Independent Auditors' Report

To the Plan Administrative Committee
Kent Companies 401(k) Plan

We have audited the accompanying statements of net assets available for benefits of the Kent Companies 401(k) Plan (the "Plan") as of December 31, 2010 and 2009, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Kent Companies 401(k) Plan as of December 31, 2010 and 2009, and the changes in net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental information included in the *Schedule of Assets Held for Investment* is presented for purposes of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental information has been subjected to the audit procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Kent Companies 401(k) Plan

Notes to Financial Statements

1. Description of Plan The following description of the Kent Companies 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established under the Internal Revenue Code Section 401 covering all employees of Kent Distributors, Incorporated (the "Company") and its affiliated companies. The investment assets are held by the Mass Mutual Life Insurance Company at December 31, 2010 and 2009, respectively. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Employees are eligible to participate in the Plan on January 1 or July 1, following the completion of one year of service as defined in the Plan. If an eligible participant terminates employment and is later re-employed, that employee may become a participant upon re-employment after meeting the requirements in the Plan document.

Trustee

Bill Kent and Bennett Robb serve as trustees for the Plan. The trustee is responsible for the administration, management and investment of the trust fund. In addition, the trustee makes all distributions and benefit payments from the trust fund to participants and beneficiaries. The trustee maintains the records of the Plan on a calendar year basis (the Plan Year).

Contributions

Each year participants may contribute up to 15 percent of annual compensation as defined by the Plan. The Company may elect to contribute a matching contribution equal to a percentage as determined by the Company. For the Plan years ended December 31, 2010 and 2009, the Company contributed 50 percent of the first 6 percent of base compensation that a participant contributed to the Plan.

Participant Accounts

The trustee maintains an account for each Plan participant. Each participant's account is credited with the participant's contribution and allocations of (a) the Company's matching contribution, (b) the Company's discretionary nonmatching contribution, and (c) Plan earnings or losses. Allocations are based on participant earnings. Earnings (or losses) of the Plan are allocated to participants based on the account balances in existence. Forfeitures for the nonvested portion of terminated participants' accounts are used to offset the Company's next contribution. At December 31, 2010 and 2009, such forfeitures amounted to $2,705 and $3,993, respectively.

1. Description of Plan (Continued)

Vesting

A Participant's vested interest in his/her account balance is determined using the following table except that a participant is 100% vested in the part of the account resulting from his/her contributions:

Participant's Years of Service	Vested %
Less than 2 years	0%
2 Years	20%
3 Years	40%
4 Years	60%
5 Years	80%
6 Years or more	100%

The term "years of service" includes all periods of employment except for years in which an employee worked less than 1,000 hours. For purposes of vesting, the "year" is defined as a calendar year.

A participant is 100% vested, regardless of years of service, upon disability, death or attaining a normal retirement age.

Investment Options

All assets of the Plan are participant-directed; therefore, all investment decisions and transactions are administered by the Participants. The Plan's investment assets are held by Mass Mutual Retirement Services ("MMRS").

Notes Receivable from Participants

The Plan allows participants to borrow amounts from the vested portion of their accounts. Such loans are limited to the lesser of 50% of the vested account balance or $50,000. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Trustees. Participant loans totaled $304,319 and $298,324 at December 31, 2010 and 2009, respectively. The unpaid principal balance approximates fair value.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his/her account less 20% Federal withholding or a direct rollover into another qualified benefit plan or account.

1. Description of Plan (Continued)

Forfeitures

The nonvested portion of a terminated participant's account is forfeited after incurring a break-in-service. Forfeitures are allocated as described above. A break-in-service occurs if an employee works 500 hours or fewer during the Plan year.

2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting, under which income is recognized when earned and expenses are recognized when the obligation is incurred.

As described in Financial Accounting Standards Board ("FASB") Staff Position, FSP AAG INV-1 And SOP 94-4-1, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans* (the "FSP"), investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through the MMRS. The Statement of Net Assets Available for Benefits presents the fair value of the investment in the master trust as well as the adjustment of the investment in the master trust from fair value to contract value relating to investment contracts. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

Investment Valuation

The Plan's investments are valued at fair value as determined by MMRS at December 31, 2010 and 2009. Fluctuations in market value between years are reflected as net appreciation in fair value of investments in the accompanying statements of changes in net assets available for plan benefits.

FASB Accounting Standards Codification ("ASC") 820 (*Fair Value Measurements*) establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

2. Summary of Significant Accounting Policies (Continued)

Investment Valuation (Continued)

Level 1

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2

Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Notes Receivable from Participants—Valued at amortized costs which approximates fair value.

Pooled Separate Accounts (PSAs)—PSAs are made up of a wide variety of underlying investments such as equities, preferred stock, bonds, real estate and mutual funds. The Net Asset Value (NAV) of a PSA is based on the market value of its underlying investments. The PSA NAV is not a publicly-quoted price in an active market.

Investment Contract—Investment contracts issued are backed by the General Account. Due to the nature of these contracts, they do not have specific underlying assets assigned. Fair value represents the amount plan sponsors would receive if they terminated the contract at the reporting date, which is book value less an early withdrawal charge. This includes both benefit and non-benefit responsive investment contracts.

2. Summary of Significant Accounting Policies (Continued)

Investment Valuation (Continued)

Level 3 (Continued)

MMRS general investment account investment option for defined contribution plans is a guaranteed interest account provided through a group annuity contract. Under the terms of the group annuity contract, a crediting rate is established for amounts invested in the guaranteed interest account and participants may direct permitted withdrawal and/or transfer transactions of all or a portion of their account balance at Contract Value. Contract Value represents contributions plus credited interest less participant withdrawals and fees. Contract Value is also often referred to as "Book Value." MMRS considers this investment option to be fully benefit responsive notwithstanding the liquidation value events under the contract that limit the ability of the plan to transact at Contract Value.

December 31,	**2010**	2009
Average yield earned by the Plan	**2.99%**	3.82%
Average interest rate credited to participants	**2.99%**	3.82%

Security Transactions and Investment Income

Security transactions are accounted for on a trade-date basis. Expenses incurred with transactions, if any, are added to the purchase price or deducted from the selling price at the time of the transactions. Dividend income is record on the ex-dividend date. Income from other investments is recorded as earned on an accrual basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America, requires the Plan Administrator to make estimates and assumptions that affect the reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Administrative Expenses

All expenses, with the exception of the Plan investment advisor fees, are paid by the Employer.

Settlement Options

If a participant's nonforfeitable accrued benefit does not exceed $1,000 effective March 28, 2006 and $5,000 before March 28, 2006, then settlement occurs as a lump sum payment made within 60 days after the December 31 following termination of employment.

2. Summary of Significant Accounting Policies (Continued)

Settlement Options (Continued)

If a participant's nonforfeitable accrued benefit exceeds $1,000 effective March 28, 2006 and $5,000 before March 28, 2006, then the participant has the option to elect the method used to distribute his benefits. The participant or beneficiary may elect distribution under one, or any combination of the following methods:

(a) by payment in a lump sum; or

(b) by payment in monthly, annual or a series of installments over a fixed reasonable period of time, not exceeding the life expectancy of the participant, or the joint life and last survivor expectancy of the participant and his/her beneficiary.

Recent Accounting Pronouncements

Codification - In June 2009, the FASB issued the Accounting Standards Codification (the "Codification" or "ASC") which has become the source of authoritative accounting principles recognized by the FASB to be applied by nongovernmental entities in the preparation of financial statements in accordance with generally accepted accounting principles ("GAAP"). All existing accounting standard documents are superseded by the Codification and any accounting literature not included in the Codification will not be authoritative. Effective December 31, 2009, no references are made to the superseded FASB standards in the financial statements. The Codification does not change or alter existing GAAP and, therefore, did not have an impact on the Plan's financial position, results of operations or cash flows.

In September 2010, the FASB issued Accounting Standards Update ("ASU") 2010-25 Plan Accounting – *Defined Contribution Pension Plan (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans*. ASU 2010-25 requires participant loans to be classified as notes receivable from participants and measured at their unpaid principal balances plus any accrued but unpaid interest. Previously, loans were measured at fair value and classified as investments. Participant loans have been reclassified to "Notes receivable from participants" as of December 31, 2010 and December 31, 2009.

The adoption of the new pronouncement did not have a material impact on the Plan's financial statements.

3. Tax Status

By letter dated January 1984, the Internal Revenue Service determined that the Plan, as then designed, was in compliance with the applicable requirements of the Code. The Plan adopted the Pentec Pension Management, Inc. Standardized Paired Profit Sharing 401(k) Plan document in December 2000, which is covered by a determination letter dated February 18, 1999. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and currently being operated in compliance with the applicable requirements of the Internal Revenue Code, therefore no provision for income taxes has been included in the Plan's financial statements.

4. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

5. Investments

The following is a summary of the investments held as of December 31, 2010 and 2009. Investments which represent 5% or more of the Plan's net assets are separately identified.

Less: Excess contributions payable at beginning of year	(88,720)
Benefits paid to participants as reported in the Form 5500	$ 151,309

7. Reconciliation of Financial Statements to Form 5500 (Continued)

The following is a reconciliation of corrective distributions as reported in the financial statements to the Form 5500:

	$ 2009
Corrective distributions as reported in the financial statements	111,292
Less: Current year excess contributions payable	(90,012)
Corrective distributions as reported in the Form 5500	$ 21,280

Corrective distributions are recorded on the Form 5500 for excess contributions that have yet to be processed and are pending participant distribution.

8. Excess Contributions

Excess contributions were made as determined through compliance testing. The refunds associated with these contributions were made during 2011 and 2010 to remedy this testing for the Plan years ended December 31, 2010 and 2009, respectively.

9. Subsequent Events

Plan management has evaluated subsequent events through September 20, 2011, the date the financial statements were available to be issued.
