Vinson Process Controls 401(k) Plan

Notes to Financial Statements

December 31, 2010 and 2009

Note 1: Description of the Plan

The following description of Vinson Process Controls 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan Document and *Summary Plan Description* for a more complete description of the Plan's provisions, which are available from the Plan Administrator.

General

The Plan was established on July 1, 2001 as a defined contribution plan sponsored by Vinson Process Controls Company, L.P. (the "Partnership" or the "Employer"). Eligible employees may begin to participate in the Plan on the first pay date following the date of employment. Prior to January 1, 2009, Comerica Bank (Comerica) was the trustee of the Plan. During 2009, Wells Fargo Bank, N.A. (Wells Fargo) acquired Comerica's proprietary defined contribution plan recordkeeping business. As a result of the transaction, the Plan was amended to make Wells Fargo the trustee of the Plan. Effective January 1, 2010, the Plan amended and restated the Plan.

Contributions

Participants may elect to defer a percentage or dollar amount of pretax annual compensation, as defined in the Plan, up to the maximum allowable by the Internal Revenue Code (IRC). Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Partnership fully matches participant contributions up to the first 4% of the participant's compensation on a pay-period basis. The Partnership may make a discretionary contribution to the Plan allocated as a percentage of eligible compensation of participants for the Plan year. For the years ended December 31, 2010 and 2009, the Partnership made discretionary contributions to the Plan of $185,527, (net of forfeitures used on $289,052) and $491,356, respectively.

Participant Investment Account Options

Investment account options available include various funds. Each participant has the option of directing his contributions into any of the separate investment accounts and may change the allocation daily.

Participant Accounts

Each participant's account is credited with the participant's contributions and the Partnership's matching contribution as well as an allocation of plan earnings and the Partnership's discretionary contribution. Allocations are based on the participant's earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions and the Partnership match contribution plus actual earnings thereon. Vesting in the Partnership's discretionary contribution portion of their accounts plus actual earnings is based on years of continuous service. Vesting of the Partnership's discretionary contributions occurs at a rate of 20% per year of employment. A participant is 100% vested after five years of credited service.

Payment of Benefits

Upon termination of service due to death, disability, retirement or other reasons, a participant may receive a lump-sum distribution equal to the value of the participant's vested interest in his or her account.

Forfeited Accounts

Upon payment of participant's vested benefit, a forfeiture of the nonvested portion of the participant's account will occur. Forfeitures shall first be made available to offset Plan expenses, and then, shall be used to reduce the Partnership's matching contribution and discretionary contribution. At December 31, 2010 and 2009, the forfeited nonvested account balance was not material.

Participant Loans

The Plan includes provisions authorizing loans from the Plan to active eligible participants. The minimum amount of a loan shall be $1,000. The maximum amount of a participant's loans is determined by the available loan balance restricted to the lesser of $50,000 or 50% of the participant's vested account balance. All loans are covered by demand notes and are repayable over a period not to exceed five years (except for loans for the purchase of a principal residence) through payroll withholdings unless the participant is paying the loan in full. Interest on the loans is based on local prevailing rates as determined by the Plan Administrator. A Participant may have two loans outstanding at one time. Past due delinquent loans may be reclassified as benefit payments. Participant loans are included with the statements of net assets available for benefits as notes receivable from participants (See *Note7*).

Plan Termination

Although it has not expressed an intention to do so, the Partnership has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). In the event of plan termination, participants will become 100% vested in their accounts.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through common collective trusts. The statement of net assets available for benefits presents the fair value of the investment in the common collective trusts, as well as the adjustment of the investment in the common collective trusts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosures of contingent assets and liabilities at the date of the financial statements. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

Quoted market prices, if available, are used to value investments. Mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year end. The Plan's interest in the collective trust funds are valued based on information reported by the investment advisor using the audited financial statements of the collective trusts at year end.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes to Financial Statements

December 31, 2010 and 2009

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans may be reclassified as distributions based upon the terms of the Plan Document.

Plan Tax Status

The Plan operates under a standardized adoption agreement in connection with a prototype 401(k) profit-sharing plan and trust sponsored by Wells Fargo. This prototype plan document has been filed with the appropriate agency and has obtained an opinion letter dated March 31, 2008, in which the Internal Revenue Service stated that the prototype plan constitutes a qualified plan under Section 401 of the IRC and therefore is not subject to tax. The Plan has been amended since receiving the opinion letter. However, the Plan Administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the IRC.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

The Plan's administrative expenses may be paid by the Partnership or the Plan at the Partnership's discretion.

Transfers Between Fair Value Hierarchy Levels

Transfers in and out of Level 1 (quoted market prices), Level 2 (other significant observable inputs) and Level 3 (significant unobservable inputs) are recognized on the actual transfer date.

Reclassifications

Certain reclassifications have been made to the 2009 financial statements to conform to the 2010 financial statement presentation. These reclassifications had no effect on changes in net assets available for benefits.

Note 3: Investments

The Plan's investments are held at a bank-administered trust fund. The Plan's investments (including investments bought, sold and held during the year) appreciated (depreciated) in fair value as follows:

Note 4: Fair Value of Plan Assets

Accounting Standards Codification Topic 820, *Fair Value Measurements*, defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Topic 820 also specifies a fair value hierarchy which requires a plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets or liabilities

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities

Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities

Following is a description of the valuation methodologies and inputs used for assets and liabilities measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets and liabilities pursuant to the valuation hierarchy.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics or discounted cash flows. Level 2 securities include the common collective trusts valued at the estimated fair value provided by funds audited financial statements based upon the investment rate credited to the balances on a daily basis. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy.

The following table presents the fair value measurements of assets and liabilities recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2010 and 2009:

		2010 Fair Value Measurements Using		
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual funds	$ 14,427,874	$ 14,427,874	$ -	$ -
Common collective trust	1,261,372	-	1,261,372	-
	$ 15,689,246	$ 14,427,874	$ 1,261,372	$ -

		2009 (As Adjusted - Note 7) Fair Value Measurements Using		
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual funds	$ 10,792,323	$ 10,792,323	$ -	$ -
Common collective trust	1,105,167	-	1,105,167	-
	$ 11,897,490	$ 10,792,323	$ 1,105,167	$ -

The realized and unrealized gains and losses included in net assets available for benefits for the period form January 1, 2009, through December 31, 2010, are reported in net appreciation in fair value of investments in the statements of changes in net assets available for benefits.

Note 5: Fully Benefit-Responsive Investment Contracts

The Plan participates in two common collective investment funds that invest in investment contracts that are fully benefit-responsive.

As described in the basis of accounting disclosure, because the collective investment funds are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contracts. Contract value, as reported to the Plan by Wells Fargo, represents contributions made under the contracts, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against the contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 0%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan Documents (including complete or partial plan termination or merger with another plan), (2) changes to Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2010 and 2009, to Form 5500:

Note 7: Change in Accounting Principle

During 2010, the Plan adopted the provisions of Accounting Standards Update (ASU) 2010-25, *Reporting Loans to Participants by Defined Contribution Pension Plans*. The ASU requires loans to participants to be reported as notes receivable from participants at unpaid principal plus accrued but unpaid interest, instead of being reported as a part of investments at fair value as they were under previous guidance.

The following financial statement, line items for years 2010 and 2009 were affected by the change in accounting principle:

	2010 Statement of Net Assets Available for Benefits		
	As Computed Under Previous Guidance	As Computed Under ASU 2010-25	Effect of Change

Net investment income	2,351,799	2,328,058	(23,741)
Interest income on notes receivable from participants	-	23,741	23,741

Note 8: Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50 percent or more of such an employer or employee association, or relatives of such persons. Certain plan investments are funds managed by the plan trustee and; therefore, these transactions qualify as party-in-interest transactions. The Partnership provides certain administrative services at no cost to the Plan.

Note 9: Current Economic Conditions

The current economic environment present employee benefit plans with difficult circumstances and challenges, which in some cases have resulted in large declines in the fair value of investments. The financial statements have been prepared using values and information currently available to the Plan.

Given the volatility of current economic conditions, the values of assets recorded in the financial statements could change rapidly, resulting in material future adjustments in investment values that could negatively impact the Plan.

Note 10: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 11: Subsequent Events

Subsequent events have been evaluated through September 27, 2011, which is the date the financial statements were available to be issued.
