1. DESCRIPTION OF THE PLAN

The following description of the Pollock 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established by Pollock Investments, Inc. (the "Company") under the provision of Section 401(a) of the United States Internal Revenue Code ("IRC"), which includes a qualified cash or deferred arrangement as described in section 401(k) of the IRC, for the benefit of eligible employees of the Company.

All employees of the Company who have completed six months of service, as defined, are eligible to participate, provided they are at least 21 years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

The Plan is administered by the Pension Committee which is appointed by the board of directors of the Company. The duties of the Plan Administrator are to oversee the operations and administration of the Plan in accordance with the specific terms of the Plan, provide for prudent investment of Plan assets and keeping accurate records and reports. The Plan's Trustee, State Street Bank & Trust Company, is responsible for the custody and management of the Plan's assets.

Contributions

Each year, participants may contribute up to 100 percent of pretax annual compensation, as defined in the Plan, subject to a maximum contribution as required under Section 402(g) of the Code. Participants who have attained age 50 are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other eligible retirement plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company contributes 100 percent of employee pretax contributions, not to exceed 3 percent of eligible compensation plus 50 percent of employee pretax contributions that exceed 3 percent of eligible compensation not to exceed 5 percent of the eligible compensation.

Participant Accounts

Individual accounts are maintained for each of the Plan's participants to reflect the participant's contributions and related employer matching contributions, as well as the Participant's share of investment income, appreciation (depreciation) and any related administrative expenses.

The participant determines both the amount to be invested and the allocation of the investment to one or more of the investment funds. The benefit to which a Participant is entitled is limited to the amount of the Participant's vested account balance.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of vesting service. Effective January 1, 2006, all employer contributions are immediately vested. For employer contributions made prior to January 1, 2006, a participant is 100 percent vested after five years of credited service. Participants who leave the Company before they are fully vested in the Company's contributions forfeit their non-vested portion.

Investment Options

Upon enrollment in the Plan, a participant may direct the contributions made to the Plan to any one or more of the investment funds determined at the discretion of the Plan Administrator and in such multiples as the participant prescribes. A participant may change his or her investment direction with respect to future contributions or redirect the investment of his or her account balances.

1. DESCRIPTION OF THE PLAN (Continued)

Payment of Benefits

On retirement, death, disability, or termination of service, a participant (or participant's beneficiary in the event of death) may leave their account in the Plan or may elect to receive a single lump-sum payment in cash or may elect to receive installments. However, a participant with an account balance of $5,000 or less may only receive a single lump-sum payment in cash. Participants are allowed to withdraw employee account balances prior to termination of their employment under certain conditions as specified in the Plan. Participants may not make contributions for at least six months after the receipt of the hardship distribution. Benefits are recorded when paid.

Forfeited Accounts

At December 31, 2010 and 2009 forfeited non-vested accounts totaled $3,480 and $324, respectively. These accounts will be used to reduce future employer contributions or reallocated to participants in the same manner as employer contributions. During the years ended December 31, 2010 and 2009, employer contributions were reduced by $0 and $5,614 from forfeited non-vested accounts.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements is as follows:

Basis of Accounting and Use of Estimates

The accompanying financial statements are prepared on the accrual basis of accounting. In preparing financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP"), the Plan's management is required to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are stated at fair value. Changes in market value are reflected in operations. Mutual funds and common/collective trusts represent investments with various investment managers. The respective fair values of these investments are determined by reference to the funds' underlying assets, which are principally marketable equity and fixed income securities. Shares held in mutual funds are traded on national securities exchanges and are valued at the net asset value at year end. Units held in common/collective trusts are valued at the unit value as reported by the investment managers at year end. Interest and other income are recorded on the accrual basis.

Purchases and sales of investments are recorded on the trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis.

The Stable Fund (common collective trust) consists primarily of investments in short-term bonds and other fixed income securities, mortgage backed securities and derivative instruments. The Stable Value Fund also purchases third party wrap contracts and investment contracts offered by insurance companies and other approved financial institutions that provide for the payment of a specified rate of interest. The Stable Value Fund is considered to be fully benefit-responsive, and the wrap and investment contracts in the fund assure that payments will be made for participant directed withdrawals at contract value. In determining the net assets available for benefits, the Stable Value Fund is included in the accompanying statements of net assets available for benefits at contract value, which represents contributions made under the contract plus earnings, less withdrawals and administrative expenses.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition (Continued)

Investment contracts are generally valued at contract value, rather than fair value, to the extent it is fully benefit-responsive. The average yield to maturity and crediting interest rate for the fund was approximately 3.00% and 3.75% at December 31, 2010 and 2009, respectively. This represents the annualized earnings of all investments in the Fund, including the earnings recorded at the underlying collective trust funds, divided by the fair value of all investments in the Fund at December 31, 2010 and 2009, respectively.

Net Appreciation in the Fair Value of Investments

Net appreciation in fair value of investments includes realized and unrealized investment gains and losses.

Brokerage fees, if any, are added to the acquisition costs of assets purchased and subtracted from the proceeds of assets sold.

Administrative Expenses

Certain administrative expenses of the Plan are paid by the Plan. The remaining administrative expenses are paid by the Company.

3. INVESTMENTS

* This schedule reflects the fair value. The contract value of this investment was $2,662,889 and $2,789,948 at December 31, 2010 and 2009, respectively.

4. INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the United States Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA.

4. INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE (Continued)

The Trustee has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate as of and for the years ended December 31,

	2010	2009
Investments at fair value:

* The Plan administrator certified this investment at contract value. The fair value of this investment was $2,614,159 and $2,751,168 at December 31, 2010 and 2009, respectively.

The Plan's independent accountants did not perform any auditing procedures with respect to this information, except for comparing such information to the related information included in the accompanying financial statements and supplemental schedule.

5. FAIR VALUE OF INVESTMENTS

Under GAAP a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under the authoritative guidance are as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of the observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2010 and 2009.

Mutual funds: Valued at the net asset value of shares held by the Plan at year end.

Common/collective trust: Valued based on information using the audited financial statements of the collective trust at year end.

5. FAIR VALUE OF INVESTMENTS (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value on a recurring basis as of December 31 2010:

	Level 1	Level 2	Level 3	Total
Mutual funds				
Asset allocation funds	$ 3,757,888	$ -	$ -	$ 3,757,888

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value on a recurring basis as of December 31 2009:

Purchases, sales, issuances and settlements (net)	(137,009)	498,132
Balance, end of year	$ 2,614,159	$ 2,751,168

6. REPORTABLE TRANSACTIONS

During the years ended December 31, 2010 and 2009, there were no reportable transactions, investments both acquired and disposed of during the Plan year, leases in default or classified as uncollectable or non-exempt transactions which would require supplemental presentation under the DOL's Rules and Regulations.

7. PARTY-IN-INTEREST TRANSACTIONS

The Plan's investments are shares of mutual funds and units of common/collective trust funds which are managed by Transamerica Partners Funds Group and Transamerica Asset Allocation Funds. Transamerica is a company affiliated with Diversified Investment Advisors, Inc. Diversified Investment Advisors, Inc. is the Plan's record keeper and, therefore, these transactions qualify as party-in-interest transactions.

8. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA and the IRC. In the event of plan termination, participants will become 100% vested in their accounts.

9. TAX STATUS OF THE PLAN

The Company has adopted the Fidelity Investments Defined Contribution Prototype Plan and Trust. The IRS has issued an opinion letter dated October 26, 2007 stating that the plan is acceptable under section 401 of the IRC for use by employers for the benefit of their employees. The Company is relying on the opinion letter (in accordance with Announcement 2001-77) that the Plan meets the qualification requirements of the IRC. Although the Plan has been amended since receiving the opinion letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010 there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2007.

10. RISKS AND UNCERTAINTIES

The Plan provides for investments in various investment securities which, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Further, due to the level of risk associated with certain investment securities, it is at least reasonably possible that change in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Recent market conditions have resulted in an unusually high degree of volatility and increased the risks and affected the short term liquidity associated with certain investments held by the Plan which could impact the value of investments after the date of these financial statements. Because the values of individual investments fluctuate with market conditions, the amount of gains or losses that will be recognized in subsequent periods, if any, cannot be determined.

11. NEW ACCOUNTING PRONOUNCEMENTS

In January 2010, the FASB issued Accounting Standards Update 2010-06, Improving Disclosures about Fair Value Measurements ("ASU 2010-06"). ASU 2010-06 amended Accounting Standards Codification ("ASC") 820, Fair Value Measurements and Disclosures ("ASC 820"), to clarify certain existing fair value disclosures and to require a number of additional disclosures. The guidance in ASU 2010-06 clarified that disclosures should be presented separately for each "class" of assets and liabilities measured at fair value and provided guidance on how to determine the appropriate classes of assets and liabilities to be presented. ASU 2010-06 also clarified the requirement for entities to disclose information about both the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements. In addition, ASU 2010-06 introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2, and 3 of the fair value hierarchy and to present information regarding the purchases, sales, issuances, and settlements of Level 3 assets and liabilities on a gross basis. ASU No. 2010-06 is effective for periods beginning after December 15, 2009, except for the requirement to provide Level 3 activity of purchases, sales, issuances, and settlements on a gross basis, which will be effective for fiscal years beginning after December 15, 2010. The adoption of this new guidance has not and will not have a significant impact on the Plan's net assets available for benefits or its changes in net assets available for benefits, as changes are related to the fair value measurement disclosures.

12. SUBSEQUENT EVENTS

Management has evaluated subsequent events through September 20, 2011, the date the financial statements were available to be issued.
