I-Coat Company LLC 401(k) Plan

Notes to Financial Statements

Note 1 - Plan Description:

The following description of the I-Coat Company LLC 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

a. General

The Plan is a defined contribution plan that was established June 1, 2000 by I-Coat Company LLC (the Company) to provide benefits to eligible employees, as defined in the Plan document. The Plan Administrator believes that the Plan is currently designed and operated in compliance with the applicable requirements of the Internal Revenue Code and the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan has been amended to comply with recent legislative and regulatory changes. Effective January 1, 2006, the Plan became a safe harbor 401(k) plan under the Internal Revenue Code, as such, the Company is required to make certain contributions.

b. Eligibility

Employees who have attained the age of 21 and have completed three months of service are eligible to participate in the Plan.

c. Contributions

Employees may elect to defer from 1% to 70% of pretax annual compensation, as defined in the Plan, not to exceed the amount allowable under current income tax regulations. Participants may also contribute (rollover) amounts representing lump sum distributions from other qualified defined benefit or contribution plans and other individual retirement accounts. The Company makes a safe harbor matching contribution, the matching limit on employees' salary deferral contribution is 100% on the first 4% of an employee's salary deferral. A nonelective contribution may be made at the discretion of the Company. At December 31, 2010, no non-elective contributions were made or approved for the year.

I-Coat Company LLC 401(k) Plan

Notes to Financial Statements

d. Payment of Benefits

Upon termination of service, the participants or their designated beneficiaries may elect to leave their account balances in the Plan or may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or in installments. The Plan allows for hardship withdrawals by the participant from the participants' own elective deferrals and vested matching contributions or nonelective contributions. The Plan provides that if interest in the Plan is \$5,000 or less, regardless of consent, a lump sum distribution will be made to the participant.

Eligible rollover distributions exceeding \$1,000, but less than \$5,000 are to be directly rolled over into a traditional individual retirement accounts (IRA) or, if specified by the participant, as a direct payment to him/her in a single lump sum payment. Eligible rollover distributions less than \$1,000 are to be paid directly to the participant in a single lump sum.

e. Participant Accounts

Each participant's account is credited with the participant's salary deferral contributions, the participant's qualified rollover contributions, the Company's discretionary nonelective and matching contributions, and plan earnings or losses.

f. Participant Investment Options

Upon enrollment in the Plan, participants must direct their contributions and the Company matching and non-elective contributions into any of the investment options offered by the Plan. Participants may change their investment options any time throughout the year via the third party administrator's direct phone or internet website.

g. Vesting

Participants are immediately vested in their contributions and rollover amounts plus actual earnings thereon and the Company's matching contribution. Vesting in the Company's non-elective contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service.

h. Forfeitures

Forfeitures are created when participants separate from service before they are 100% vested in the Company's non-elective contribution portion of their accounts plus actual earnings thereon. Forfeitures shall be used to pay the Plan's administrative expenses or to reduce employer contributions.

I-Coat Company LLC 401(k) Plan

Notes to Financial Statements

i. Notes Receivable from Participants

The Plan allows the participants to borrow not less than \$500 and up to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account. Such loans bear interest at the available market financing rates and the repayment period of any loan shall be no more than five years, or thirty years for the purchase of a Participant's primary residence. The Plan Administrator establishes the specific terms and conditions of such loans. Outstanding loans at December 31, 2010 carry interest rates that range from 5.25% to 10.25%.

j. Plan Trustee

Effective June 25, 2010, the Company replaced JPMorgan Chase Bank (JPMorgan) as the former Trustee and appointed State Street Bank & Trust Company as the current Trustee of the Plan. At December 31, 2010, substantially all of the Plan's assets are held by State Street Bank & Trust Company and at December 31, 2009, substantially all of the Plan's assets were held by JPMorgan Chase Bank.

Note 2 - Significant Accounting Policies:

a. Basis of Accounting

The financial statements are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

b. Investment Valuation and Income Recognition

Investments of the Plan are held by the current Trustee in 2010 and the former Trustee in 2009. Investments are invested based solely upon instructions received from participants. The Plan's investments in registered investment companies (mutual funds) and money market fund are valued at fair value as of the last day of the Plan year. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of investment of mutual funds and money market fund are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is accrued on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The market volatility of equity-based investments could substantially impact the value of such investments at any given time.

I-Coat Company LLC 401(k) Plan

Notes to Financial Statements

It is likely that the value of the Plan's investments, both in total and in individual participant accounts, has fluctuated since December 31, 2010.

Management fees and operating expenses charged to the Plan for investments are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of net appreciation (depreciation) in fair value of investments.

c. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

d. Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

e. Benefits to Participants

Benefits to participants are recorded when paid. At December 31, 2010 and 2009, there were no benefits processed and approved for payment, but not paid.

f. Recent Accounting Pronouncements

In September 2010, the Financial Accounting Standards Board (FASB) issued an amendment, *Plan Accounting – Defined Contribution Pension Plans* (Topic 962): *Reporting Loans to Participants by Defined Contribution Pension Plans* (ASU 2010-25), which provides guidance on how loans to participants should be classified and measured by defined contribution pension plans. This amendment requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. This amendment was effective for period ending after December 15, 2010, with early adoption permitted. This amendment requires retrospective application to all period presented.

I-Coat Company LLC 401(k) Plan

Notes to Financial Statements

The Plan elected to adopt the above pronouncement for the year ended December 31, 2010, and retroactively applied to December 31, 2009. Prior year amounts and disclosures have been revised to reflect the retrospective application of adopting this new amendment. The adoption resulted in a reclassification of participant loans totaling \$34,675 and \$72,932 from investments to notes receivable as of December 31, 2010 and 2009, respectively. There was no impact to the net assets as of December 31, 2010 or 2009, as result of the adoption

In January 2010, FASB issued Accounting Standards Update (ASU) 2010-06, *Improving Disclosures about Fair Value Measurements*. ASU 2010-06 amended Accounting Standards Codification (ASC) 820 to clarify certain existing fair value disclosures and required a number of additional disclosures. The guidance in ASU 2010-06 clarified that disclosures should be presented separately for each “class” of assets and liabilities to be presented. ASU 2010-06 also clarified the requirement for entities to disclose information about both the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements. In addition, ASU 2010-06 introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2 and 3 of the fair value hierarchy and present information regarding purchases, sales, issuances and settlements of Level 3 assets and liabilities on a gross basis. With the exception of the requirement to present changes in Level 3 measurements on a gross basis, which is delayed until 2011, the guidance in ASU 2010-06 became effective for reporting periods beginning after December 15, 2009. The adoption of this guidance did not have a material effect on the Plan’s net assets available for benefits or its changes in net assets available for benefits.

In May 2011, FASB issued additional disclosure requirements for fair value measurements. Under this guidance, the amendments change the wording used to describe many of the requirements for measuring fair value and for disclosing information about fair value measurements. The amendments explain how to measure fair value and do not require additional fair value measurements and are not intended to establish valuation standards or affect valuation practices. Amendments must be applied prospectively. The disclosure is effective for years beginning after December 15, 2011. The Plan Administrator is assessing the impact of the adoption of this update on the Plan’s financial statements.

g. Subsequent Events

The Plan Administrator evaluated subsequent events through October 4, 2011, the date these financial statements were available to be issued, and there were no material subsequent events that required recognition or additional disclosure in these financial statements.

I-Coat Company LLC 401(k) Plan

Notes to Financial Statements

h. Reclassifications

Certain reclassifications have been made to the 2009 balances to conform to the 2010 presentation.

Note 3 - Information Certified or Provided by State Street Bank & Trust Company and JPMorgan Chase Bank:

The following is a summary of the investment information as of December 31, 2010 and 2009, and for the year ended December 31, 2010, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the State Street Bank & Trust Company, the current Trustee, and JPMorgan Chase Bank, the former Trustee, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the Trustee that information provided to the Plan Administrator by the Trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

December 31,	2010	2009
Investments:		
Registered Investment Companies – Mutual funds	\$ 1,783,549	\$ 1,380,884
Money Market Fund	88,945	75,199
Notes Receivable from Participants	34,675	72,932

State Street Bank & Trust Company also certified to the completeness and accuracy of \$161,044 of net appreciation in fair value and \$13,934 of interest and dividends of the Plan's aforementioned investments and \$3,114 of interest income on notes receivables from participants for the year ended December 31, 2010.

I-Coat Company LLC 401(k) Plan

Notes to Financial Statements

Note 4 - Fair Value Measurements:

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follow:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets in active markets;
- Quoted prices for identical or similar assets in inactive markets;
- Inputs other than quoted prices that are observable for the asset; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Registered investments companies - mutual funds and money market fund: Valued at the net asset value (NAV) of shares held by the Plan at year end.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Notes to Financial Statements

Note 5 - Investments:

The following table presents the fair value of the participant directed single investments representing more than 5% of the Plan's net assets as of December 31, 2010 and 2009:

	2010	2009
Investments:		
Blackrock Global Allocation Fund, Inc. – Class R	\$ 800,988	\$ 644,709
Invesco Charter Fund – Class R	300,611	252,080
Allianz OCC Growth Fund – Class R	268,043	213,341

During 2010, the Plan's investments in registered investment companies – mutual funds (including gains and losses on investment bought, sold and held during the year) appreciated in net value by \$161,044

Note 6 - Plan Termination:

Although the Company has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to amend or terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their employer matching contributions.

Note 7 - Tax Status:

The Plan has adopted a standardized prototype plan sponsored Automatic Data Processing Federal Credit Union (ADP). ADP has received a favorable opinion letter from the Internal Revenue Service dated March 31, 2008 as to the form of the Plan being acceptable under Section 401 of the Internal Revenue Code. This opinion on the acceptability of the form of the Plan is not a ruling or determination as to whether the Plan qualified under Code section 401(a). The Plan has been amended since receiving the opinion letter. However, the Plan Administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax position taken by the plan. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require recognition or disclosure in the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the plan is no longer subject to income tax examinations by the U.S. Federal, state, or local tax authorities before year 2007.

I-Coat Company LLC 401(k) Plan

Notes to Financial Statements

Note 8 - Risks and Uncertainties:

The Plan provides for various investment options in any combination of registered investment companies – mutual funds and money market fund offered by the Plan. Investment securities are exposed to various risks, such as interest rate, market fluctuations and credit risks. Due to the nature of risks associated with certain investment securities, it is at least reasonably possible that changes in the level of risk in the near term would materially affect participants' account balances and the amounts reported in the statement of net assets available for plan benefits and the statement of changes in net assets available for plan benefits.

Note 9 - Related Party Transactions:

Certain investments in a money market fund as managed by State Street Bank & Trust Company, the Trust of the Plan. Such an agreement, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Certain administrative expenses for the Plan are paid directly by the Company.

Note 10 - Reconciliation to Form 5500:
