Sunward Consolidated Group
and Affiliated Companies 401(k) Plan

Notes to Financial Statements
December 31, 2010

1. Description of Plan

The following description of the Sunward Consolidated Group and Affiliated Companies (the "Companies") 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of the Companies who have one year of service and are age eighteen or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may contribute amounts allowable up to limitations established by the Internal Revenue Code and defined in the Plan. The Companies may elect to contribute additional amounts to the Plan as matching contributions or profit sharing contributions.

Upon enrollment in the Plan, a participant may direct employee contributions in 1% increments in any of twenty four investment options. Participants may change their investment options at their discretion. Effective March 13, 2008 the Plan adopted an automatic enrollment feature whereby 2% of compensation is automatically withheld from qualified newly hired employees.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) Companies' contributions, if any, and (b) plan earnings, and may be charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in Employer contributions plus actual earnings thereon is based on years of continuous service. A participant is 100% vested in Employer contributions after six years of credited service.

Forfeitures

Non-vested forfeited accounts may be used to reduce future employer contributions unless there are no future contributions to offset, in which case they are allocated to participants in accordance with the plan agreement.

Notes to Financial Statements (Continued)

1. Description of Plan (continued)

Payment of Benefits

On termination of service a participant may receive the value of his or her vested interest as a lump-sum distribution. At December 31, 2010 and 2009 account balances of persons no longer employed by the Companies (including amounts not fully vested) were $548,975 and $266,802, respectively.

Administrative Expenses

The Companies have generally paid administrative expenses of the plan. The Companies may, at their discretion, discontinue paying any or all of those expenses. In that event, each participant's account will be charged with an allocation of administrative expenses.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Shares of registered investment companies are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

2. Summary of Significant Accounting Policies (continued)

Subsequent Events

Subsequent events have been evaluated through September 30, 2011 which is the date the financial statements were issued.

3. Investments

The following presents investments at December 31, 2010 and 2009 that represent 5% or more of the Plan's net assets:

	2010	2009
Goldman Sachs Alloc Balanced A	$829,903	$870,161
Goldman Sachs Alloc Growth & Inc A	$343,668	$346,506
Goldman Sachs Growth Strategy A	$181,854	$102,626
Oppenheimer Strategic Inc N	$167,584	$150,417

During 2010 the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) increased in value by $98,609.

4. Fair Value Measurements

Beginning in 2008 the Plan is required to make certain disclosures with respect to the measurement of fair value. The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The levels of fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 – Inputs other than quoted prices that are observable for the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

4. Fair Value Measurements (continued)

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds are valued at the net asset value of shares held by the plan at year end.

Participant notes receivable are valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following sets forth by level, within the fair value hierarchy, the plan's assets at fair values:

	Level 1	Level 2	Level 3	Total
Mutual funds	$2,001,232	$ -	$ -	$2,001,232
Participant notes receivable	-	-	30,513	30,513
Total assets at fair value December 31, 2009	$2,001,232	-	$30,513	$2,032,952

	Level 1	Level 2	Level 3	Total
Mutual funds	$2,125,059	$ -	$ -	$2,125,059
Participant notes receivable	-	-	5,905	5,905
Total assets at fair value December 31, 2010	$2,125,059	$ -	$ 5,905	$2,130,964

Changes in the fair value of the plan's level 3 assets are summarized as follows:

Participant notes receivable, beginning of year	$30,513
Purchases, sales, issuances, and settlements, net	(24,608)
Balance end of year	$ 5,905

5. Plan Termination

Although they have not expressed any intent to do so, the Companies' have the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

6. Tax Status
