values for credit risk of the contract issuers or otherwise.

The Vanguard Retirement Savings Trust is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (i) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan); (ii) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; (iii) bankruptcy of the Plan Administrator or other Plan Administrator events (e.g. divestures or spin-offs of a subsidiary) which cause a significant withdrawal from the Plan or (iv) the failure of the trust to qualify for exemption from Federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

2. Summary of Significant Accounting Policies (continued)

Tax Status

The Plan has applied for but has not received a determination letter from the Internal Revenue Service stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the “Code”). However, the Plan Administrator believes that the Plan has been designed to comply with and is operating in accordance with the requirements of the Code and, therefore, believes the Plan is qualified and the related trust is exempt from taxation.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax position taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2007.

Plan Expenses

Expenses attributable to the management and investment of each investment fund shall be charged against the respective fund. As provided by the Plan, administrative expenses are paid by the Plan. In 2010 and 2009, administrative expenses of the Plan were paid by both the Plan and the Plan Administrator.

Use of Estimates

The preparation of the Plan’s financial statements in conformity with generally accepted accounting principles requires the Plan Administrator to make estimates that affect the amounts reported in the financial statements and the accompanying notes. Actual results could differ from those estimates.

2. Summary of Significant Accounting Policies (continued)

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

New Accounting Pronouncements

In January 2010, the FASB issued Accounting Standards Update 2010-06, *Improving Disclosures about Fair Value Measurements*, (ASU 2010-06). ASU 2010-06 amended ASC 820 to clarify certain existing fair value disclosures and require a number of additional disclosures. The guidance in ASU 2010-06 clarified that disclosures should be presented separately for each "class" of assets and liabilities measured at fair value and provided guidance on how to determine the appropriate classes of assets and liabilities to be presented. ASU 2010-06 also clarified the requirement for entities to disclose information about both the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements. In addition, ASU 2010-06 introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2 and 3 of the fair value hierarchy and present information regarding the purchases, sales, issuances and settlements of Level 3 assets and liabilities on a gross basis. The guidance in ASU 2010-06 became effective for reporting periods beginning after December 15, 2009, except for the requirement to present changes in Level 3 measurements on a gross basis, which are effective for fiscal years beginning after December 15, 2010.

In September 2010, the FASB issued Accounting Standards Update 2010-25, *Reporting Loans to Participants by Defined Contribution Pension Plans*, (ASU 2010-25). ASU 2010-25 requires participant loans to be measured at their unpaid principal balance plus any accrued but unpaid interest and classified as notes receivable from participants. Previously loans were measured at fair value and classified as investments. ASU 2010-25 is effective for fiscal years ending after December 15, 2010 and is required to be applied retrospectively. Adoption of ASU 2010-25 did not change the value of participant loans from the amount previously reported as of December 31, 2009. Participant loans have been reclassified to notes receivable from participants as of December 31, 2009.

2. Summary of Significant Accounting Policies (continued)

In May 2011, the FASB issued Accounting Standards Update 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs*, (ASU 2011-04). ASU 2011-04 amended ASC 820, *Fair Value Measurements and Disclosures*, to converge the fair value measurement guidance in US generally accepted accounting principles (GAAP) and International Financial Reporting Standards (IFRSs). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures [although certain of these new disclosures will not be required for nonpublic entities]. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.
