INDEPENDENT AUDITORS' REPORT

To the Plan Fiduciary of
61st Street Service Corporation
401(k) Retirement Plan:

We were engaged to audit the financial statements of 61st Street Service Corporation 401(k) Retirement Plan (the "Plan") as of December 31, 2010 and 2009 and for the year ended December 31, 2010 and the supplemental schedule as listed in the accompanying index. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information included in Note 6 pertaining to investments held at ING National Trust ("ING"), which was certified by ING, the trustee and custodian of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that this custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from ING as of December 31, 2010 and 2009 and for the years then ended, that the information provided to the plan administrator is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the investment information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Description of Plan

The following description of the 61st Street Corporation 401(k) Retirement Plan (the "Plan") provides only general information. A more complete description is provided in the Plan agreement.

General

The Plan is a 401(k) plan with a profit sharing plan feature funded with deferred compensation contributions made by all eligible employees and discretionary contributions made by 61st Street Corporation (the "Employer") on behalf of all eligible employees.

Eligibility

Participation is restricted to employees age 18 or older working at least 1,000 hours per year. An employee is able to make a 401(k) contribution on the first of the month coinciding with or next following the date in which he or she completes six months and 520 hours of service. This elective compensation reduction is limited in accordance with IRC regulations. The Employer will make a nonelective, discretionary contribution on the first of the month coinciding with or next following the completion of two years of service by the employee. Participants may also contribute amounts representing rollover distributions from other qualified defined benefit or defined contribution plans.

Compensation

The Employer has elected to use total gross compensation including elective salary reductions such as contributions to the 401(k) plan, tax sheltered annuities or the Employer's cafeteria plan, in computing both the participant's elective contribution and the Employer's contribution.

Funding

The trustee of the Plan has entered into an agreement with ING Life Insurance and Annuity Company to maintain segregated accounts for each of the Plan's participants and to offer each participant a range of investment options through its division, ING Financial Services. See Note 6.

Vesting

All participants' accounts are immediately 100% vested.

Notes Receivable from Participants

The Plan permits participants to borrow up to 50% of their account balances, not to exceed $50,000, on terms similar to those that would be obtained from other lenders under the circumstances. During 2010, loans were issued with an interest rate of 4.25%. A balance of the participant's accounts balance equal to the amount borrowed is pledged as collateral to insure repayment of the loan. Loan repayments of both principal and interest are made through payroll deductions over the term of the loan which cannot exceed 60 months, unless the loan proceeds are used to

purchase a principal residence. In that case, repayment may be made over a period of up to 15 years. Upon default, the outstanding loan balance is considered a distribution to the participant. Loans totaling $65,612 and $81,370 were in default for the years ended December 31, 2010 and 2009, respectively.

Tax Status

The latest favorable determination letter, dated August 27, 2007, was received from the Internal Revenue Service informing the Plan that it is designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan sponsor believes that the Plan continues to qualify and operate as designed.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the federal and state taxing authorities. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that, as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan is potentially subject to examinations for 2009 and 2010.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared in accordance with accounting principles generally accepted in the United States of America which includes the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statements of Net Assets Available for Benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan.

Payment of Benefits

Benefits are recorded when paid.

Plan Administrative Expenses

The Sponsor pays most of the costs associated with the administration of the Plan.

New Accounting Pronouncement

During 2010, the Plan adopted the provisions of a new accounting standard that requires deferred contributions plans to classify participant loans as participant notes receivable rather than as investments, as was previously required. This standard was adopted retroactively and, as a result, the December 31, 2009 participant loans have been reclassified from investments to participant notes receivable. The adoption of this standard had no impact on the Plan's net assets or changes in net assets.

3. Trustee

The Employer is both the plan sponsor and plan administrator. The trustee of the Plan is ING National Trust. As of January 1, 2003 the above parties have named the Director of Human Resources of the Employer as the plan fiduciary. The trustee holds all amounts the Employer contributes plus elective deferrals made by the employees ("401(k) contributions") in segregated accounts for the benefit of each plan participant. The trustee makes all distributions and benefit payments to participants and beneficiaries, including loans, and is responsible for maintaining the Plan records on a plan year basis.

4. Fair Value Measurements

Generally accepted accounting principles define fair value, establish a framework for measuring fair value, and establish fair value hierarchy which prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or liability or, in the absence of principal market, the most advantageous market. Valuation tech-

niques that are consistent with the market, income or cost approach, as specified by generally accepted accounting principles, are used to measure fair value. The fair value prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual Funds: Valued at the closing price reported in an *active* market in which the funds are traded.

Guaranteed Interest Contract: Valued by discounting the related cash flows based on current yields of similar instruments with comparable duration.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009, respectively:

	Assets at Fair Value as of December 31, 2010

	$ 5,830,201	$ -	$ 6,340,868	$ 12,171,069

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2010:

	Guaranteed Interest Contract
Balance, beginning of year	$ 6,340,868
Realized gains	200,289
Unrealized gains relating to instruments still held at reporting date	-
Purchases, sales, issuances and settlements (net)	387,164
Balance, end of year	$ 6,928,321

5. Plan Termination

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. However, in this unlikely event, participants will be fully vested in the aggregate value of their individual accounts.

6. Investments

The Plan invests in various mutual funds as chosen by each participant. The Plan also offers a benefit responsive fixed income option represented by an annuity contract with the ING Life Insurance and Annuity Company, and paying an interest rate determined monthly, but not less than a minimum guaranteed return of 3% per annum (see Note 7). ING has certified the following fair value of investments as of December 31, 2010 and 2009. Investments that represent five percent or more of the Plan's net assets are separately identified:

Fair Value of Investments		
	2010	2009
Investments at fair value as determined by the custodian:		
ING Fixed Income Account	$ 6,928,321	$ 6,340,868
The Income Fund of America	750,126	664,653
Baron Growth Fund	755,004	-
The Growth Fund of America	1,003,968	859,017
Fundamental Advisors	1,277,243	1,067,730
Other	3,491,979	3,238,801
	$ 14,206,641	$ 12,171,069

During the year ended December 31, 2010, the Plan's investments, including gains and losses on investments bought and sold (realized) as well as held during the year (unrealized), appreciated in value by $860,469, and are reported in net appreciation in fair value of investments in the Statement of Changes in Net Assets Available for Benefits.

7. Annuity Contract With Insurance Company

The Plan maintains a benefit-responsive annuity contract with ING Life Insurance and Annuity Company. The contract is included in the financial statements of the Plan at fair value as reported to the Plan by ING. Because this guaranteed interest option is fully benefit-responsive, contract value is the relevant measurement for that portion of net asset available for benefits attributable to this investment option. Therefore, an adjustment to fair value has been included in the financial statements to arrive at net assets available for benefits. Contract value represents contributions made under the contract plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawals or transfer of all or a portion of their investments at contract value. ING is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

The average yield and crediting interest rate was 3% during 2010 and 2009.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

8. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500:

	As of December 31,	
	2010	2009
Net assets available for benefits per the financial statements	$ 14,662,920	$ 12,801,844
Add: excess contributions payable	1,985	19,433
Less: contribution receivable at end of year	(75,415)	(146,765)
Net assets available for benefits per Form 5500	$ 14,589,490	$ 12,674,512

The following is a reconciliation of the changes in net assets per the financial statements for the year ended December 31, 2010 to Form 5500:

	Accounts in Financial Statements	Deduct	Add	Accounts in Form 5500
Contributions –				
Participant	$ 730,413	$ (22,367)	$ 23,133	$ 731,179
Employer	1,394,879	(51,063)	123,632	1,467,448
	2,125,292	(73,430)	146,765	2,198,627
Income	1,085,073	-	-	1,085,073
Benefits paid	(1,320,683)	-	(19,433)	(1,340,116)
Administrative expenses	(28,606)	-	-	(28,606)
	$ 1,861,076	$ (73,430)	$ 127,332	$ 1,914,978

9. Related Parties

Certain Plan investments are shares of mutual funds managed by ING Life Insurance and Annuity Company. ING National Trust is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to ING Life Insurance and Annuity Company amounted to $28,606 for the year ended December 31, 2010.

10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

11. Excess Contributions Payable

Contributions received from participants included on the Schedule of Changes in Net Assets Available for Benefits for the years ended December 31, 2010 and 2009, are reported net of $$1,985 and $19,433 in excess contributions, respectively. These amounts represent refunds of participant deferrals in excess of contributions permitted in order to satisfy the relevant nondiscrimination provisions of the Plan. The amounts were returned to the participants during the following plan year and are also included as excess contributions payable on the Schedule of Net Assets Available for Benefits as of the end of the respective plan years.

12. Subsequent Events

The Plan has evaluated its subsequent events through September 2, 2011, the date that the accompanying financial statements were available to be issued. The Plan had no additional subsequent events requiring disclosure.
