We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of and for the years ended December 31, 2010 and 2009, that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Security Act of 1974.

RELIABLE CONTAINER CORPORATION
401(k) EMPLOYEE SAVINGS PLAN

Notes to Financial Statements
December 31, 2010 and 2009

NOTE 1 - DESCRIPTION OF PLAN

The following description of Reliable Container Corporation 401(k) Employee Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for more detailed information of the Plan's provisions.

General - The Plan is a defined contribution plan covering substantially all employees of Reliable Container Corporation (the Company), who are at least 21 years of age, and have completed one year of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was established July 1, 1993.

Contributions - Participants' contributions are made to the Plan by means of salary deferral by which the participant is entitled to defer 1.0% to 19% of their compensation, or a fixed amount determined annually by the Internal Revenue Service. The Company may also voluntarily match participant contributions up to 25% of the first 4.0% of the employees' salaries. In addition, the Company, at its option, may make discretionary profit sharing contributions. For the years ended December 31, 2010 and 2009, the Company made no discretionary contribution. Matching contributions of $20,311 and $18,599 were made to the Plan for the years ended December 31, 2010 and 2009, respectively.

Participant Accounts - Each participant's account is credited with the participant's contributions and an allocation of (a) the Company's matching contribution, (b) the Company's discretionary profit sharing contribution, (c) Plan earnings which are charged with an allocation of certain administrative expenses. Allocations of matching contributions are based on participant contributions, as defined. Allocations of plan earnings and administrative expenses are based on participant balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested interest in their account.

Notes Receivable from Participants - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to 50% of their vested account balance. Loans must be repaid within five years. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined quarterly by the Plan administrator.

Vesting - Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. A participant is 100% vested after four years of credited service.

Payment of Benefits - Upon reaching the retirement age of 65 or upon termination of service, a participant may elect to receive a lump-sum payment equal to the vested value of his or her account.

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Forfeitures - Amounts forfeited from terminating participants' non-vested portion of their Company contributions and earnings on Company contributions are used to pay administrative expenses of the Plan. At December 31, 2010, there were $10 in unallocated forfeitures. There were no unallocated forfeitures at December 31, 2009. For the years ended December 31, 2010 and 2009, $52 and $393, respectively, of forfeitures were used to pay administrative expenses of the Plan.

Investments - Each participant directs the allocation of his or her contribution, and employer matching and discretionary profit sharing contributions to one or more of the 15 active investment options. Purchases and sales of securities are recorded on a trade date basis.

Administrative Expenses - Certain administrative expenses are to be paid by Plan forfeitures. Any excess of these certain administrative expenses are paid for by the Plan. The Company pays for any other administrative expenses not paid for by the Plan.

Risks and Uncertainties - The Plan provides for various investment options in any combination of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investments securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation - The financial statements have been prepared in compliance with the Department of Labor Rules and Regulations for reporting and disclosure under ERISA.

Basis of Accounting - The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates - The preparation of financial statements in conformity with accounting principals generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

FASB Codification - The Financial Accounting Standards Board (FASB) sets generally accepted accounting principles (GAAP) that the Plan follows to ensure consistent reporting of financial condition, results of operations, and cash flows. In June 2009, the FASB established the FASB Accounting Standards Codification (Codification) as the sole source of authoritative GAAP.

The Codification does not change how the Plan accounts for its transactions or the nature of the related disclosures made. The change was made effective by the FASB for periods ending on or after September 15, 2009. The adoption of the Codification did not impact the Plan's financial position and results of operations. The Plan has updated these financial statements to reflect the guidance in the Codification.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Reclassifications - The financial statements for the year ended December 31, 2009 reflect certain reclassifications, which have no effect on the statements of changes in net assets available for benefits, to conform to classifications adopted at the year ended December 31, 2010.

Subsequent Events - The Plan evaluated subsequent events through August 4, 2011, the date these financial statements were issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.

NOTE 4 - FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 4 - FAIR VALUE MEASUREMENTS (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value.

Pooled separate accounts: Common stock held in the pooled separate accounts are valued at closing price reported on the active market on which the individual securities are traded. Mutual funds held in the pooled separate accounts are valued at the net asset value (NAV) of shares held by the Plan at year end.

Unallocated contracts: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2010 and 2009:

	Assets at Fair Value as of December 31, 2010

NOTE 5 - INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Standard Insurance Company, the custodian of the Plan assets, has certified to the completeness and accuracy of:

- Investments and notes receivable from participants reflected on the accompanying Statements of Net Assets Available for Benefits as of December 31, 2010 and 2009.

- Net appreciation in fair value of investments, interest and dividends reflected on the accompanying Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2010 and 2009.

NOTE 6 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, so that each participant received 100% of his or her account balance as of the date of termination.

NOTE 7 - TAX STATUS

The Plan obtained its latest determination letter on March 6, 1997, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010 and 2009, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

NOTE 8 - PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by the Standard Insurance Company. Standard Insurance Company is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to $2,683 and $2,884 for the years ended December 31, 2010 and 2009, respectively. Additionally, notes receivable from participants are considered party-in-interest transactions.
