INDEPENDENT AUDITOR'S REPORT

To the Trustees of Texas Bank 401K Plan:

We were engaged to audit the financial statements of Texas Bank 401K Plan (the Plan) as of December 31, 2010 and 2009, and for the years then ended and the supplemental schedule as of December 31, 2010, as listed in the accompanying table of contents. These financial statements and schedule are the responsibility of the Plan's management.

As permitted by Section 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by American United Life Insurance Company and Principal Life Insurance Company, the Trustees for the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that American United Life Insurance Company held the Plan's investment assets and executed investment transactions from February 10, 2010 to December 31, 2010, and that Principal Life Insurance Company held the Plan's investment assets and executed investment transactions as of December 31, 2009 and for the period January 1, 2010 to February 9, 2010. The Plan administrator has obtained certifications from the Trustees as of and for the years ended December 31, 2010 and 2009, that the information provided to the Plan administrator by the Trustees is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedule taken as a whole. The form and content of the information included in the financial statements and schedule, other than that derived from the information certified by the Trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTES TO FINANCIAL STATEMENTS

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Plan Description

The following description of Texas Bank 401K Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution benefit plan covering all eligible employees of Texas Bank Brownwood (the Company) who are over the age of 21 and have three months of service. Employees are eligible to become a participant on January 1, April 1, July 1, or October 1 after eligibility requirements are met. The Plan is intended to satisfy all of the requirements for a qualified retirement plan under the appropriate provisions of the Internal Revenue Code (the Code). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting. Accordingly, revenue is recognized when earned and expenses are recognized when incurred.

Contributions

Each year, participants in the Plan may elect to contribute any amount up to 100% of their compensation, as defined by the Plan, subject to certain maximum limitations imposed by the Code. Employees who are eligible to make elective deferrals under the Plan and who have attained the age of fifty before the close of the Plan year are also eligible to make catch-up contributions subject to the maximum limitation imposed by the Code. Participants may also contribute amounts representing distribution from other qualified benefit plans.

The Company's matching contribution is equal to 100% of the participant's contribution, up to a maximum of 5% of the participant's compensation. In addition, the Company may also make discretionary profit sharing contributions. There were no discretionary profit sharing contributions made during the years ended December 31, 2010 or 2009.

Forfeitures

Forfeitures may first be applied to pay administrative expenses under the Plan which would otherwise be paid by the Employer. Any other forfeitures which have not been used to pay administrative expenses shall be applied to reduce employer contributions.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive benefits as either a lump-sum amount equal to the value of the participant's vested interest in his or her account, annual installment payments over a fixed number of years, or may purchase a qualified annuity. For termination of services due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Benefits are recorded when paid.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

Participant Accounts

Each participant's account is credited with the participant's voluntary contributions, and the Company's matching contributions and an allocation of (a) the Company's discretionary contributions, and (b) Plan earnings. Discretionary contributions are allocated to all eligible participants based on compensation. Earnings are allocated to the participants' accounts based upon investment elections. Earnings on amounts invested in guaranteed interest accounts are credited daily at the composite guaranteed rate as defined in the Plan document. Earnings on amounts invested in pooled separate accounts are determined based upon number of units held by the individual participants and the unit value at the valuation date.

Vesting

Participants are immediately vested in their salary deferral contributions and rollover contributions plus actual earnings thereon. Vesting in the Company's contributions of their accounts is based on years of continuous service, noted as follows:

Less than 1 year	0%
1 year	20%
2 years	40%
3 years	60%
4 years	80%
5 or more years	100%

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 and up to a maximum equal to 50% of their vested account balance, not to exceed $50,000 less the highest outstanding loan balance in any 12 month period. Loans to participants are made at the discretion of the Plan Administrator based on the Plan provisions. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest are paid ratably through payroll deductions over a period not extending beyond five years from the date of the loan. A participant may be granted one loan during any one year period and only one loan may be outstanding at a time.

Withdrawing Participant Obligations

Amounts allocated to withdrawing participants are claims that have been processed and approved for payment prior to year-end, but not paid as of that date. These amounts were not deemed material at December 31, 2010 or 2009.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

Investment Valuation and Income Recognition

Investments are recorded at fair value. Mutual funds are reported at fair value based on the quoted market price of the fund, which represents the net asset value of the shares held by the Plan at year end. Investments in insurance company pooled separate accounts are reported at the value reported to the Plan by the insurance company, which represents approximate fair value. Investments in insurance company deposit administration contracts (guaranteed investment contracts) are reported at contract value as determined by the insurance company if the contract is fully benefit responsive or otherwise at fair value. The guaranteed investment contracts with Principal Life Insurance Company (Principal) are reported at fair value. Investments in cash surrender value life insurance policies are reported at the cash value, which approximates fair value, as determined by the insurance company. Participant loans are valued at their outstanding balances, which approximate fair value.

Purchases and sales are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date.

Plan Expenses

The Plan sponsor pays substantially all general Plan expenses.

Reclassifications

Certain 2009 amounts have been reclassified to conform to the 2010 presentation.

Note 2: CHANGE IN METHOD OF ACCOUNTING FOR LOANS TO PARTICIPANTS

In September 2010, the FASB issued ASU No. 2010-25, *Plan Accounting – Define Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans.* ASU No. 2010-25 requires participant loans to be classified as notes receivable from participants and measured at their unpaid principal balances plus any accrued but unpaid interest. ASU No. 2010-25 is effective for years ending after December 15, 2010, with early adoption permitted. The Plan adopted ASU No. 2010-25 for the year ended December 31, 2010 and comparative financial statements of prior years have been adjusted to apply the new method retrospectively. The effect of adopting this change in accounting principle resulted in a reclassification in the Statement of Net Assets Available for Benefits to report loans to participants as a receivable rather than as investments. Additionally, loans to participants are still considered an investment for ERISA purposes and thus are included in the supplementary schedule accompanying these financial statements.

Note 3: INFORMATION CERTIFIED BY TRUSTEES

For Plan years ending December 31, 2010 and 2009, the financial information included in the Plan financial statements and required supplemental schedule, except for contributions receivable, contributions, and distributions for withdrawals and terminations, has been derived from information certified as complete and accurate by the Trustees, in accordance with Section 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under the ERISA of 1974 (ERISA).

	$ 4,005,871		$ 3,608,986	

* Denotes investments representing 5% or more of net assets available for benefits.

The Plan's investments (including investments bought, sold, and held during the year) appreciated in value by $484,511 for the year ended December 31, 2010 and appreciated in value by $537,912 for the year ended December 31, 2009.

Note 5: PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 6: INCOME TAX STATUS

The Plan obtained its latest determination letter on July 22, 2003, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan Administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 6: INCOME TAX STATUS - continued

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would be sustained upon examination by the U.S. Department of Labor and the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010 and 2009, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

Note 7: RISKS AND UNCERTANTIES

The Plan provides for various investment options in any combination of mutual funds and other investment securities offered by the Plan. Investment securities are exposed to various risks, such as interest rate risk, market fluctuations, and credit risks. Due to the level or risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes can materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 8: RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by American United Life Insurance Company, the custodian of the Plan's assets. Any purchases and sales of these funds are performed in the open market at fair value. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

Note 9: FAIR VALUE DISCLOSURES

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

Note 9: FAIR VALUE DISCLOSURES - continued

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Pooled separate accounts - Investments are reported at fair value utilizing Level 2 inputs. For these investments, the Plan obtains fair value measurements from an independent pricing service. The fair value measurements consider observable data that may include dealer quotes, market spreads, cash flows, the U. S. Treasury curve, live trading levels, trade execution data, market consensus prepayments speeds, credit information and the bond's terms and conditions, among other things.

Registered investment companies (mutual funds) - Funds are generally valued using market quotations or prices obtained from independent pricing services. Each fund determines its share price or net asset value (NAV) each day.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table summarizes financial assets measured at fair value on a recurring basis as of December 31, 2010 and 2009, segregated by the level of the valuation inputs within the fair value hierarchy utilized to measure fair value:

The guaranteed interest contract with an insurance company is not actively traded and significant other observable inputs are not available. Thus, the fair value of the guaranteed investment contract is determined by discounting the related cash flows based on current yields of similar instruments with comparable durations. The following table provides further details of the Level 3 fair value measurements:

Note 9: FAIR VALUE DISCLOSURES - continued

Fair value measurements using significant unobservable inputs at December 31 (Level 3):

The investment options of the Plan include various portfolios within an AUL separate account. The separate account in turn invests in investment portfolios of certain open-end management investment companies. AUL receives indirect compensation from these investment companies for the services provided by AUL.

The compensation received by AUL is computed by each investment company by multiplying the daily account balance of the AUL separate account's interest in a particular portfolio by a predetermined percentage rate negotiated with the investment company. This indirect compensation is not charged to the plan or participants accounts but is paid directly by the investment company.

The investment company, the underlying investment portfolio, and the annual compensation percentages are shown below.
