To the Pension Administration Committee
Tarkett Alabama Inc. Retirement and Savings Plan
Whitehall, Pennsylvania

We were engaged to audit the accompanying statements of net assets available for benefits of Tarkett Alabama Inc. Retirement and Savings Plan (the Plan) as of December 31, 2010 and 2009, and the related statement of changes in net assets available for benefits for the year ended December 31, 2010, and the supplemental schedule of assets (held at end of year) as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3 which was certified or provided by Fidelity Management Trust Company, the trustee of the Plan, except for comparing this information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the trustee holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the trustee regarding the completeness and accuracy of the information summarized in Note 3 that was provided to the Plan Administrator by the trustee as of and for the year ended December 31, 2010, and as of December 31, 2009.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

As described in Note 2, the Plan adopted Financial Accounting Standards Board Accounting Standards Update 2010-25, *Plan Accounting - Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans*, as of December 31, 2010, which clarifies how loans to participants should be classified and measured. This Update was retrospectively applied to December 2009.

Tarkett Alabama Inc. Retirement and Savings Plan

Notes to Financial Statements

Note 1. Description of the Plan

The following brief description of the Tarkett Alabama Inc. Retirement and Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan for any employee of Tarkett Alabama, Inc. (the "Company"), who is a member of the United Steel Workers of America International Union, AFL-CIO-CLC and its Local No. 481. The Plan provides for employer contributions (non-contributory portion of the Plan) and allows for voluntary contributions from employees (contributory portion of the Plan). Salaried, administrative, or clerical employees are not eligible to participate in the Plan. The Plan provides for death, disability and early retirement benefits. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Under the non-contributory portion of the Plan, the Company contributed an amount equal to \$0.70 for each hour worked during 2010 totaling \$143,464 for the year ended December 31, 2010. Each year participants may make salary deferral contributions as a percentage of annual compensation, as defined. The Company will match contributions each year, at a rate of \$0.40 per each dollar contributed by the employee, up to a maximum of 6% of eligible compensation contributed to the Plan. For the year ended December 31, 2010, the Company match equaled \$50,155.

Participant Accounts: Each participant's account is credited with the participant's contribution, the Company's matching contribution and allocations of (a) the non-contributory contribution, if any, and (b) Plan earnings and charged with Plan losses, distributions and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Under the non-contributory portion of the Plan, participants are entitled to 25% of their account balance after three years of service, increasing to 40% after the fourth year and in increments of 20% annually thereafter until 100% vesting is attained after seven years of service for non-elective employer contributions. For matching employer contributions under the contributory portion of the Plan, participants are entitled to 20% of their account balance after two years of service and continue vesting ratably until 100% is attained after six years of service.

Investment Options: Participants must direct their salary deferral contributions, plus actual earnings thereon and employer contributions to selected investments as made available and determined by the Plan Administrator. Participants may change their investment options at any time using a voice response system or the internet.

Payment of Benefits: On termination of service due to death, disability, retirement or for any other reason, the participant or beneficiary may request a distribution equal to the value of the participant's vested interest in his or her account upon proper direction delivered to the Trustee. A participant may elect to receive a lump-sum amount, installment payments equal to the value of his account, or a life annuity with monthly payments payable during the lifetime of the participant and/or his spouse. A participant may also elect to receive in-service distributions under the Plan upon the attainment of age 59 1/2. Hardship withdrawals of elective contributions are permitted.

Forfeitures: If the participant terminates his or her employment, the non-vested portion of his or her employer account is forfeited. Forfeited balances of terminated participants' non-vested accounts were used to reduce Company contributions in the amount of \$26,436 for the year ended December 31, 2010. As of December 31, 2010 and 2009, forfeited non-vested balances were \$4,141 and \$22,202, respectively.

Tarkett Alabama Inc. Retirement and Savings Plan

Notes to Financial Statements

Note 1. Description of the Plan (Continued)

Notes from Participants: Participants may borrow from their fund accounts up to a maximum of \$50,000, not to exceed 50% of their vested account balance. The notes are secured by the balances in the participants' account and bear interest rates ranging from 4.5% to 10%. To the extent that participants leave the Company and default on their notes, the Company is required to process the outstanding balances as distributions from the Plan. Principal and interest is repaid ratably through payroll deductions or alternative methods.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting: The financial statements of the Plan are prepared using the accrual basis of accounting.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Notes from Participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes are treated as distributions based upon the terms of the plan document.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Net Appreciation (Depreciation) in Fair Value of Investments: The Plan presents in the statement of changes in net assets available for benefits the net appreciation (depreciation) in the fair value of investments, which consists of the net realized gains or losses and the unrealized appreciation or depreciation on these investments.

Payment of Benefits: Benefit payments to participants are recorded upon distribution.

Administrative Expenses: Accounting costs of the Plan are paid by the Company. Investment management fees and most other administrative fees are paid by the Plan.

Income Taxes: Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state or local tax authorities for years before 2007.

Note 2. Summary of Significant Accounting Policies (Continued)

Recent Accounting Developments: In September 2010, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2010-25, *Plan Accounting-Defined Contribution Pension Plans: Reporting Loans to Participants by Defined Contribution Pension Plans*, ("ASU 2010-25") which amended ASC Topic 962, *Plan Accounting – Defined Contribution Pension Plans*, adding new disclosure requirements for participant loans. ASU 2010-25 requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. ASU 2010-25 is effective for periods ending after December 15, 2010, with early adoption permitted. This amendment was adopted for the year ended December 31, 2010, and retrospectively applied to December 31, 2009. Prior year amounts and disclosures have been revised to reflect the retrospective application. The adoption resulted in a reclassification of participant loans totaling \$293,689 and \$284,826 as of December 31, 2010 and 2009, respectively, from investments to notes receivable. There was no impact to the net assets available for benefits as a result of the adoption.

In January 2010, the FASB issued an amendment to ASC Topic 820, *Fair Value Measurements and Disclosures*. This amendment requires new disclosures regarding significant transfers in and out of Level 1 and 2 fair value measurements and the reasons for the transfers. This amendment also requires that a reporting entity present separately information about purchases, sales, issuances and settlements, on a gross basis rather than a net basis for activity in Level 3 fair value measurements using significant unobservable inputs. This amendment also clarifies existing disclosures on the level of disaggregation, in that the reporting entity needs to use judgment in determining the appropriate classes of assets and liabilities, and that a reporting entity should provide disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements for Level 2 and 3. The new disclosures and clarifications of existing disclosures for ASC 820 are effective for reporting periods beginning after December 15, 2009, except for the disclosures about purchases, sales, issuances and settlements in the roll forward of activity in Level 3 fair value measurements. Those disclosures are effective for fiscal years beginning after December 15, 2010. The adoption of the applicable amendments did not have a material effect on the Plan's financial statements.

In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs* ("ASU 2011-04"). ASU 2011-04 amended ASC 820, *Fair Value Measurements and Disclosures*, to converge the fair value measurement guidance in U.S. generally accepted accounting principles ("GAAP") and International Financial Reporting Standards ("IFRS"). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures, although certain of these new disclosures will not be required for nonpublic entities. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

Subsequent Events: The Plan Administrator has evaluated subsequent events (events occurring after December 31, 2010) through September 9, 2011, which represents the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by Fidelity Management Trust Company

The following is a summary of the Plan's asset information as of December 31, 2010 and 2009, and for the year ended December 31, 2010, included in the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that the information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

	2010	2009
Investments at fair value:		
Registered investment companies	\$ 3,864,171	\$ 3,178,635

Note 5. Fair Value Measurements

ASC Topic 820, *Fair Value Measurements and Disclosures* ("ASC 820"), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

An asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Registered investment companies: Valued at fair value based on the quoted market price of the fund.

Common collective trust: Based on the fair value of the trust's underlying investments as based on the information reported by the trustee and then adjusted to contract value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5. Fair Value Measurements (Continued)

The table below sets forth additional disclosures of the Plan's investments whose fair value is estimated using net asset value per share (or its equivalent) as of December 31, 2010 and 2009:

Investment	2010			
	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Stable value fund (a)	<u>\$ 635,852</u>	<u>\$ -</u>	Immediate	None

Investment	2009			
	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Stable value fund (a)	<u>\$ 626,617</u>	<u>\$ -</u>	Immediate	None

- (a) Stable value fund: The fund's objective is to seek the preservation of capital and to provide a competitive level of income over that time is consistent with the preservation of capital. To achieve this investment objective, the fund invests in assets consisting of fixed-income securities or bond funds and may include derivative instruments such as futures contracts and swap agreements and enters into wrapper contracts issued by third-parties and investments in cash equivalents represented by shares in a money market fund. The fund is exposed to wrap credit risk and responds to this through diversification of wrap contracts across an approved group of issuers.

Note 6. Risks and Uncertainties

The Plan's assets are exposed to various risks such as credit, interest rate and market risks.

Credit risk arises from the potential for an issuer or other counterparty to default on its contractual obligations to the Plan. Investments are recorded at fair value. This represents the maximum credit risk exposure of the Plan.

Interest rate risk refers to the impact of interest rate changes on the Plan's financial position. Interest rate changes directly impact the fair value or fixed income securities held in the Plan. Interest rate changes will also have an indirect impact on the other assets in the Plan.

Market risk is the risk that the market value of an investment will fluctuate as a result of changes in market price.

Due to the level of risk associated with certain investment transactions, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statement of net assets available for benefits.

Tarkett Alabama Inc. Retirement and Savings Plan

Notes to Financial Statements

Note 7. Income Tax Status

The Plan adopted a Prototype Standardized Profit Sharing Plan sponsored by Fidelity Management Trust Company with a cash or deferral arrangement. The Plan received a favorable opinion letter from the Internal Revenue Service on April 17, 2008, which stated that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is designed and being operated in compliance with the applicable requirements of the IRC.

Note 8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their employer accounts.

Note 9. Party-in-Interest Transactions

Certain Plan investments are invested in funds managed by Fidelity Investments, an affiliate of the Plan's trustee. Therefore, these transactions qualify as party-in-interest transactions. In addition, notes from participants outstanding are also considered party-in-interest transactions.

Note 10. Reconciliation to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2010 and 2009 to Form 5500:

Tarkett Alabama Inc. Retirement and Savings Plan
Whitehall, Pennsylvania

We were engaged to audit the accompanying statements of net assets available for benefits of Tarkett Alabama Inc. Retirement and Savings Plan (the Plan) as of December 31, 2010 and 2009, and the related statement of changes in net assets available for benefits for the year ended December 31, 2010, and the supplemental schedule of assets (held at end of year) as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3 which was certified or provided by Fidelity Management Trust Company, the trustee of the Plan, except for comparing this information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the trustee holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the trustee regarding the completeness and accuracy of the information summarized in Note 3 that was provided to the Plan Administrator by the trustee as of and for the year ended December 31, 2010, and as of December 31, 2009.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

As described in Note 2, the Plan adopted Financial Accounting Standards Board Accounting Standards Update 2010-25, *Plan Accounting - Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans*, as of December 31, 2010, which clarifies how loans to participants should be classified and measured. This Update was retrospectively applied to December 2009.

Tarkett Alabama Inc. Retirement and Savings Plan

Notes to Financial Statements

Note 1. Description of the Plan

The following brief description of the Tarkett Alabama Inc. Retirement and Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan for any employee of Tarkett Alabama, Inc. (the "Company"), who is a member of the United Steel Workers of America International Union, AFL-CIO-CLC and its Local No. 481. The Plan provides for employer contributions (non-contributory portion of the Plan) and allows for voluntary contributions from employees (contributory portion of the Plan). Salaried, administrative, or clerical employees are not eligible to participate in the Plan. The Plan provides for death, disability and early retirement benefits. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Under the non-contributory portion of the Plan, the Company contributed an amount equal to \$0.70 for each hour worked during 2010 totaling \$143,464 for the year ended December 31, 2010. Each year participants may make salary deferral contributions as a percentage of annual compensation, as defined. The Company will match contributions each year, at a rate of \$0.40 per each dollar contributed by the employee, up to a maximum of 6% of eligible compensation contributed to the Plan. For the year ended December 31, 2010, the Company match equaled \$50,155.

Participant Accounts: Each participant's account is credited with the participant's contribution, the Company's matching contribution and allocations of (a) the non-contributory contribution, if any, and (b) Plan earnings and charged with Plan losses, distributions and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Under the non-contributory portion of the Plan, participants are entitled to 25% of their account balance after three years of service, increasing to 40% after the fourth year and in increments of 20% annually thereafter until 100% vesting is attained after seven years of service for non-elective employer contributions. For matching employer contributions under the contributory portion of the Plan, participants are entitled to 20% of their account balance after two years of service and continue vesting ratably until 100% is attained after six years of service.

Investment Options: Participants must direct their salary deferral contributions, plus actual earnings thereon and employer contributions to selected investments as made available and determined by the Plan Administrator. Participants may change their investment options at any time using a voice response system or the internet.

Payment of Benefits: On termination of service due to death, disability, retirement or for any other reason, the participant or beneficiary may request a distribution equal to the value of the participant's vested interest in his or her account upon proper direction delivered to the Trustee. A participant may elect to receive a lump-sum amount, installment payments equal to the value of his account, or a life annuity with monthly payments payable during the lifetime of the participant and/or his spouse. A participant may also elect to receive in-service distributions under the Plan upon the attainment of age 59 1/2. Hardship withdrawals of elective contributions are permitted.

Forfeitures: If the participant terminates his or her employment, the non-vested portion of his or her employer account is forfeited. Forfeited balances of terminated participants' non-vested accounts were used to reduce Company contributions in the amount of \$26,436 for the year ended December 31, 2010. As of December 31, 2010 and 2009, forfeited non-vested balances were \$4,141 and \$22,202, respectively.

Tarkett Alabama Inc. Retirement and Savings Plan

Notes to Financial Statements

Note 1. Description of the Plan (Continued)

Notes from Participants: Participants may borrow from their fund accounts up to a maximum of \$50,000, not to exceed 50% of their vested account balance. The notes are secured by the balances in the participants' account and bear interest rates ranging from 4.5% to 10%. To the extent that participants leave the Company and default on their notes, the Company is required to process the outstanding balances as distributions from the Plan. Principal and interest is repaid ratably through payroll deductions or alternative methods.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting: The financial statements of the Plan are prepared using the accrual basis of accounting.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Notes from Participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes are treated as distributions based upon the terms of the plan document.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Net Appreciation (Depreciation) in Fair Value of Investments: The Plan presents in the statement of changes in net assets available for benefits the net appreciation (depreciation) in the fair value of investments, which consists of the net realized gains or losses and the unrealized appreciation or depreciation on these investments.

Payment of Benefits: Benefit payments to participants are recorded upon distribution.

Administrative Expenses: Accounting costs of the Plan are paid by the Company. Investment management fees and most other administrative fees are paid by the Plan.

Income Taxes: Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state or local tax authorities for years before 2007.

Tarkett Alabama Inc. Retirement and Savings Plan

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Recent Accounting Developments: In September 2010, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2010-25, *Plan Accounting-Defined Contribution Pension Plans: Reporting Loans to Participants by Defined Contribution Pension Plans*, ("ASU 2010-25") which amended ASC Topic 962, *Plan Accounting – Defined Contribution Pension Plans*, adding new disclosure requirements for participant loans. ASU 2010-25 requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. ASU 2010-25 is effective for periods ending after December 15, 2010, with early adoption permitted. This amendment was adopted for the year ended December 31, 2010, and retrospectively applied to December 31, 2009. Prior year amounts and disclosures have been revised to reflect the retrospective application. The adoption resulted in a reclassification of participant loans totaling \$293,689 and \$284,826 as of December 31, 2010 and 2009, respectively, from investments to notes receivable. There was no impact to the net assets available for benefits as a result of the adoption.

In January 2010, the FASB issued an amendment to ASC Topic 820, *Fair Value Measurements and Disclosures*. This amendment requires new disclosures regarding significant transfers in and out of Level 1 and 2 fair value measurements and the reasons for the transfers. This amendment also requires that a reporting entity present separately information about purchases, sales, issuances and settlements, on a gross basis rather than a net basis for activity in Level 3 fair value measurements using significant unobservable inputs. This amendment also clarifies existing disclosures on the level of disaggregation, in that the reporting entity needs to use judgment in determining the appropriate classes of assets and liabilities, and that a reporting entity should provide disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements for Level 2 and 3. The new disclosures and clarifications of existing disclosures for ASC 820 are effective for reporting periods beginning after December 15, 2009, except for the disclosures about purchases, sales, issuances and settlements in the roll forward of activity in Level 3 fair value measurements. Those disclosures are effective for fiscal years beginning after December 15, 2010. The adoption of the applicable amendments did not have a material effect on the Plan's financial statements.

In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs* ("ASU 2011-04"). ASU 2011-04 amended ASC 820, *Fair Value Measurements and Disclosures*, to converge the fair value measurement guidance in U.S. generally accepted accounting principles ("GAAP") and International Financial Reporting Standards ("IFRS"). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures, although certain of these new disclosures will not be required for nonpublic entities. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

Subsequent Events: The Plan Administrator has evaluated subsequent events (events occurring after December 31, 2010) through September 9, 2011, which represents the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by Fidelity Management Trust Company

The following is a summary of the Plan's asset information as of December 31, 2010 and 2009, and for the year ended December 31, 2010, included in the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that the information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

	2010	2009
Investments at fair value:		
Registered investment companies	\$ 3,864,171	\$ 3,178,635

Notes from participants	293,689	284,826
	<u>\$ 4,793,712</u>	<u>\$ 4,090,078</u>

Fidelity Management Trust Company also certified to the completeness and accuracy of \$411,240 of net appreciation in fair value of investments and \$113,231 of interest and dividends related to the aforementioned plan assets for the year ended December 31, 2010.

Note 4. Investments, at Fair Value

Investments that represent 5% or more of the Plan's net assets available for benefits are as follows:

	2010	2009
Common collective trust, at contract value:		
Fidelity Managed Income Portfolio **	\$ 630,682	\$ 638,269
Registered investment companies, at fair value:

Fidelity Freedom 2030 Fund	358,182	239,636

* Investment balance does not exceed 5% of net assets available for benefits in the year indicated

** The fair value of the Fidelity Managed Income Portfolio was \$635,852 and \$626,617 as of December 31, 2010 and 2009, respectively.

Tarkett Alabama Inc. Retirement and Savings Plan

Notes to Financial Statements

Note 5. Fair Value Measurements

ASC Topic 820, *Fair Value Measurements and Disclosures* ("ASC 820"), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

An asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Registered investment companies: Valued at fair value based on the quoted market price of the fund.

Common collective trust: Based on the fair value of the trust's underlying investments as based on the information reported by the trustee and then adjusted to contract value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5. Fair Value Measurements (Continued)

The table below sets forth additional disclosures of the Plan's investments whose fair value is estimated using net asset value per share (or its equivalent) as of December 31, 2010 and 2009:

Investment	2010			
	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Stable value fund (a)	<u>\$ 635,852</u>	<u>\$ -</u>	Immediate	None

Investment	2009			
	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Stable value fund (a)	<u>\$ 626,617</u>	<u>\$ -</u>	Immediate	None

- (a) Stable value fund: The fund's objective is to seek the preservation of capital and to provide a competitive level of income over that time is consistent with the preservation of capital. To achieve this investment objective, the fund invests in assets consisting of fixed-income securities or bond funds and may include derivative instruments such as futures contracts and swap agreements and enters into wrapper contracts issued by third-parties and investments in cash equivalents represented by shares in a money market fund. The fund is exposed to wrap credit risk and responds to this through diversification of wrap contracts across an approved group of issuers.

Note 6. Risks and Uncertainties

The Plan's assets are exposed to various risks such as credit, interest rate and market risks.

Credit risk arises from the potential for an issuer or other counterparty to default on its contractual obligations to the Plan. Investments are recorded at fair value. This represents the maximum credit risk exposure of the Plan.

Interest rate risk refers to the impact of interest rate changes on the Plan's financial position. Interest rate changes directly impact the fair value or fixed income securities held in the Plan. Interest rate changes will also have an indirect impact on the other assets in the Plan.

Market risk is the risk that the market value of an investment will fluctuate as a result of changes in market price.

Due to the level of risk associated with certain investment transactions, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statement of net assets available for benefits.

Note 7. Income Tax Status

The Plan adopted a Prototype Standardized Profit Sharing Plan sponsored by Fidelity Management Trust Company with a cash or deferral arrangement. The Plan received a favorable opinion letter from the Internal Revenue Service on April 17, 2008, which stated that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is designed and being operated in compliance with the applicable requirements of the IRC.

Note 8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their employer accounts.

Note 9. Party-in-Interest Transactions

Certain Plan investments are invested in funds managed by Fidelity Investments, an affiliate of the Plan's trustee. Therefore, these transactions qualify as party-in-interest transactions. In addition, notes from participants outstanding are also considered party-in-interest transactions.
