INDEPENDENT AUDITOR'S REPORT

The Trustees
Jorgensen & Co. Employee Stock Ownership Plan
Fresno, California

We have audited the accompanying statements of net assets available for benefits of Jorgensen & Co. Employee Stock Ownership Plan as of December 31, 2010 and 2009, and the related statement of changes in net assets available for benefits for the year ended December 31, 2010. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Jorgensen & Co. Employee Stock Ownership Plan as of December 31, 2010 and 2009, and the changes in net assets available for benefits for the year ended December 31, 2010, in conformity with accounting principles generally accepted in the United States of America.

Our audits were made for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2010 is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Note 1. Description of the Plan

The following description of the Jorgensen & Co. Employee Stock Ownership Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

Description of Plan: Jorgensen & Co. (the "Company") adopted the Jorgensen & Co. Employee Stock Ownership Plan effective as of January 1, 1994. The Plan is designed to comply with Internal Revenue Code Section 4975(e)(7) and the regulations thereunder, as amended (the "Code") and the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Plan is administered by a Board of Trustees composed of individuals appointed by the unanimous consent of the Board of Directors.

The Company, with the consent of its shareholders, has elected under the Internal Revenue Code to be an S corporation effective January 1, 2006.

Funding Policy: The Company's funding policy is to contribute funds as necessary to provide for current distributions and administrative expenses. To the extent that these requirements are fully covered by assets in the trust, the Company may elect not to make any contributions in a particular year. Participants are not entitled to make contributions.

Eligibility: Employees of the Company become eligible to participate in the Plan after completing one year of employment, in which they are credited with a minimum of 1,000 hours of service, and attainment of age 21. Employees become participants in the Plan on January 1 of the plan year in which they satisfy these requirements. Participants who do not have at least 1,000 hours of service during such plan year or are not employed on the last day of the plan year are generally not eligible for an allocation of Company contributions for such year.

Payment of Benefits: No distributions from the Plan will be made until a participant retires, dies (in which case, payment shall be made to his or her beneficiary or, if none, his or her estate), or otherwise terminates employment with the Company. For any year for which the Company has elected to be treated as an S Corporation distributions will be made entirely in cash. If the S Election is terminated, distribution may be made in shares of Company stock, cash, or a combination of both as determined by the Trustee.

Under the provisions of the Plan, any shares of Company stock distributed by the Trust shall be subject to a "right of first refusal" by the Company.

Note 1. Description of the Plan (Continued)

Voting Rights: Shares of stock in the Plan shall be voted in the manner determined by the Trustee. With respect to any Company matter which involves the voting of such shares at a shareholder meeting for certain significant Company matters such as a merger, consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all the assets, or a similar transaction, each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised.

Termination: The Company reserves the right to terminate the Plan at any time, subject to the Plan provisions. If the Plan is terminated participation of participants affected by the termination will end. Accounts of those participants who are employees on the effective date of the termination will become nonforfeitable as of that date. Capital accumulations of all participants will be distributed as soon as practicable following the termination of the Plan.

Participant Accounts: The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of Company contributions, and forfeitures of terminated participants' non-vested accounts. Only those participants who are eligible employees of the Company as of the last day of the plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Forfeitures of terminated non-vested account balances allocated to remaining participants at December 31, 2010 totaled $24,175. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance after allocation of current year employer contributions and forfeitures to all participants' equivalent balances.

Vesting: If a participant's employment with the Company ends for any reason other than retirement, permanent disability or death, he or she will vest in the balances in his or her account based on the total years of service with the Company. Participants vest 20 percent at two years of service and an additional 20 percent per service year thereafter, until the sixth service year when the participants are 100 percent vested.

Put Option: Under Federal income tax regulations employer stock that is held by the Plan and its participants and is not readily tradable on an established market or is subject to trading limitations includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for any years during which the Company has not elected to be treated as an S Corporation for which there is no market during two option periods during the plan year. The put price is representative of the fair value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Note 1. Description of the Plan (Continued)

Diversification: Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in the Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25 percent of the balance in his stock account. In the sixth year, the percentage changes to 50 percent of the balance in his stock account. The Trustee shall determine whether diversification will be effected by permitting the participant to direct the investment amongst at least three available investment options, which may be made available in another qualified plan maintained by the Company or by distributing cash to the participant.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition: The Plan's investments are stated at estimated fair value. See Note 6 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits: Benefits are recorded when paid.

Operating Expenses: All reasonable expenses related to the administration of the Plan shall be charged to and paid out of the Trust assets. The Company may, however, pay all or a portion of such expenses directly.

Recent Accounting Pronouncements: In January 2010, FASB issued an amendment *Fair Value Measurements and Disclosures – Improving Disclosures about Fair Value Measurements* (ASU 2010-06), which requires new disclosures about transfers of financial assets and liabilities between levels 1 and 2. This amendment also clarifies that fair value measurement disclosures are required for each class of financial assets and liabilities, and disclosures about inputs and valuation techniques are required for both level 2 and level 3 measurements. It further clarifies that the reconciliation of level 3 measurements should separately present purchases, sales, issuances, and settlements instead of netting these changes. With respect to matters other than reconciliation of level 3 measurements, the amendment was effective and adopted for periods beginning on or after December 15, 2009. Adoption did not have an impact on the disclosures of the applicable investments. The guidance related to reconciliation of level 3 measurements is effective for periods beginning on or after December 15, 2010, and has not yet been adopted. An analysis of the impact of the guidance is not yet complete, however, we do not believe there will be an impact to the Plan's fair value measurement disclosures.

Note 2. Summary of Significant Accounting Policies (Continued)

Subsequent Events: The Plan Administrator has evaluated subsequent events through, September 26, 2011, the date the financial statements were available to be issued.

Note 3. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated November 9, 2007, that the Plan is qualified and the trust established under the Plan is tax-exempt, under the appropriate sections of the Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Note 4. Administration of Plan Assets

The Plan's assets, which consist principally of Jorgensen & Co. common shares, are held by the Trustee of the Plan.

Company contributions are held and managed by the Trustee, which invests cash received, interest, and dividend income and makes distributions to participants.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

Note 5. Investments

The Plan's investments (all allocated), at December 31, are presented in the following table. Single investments representing more than 5% of the Plan's net assets are separately identified.

	2010	2009
Jorgensen & Co. Common Shares (Plan Sponsor) *	$ 2,750,886	$ 3,249,687

Number of Shares	83,134	83,134
Cost	$ 1,682,372	$ 1,682,372

* Nonparticipant-directed

Note 5. Investments (Continued)

During 2010, the Plan's investments in Jorgensen & Co. stock and other mutual funds (including gains and losses on investments bought and sold, as well as any held during the year), depreciated in value by $498,801.

A significant portion of the Plan's investments are in the stock of the Company. The Company is a California corporation which commenced operations on January 4, 1960. The Company sells and services fire protection and safety equipment and detection systems to customers throughout the Central Valley of California, and installs systems under long-term construction contracts.

Note 6. Fair Value Measurements

Financial Accounting Standards Board Accounting Standards Codification 820, Fair Value Measurement ("FASB ASC 820"), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritized the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual), the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Note 6. Fair Value Measurements (Continued)

The fair value of the Jorgensen & Co. stock held by the Plan is valued at estimated fair value based upon an independent appraisal. This appraisal was based upon a discounted cash flow income valuation technique at December 31, 2010 and 2009 when determining the estimated fair value of the stock.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy the Plan's assets at fair value as of December 31, 2010 and 2009:

	Assets at Fair Value as of December 31, 2010			
	Level 1	Level 2	Level 3	Total
Investment in sponsor company common stock	$ -	$ -	$ 2,750,886	$ 2,750,886
