Note 1 - Description of the Plan

The following description of the Southwest Texas Equipment Distributors, Inc. Profit Sharing Plan (the Plan) provides only general information. Therefore, participants should refer to the Plan document or summary plan description for a complete description of the Plan's provisions.

General

The Plan is a defined contribution profit sharing plan available to all eligible full-time employees of Southwest Texas Equipment Distributors, Inc. dba Mission Restaurant Supply (the Company or Employer). The Plan is designed to comply with the Employee Retirement Income Security Act of 1974 (ERISA) and the Internal Revenue Code (IRC). In addition, the financial statements have been prepared in compliance with ERISA. The Plan is administered by the Company and the recordkeeper, the Standard Insurance Company, and the assets of the Plan are held by Reliance Trust Company (the Trustee).

Eligibility

All employees of the Company who are 21 years of age and have completed one year of service are eligible to participate in the Plan.

Employee contributions

Participants may elect to contribute up to 100% of their annual compensation, subject to IRS limitations.

Employer contributions

The Company makes matching contributions of 100% of the amount of the participant's elective deferrals up to 3% of the participant's compensation, plus an additional 50% of the participant's next 2% of elective deferrals. The Company may also make a discretionary profit sharing contribution to the Plan. The Company did not make a discretionary profit sharing contribution for the year ended December 31, 2010.

Participant accounts

Each participant's account is credited with the participant's contributions and an allocation of the Employer's contributions and Plan earnings or losses, and may be charged with an allocation of administrative expenses. Allocations of Plan earnings or losses are based on a participant's account balance in the various investment options as a percentage of the total of participants' account balances.

Note 1 - Description of the Plan - (Continued)

Vesting

Participants are immediately vested in their elective deferrals and any income or losses thereon. Participants vest in the Company's matching and discretionary contributions plus income or losses thereon, based on years of continuous service as follows:

Years of Service	Percent Vested
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Upon death or disability, the participant becomes 100% vested in the Company contributions. Upon reaching normal retirement age or six years in the Plan, the participant becomes 100% vested in Company contributions.

Payment of benefits

The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance. Upon death, disability, or retirement, a participant may elect to receive a lump-sum amount, a direct rollover to an eligible retirement plan, installments over a specified period of time, or a combination of a lump-sum cash payment and a direct rollover to an eligible retirement plan. Upon termination of employment a participant may elect a lump sum distribution or rollover to an eligible retirement plan.

Forfeitures

Forfeitures of nonvested account balances may be used to pay administrative expenses and to reduce Employer contributions. Unallocated forfeited accounts were approximately $3,000 as of December 31, 2009. There were no unallocated forfeited accounts at December 31, 2010.

Administrative expenses

Administrative expenses are generally paid by the Employer. However, the Plan may pay transaction fees which are allocated to the specific participants initiating the transactions.

Note 2 - Summary of Significant Accounting Policies

Investment options
Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers a menu of mutual fund options for investment.

Basis of accounting
The accompanying financial statements of the Plan have been prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (US GAAP).

Subsequent events
Management of the Plan has evaluated subsequent events through September 14, 2011, the date the financial statements were available to be issued.

Use of estimates
The preparation of the financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates. Significant items subject to such estimates and assumptions include the fair value of investments.

Risks and uncertainties
The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances.

Fair value of investments
Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. US GAAP also establishes a fair value hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Note 2 - Summary of Significant Accounting Policies - (Continued)

Fair value of investments - continued

Level 1: Quoted prices in active markets for identical assets or liabilities.

Level 2: Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

An asset or liability's classification within the fair value hierarchy is based on the lowest level of significant input to its valuation.

Fair value estimates are made at a specific point in time and the methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair value. Although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in different fair value measurements at the reporting date.

Investment valuation and income recognition

Investments of the Plan are reported at fair value. Purchases and sales of investments are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses for investments purchased and sold during the year.

Payment of benefits

Benefits paid to participants are recorded as a reduction of net assets available for benefits when paid.

Note 3 - Investments

Plan investments are held in mutual funds. Fair value is measured at the net asset value of shares held by the Plan at year end using Level 1 of the fair value hierarchy. There have been no changes in the methodologies used to measure fair value at December 31, 2010 and 2009. Individual investments comprising 5% or more of net asset available for benefits at the date reported are indicated by an "*". Plan investments are comprised of the following at December 31:

	2010		2009	
DFA International Core Equity Portfolio	**$ 632,234**	*	$ 430,833	*

Note 4 - Information Certified by the Trustee (Unaudited)

The plan administrator has elected the method of annual reporting permitted by Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Reliance Trust Company, except for comparing such information certified by the Trustee to information included in the Plan's financial statements and supplemental schedule. The Trustee has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate as of and for the year ended December 31:

Note 4 - Information Certified by the Trustee (Unaudited) - (Continued)

		2010		2009
Investments at fair value:				
Mutual funds	**$**	**4,277,330**	$	3,058,586
Short term investments		**-**		181,197
	$	**4,277,330**	$	3,239,783

The Trustee also certified the completeness and accuracy of $87,590 of interest and dividend income and $499,271 of net appreciation in fair value of investments for the year ended December 31, 2010.

Note 5 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to provisions of ERISA. In the event of Plan termination, participants would become fully vested in their accounts.

Note 6 – Income Tax Status

Effective March 31, 2008, the Employer amended the Plan and adopted the Volume Submitter Plan sponsored by Sungard Corbell LLC which had previously received an opinion letter from the Internal Revenue Service dated December 22, 2005, that states that the Volume Submitter Plan, as then designed, qualifies under Section 401(a) of the Internal Revenue Code (IRC). The Plan has not received a determination letter specific to the Plan itself; however, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 7 - Party-In-Interest Transactions

Parties-in-interest are defined under Department of Labor Regulations as any fiduciary of the Plan, any party rendering services to the Plan, the Employer, and certain others. As such, transactions conducted by Reliance Trust Company and the Standard Insurance Company and their affiliates qualify as party-in-interest transactions.
