Novelis Hourly Savings Plan

NOTES TO FINANCIAL STATEMENTS

December 31, 2010 and 2009

NOTE 1 – SUMMARY DESCRIPTION OF PLAN

General

The Novelis Hourly Savings Plan (the “Plan”) was adopted by the Novelis Corporation (subsidiary of Novelis Inc.) Board of Directors on October 28, 2005 and became effective December 1, 2005. The Plan is a 401(k) prototype plan, including a Roth 401(k) feature. The Plan is administered by the Novelis Employee Benefits Committee (Plan Administrator). Vanguard Fiduciary Trust Company (the “Trustee”) holds the funds, executes investment transactions, and makes distributions, as directed by the Plan Administrator, to the participants or their beneficiaries. The Vanguard Group serves as the Plan’s recordkeeper, allocating net assets to individual participant accounts. Participants should refer to the Plan document for a detailed description of the Plan’s provisions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Eligibility and Vesting

All full-time hourly employees of Novelis Corporation’s (the “Company”) Warren, Terre Haute, and Fairmont plant locations who are covered by the labor contract negotiated between the Company and the union, are eligible to join the Plan upon date of hire, or after one year of service for part-time employees.

Participants are fully vested at all times in their respective accounts.

Contributions

Participants may elect at any time to contribute amounts (Employee Contributions) up to 50% of their compensation on a before-tax, Roth 401(k) or after-tax basis or any combination of the three sources subject to limits set by law. In addition, employees may elect to contribute all or a portion of their quarterly performance bonus on a before-tax basis (Special Contribution).

The Plan accepts rollover contributions from former employers’ qualified plans or from an Individual Retirement Account (together, the “Rollover Contribution”). Rollover contributions were \$40,367 and \$783 for the years ended December 31, 2010 and 2009, respectively, and are included within participant contributions in the Statements of Changes in Net Assets Available for Benefits.

Company contributions are determined in accordance with applicable collective bargaining agreements. During 2010 and 2009, none of the collective bargaining agreements required the Company to make any Company contributions.

NOTES TO FINANCIAL STATEMENTS – CONTINUED

December 31, 2010 and 2009

NOTE 1 – SUMMARY DESCRIPTION OF PLAN – CONTINUED

Participant Accounts

Each participant has a separate account (Participant Account) under each fund in which contributions have been invested on behalf of the participant. The account includes Company contributions, Employee Contributions, Rollover Contributions, Special Contributions, and the earnings thereon. The net value of each Participant Account is established on a daily basis through the valuation of the trust fund assets at market value, except for assets in the Vanguard Retirement Savings Trust, which are valued at contract value. All dividends, interest and other distributions received in respect of any fund are reinvested automatically in the same fund. A participant may elect to invest his account, in multiples of 1%, in any of the investment funds offered by the Plan. As provided in the Plan, a participant may change this election and/or elect to transfer any portion of their account balance from one fund to any other fund on a daily basis.

Plan Withdrawals and Notes Receivable from Participants

Active participants may request two withdrawals per year from the Plan; however, the Plan requires that withdrawals be made in the following order of priority:

- a) any after-tax portion of the Employee Contribution and earnings thereon,
- b) any portion of Rollover Contribution and earnings thereon,
- c) if age 59-1/2 or over, any Company (Basic) contribution and earnings thereon,
- d) if age 59-1/2 or over, any Special Contribution and earnings thereon,
- e) if age 59-1/2 or over, any before-tax portion of the Employee Contribution and earnings thereon,
- f) if age 59-1/2 or over, any portion of Roth 401(k) contributions and earnings thereon if account has been open at least 5 years.

Terminated or retired participants with more than \$5,000 in the Plan may leave their account balance in the Plan indefinitely and may elect to make up to twelve withdrawals from the Plan per year. Participants who keep a balance in the Plan beyond age 70-1/2 will be required to take annual required minimum distributions from the Plan.

Participants are permitted to borrow from their account, within the limits specified by the Internal Revenue Service (IRS). Loans are taken from a participant's account in the following order of priority:

- a) any before-tax portion of the Employee Contribution and earnings,
- b) any Special Contribution and earnings,
- c) any portion of Roth 401(k) contributions and earnings,
- d) any Company (Basic) contribution and earnings,
- e) any portion of Rollover Contribution and earnings,
- f) any after-tax portion of the Employee Contribution and earnings.

NOTES TO FINANCIAL STATEMENTS – CONTINUED

December 31, 2010 and 2009

NOTE 1 – SUMMARY DESCRIPTION OF PLAN – CONTINUED

Notes receivable from participants bear interest at a fixed rate equal to the prime rate, as published in the Wall Street Journal, on the first business day of the month in which the loans are obtained. Interest rates on participant loans ranged from 3.25% to 8.25% at December 31, 2010 and 2009. Loan terms range from one to five years, or up to fifteen years if the proceeds of the loan are to be used for the purchase of a primary residence. Loan amounts are taken proportionately from each investment fund within each account based on their balances when the loan is processed. Principal and interest repayments made via payroll deductions or in a lump-sum payment are made into the investment funds according to the participant's current investment election.

Individuals who retire or are terminated prior to meeting their loan obligation have the option to pay the outstanding balance in one lump sum, or to make monthly payments directly to Vanguard; otherwise the loan becomes a deemed distribution from the participant's account. Such distributions are accounted for as withdrawals within the Statements of Changes in Net Assets Available for Benefits.

Benefit Obligations

There were no amounts due to withdrawing participants at December 31, 2010 and 2009.

Termination Provisions

The Company intends to continue the Plan indefinitely, but reserves the right to terminate or amend the Plan as necessary. In the event the Plan is terminated, the accounts of the participants will be distributed at the time and in the manner determined by the Plan Administrator and in accordance with the terms of the Plan.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statements of Net Assets Available for Benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

NOTES TO FINANCIAL STATEMENTS – CONTINUED

December 31, 2010 and 2009

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Plan's investments are held by Vanguard Fiduciary Trust Company in the Novelis Master Savings Trust (the "Master Trust"), where they are commingled with the investments of the Novelis Savings and Retirement Plan. The Plan has a specific interest in the net assets of the Master Trust, which represents the total of the specific interests of the individual participants in the Plan.

Included in investments of the Master Trust is the Vanguard Retirement Savings Trust IV (the "Vanguard Fund"), a stable value collective trust fund. The underlying investments of the Vanguard Fund are Synthetic Investment Contracts (SICs) backed by Vanguard bond funds, traditional Guaranteed Investment Contracts (GICs) backed by major insurance companies, and Bank Investment Contracts (BICs). GICs and BICs are valued based on estimated fair value, computed using discounted cash flows. SICs are valued based on the aggregate market value of the applicable bond trusts, mutual funds and other investments, while the applicable wrapper contracts are valued at estimated fair value based on a replacement cost approach. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment in the Vanguard Fund at contract value. However, certain Plan directed withdrawals (e.g. layoff, sale of division) may be subject to a market value adjustment calculated in accordance with the provisions of the investment contracts and thus may not be available at contract value. As required, the fair value of a fully benefit-responsive investment contract is adjusted to contract value. Contract value represents contributions made under the contract, plus earnings and transfers in, less participant withdrawals, administrative expenses and transfers out.

New Accounting Standards Adopted

In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2010-06 – Fair Value Measurements and Disclosures (Topic 820): "Improving Disclosure About Fair Value Measurements" (ASU 2010-06), to add new disclosures about transfers into and out of Levels 1 and 2 and separate disclosures about purchases, sales, issuances and settlements relating to Level 3 measurements. ASU 2010-06 also clarifies existing fair value disclosures about the level of disaggregation and about inputs and valuation techniques used to measure fair value. This ASU was adopted in these financial statements except for the requirement to provide Level 3 activity of purchases, sales, issuances, and settlements on a gross basis, which will be effective for fiscal years beginning on or after December 31, 2010.

In September 2010, the FASB issued ASU 2010-25, Plan Accounting - Defined Contribution Pension Plans (Topic 962): "Reporting Loans to Participants by Defined Contribution Pension Plans," which provides guidance on how loans to participants should be classified and measured by defined contribution plans. That guidance requires participant loans to be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. The Plan adopted this new guidance in its December 31, 2010 financial statements. Net assets of the Plan were not affected by the adoption of the new guidance.

NOTES TO FINANCIAL STATEMENTS – CONTINUED

December 31, 2010 and 2009

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Administrative Costs

Investment fees and fund management expenses are deducted from the investment returns of each fund. Loan fees and redemption fees are deducted from the accounts of participants incurring such fees. All other expenses incurred in the administration of the Plan are paid by the Company.

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for various investment options. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the financial statements.

NOTE 3 – FAIR VALUE MEASUREMENTS

FASB Accounting Standards Codification 820 (ASC 820), "Fair Value Measurements and Disclosures", provides the framework for measuring fair value. That framework provides for a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described below:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access at the measurement date.
- Level 2 – Inputs to the valuation methodology that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices for identical or similar assets or liabilities in inactive markets; or other inputs that are observable or can be corroborated by observable market data for substantially the full terms of the assets or liabilities.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full-term of the asset or liability.

- Level 3 – Inputs to the valuation methodology that are unobservable and significant to the fair value measurement.

NOTES TO FINANCIAL STATEMENTS – CONTINUED

December 31, 2010 and 2009

NOTE 3 – FAIR VALUE MEASUREMENTS – CONTINUED

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual funds: Valued based on the quoted market price of the fund in active markets.

Collective trust: Stated at fair value and then adjusted to contract value. Fair value is the net asset value (NAV) per unit based on the fair value of the underlying investments.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan's interest in the Master Trust as of December 31, 2010 and 2009 by level within the fair value hierarchy is presented in Note 4.

NOTE 4 – INTEREST IN MASTER TRUST

The Plan had a 4.3% and 4.4%% interest in the Master Trust at December 31, 2010 and 2009, respectively. The Master Trust's investments at December 31, 2010 and 2009 were as follows:

	<u>2010</u>	<u>2009</u>
Investments at fair value:		
Collective trust	\$ 103,480,154	\$ 98,502,325
Mutual funds	244,327,485	208,029,539

NOTE 4 – INTEREST IN MASTER TRUST – CONTINUED

The following table sets forth additional disclosures for the fair value measurements of investments in certain entities that calculate net asset value per share (or its equivalent) as of December 31, 2010 and 2009.

Collective Trust	Fair Value Estimated Using Net Asset Value Per Share		Unfunded Commitment	Redemption Frequency	Redemption Restrictions	Redemption Notice Period
	Fair Value 2010	Fair Value 2009				
Vanguard Fund (a)	\$103,480,154	\$ 98,502,325	\$ -	Daily (b)	None (b)	None (b)

(a) The Vanguard Fund's investment policy is to invest in a combination of synthetic contracts backed primarily by Vanguard bond funds, traditional investment contracts backed by major insurance providers and bank contracts. The fund's credit guidelines require that traditional investment contracts be rated at least AA. The fund generally maintains an average maturity between two and three years.

(b) Participants may ordinarily direct the withdraw or transfer of all or a portion of their investment at contract value daily without any redemption notice or restrictions. Plan level initiated transactions require a twelve month redemption notice in order to withdrawal at full book value. Plan level initiated transactions with less than a twelve month redemption notice may incur an adjustment to book value.

NOTE 5 – RELATED PARTY TRANSACTIONS

Plan investments include shares of mutual funds and a collective trust fund managed by The Vanguard Group. Fees are paid by the Plan for investment management services. Vanguard Fiduciary Trust Company is the trustee of the Plan and, therefore, these transactions qualify as party-in-interest transactions.

NOTE 6 – SUMMARY OF FINANCIAL INFORMATION CERTIFIED BY THE TRUSTEE

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Vanguard Fiduciary Trust Company, the trustee of the Plan, has certified to the completeness and accuracy of all investments and notes receivable from participants reflected in the accompanying Statements of Net Assets Available for Benefits, the related investment activity and interest on notes receivable from participants reflected in the Statements of Changes in Net Assets Available for Benefits, the Master Trust investment information, excluding leveling within the fair value hierarchy reflected in Note 4, and Schedule H, line 4i – Schedule of Assets (held at end of year).

NOTE 7 – TAX STATUS OF THE PLAN

On March 31, 2008, the IRS stated that the prototype adopted by the Plan, as then designed, qualifies under Section 401(a) of the Internal Revenue Code (IRC). The Plan has not received a determination letter specific to the Plan itself; however, the Plan Administrator believes that the Plan, including amendments, is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 7 – TAX STATUS OF THE PLAN – CONTINUED

Accounting principles generally accepted in the United States require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010 and 2009, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the IRS; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax audits for the years prior to 2006.

NOTE 8 – RECONCILIATION OF FINANCIAL STATEMENTS WITH FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2010 and 2009 to Form 5500:
