BRAKE MAX, INC. 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010 AND 2009

Note 1 – Description of Plan

The following description of the Brake Max, Inc. 401(K) Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a qualified retirement plan covering all full-time employees of Brake Max, Inc. (the Company) and is participant-directed. The Plan was adopted on May 1, 1999, with an original effective date of May 1, 1999, and was amended and re-stated with a restated effective date of May 1, 2010. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. To be eligible for employer contributions, employees must have at least three consecutive months of service and be age 21 or older.

Contributions

Contributions to the Plan include salary reduction contributions authorized by participants and at the discretion of the Company, employer matching contributions and additional employer nonelective contributions. Participants may elect to contribute to the Plan a portion of their annual pre-tax wages, not to exceed \$16,500 for each of the years ended December 31, 2010 and 2009. The Plan allows for catch-up contributions subject to Internal Revenue Service (IRS) limitations. Participants may also contribute amounts representing distributions from other qualified plans. Employer contributions may be determined annually by management. For both 2010 and 2009, the Company made matching contributions up to a maximum of 50 percent of employee salary deferral contributions up to 4 percent of participants' eligible compensation.

Participant Accounts

Each participant's account is credited with the participant's contribution and the Company's contributions plus earnings thereon. The benefit to which a participant is entitled is the vested portion of the participant's account.

Vesting

Participants are immediately vested in their contributions. Vesting in the Company's matching contribution is based on years of continuous service, following the table below. A participant is 100 percent vested after six years of credited service or upon and after attaining normal retirement age of 65, if the participant is employed by the Company on or after that date. If a participant incurs a severance from employment as a result of death or disability, the participant is 100 percent vested in the matching contribution.

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Participant Loans

Participants may borrow from their vested funds a minimum of \$500 up to a maximum of the lesser of (i) \$50,000 or (ii) 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at a rate of prime (3.25% at December 31, 2010) plus 1% at the time of the loan. Current interest rates on outstanding loans range from 4.25% to 9.25%. Principal and interest is paid ratably through regular payroll deductions.

BRAKE MAX, INC. 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010 AND 2009

Note 1 – Description of Plan, continued

Payment of Benefits

On termination of service due to termination, death, disability, or retirement, a participant or beneficiary may elect to receive the vested interest of their account in the form of a single lump sum distribution.

Hardship Withdrawals

Withdrawal of a portion of a participant's account will be permitted due to an immediate and heavy financial need. After the withdrawal, the participant may not make elective deferrals or other contributions to the Plan for six months.

Forfeitures

Forfeitures of unvested Company matching contributions from terminated participant accounts can be used to offset current-year Company matching contributions and then to reduce nonelective contributions. During 2010 and 2009, forfeited non-vested accounts totaled \$11,748 and \$12,674, respectively. During 2010, forfeitures of \$13,790 were used to reduce employer contributions. The Company did not use the available 2009 and other forfeitures to offset 2009 matching contributions; therefore, the remaining forfeitures of \$14,211 were allocated to participants in 2010 as specified by the plan document.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 4 for further discussion of fair value measurements.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of net assets available for benefits of the Plan attributable to fully benefit-responsive contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in the Key Guaranteed Portfolio Fund, which is a fully benefit-responsive guaranteed investment contract (GIC).

The statements of net assets available for benefits present the fair value of the investment contracts, as well as an adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The fair value of a GIC is calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations. The contract value of the fully benefit-responsive investment contract represents contributions plus earnings, less participant withdrawals/transfers and premium tax, if applicable.

Participant Loans Receivable

Participant loans are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income on participant loans is recognized when assessed. Participant loans are considered to be in default and are reclassified as distributions based upon the terms of the plan document. Outstanding participant loans of terminating participants are reclassified as distributions if not repaid as specified in the plan document.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010 AND 2009

Note 2 – Summary of Significant Accounting Policies, continued

Payment of Benefits

Benefits are recorded when paid or when payable under the plan provisions.

Administrative Expenses

Management fees are paid out of participants' vested account balances, and investment trade fees reduce the vested balance in the account of the participant who initiated the trade.

Reclassifications

Certain accounts in the prior year financial statements have been reclassified for comparative purposes to conform to the presentation in the current year financial statements.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Subsequent Events

In accordance with generally accepted accounting principles, the Company evaluates events or transactions that occur subsequent to year end for potential recognition or disclosure in the financial statements through the date on which the financial statements are available to be issued. The financial statements were approved by management and available to be issued on September 27, 2011.

Note 3 – Investments

The Plan's investments are held by Great West Life & Annuity Insurance Company through a plan developed by its subsidiary Orchard Trust Company and are administered by Great West Retirement Services. Collectively, these companies are referred to as Great West or the third-party administrator.

Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and an insurance investment contract as investment options. The investments are recorded at fair value. Shares of mutual funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year end. The Plan's investments are certified by Great West for 2010 and 2009.

In accordance with generally accepted accounting principles, the statements of net assets available for benefits present an investment contract at fair value, as well as an additional line item showing an adjustment of the fully benefit-responsive contract from fair value to contract value.

The Key Guaranteed Portfolio Fund is a general account product similar to a money market fund that serves as the guaranteed investment contract. The fund provides a guarantee of principal and a guaranteed quarterly interest rate. The entire general account assets of Great West Life & Annuity Insurance Company back these guarantees. These assets are primarily investment-grade quality, fixed income bonds.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010 AND 2009

Note 3 – Investments, continued

The average yield and actual average crediting yield for the Key Guaranteed Portfolio Fund at December 31 are as follows:

	<u>2010</u>	<u>2009</u>
Average yield	2.49%	3.16%
Actual average crediting yield	2.49%	3.16%

The average crediting rate is reset on a quarterly basis.

For the year ended December 31, 2009, the difference between the fair value and the contract value of the GIC is attributed to forfeited non-vested accounts not yet applied by the Company to reduce employer contributions. Available unapplied forfeitures for the year ended December 31, 2009 is \$15,491. Interest of \$369 and \$197 was credited to the forfeitures account in each of 2010 and 2009, respectively. In addition, the plan received proceeds of \$1,272 in 2009 resulting from a settlement between the Securities and Exchange Commission (SEC) and certain mutual funds.

The following table presents the value of investments that represent 5% or more of the Plan's net assets available for benefits as of December 31:

As part of a Department of Labor (DOL) limited-scope audit, the third-party administrator, Great West, has provided a certification letter for both the 2010 and 2009 years. The letter certifies that the statement of transactions and list of securities are complete and accurate. The plan administrator instructed the auditors not to perform any auditing procedures with respect to the information summarized in Note 3, Note 4, or the supplementary information contained in these financial statements.

- Level 2 Significant other observable market-based inputs or unobservable inputs that are corroborated by market data
- Level 3 Significant unobservable inputs reflecting the reporting entity's own assumptions

The following table sets forth, by level within the fair value hierarchy, a summary of the Plan's investments that were measured at fair value on a recurring basis as of December 31, 2010:

BRAKE MAX, INC. 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010 AND 2009

Note 5 – Related Party Transactions

The Plan's investments are held by Great West Life & Annuity Insurance Company, which is the third-party administrator; therefore, such transactions qualify as party-in-interest transactions. Management fees of \$3,837 and \$3,300 were charged to participants' accounts by Great West Life & Annuity Insurance Company in 2010 and 2009, respectively.

Note 6 – Improper Vesting Percentages and Employer Matching Forfeitures

During 2009, the third-party administrator failed to properly calculate vesting percentages for distributions made to terminating participants. This error resulted in former participants receiving less employer matching contributions in the distributions than required under the plan. To correct this error, all termination distributions for 2009 were reviewed by Great West in July 2010 and residual checks were issued to effected participants. Accordingly, benefits payable to participants of \$3,082 were recorded at December 31, 2009. Further, management discovered that excess matching contributions were made for an employee in 2009 and 2010. Management considers these items to be insignificant operational defects and is utilizing the IRS self-correction program (SCP) to remedy the errors. The SCP is a voluntary, employer-initiated procedure to correct operational failures under a qualified plan.

Note 7 – Tax Status

Effective May 1, 2010, the Plan re-stated its non-standardized prototype plan. The third-party administrator received a determination letter dated March 31, 2008 in which the IRS stated that the form of the revised prototype plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). In 2010 and 2009, prior to the re-statement of the Plan, the original non-standardized prototype plan under which the Plan was operating, had been amended since adoption. The Company believes that the amended Plan was designed and operated in compliance with applicable requirements of the IRC.

Generally accepted accounting principles prescribe requirements for the recognition, measurement, classification, and disclosure in the financial statements of uncertain tax positions taken or expected to be taken by the Plan. The Company has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition or disclosure in the financial statements. The Plan is subject to routine audits by the IRS. Currently, the 2009 tax return is under examination by the IRS; however, no interest or penalties have been or are expected to be assessed.

Note 8 – Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 9 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer profit sharing contributions.
