Vision Care Holdings, L.L.C. 401(k) Plan
West Palm Beach, Florida

We were engaged to audit the accompanying Statements of Net Assets Available for Benefits of Vision Care Holdings, L.L.C. 401(k) Plan (the "Plan") as of December 31, 2010 and 2009, and the related Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2010, and the accompanying Form 5500, Schedule H, line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified to by JP Morgan Chase Bank, National Association as of December 31, 2009 and Reliance Trust Company as of and for the year ended December 31, 2010, the trustees of the Plan, except for comparing the information with the related information included in the financial statements and accompanying information. We have been informed by the Plan administrator that JP Morgan Chase Bank, National Association and Reliance Trust Company held or hold the Plan's investment assets and executed investment transactions. The Plan administrator has obtained a certification from the trustees as of December 31, 2010 and 2009 and for the year ended December 31, 2010, that the information provided to the Plan administrator by the trustees is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

VISION CARE HOLDINGS, L.L.C. 401(K) PLAN

Notes to Financial Statements December 31, 2010 and 2009

Note 1 – Plan Description

General - The Vision Care Holdings, L.L.C. 401(K) Plan (the "Plan") is a prototype defined contribution plan covering all full time employees of Vision Care Holdings, L.L.C., which declared bankruptcy during 2010 and currently is operated as LASIK Vision Institute, LLC and its participating affiliates (the "Company"). The original effective date of the Plan was October 1, 1998 but was restated by a new prototype plan with Automatic Data Processing ("ADP") that was effective October 1, 2000. Furthermore, the Plan was amended and restated effective March 1, 2009 to remove EyeGlass World LLC as a participating affiliate. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The following is a summary of the major Plan provisions. Participants should refer to the Plan agreement for a more complete description.

Participation - All employees of the Company who have completed at least three months of service and have attained the age of twenty-one are auto-enrolled to participate at a 2% deferral rate unless the employee opts for a lower contribution rate or not to participate in the Plan.

Contributions - Participants may contribute up to 20% of pretax annual compensation, as defined by the Plan. Participants may also contribute amounts representing distributions from other qualified plans (rollovers). Participants direct the investment of their contributions based upon various investment options offered by the Plan. The Plan currently offers a variety of mutual funds and one common/collective trust as investment options for its participants. At its discretion, the Company may make matching contributions of the employee elective contributions. In addition, the Company may make discretionary non-elective contributions to the Plan, as determined by the Company's board of directors. Employee contributions are subject to certain limitations. The Company elected not to match or make non-elective employer contributions for the years ended December 31, 2010 and 2009.

Participant Accounts - Each participant's account is credited with the participant's contribution and an allocation of the Company's contribution and Plan earnings or losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which each participant is entitled is the benefit that can be provided from the participant's account.

Vesting - Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Participants vest in their employer matching contribution based on years of service as defined by the Plan. A participant is 100% vested after three years of credited service. Upon death, normal retirement, or disability, employees will be 100% vested in employer contributions.

Notes Receivable from Participants - Participants may borrow from their accounts a minimum of \$500 up to a maximum of \$50,000 or 50% of their account balance, whichever is less. Loan terms generally range from 1 to 5 years although they can be extended up to 30 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at the current prime rate plus two percent. Principal and interest are collected ratably through payroll deductions. Interest rates on these loans range from 5.25% to 10.25%.

VISION CARE HOLDINGS, L.L.C. 401(K) PLAN

Notes to Financial Statements December 31, 2010 and 2009

Note 1 – Plan Description (continued)

Payment Benefits - On termination of service due to death, disability or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a determined period.

Payments under the Plan's hardship provision result in a suspension of contributions to the Plan for a period of six months, and may not be made more frequently than once a year.

Forfeited Accounts - Non-vested forfeited accounts may be used to reduce future employer contributions. At December 31, 2010 and 2009, there were no non-vested forfeited account balances.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting - The financial statements of the Plan are prepared under the accrual method of accounting.

New Accounting Pronouncements - In January 2010, the Financial Accounting Standards Board ("FASB") updated financial reporting standards ("the Update") to improve disclosures regarding fair value measurements. This Update requires entities to (1) disclose separately the amounts of significant transfers in and out of investments valued using Level 1 and Level 2 fair value measurements and describe the reasons for the transfers and (2) present separately (i.e., on a gross basis rather than as one net number) information about purchases, sales, issuances, and settlements in the roll forward disclosure of changes in investments valued using Level 3 fair value measurements. The Update also requires fair value disclosures on a more detailed basis (by class of assets and liabilities rather than by major category or line item in the Statements of Net Assets Available for Benefits). Finally, the Update requires additional disclosures regarding the valuation techniques and inputs used to measure fair value for investments valued using Level 2 and Level 3 inputs. For all portions of the Update except for changes required in the Level 3 investment roll forward information, this Update is effective for interim and annual reporting periods beginning after December 15, 2009 (the 2010 Plan year). For the changes required in the Level 3 investment roll forward information, the Update is effective for fiscal years beginning after December 15, 2010 (the 2011 Plan year). As all of the requirements of this Update are only disclosure related, the adoption of the required portions of this Update in 2010 did not have any effect on any amounts in the accompanying basic financial statements.

On September 16, 2010, the FASB updated financial reporting standards on reporting notes receivable from participants by defined contribution pension plans whereby notes receivable from participants are to be reclassified from plan investments to notes receivable and measured at the unpaid principal balance plus accrued but unpaid interest. This change is effective for the 2010 Plan year. The Plan adopted this change in accounting method as of December 31, 2010, and the comparative Statements of Net Assets Available for Benefits as of December 31, 2009 has been adjusted to apply the new method retrospectively. The Plan's Net Assets Available for Benefits were not affected by this change in accounting principle.

VISION CARE HOLDINGS, L.L.C. 401(K) PLAN

Notes to Financial Statements December 31, 2010 and 2009

Note 2 – Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition - The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See below for discussion of *Fair Value Measurements*.

While investment contracts held by a defined-contribution plan are required to be reported at fair value, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully-benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a collective trust. Contract value for this collective trust is based on the net asset value of the fund as reported by the investment advisor. The Statements of Net Assets Available for Benefits presents the fair value of the investment in the collective trust as well as the adjustment of the investment in the collective trust from fair value to contract value relating to the investment contracts. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis. As of December 31, 2009, the common collective trust was considered fully-benefit responsive and the applicable adjustment from fair value to contract value is shown on the Statements of Net Assets Available for Benefits. As of December 31, 2010, the common collective trust was in the process of liquidation, and as such all restrictive provisions of the investment contract which require the common collective trust be reported at contract value were eliminated. As such, the common collective trust is no longer fully-benefit responsive as of December 31, 2010.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Fair Value Measurements - Generally Accepted Accounting Principles in the United States of America ("GAAP") provides a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

Three levels of inputs may be used to measure fair value:

Level 1 – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date;

Level 2 – Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies; and

Level 3 – Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

VISION CARE HOLDINGS, L.L.C. 401(K) PLAN

Notes to Financial Statements December 31, 2010 and 2009

Note 2 – Summary of Significant Accounting Policies (continued)

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methods used for instruments measured at fair value, including the general classification of such instruments, pursuant to the valuation hierarchy.

Mutual Funds - These investments are public investment vehicles valued using the Net Asset Value ("NAV") provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and classified within level 1 of the valuation hierarchy.

Common/Collective Trust - These investments are public investment vehicles valued using the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is classified within level 2 of the valuation hierarchy because the NAV's unit price is quoted on a private market that is not active; however, the unit price is based on underlying investments, most of which are traded on an active market and the balance of which are traded on secondary markets.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

Subsequent Events - Management has evaluated subsequent events through October 4, 2011 in connection with the preparation of these financial statements, which is the date the financial statements were available to be issued.

Note 3 – Information Prepared and Certified by Trustees (Unaudited)

The following information included in the financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by JP Morgan Chase Bank, National Association as of December 31, 2009 and Reliance Trust Company, as of and for the year ended December 31, 2010, the trustees of the Plan, as permitted by Section 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA.

VISION CARE HOLDINGS, L.L.C. 401(K) PLAN

Notes to Financial Statements December 31, 2010 and 2009

Note 5 – Fully-Benefit Responsive Contracts (Unaudited)

The Plan holds an interest in a common/collective trust with Bank of America, National Association that was determined to be fully-benefit responsive (at December 31, 2009) to maintain a portion of the Plan contributions in guaranteed investment contracts and synthetic guaranteed investment contracts. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As a result of the common/collective trust contract being fully-benefit responsive, the contract value was the relevant measurement attribute for that portion of the net assets available for benefits attributable to the common/collective trust. Contract value, as reported to the Plan by Bank of America, National Association, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

As of the year ended December 31, 2010 the common collective trust was in the process of liquidation and the provisions of the contract which determined the fully-benefit responsiveness of the fund were eliminated.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2009 was \$273,493. The crediting interest rate is based on a formula agreed upon with the issuer. The crediting rate can be adjusted either monthly or quarterly, but in no event is the crediting rate less than 0%.

Certain events limited the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA.

Note 6 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contribution at any time and terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 7 – Administrative Expense

Investment manager fees and administrative expenses relating to the Plan are paid by the Plan and are reflected in the Plan's financial statements. However, expenses related to the Plan paid directly by the Company were approximately \$28,000 for the year ended December 31, 2010 and are not included in the accompanying financial statements.

VISION CARE HOLDINGS, L.L.C. 401(K) PLAN

Notes to Financial Statements December 31, 2010 and 2009

Note 8 – Tax Status

The Plan adopted an ADP Prototype defined contribution plan effective October 1, 2000. The Prototype Plan obtained its latest determination letter on November 6, 2001, in which the Internal Revenue Service (“IRS”) stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Prototype Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Prototype Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. The Company believes that the Prototype Plan was qualified and the related trust was tax-exempt as of the financial statements date and therefore no provision for income taxes has been included in the Plan’s financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010 or 2009, there were no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to audit by taxing jurisdictions; however, there are currently no audits of any periods in progress. Plan management believes it is no longer subject to income tax examination for years prior to 2007.

Note 9 – Party-In-Interest Transactions

Notes receivable from participants are also considered to be party-in-interest because they are transacted with Plan participants. Fees paid during the year for accounting and other services rendered by the Plan’s trustees were based on customary and reasonable rates for such services.

Note 10 – Risk and Uncertainties

The Plan provides for investment options in various funds. Investment securities are exposed to certain risks, such as interest rate, market and credit and overall market volatility. Due to the level of risk associated with investment securities and the level of uncertainty related to the changes in their value, it is at least reasonably possible that changes in the fair value of investments in the near future could materially affect participants’ account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

Note 11 – Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of Net Assets Available for Benefits per the financial statements at the December 31, 2010 and 2009 to Net Assets Available for Benefits in Form 5500:
