We were engaged to audit the financial statements of APV Pension Plan for Certain Hourly Employees as of December 31, 2010 and 2009, and for the years then ended, and the supplemental schedule as of December 31, 2010, as listed in the table of contents. These financial statements and schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 3, which was certified by State Street Bank & Trust Company, the trustee of the Plan, and Principal Life Insurance Company, the custodian of certain Plan assets, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee and custodian hold the Plan's investment assets and execute investment transactions. The plan administrator has obtained certifications from the trustee and custodian as of and for the years ended December 31, 2010 and 2009, that the information provided to the plan administrator by the trustee and custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedule taken as a whole. The form and content of the information included in the financial statements and schedule, other than that derived from the investment information certified by the trustee and custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

The supplemental Schedule H, line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2010 that accompanies the Plan's financial statements does not disclose the historical cost of certain non participant-directed plan assets held by Principal Life Insurance Company, the custodian of certain Plan assets. Disclosure of this information is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

APV Pension Plan for Certain Hourly Employees

Notes to Financial Statements

December 31, 2010

1. Plan Description

The APV Pension Plan for Certain Hourly Employees (Plan) is a noncontributory defined benefit pension plan. Invensys, Inc. (the Company) is the Plan Sponsor. Employees with five years of vesting service, as defined by the Plan, are entitled to pension benefits upon retirement. Information concerning the Plan Agreement is available from the Human Resources Department.

The Plan received assets transferred of \$2,781,864 and \$143,922 on February 16, 2010 and August 24, 2010, respectively, from the Invensys Pension Plan to correct administrative errors resulting in plan benefits paid from incorrect trusts.

Plan Amendment

The Plan does not allow new participants and no future benefit accruals for employees, as follows: effective April 1, 1998 for Lake Mills, Wisconsin employees; effective April 1, 2002 for participants of the former APV Crepaco, Inc. Pension Plan for Shop Hourly Employees at Tonawanda, New York; and effective October 31, 1993 for participants of the former Gaulin Corporation Retirement Plan for Members of Local 1596 UAW Production and Maintenance Workers.

Funding Policy

The Plan is funded annually by the Company in an amount based on actuarial determinations. The contributions are at least equal to the minimum funding standards required by the Employee Retirement Income Security Act of 1974 (ERISA). The Plan has met the ERISA minimum funding requirements.

Contributions made to the Plan by the Company are invested in the Invensys Inc. Master Retirement Trust (Master Trust). The Master Trust pools the Plan's assets with those of other related Invensys, Inc. plans, and makes investments in various types of equity and fixed-income securities. The trustee holds the funds to manage, invest, and reinvest in accordance with the provisions of the Master Trust agreement.

1. Plan Description (continued)

Plan Termination

Should the Plan terminate at some future time, its net assets will generally not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

2. Significant Accounting Policies

Basis of Accounting

The financial statements have been prepared on the accrual basis of accounting.

Valuation of Investments and Income Recognition

The Plan's participation in the Master Trust is stated at fair value (based primarily on the quoted market prices on the last business day of the plan year) of the securities owned by the Master Trust, as determined by the trustee, State Street Bank & Trust Company (State Street). The Plan holds an immediate participation guarantee contract that is valued at fair value, and is not held in the Master Trust.

Marketable securities are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). Securities traded on a national securities exchange are valued at the last reported sales price on the last business day of the plan year; investments traded in the over-the-counter market and listed securities for which no sale was reported on that date are valued at the average of the last reported bid and ask prices. The shares of registered investment companies are valued at quoted market prices which represent the net asset values of shares held in the Master Trust. The fair value of the participation units owned by the Plan in common collective trust funds are based on quoted redemption values on the last business day of the plan year. Certain U.S. government and sovereign obligations, most government agency securities, investment-grade corporate bonds, certain mortgage products, and municipal obligations are valued based on quoted market prices, dealer quotations or alternative pricing sources.

2. Significant Accounting Policies (continued)

Valuation of Investments and Income Recognition (continued)

Derivative investments (interest rate swaps) are marked-to-market using the derivative trading desk and are priced at the level which, in the desk's judgment, the counterparty would agree to terminate the transaction or at which another party would agree to assume the rights and obligations of the plan under the transaction. The derivatives trading desk verifies prices periodically with the counterparty and/or dealers active in the relevant market.

The fair value of the various limited partnership investments is estimated using various methods. Marketable securities in the partnerships are stated at the quoted market price on the last business day of the Plan year, while nonpublicly traded securities are valued at amounts determined by the general partner.

The Plan also invests in certain securities collateralized by residential and commercial mortgages and other assets that may be affected by, among other things, changes in: interest rates, the quality of the underlying assets or the market's assessment thereof, factors concerning interests in and structure of the issuer or the originator of the receivables, or the creditworthiness of the entities that provide credit enhancements.

Substantially all of the plan's investments are held in the Master Trust, which was established for the investment of assets of the Plan and other Company-sponsored retirement plans. Each participating retirement plan has an undivided interest in the Master Trust. Investment income and expenses are allocated to the Plan based upon its pro rata share in the net assets of the Master Trust.

The cost of investments sold is determined on the basis of average cost. The gain or loss on securities sold is the difference between average cost and market value at the date of disposal.

2. Significant Accounting Policies (continued)

Valuation of Investments and Income Recognition (continued)

The valuation methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while plan management believes the valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits (Note 7) are those estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries and (b) present employees or their beneficiaries. Benefits for retired or terminated employees or their beneficiaries are based on employee's compensation during their last five years of credited service. The accumulated plan benefits for active employees are based on years of service and the annual earnings factor as described in the plan document. Benefits payable under all circumstances—retirement, death, disability, and termination of employment—are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

Administrative Expenses

Administrative expenses are paid by the Plan.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

New Accounting Pronouncements

In May 2011, the FASB issued Accounting Standards Update 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRS*, (ASU 2011-04). ASU 2011-04 amended ASC 820 to converge the fair value measurement guidance in U.S. GAAP and International Financial Reporting Standards (IFRS). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

In January 2010, the Financial Accounting Standard Board ("FASB") issued ASU No. 2010-6, *Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures about Fair Value Measurement*. The standard requires entities to disclose additional information regarding assets and liabilities that are transferred between levels of the fair value hierarchy and to present purchases, sales, issuances and settlements on a gross basis in the reconciliations of fair value measurements using significant unobservable inputs. Additionally, the standard clarified existing guidance regarding the level of disaggregation of fair value measurements and disclosures regarding the valuation techniques and inputs utilized in estimating Level 2 and Level 3 fair value measurements. The Plan's financial statements reflect the adoption of this accounting standard.

3. Investments

Certain investment information disclosed in the accompanying financial statements, including investments held at December 31, 2010 and 2009, and equity in net investment income of the Master Trust, unrealized appreciation in fair value of immediate participation guarantee contract, interest income, and investment management fees for the years then ended, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the trustee and custodian.

Total administrative expenses for the Master Trust during the years ended December 31, 2010 and 2009 were \$7,616,102 and \$8,582,368, respectively.

APV Pension Plan for Certain Hourly Employees

Notes to Financial Statements (continued)

4. Invensys Inc. Master Retirement Trust (continued)

The Master Trust participated in State Street's securities lending program in 2010 and 2009 by lending certain securities to borrowers to earn additional income, which is included in equity in net earnings of the Invensys Inc. Master Retirement Trust in the statements of changes in net assets. Loans of securities through State Street are collateralized by cash, letters of credit, or securities issued or guaranteed by the United States government or its agencies, equal to at least 102% of the current market value of the loaned securities. At December 31, 2010, the fair value of the loaned securities and collateral amounted to \$16,742,714 and \$16,984,897, respectively. At December 31, 2009, the fair value of the loaned securities and collateral amounted to \$8,706,877 and \$8,999,043, respectively.

5. Interest Rate Swaps

Derivative investments consist of fixed for floating interest rate long maturity swaps (approximately 30 years). The Plan had twenty-two separate swap arrangements outstanding at December 31, 2010 with a total net gross notional amount of \$474,850,000. The Plan had eighteen separate swap arrangements outstanding at December 31, 2009 with a total net gross notional amount of \$523,750,000.

The purpose of this strategy is to economically hedge the change in net funded status for a portion of the pension liability that can occur due to changes in interest rates. The marked to market value of the swaps, including accrued interest, in the over the counter market at December 31, 2010 is \$(27,191,839) and \$(46,264,060) at December 31, 2009. In addition, \$153,167,120 and \$118,212,882 is maintained in money market accounts and other short-term investments at December 31, 2010 and 2009, respectively, for collateral needs related to the swap arrangements. At December 31, 2010 and 2009, approximately \$30,000,000 and \$46,000,000, respectively, of this amount was posted as collateral to dealers.

6. Fair Value Measurements

ASC Topic 820, "Fair Value Measurements" (ASC Topic 820) defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. ASC Topic 820 also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs when measuring fair value.

The standard describes three levels of inputs that may be used to measure fair value:

- Level 1 Inputs are quoted prices (unadjusted) in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

APV Pension Plan for Certain Hourly Employees

Notes to Financial Statements (continued)

6. Fair Value Measurements (continued)

Level 2 Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly;

Level 3 Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

The following table sets forth by level within the fair value hierarchy the Plan's investment assets and liabilities, if any, as of December 31, 2010.

7. Accumulated Plan Benefits

An actuary from Mercer Human Resource Consulting, Inc. estimates the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The accumulated plan benefit information as of December 31, 2009 and 2008 is as follows:

	2009	2008
Actuarial present value of accumulated plan benefits:		
Vested benefits:		
Retired employees and beneficiaries currently receiving benefits	\$ 13,450,118	\$ 13,394,886
Inactive participants with deferred benefits	6,287,182	7,275,525
	<u>\$ 19,737,300</u>	<u>\$ 20,670,411</u>

APV Pension Plan for Certain Hourly Employees

Notes to Financial Statements (continued)

7. Accumulated Plan Benefits (continued)

The reconciliation of the actuarial present value of accumulated plan benefits from December 31, 2008 to December 31, 2009 is as follows:

Actuarial present value of accumulated plan benefits at December 31, 2008	\$ 20,670,411
Changes during the year:	
Decrease due to non-investment experience	(314,146)
Increase for interest due to decrease in the discount period	1,471,874
Actual benefits paid	<u>(2,090,839)</u>
Net decrease	<u>(933,111)</u>
Actuarial present value of accumulated plan benefits at December 31, 2009	<u>\$ 19,737,300</u>

Significant assumptions underlying the actuarial computations are:

Interest	—7.5% in 2009 and 2008, compounded annually.
Retirement	—Age-related retirement rates from age 55 to age 65, with terminated vested participants assumed to retire at age 62.
Mortality	—RP2000 Mortality Tables for Males and Females, without adjustment for collar, benefit amount, or employee/annuitant distinction, but projected by Scale AA to 2015 in 2009 and 2008.

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

APV Pension Plan for Certain Hourly Employees

Notes to Financial Statements (continued)

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

9. Parties-In-Interest

Section 3(14) of ERISA defines a party-in-interest to include, among others, fiduciaries or employees of the Plan, any person who provides services to the Plan or an employer whose employees are covered by the Plan. Accordingly, the management of investments held by the custodian are considered party-in-interest transactions.

10. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS), dated April 15, 2011, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Subsequent to this determination letter by the IRS, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan administrator believes that the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax exempt.

Accounting standards require recording uncertain income tax positions that exist in the Plan's financial statements. Plan management has determined there are no uncertain tax positions and believes there is no adjustment or disclosure required in the Plan's financial statements.

11. Subsequent Events

The Company has evaluated all subsequent events through October 4, 2011, the date the financial statements were available to be issued. During this period, there have been no material events that would require recognition in the financial statements or disclosures to the financial statements.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Line 22 — Description of weighted average retirement age

It is assumed that all terminated vested participants retire at age 65.

Schedule SB, Line 24 – Change in Actuarial Assumptions

Interest discounts and mortality rates were updated from 2009 to 2010 in accordance with PPA, and the sponsor changed its interest rate election from the full yield curve with a two month look-back to segment rates with no look-back.

The expense load to the normal cost decreased from \$139,344 to \$58,367 to reflect our expectations for the current plan year.

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods**Actuarial methods****Asset methods**

We used financial data submitted by the trustee as of the valuation date without further audit. Customarily, this information would not be verified by a plan's actuary. We have reviewed the information for internal consistency and we have no reason to doubt its substantial accuracy.

The asset valuation method is the fair market value.

Participant methods

We used the participant data supplied by the plan sponsor. We have reviewed the data and, except for the data estimated for missing data discussed below, we have no reason to doubt its substantial accuracy. Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contract:** The plan does not have any insurance contracts under which benefits are paid to plan participants.
- **Transferred participants:** The liabilities for employees who have transferred into another plan of the plan sponsor have been included with the liabilities for terminated vested participants.
- **Disabled participants:** The liabilities for participants on long-term disability have been included with the liabilities for terminated vested participants.

The following estimates were incorporated in the valuation. The estimates are not expected to have a material impact on valuation results

Missing Item	Number	Estimation Methodology
Missing participant birth date	8	Based on date of birth supplied for prior year
Missing beneficiary birth date	1	Estimated based on males three years older than females for participant and beneficiary, if either available

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

Minimum funding methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Maximum deductible contribution method

Calculations of maximum deductible contributions include the excess of the funding target computed using the projected unit credit method over the minimum funding target. The objective of the projected unit credit method is to fund each participant's benefits under the plan as they accrue, taking into consideration expected future compensation increases. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- An individual's **projected funding target** is the present value of benefits based on credited service as of the beginning of the plan year and projected compensation that would be used in the calculation of the benefit on each expected separation date. If multiple decrements are used, the projected funding target for an individual is the sum of the component projected funding targets associated with the various anticipated separation dates.
- The plan's **projected funding target** is the sum of the projected funding targets for all participants under the plan. The excess of the plan's projected funding target over the plan's funding target is included in the "cushion amount".

Schedule SB, Part V – Summary of Plan Provisions**Benefits included or excluded**

Unless noted below, all benefits provided by the plan are included in this valuation.

- **Plan amendments:** Amendments adopted after the valuation date or effective after the current plan year are excluded from the valuation.
- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Scheduled benefit increases:** Scheduled benefit increases effective after the end of the current plan year are excluded from minimum funding requirements.
- **Late retirement increases:**
 - *Active participants:* The plan provides benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to participants who defer retirement beyond age 70½. This valuation includes increases for current participants over age 70.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.
- **IRC Section 415(b) benefit limitations:** The limitations of Internal Revenue Code Section 415(b) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60 percent of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Schedule SB, Part V – Summary of Plan Provisions

Following is a summary of the major plan provisions used to determine the plan's financial position. It should not be used in determining Plan benefits.

Significant events that occurred during the year None

Schedule SB, Part V – Summary of Plan Provisions*APV Lake Mills (pre-merger)***Normal Retirement**

Eligibility	The first of the month coinciding with or next following the participant's 65th birthday.
Benefit	\$20.00 times Benefit Service prior to January 1, 1973 plus \$25.00 times Benefit Service after January 1, 1973 for retirements occurring on or after January 1, 1998. Effective April 1, 1998, there shall be no future benefit accruals for current employees.
Commencement	Payments commence on the later of the first day of the month following an employee's retirement or the date the participant applies for the benefit.
Form of Payment	Benefits are normally payable in an unreduced amount as a life annuity for unmarried participants and in a reduced amount on a 50% joint and survivor basis for married participants.

Late Retirement	Each employee who continues to be an employee after attaining his/her normal retirement age shall be entitled upon actual retirement to receive a monthly benefit determined in the same manner as for Normal Retirement as of his/her late retirement date.
-----------------	--

Early Retirement

Eligibility	The first of the month coinciding with or next following the participant's attainment of age 55 and completion of fifteen years of Vesting Service.
Benefit	The employee's accrued normal retirement benefit payable at normal retirement date without reduction or at his/her early retirement date with a reduction of .5% for each month between ages 60 and 65 and .3% for each month between the ages 55 and 60 by which the commencement date precedes the normal retirement date. For participants who have attained age 62 and completed thirty years of Benefit Service, there is no reduction to the employee's accrued normal retirement benefit.
Commencement	Anytime between early retirement date and normal retirement date, at the employees election.
Form of Payment	Same as normal retirement.

Schedule SB, Part V – Summary of Plan Provisions***APV Lake Mills (pre-merger)*****Disability Retirement**

Eligibility The first day of the month coincident with or next following the date the participant has been totally and permanently disabled such that he or she is prevented from engaging in any employment for a period of six months, provided that the participant has completed ten years of Vesting Service at the commencement of such total and permanent disability.

Benefit Prior to age 65 and disability date on or after January 1, 1997, \$25.00 times Benefit Service as of disability date. At age 65, the accrued normal retirement benefit using Benefit Service as of disability date.

Deferred Vested Benefit

Eligibility If a participant terminated employment prior to normal retirement and has at least 5 years of Vesting Service.

Benefit The amount of benefit should be calculated as for normal retirement.

Commencement An employee's deferred vested benefit shall commence in full on his or her normal retirement date, or at the participant's option, in a reduced benefit prior to normal retirement any time after attaining age 55, provided the employee has fifteen or more years of Vesting Service. Reduction factors are the same as for early retirement.

Form of Payment Same as normal retirement.

Death Benefit

Before Retirement Upon the death of a vested participant who has been married for at least one year, his or her surviving spouse shall be eligible to receive a pre-retirement surviving spouse annuity. The pre-retirement surviving spouse annuity provides a reduced benefit equal to the benefit the spouse would have received had the participant retired on the day preceding his or her date of death (or had survived until his or her earliest retirement date, if death occurs prior to such date, and retired on such date) and elected to receive benefits in the 50% Joint and Survivor Annuity Form.

After Retirement Death benefits payable after retirement, if any, are payable in accordance with whichever option the retiree elected.

Schedule SB, Part V – Summary of Plan Provisions***APV Lake Mills (pre-merger)*****Optional Form of
Payment**

The forms of benefit payment available to each participant shall be the actuarial equivalent of his/her normal retirement benefit on a life annuity basis. The forms of benefit are as follows:

- 10-Year certain and life
- 50%, 66 2/3% and 75% joint and survivor

Actuarial Equivalent

Based on the 1976 PET unisex mortality table and 7% interest rate. For lump sum amounts paid during the period January 1, 2001 through December 31, 2007, the blended 1983 Group Annuity Mortality Table ("GAM83") is used. For lump sums paid on or after January 1, 2008, an interest rate equal to the annual rate structure based on the Pension Protection Act of 2006 (PPA) rates for the month of October preceding the plan year during which the payment occurs and mortality based on PPA rates for the applicable year is used.

APV Pension Plan for Certain Hourly Employees

Notes to Financial Statements

December 31, 2010

1. Plan Description

The APV Pension Plan for Certain Hourly Employees (Plan) is a noncontributory defined benefit pension plan. Invensys, Inc. (the Company) is the Plan Sponsor. Employees with five years of vesting service, as defined by the Plan, are entitled to pension benefits upon retirement. Information concerning the Plan Agreement is available from the Human Resources Department.

The Plan received assets transferred of \$2,781,864 and \$143,922 on February 16, 2010 and August 24, 2010, respectively, from the Invensys Pension Plan to correct administrative errors resulting in plan benefits paid from incorrect trusts.

Plan Amendment

The Plan does not allow new participants and no future benefit accruals for employees, as follows: effective April 1, 1998 for Lake Mills, Wisconsin employees; effective April 1, 2002 for participants of the former APV Crepaco, Inc. Pension Plan for Shop Hourly Employees at Tonawanda, New York; and effective October 31, 1993 for participants of the former Gaulin Corporation Retirement Plan for Members of Local 1596 UAW Production and Maintenance Workers.

Funding Policy

The Plan is funded annually by the Company in an amount based on actuarial determinations. The contributions are at least equal to the minimum funding standards required by the Employee Retirement Income Security Act of 1974 (ERISA). The Plan has met the ERISA minimum funding requirements.

Contributions made to the Plan by the Company are invested in the Invensys Inc. Master Retirement Trust (Master Trust). The Master Trust pools the Plan's assets with those of other related Invensys, Inc. plans, and makes investments in various types of equity and fixed-income securities. The trustee holds the funds to manage, invest, and reinvest in accordance with the provisions of the Master Trust agreement.

Notes to Financial Statements (continued)

1. Plan Description (continued)

Plan Termination

Should the Plan terminate at some future time, its net assets will generally not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

2. Significant Accounting Policies

Basis of Accounting

The financial statements have been prepared on the accrual basis of accounting.

Valuation of Investments and Income Recognition

The Plan's participation in the Master Trust is stated at fair value (based primarily on the quoted market prices on the last business day of the plan year) of the securities owned by the Master Trust, as determined by the trustee, State Street Bank & Trust Company (State Street). The Plan holds an immediate participation guarantee contract that is valued at fair value, and is not held in the Master Trust.

Marketable securities are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). Securities traded on a national securities exchange are valued at the last reported sales price on the last business day of the plan year; investments traded in the over-the-counter market and listed securities for which no sale was reported on that date are valued at the average of the last reported bid and ask prices. The shares of registered investment companies are valued at quoted market prices which represent the net asset values of shares held in the Master Trust. The fair value of the participation units owned by the Plan in common collective trust funds are based on quoted redemption values on the last business day of the plan year. Certain U.S. government and sovereign obligations, most government agency securities, investment-grade corporate bonds, certain mortgage products, and municipal obligations are valued based on quoted market prices, dealer quotations or alternative pricing sources.

Notes to Financial Statements (continued)

2. Significant Accounting Policies (continued)

Valuation of Investments and Income Recognition (continued)

Derivative investments (interest rate swaps) are marked-to-market using the derivative trading desk and are priced at the level which, in the desk's judgment, the counterparty would agree to terminate the transaction or at which another party would agree to assume the rights and obligations of the plan under the transaction. The derivatives trading desk verifies prices periodically with the counterparty and/or dealers active in the relevant market.

The fair value of the various limited partnership investments is estimated using various methods. Marketable securities in the partnerships are stated at the quoted market price on the last business day of the Plan year, while nonpublicly traded securities are valued at amounts determined by the general partner.

The Plan also invests in certain securities collateralized by residential and commercial mortgages and other assets that may be affected by, among other things, changes in: interest rates, the quality of the underlying assets or the market's assessment thereof, factors concerning interests in and structure of the issuer or the originator of the receivables, or the creditworthiness of the entities that provide credit enhancements.

Substantially all of the plan's investments are held in the Master Trust, which was established for the investment of assets of the Plan and other Company-sponsored retirement plans. Each participating retirement plan has an undivided interest in the Master Trust. Investment income and expenses are allocated to the Plan based upon its pro rata share in the net assets of the Master Trust.

The cost of investments sold is determined on the basis of average cost. The gain or loss on securities sold is the difference between average cost and market value at the date of disposal.

Notes to Financial Statements (continued)

2. Significant Accounting Policies (continued)

Valuation of Investments and Income Recognition (continued)

The valuation methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while plan management believes the valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits (Note 7) are those estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries and (b) present employees or their beneficiaries. Benefits for retired or terminated employees or their beneficiaries are based on employee's compensation during their last five years of credited service. The accumulated plan benefits for active employees are based on years of service and the annual earnings factor as described in the plan document. Benefits payable under all circumstances—retirement, death, disability, and termination of employment—are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

Administrative Expenses

Administrative expenses are paid by the Plan.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

New Accounting Pronouncements

In May 2011, the FASB issued Accounting Standards Update 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRS*, (ASU 2011-04). ASU 2011-04 amended ASC 820 to converge the fair value measurement guidance in U.S. GAAP and International Financial Reporting Standards (IFRS). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

In January 2010, the Financial Accounting Standard Board ("FASB") issued ASU No. 2010-6, *Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures about Fair Value Measurement*. The standard requires entities to disclose additional information regarding assets and liabilities that are transferred between levels of the fair value hierarchy and to present purchases, sales, issuances and settlements on a gross basis in the reconciliations of fair value measurements using significant unobservable inputs. Additionally, the standard clarified existing guidance regarding the level of disaggregation of fair value measurements and disclosures regarding the valuation techniques and inputs utilized in estimating Level 2 and Level 3 fair value measurements. The Plan's financial statements reflect the adoption of this accounting standard.

4. Invensys Inc. Master Retirement Trust (continued)

The Master Trust participated in State Street's securities lending program in 2010 and 2009 by lending certain securities to borrowers to earn additional income, which is included in equity in net earnings of the Invensys Inc. Master Retirement Trust in the statements of changes in net assets. Loans of securities through State Street are collateralized by cash, letters of credit, or securities issued or guaranteed by the United States government or its agencies, equal to at least 102% of the current market value of the loaned securities. At December 31, 2010, the fair value of the loaned securities and collateral amounted to \$16,742,714 and \$16,984,897, respectively. At December 31, 2009, the fair value of the loaned securities and collateral amounted to \$8,706,877 and \$8,999,043, respectively.

5. Interest Rate Swaps

Derivative investments consist of fixed for floating interest rate long maturity swaps (approximately 30 years). The Plan had twenty-two separate swap arrangements outstanding at December 31, 2010 with a total net gross notional amount of \$474,850,000. The Plan had eighteen separate swap arrangements outstanding at December 31, 2009 with a total net gross notional amount of \$523,750,000.

The purpose of this strategy is to economically hedge the change in net funded status for a portion of the pension liability that can occur due to changes in interest rates. The marked to market value of the swaps, including accrued interest, in the over the counter market at December 31, 2010 is \$(27,191,839) and \$(46,264,060) at December 31, 2009. In addition, \$153,167,120 and \$118,212,882 is maintained in money market accounts and other short-term investments at December 31, 2010 and 2009, respectively, for collateral needs related to the swap arrangements. At December 31, 2010 and 2009, approximately \$30,000,000 and \$46,000,000, respectively, of this amount was posted as collateral to dealers.

6. Fair Value Measurements

ASC Topic 820, "Fair Value Measurements" (ASC Topic 820) defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. ASC Topic 820 also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs when measuring fair value.

The standard describes three levels of inputs that may be used to measure fair value:

- Level 1 Inputs are quoted prices (unadjusted) in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

APV Pension Plan for Certain Hourly Employees

Notes to Financial Statements (continued)

6. Fair Value Measurements (continued)

Level 2 Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly;

Level 3 Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

The following table sets forth by level within the fair value hierarchy the Plan's investment assets and liabilities, if any, as of December 31, 2010.

7. Accumulated Plan Benefits

An actuary from Mercer Human Resource Consulting, Inc. estimates the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The accumulated plan benefit information as of December 31, 2009 and 2008 is as follows:

	2009	2008
Actuarial present value of accumulated plan benefits:		
Vested benefits:		
Retired employees and beneficiaries currently receiving benefits	\$ 13,450,118	\$ 13,394,886
Inactive participants with deferred benefits	6,287,182	7,275,525
	<u>\$ 19,737,300</u>	<u>\$ 20,670,411</u>

APV Pension Plan for Certain Hourly Employees

Notes to Financial Statements (continued)

7. Accumulated Plan Benefits (continued)

The reconciliation of the actuarial present value of accumulated plan benefits from December 31, 2008 to December 31, 2009 is as follows:

Actuarial present value of accumulated plan benefits at December 31, 2008	\$ 20,670,411
Changes during the year:	
Decrease due to non-investment experience	(314,146)
Increase for interest due to decrease in the discount period	1,471,874
Actual benefits paid	<u>(2,090,839)</u>
Net decrease	<u>(933,111)</u>
Actuarial present value of accumulated plan benefits at December 31, 2009	<u>\$ 19,737,300</u>

Significant assumptions underlying the actuarial computations are:

Interest	—7.5% in 2009 and 2008, compounded annually.
Retirement	—Age-related retirement rates from age 55 to age 65, with terminated vested participants assumed to retire at age 62.
Mortality	—RP2000 Mortality Tables for Males and Females, without adjustment for collar, benefit amount, or employee/annuitant distinction, but projected by Scale AA to 2015 in 2009 and 2008.

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

APV Pension Plan for Certain Hourly Employees

Notes to Financial Statements (continued)

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

9. Parties-In-Interest

Section 3(14) of ERISA defines a party-in-interest to include, among others, fiduciaries or employees of the Plan, any person who provides services to the Plan or an employer whose employees are covered by the Plan. Accordingly, the management of investments held by the custodian are considered party-in-interest transactions.

10. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS), dated April 15, 2011, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Subsequent to this determination letter by the IRS, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan administrator believes that the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax exempt.

Accounting standards require recording uncertain income tax positions that exist in the Plan's financial statements. Plan management has determined there are no uncertain tax positions and believes there is no adjustment or disclosure required in the Plan's financial statements.

11. Subsequent Events

The Company has evaluated all subsequent events through October 4, 2011, the date the financial statements were available to be issued. During this period, there have been no material events that would require recognition in the financial statements or disclosures to the financial statements.
