MILLER-VALENTINE RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE A - DESCRIPTION OF PLAN

The following description of the **Miller-Valentine Retirement Savings Plan** (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan for all eligible employees of Miller-Valentine of Dayton, Ltd., MV Commercial Construction LLC, MV Realty, Inc., MV Commercial Property Management LTD., Wellgate Operations LLC, One Lincoln Park LLC, Lincoln Park Manor LLC, MV Residential Property Management, Inc., MV Residential Construction, Inc., MV Residential Development LLC, MV Commercial Development LLC, MV Services LLC, and South Dayton Management LLC (the "Company") and excludes temporary employees, leased employees and those covered by a collective bargaining agreement. Owners of the Company are eligible to make elective deferrals; however, they are not eligible for profit sharing and matching contributions. Employees are eligible to make elective deferrals after 90 days of service, beginning on the next quarterly entry date, and having attained age 18. Employees are also eligible to receive profit sharing and matching contributions after one year of service, at least 1,000 hours of service, and if they are at least 18 years of age. Employees are automatically enrolled in the Plan after meeting eligibility requirements unless they elect not to participate. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - The Plan provides for employee salary deferrals up to the Internal Revenue Code Section 402(g) limit. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Matching contributions by the Company are allowed at the discretion of the Board of Directors of the Company. Effective January 1, 2009, the Plan was amended to allow the Company to determine the rate of employer matching contributions for each division separately. Effective March 13, 2009, the employer matching contribution for certain divisions of the Company was suspended. The employer matching contribution for certain other divisions of the Company was not changed. The Company match for the years ended December 31, 2010 and 2009 was 50% of the elective deferrals that a participant contributes to the Plan up to 4% of the employee's annual compensation. The Company, upon approval of the board of directors, may also make additional discretionary profit sharing contributions to the Plan. Profit sharing contributions are allocated proportionate to the eligible individual's compensation for the year. Participants must be employed on the last day of the Plan year, unless separated due to death, retirement or total and permanent disability, to be eligible for profit sharing contributions. For the years ended December 31, 2010 and 2009, the Company did not make a discretionary contribution to the Plan.

Forfeitures - Forfeitures will first be applied to restore any forfeitures for vested balances on rehired participants meeting the break-in-service rules. Next, the remainder, if any, of such balance shall be used to pay Plan expenses or allocated as though it were an employer contribution. Forfeitures, which were invested in the Vanguard Prime Money Market Fund for the years ended December 31, 2010 and 2009, are reallocated at any time during the Plan year upon request of the Plan administrator. Total forfeitures allocated for the years ended December 31, 2010 and 2009 were \$18,677 and \$58,402, respectively. Unallocated forfeitures at December 31, 2010 and 2009 were \$926 and \$1,394, respectively.

Participant Accounts - MG Trust Company, LLC ("Trust") is the trustee and custodian of Plan investments. The Trust maintains the self-directed investment accounts for each participant's contributions, Company contributions, net earnings or losses, forfeitures, distributions and withdrawals. Company contributions are allocated based on participants' contributions or account balances as defined by the Plan Agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Each participant directs both separately, and distinctly, into which investment the participant contribution and employer match is to be invested.

MILLER-VALENTINE RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE A - DESCRIPTION OF PLAN - continued

Vesting - Participants are immediately vested in their voluntary contributions, rollover balances, and corresponding earnings. The following schedule will be used to determine vesting in the employer matching contributions, company profit sharing contributions, and related earnings.

<u>Completed Years of Service</u>	<u>Vesting Percentages</u>
Fewer than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

The Plan was amended to fully vest any participant, regardless of years of service, that was involuntarily terminated on or after November 1, 2008, due to reductions in workforce.

Distributions - Upon termination of service by reason of retirement, death, permanent disability, or otherwise, participants or designated beneficiaries may elect to receive their vested balance either in a lump-sum amount or payments over a period of time in cash installments or in a form agreeable to the Plan administrator. If the participant's account balance is \$1,000 or less, the Plan administrator may elect to automatically distribute to the participant in a single-sum payment upon termination. The Plan administrator may also rollover participant balances greater than \$1,000, but less than \$5,000 into an IRA if the participant does not elect to rollover or receive payment of their balance. The IRA must be invested in an investment vehicle designed to preserve principal and provide a reasonable rate of return and liquidity. In addition, participants may receive distributions of the employee deferral amount for qualified financial hardships.

Participant Loans - Participants may borrow from the Plan in any amount between \$1,000 and \$50,000, but not more than 50% of their vested account balance. Participants may only have two loans outstanding at any given time. Loans bear interest at prevailing market rates plus one percent on the date the participant's loan application is processed. Loan terms are for a period not exceeding five years. A longer term may be approved by the Plan if proceeds are to be used for the purchase of a primary residence. Loans are secured by the balance in the participants' accounts. Principal and interest are paid ratably through payroll deductions.

Investment Options - Upon enrollment in the Plan, a participant may currently direct contributions in any of 24 investment options in increments of one percent. Participants may change their investment options any time via telephone or web site.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The Plan prepares its financial statements using the accrual basis of accounting.

Financial Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's administrator to make estimates and assumptions that affect the reported amounts of net assets and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

MILLER-VALENTINE RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

Benefit-Responsive Investment Contracts - Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits are prepared using the contract value.

Investment Valuation and Income Recognition - The Plan's investments are stated at fair value determined by quoted market prices in an active market, of the underlying funds, which represent the net asset value of shares held by the Plan. See Note F for discussion of fair value measurements. Unrealized appreciation and depreciation are calculated by comparing fair value to cost. Security transactions are recorded on a trade date basis. Gains and losses are computed using the specific identification method. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis.

Participant Loans Receivable - Loans receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. A valuation allowance is established for any delinquent participant loans that are considered to be uncollectible. The valuation allowance considered necessary for participant loans at December 31, 2010 and 2009 was \$0 and \$17,386, respectively.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Payment of Benefits - Benefits are recorded when paid.

Plan Expenses - The administrative fees of the Plan are paid for by the Plan participants. The Plan sponsor provides certain accounting, record keeping, and administrative services to the Plan for which it receives no compensation.

Accounting for Uncertainty in Income Taxes - Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

Subsequent Events - In preparing these financial statements, the Company has evaluated events and transactions for potential recognition or disclosure through September 27, 2011, the date the financial statements were available to be issued.

Reclassifications - Certain amounts in the 2009 financial statements have been reclassified to conform to the 2010 financial statement presentation.

NOTE D - FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT

The Plan has entered into a benefit-responsive investment contract with Metropolitan Life Insurance Company ("MetLife") referred to as the MetLife Stable Value Fund. MetLife maintains the contributions in a pooled account. The account is credited with earnings of the underlying investments and is charged for participant withdrawals and administrative expenses.

Certain events, such as premature termination of the contract by the Plan or the termination of the Plan, would limit the Plan's ability to transact at contract value with MetLife. The Plan administrator believes the occurrence of such events, which would also limit the Plan's ability to transact at contract value with Plan participants, is not probable.

The average yield of the benefit-responsive investment contract was approximately 5.42% and 12.28% for 2010 and 2009, respectively. The average yield credited to participants was approximately 3.13% and 3.23% for 2010 and 2009, respectively. The crediting interest rate is based on an agreed-upon formula with the issuer, but cannot be less than 0%. The interest rate is reviewed on a quarterly basis for resetting.

NOTE E - SUMMARY OF INFORMATION CERTIFIED BY PLAN CUSTODIAN

The total fair value of the assets held by the Custodian at December 31, 2010 and 2009, was \$17,007,604 and \$16,017,620, respectively. The cost of the investments at December 31, 2010 and 2009, was not readily determinable.

The Custodian of the Plan, MG Trust Company, LLC, has supplied the Plan administrator with a certification as to the completeness and accuracy of the following information:

- Cash
- Investments in registered investment companies
- Interest and dividend income
- Net appreciation (depreciation) in fair value of investments

NOTE F - FAIR VALUE MEASUREMENTS

Accounting standards provide a framework for measuring fair value. This framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under accounting standards are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

NOTES TO FINANCIAL STATEMENTS

NOTE F - FAIR VALUE MEASUREMENTS - continued

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010.

Money market fund: Valued based on the contractual terms of the underlying guaranteed interest accounts; provides a daily mil-rate for income accretion.

Equity securities funds: Valued at the net asset value (NAV) of shares held by the Plan at year-end.

Government and corporate bond funds: Valued at the net asset value (NAV) of shares held by the Plan at year-end.

Stable value fund: Value based on the contractual terms of the underlying guaranteed interest accounts; provides a daily mil-rate for income accretion.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010:

	<u>Fair Value</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
