To the Plan Administrator
Integral Consulting Inc. 401(k) Profit Sharing Plan
Denver, Colorado

We were engaged to audit the accompanying statements of net assets available for benefits of the Integral Consulting Inc. 401(k) Profit Sharing Plan (the Plan) as of December 31, 2010 and 2009, and the related statement of changes in net assets available for benefits for the year ended December 31, 2010, and the supplemental schedule of assets (held at end of year) as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified or provided by John Hancock Life Insurance Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the custodian holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the custodian regarding the completeness and accuracy of the information summarized in Note 4 that was provided to the Plan Administrator by the custodian as of and for the year ended December 31, 2010, and as of December 31, 2009.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1. Description of Plan

The following description of the Integral Consulting Inc. 401(k) Profit Sharing Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document and summary Plan description for more complete information.

General and eligibility: The Plan is a defined contribution plan established by Integral Consulting Inc. (the Company) effective November 1, 2002. All employees of the Company who have attained the age of 18 are eligible to make employee contributions on the first day of the month following the hire date. Each year employees may contribute a percentage of their annual compensation but not more than the maximum allowable limits established by the Internal Revenue Code (IRC). Employees are eligible for employer matching contributions on the date in which the employee becomes eligible to the Plan. For the year ended December 31, 2010, the Company made matching contributions equal to 100% of participant's deferrals that do not exceed 4% of his or her compensation.

The Plan may also make profit sharing contributions to the Plan each year and in such amount, if any, as it may determine. Participants will be eligible to receive an allocation of the profit sharing contributions regardless of the hours of work during the plan year. The discretionary contribution is based on the relationship of the participant's year-to-date compensation to the total compensation of all Participants.

Participants in the Plan direct their contributions and Company contributions into various investment options offered by the Plan. Participants may change their elections daily. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Participant accounts: Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contributions, the Company's contributions, Plan earnings and an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Elective deferral pre-tax contributions and earnings thereon are fully vested and nonforfeitable. Any employer contributions are also fully vested upon the contribution date.

Payment of benefits: On termination of service due to retirement, death or disability, a participant may elect to receive a lump sum amount equal to the value of the participant's vested interest in his or her account, or an annuity which provides for annual installments over a specified period. For termination of services due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution less applicable taxes, or the participant may elect to roll over his or her account balances into another qualified retirement savings account.

Notes receivable from participants: Participants may borrow from their fund accounts amounts from $1,000 to $50,000 reduced by the excess, if any, of the highest outstanding balance during the prior 12 months over the outstanding balance on the date on which the new loan is made and limited to a maximum of 50% of the present value of the participant's vested account balance. The loans bear interest at rates determined by the Trustee with the intention of providing the Plan with a return commensurate with the interest rates charged by persons in the business of lending money for loans which would be made under similar circumstances. Notes receivable are collateralized by the participant's vested account balance. The repayment period is limited to five years, except that a loan used for the purchase of a principal residence may exceed five years. The repayment period may not extend beyond the participant's normal retirement date. Principal and interest is paid ratably through payroll deductions. Notes receivable outstanding at December 31, 2010 bear interest at rates ranging from 3.25% to 8.25% and are due through January 2014.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan document.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The accompanying financial statements are prepared on the accrual basis of accounting. The Plan follows accounting standards established by the Financial Accounting Standards Board (FASB) to ensure consistent reporting of net assets and changes in net assets. References to Generally Accepted Accounting Principles (GAAP) in these footnotes are to the FASB Accounting Standards Codification™ (ASC or the Codification).

Accounting estimates and assumptions: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Risks and uncertainties: The Plan utilizes various funds as investment instruments. Insurance company pooled separate accounts are invested in mutual funds, which are exposed to various risks, such as interest rate and credit risk and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Investment in insurance contract: Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The plan invests in investment contracts through an insurance contract. The statement of net assets available for benefits presents the fair value of the investment in the insurance contract. Contract value was determined to be equal to fair value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: *(a)* amendments to the Plan documents (including complete or partial plan termination or merger with another plan), *(b)* changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, *(c)* bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary), or *(d)* the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA.

Investment valuation and income recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Management fees and operating expenses charged to the Plan for investments in the mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Payment of benefits: Benefit payments to participants are recorded upon distribution.

Recently issued accounting pronouncements: In September, 2010, the FASB issued an amendment, *Plan Accounting-Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans* (ASU 2010-25), which provides guidance on how loans to participants should be classified and measured by defined contribution pension plans. This amendment requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. This amendment was adopted for the year ended December 31, 2010, and retrospectively applied to December 31, 2009.

In January 2010, the FASB issued an amendment on the Fair Value Measurements and Disclosures Topic which requires new disclosures and reasons for transfers of financial assets and liabilities between Levels 1 and 2. This amendment also clarifies that fair value measurement disclosures are required for each class of financial assets and liabilities, and those disclosures should include a discussion of inputs and valuation techniques. It further clarifies that reconciliation of Level 3 measurements should separately present purchases, sales, issuances and settlements instead of netting these changes. With respect to matters other than level 3 measurements, the amendment was effective and adopted for the Plan's year ended December 31, 2009. The guidance related to Level 3 measurements is effective for periods beginning on or after December 15, 2010. This amendment has not yet been adopted and the Plan Sponsor is currently evaluating the impact on the Plan's financial statements.

Subsequent events: The Plan Administrator evaluated subsequent events through August 26, 2011, the date the financial statements were available to be issued. The only event requiring disclosure is the Plan's election to transition asset custody to ING from John Hancock Life Insurance Company in February 2011.

Note 3. Administrative Expenses

Certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan. All administrative fees, other than loan fees, are paid by the Plan or Plan sponsor.

Note 4. Information Certified and Provided by the Custodian

The following is a summary of the Plan's asset information as of December 31, 2010 and 2009, and for the year ended December 31, 2010, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by John Hancock Life Insurance Company (the Custodian) and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the Custodian that information provided to the Plan Administrator by the Custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

	December 31,	
	2010	2009
Investments, at fair value		
Pooled separate accounts	**$ 5,880,391**	$ 4,537,079
Investment in insurance contract	**1,651**	-
	$ 5,882,042	$ 4,537,079
Notes receivable from participants	**$ 13,167**	$ 22,939

The Plan offers an investment in the John Hancock Guaranteed Interest Account (the GIC), a fully benefit-responsive investment contract with the Custodian. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The GIC issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. As of December 31, 2010, the interest rate credited to the GIC was 1.25%. There were no assets in or interest credited to the GIC as of December 31, 2009.

Because the GIC is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the GIC. Contract value, as reported to the Plan by the Custodian, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Custodian also certified to the completeness and accuracy of the following investment income information for the year ended December 31, 2010:

	Interest and Dividends	Net Appreciation in Fair Value of Investments
Pooled separate accounts	$ -	$ 707,823
Participant loans	721	-
	$ 721	$ 707,823

The following table presents Plan investments that represent 5% or more of the Plan's net assets at December 31, 2010 and 2009.

	December 31,	
	2010	2009
John Hancock pooled separate accounts:		
Lifestyle Fund - Growth Portfolio	**$ 1,853,470**	$ 1,554,220
Lifestyle Fund - Balanced Portfolio	**1,174,614**	799,336
Lifestyle Fund - Moderate Portfolio	**450,211**	302,397
Lifestyle Fund - Aggressive Portfolio	**294,878**	*

* Balance less than 5% of the Plan's net assets.

Note 5. Fair Value Measurements

Topic 820 of the Accounting Standards Codification, *Fair Value Measurements and Disclosures* (ASC 820), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The Plan's pooled separate accounts are valued using level 2 inputs while the GIC is valued using Level 3 inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Insurance contract: Valued based on guaranteed benefits under the terms of the contract.

Pooled separate accounts: Unit value calculated based on the observable net asset value (NAV) of the underlying investment.

There have been no changes to the methodologies used as of December 31, 2010 and 2009.

The methods above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level within the fair value hierarchy the Plan's investments at fair value as of December 31, 2010 and 2009:

(a) This category includes cash and short-term debt instruments that seek to maximize income while maintaining liquidity and asset quality. This category invests primarily in cash and short-term debt instruments issued or guaranteed by the U.S. government or its agencies, and investments secured by the U.S. Treasury or agency securities.

(b) This category includes investments that seek a high rate of return and a high level of current income. This category invests in investment-grade debt securities, high-yield securities, derivative instruments and fixed-income securities.

(c) The investment seeks maximum real return. The fund normally invests at least 80% of net assets in inflation-indexed bonds of varying maturities. It invests primarily in investment-grade securities, but may invest up to 10% of total assets in high-yield securities. The fund may invest in derivative instruments. It is non-diversified.

(d) The investment seeks to maximize total return, consistent with the preservation of capital. The fund invests primarily in high yield fixed income securities issued by U.S. and foreign companies and foreign governments and their agencies and instrumentalities. It normally invests at least 80% of assets in high-yield bonds. The fund may invest without limit in foreign securities and may invest up to 35% of its assets in sovereign debt issued by emerging market governmental issuers.

(e) The investment seeks maximum total return, consistent with preservation of capital and prudent investment management. The fund normally invests at least 80% of assets in fixed-income securities issued in at least three countries. It normally invests at least 25% of net assets in instruments that are economically tied to foreign (non-U.S.) countries. The fund may invest all assets in derivative instruments, such as options, futures contracts or swap agreements, or in mortgage- or asset-backed securities. It may also invest up to 10% of total assets in preferred stocks. It is non-diversified.

(f) This category includes investments that seek a combination of income and modest level of capital appreciation. The investments within this category seek to match as closely as possible, before expenses, the return of the Dow Jones Index. The category invests in a diversified mix of stock and bond securities.

(g) This category seeks long-term capital appreciation. The category invests primarily in equity securities of larger U.S. companies expected to increase in value over time.

(h) This category includes investments that seek long-term total return and a high level of current income. The category invests primarily in equity securities of companies with large capitalizations.

(i) This category includes investments that seek long-term growth and capital appreciation. This category invests in equity securities, including convertible securities, foreign securities, investment-grade debt securities, securities issued by the U.S. government and high-quality money market instruments. This category invests primarily in securities of mid-sized companies.

(j) The investment seeks long-term growth of capital. The fund invests normally at least 80% of net assets in equity securities of medium-sized companies with significant capital appreciation potential. It tends to invest in companies having market capitalizations similar to those of companies included in the Russell Mid Cap Index. The fund may invest up to 25% of assets in foreign securities.

(k) The investment seeks high total return of which capital appreciation and income are components. The fund normally invests most of its assets in equity securities of companies the fund's manager believes are undervalued at the time of purchase but that have the potential for capital appreciation. It invests primarily in common stocks. The fund may invest in companies of any size, across the entire market capitalization spectrum. From time to time, it may invest a substantial portion of its assets in smaller and midsize companies. The fund may invest up to 25% of total assets in foreign securities.

(l) The investment seeks to approximate the aggregate total return of a small cap U.S. domestic equity market index. The fund normally invests at least 80% of net assets (plus any borrowings for investment purposes) at the time of investment in (a) the common stocks that are included in the Russell 2000 index and (b) securities (which may or may not be included in the Russell 2000 index) that the subadviser believes as a group will behave in a manner similar to the index.

(m) This category includes investments that seek long-term capital growth and appreciation. This category normally invests in equity securities of smaller-sized companies that advisors believe will increase in value over time. This category may also invest up to 25% of its assets in equity securities of foreign issuers.

(n) This category includes investments that seek long-term growth of capital and income. This category normally invests in equity securities of smaller-sized companies that advisors believe will increase in value over time and generate income.

(o) This category invests the majority of its assets in equity securities of companies from the energy sector. The fund invests in companies engaged in exploration, discovery, production and distribution of energy, including alternative energy sources. It seeks long term capital growth.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan at its discretion. In the event of termination, the net assets of the Plan, after payment of any expenses properly charged, will be distributed to each participant according to the amount then credited to his or her account.

Note 7. Tax Status

Effective November 1, 2002, the Plan adopted a standardized form of a prototype plan sponsored by the custodian. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

The Plan applies the standards on accounting for uncertainty in income taxes. The Plan Administrator evaluated the Plan's tax positions and concluded that the Plan has maintained its tax exempt status and has taken no uncertain tax positions that require adjustments to the financial statements; therefore, no provision of liability for income taxes has been included in the financial statements.

Note 8. Related Party Transactions

Certain Plan investments are shares of pooled separate accounts and guaranteed interest accounts, which are managed by the Custodian and therefore qualify as party-in-interest transactions. Service charges paid by the Plan for the investment management services amounted to $168 for the year ended December 31, 2010.
