We were engaged to audit the financial statements of Rogers-O'Brien Construction Company, LTD 401(k) Plan (the Plan) as of December 31, 2010 and 2009, and for the year ended December 31, 2010 and the supplemental schedules, as of and for the year ended December 31, 2010, as listed in the accompanying index. These financial statements and schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note H, which were certified by The Charles Schwab Trust Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of and for the year ended December 31, 2010 and 2009 that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodian, has been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to Financial Statements
December 31, 2010 and 2009

Note A – Description of plan

The following description of the Rogers-O'Brien Construction Company, LTD 401(k) Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution plan covering all full-time employees of the Company who have three months of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions and funding. Each year, participants may contribute up to $16,500 of pretax annual compensation, as defined in the plan. In addition, participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions.

Company contributions. Effective January 1, 2010, the Company removed the Safe Harbor Contribution match and added a discretionary Employer Matching Contribution. The Company may also make a discretionary contribution at the option of the Company's board of directors. For the year 2010, no Employer contributions occurred.

Rollovers. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Contributions are subject to certain limitations. All contributions are paid in cash.

Participant accounts. Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting. Participants are immediately vested in their voluntary contributions and prior year Safe Harbor contributions plus actual earnings thereon. Vesting in the Company's nonelective and discretionary matching contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. Effective January 1, 2010, the plan amended the vesting schedule such that participants are 100% vested after five years of credited service for nonelective and discretionary matching contributions.

Participant notes receivable. Participants may borrow from their fund accounts up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant notes fund. Loan terms range from 1-5 years or up to 15 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined quarterly by the Plan administrator. Interest rates range from 4.25% to 8.75%. Principal and interest is paid ratably through weekly payroll deductions.

Note A – Description of plan (cont'd)

Payment of benefits. On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a ten-year period. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Investment options. Upon enrollment in the Plan, a participant may direct employee and employer contributions in a variety of investment options. Participants may change their investment options as often as they choose.

Note B – Summary of significant accounting policies

Basis of accounting. The financial statements of the Plan are prepared using the accrual method of accounting.

Investment valuation and income recognition. Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note L for discussions of fair value measurements. The partnership interest is valued at its appraised market price.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants. Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Notes receivable are classified from investments pursuant to the Plan's adoption of Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 962-310-45-2.

Payment of benefits. Benefits are recorded when processed and approved for payment prior to December 31.

Estimates. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results may differ from those estimates.

Forfeitures. Forfeitures are held by the Plan to determine if amounts should be restored to terminated participants. Thereafter, forfeitures are used to reduce employer-matching contributions. There was no allocation of forfeitures in 2010 to reduce employer-matching contributions. The forfeiture balance as of December 31, 2010 was $19,507.

Contributions receivable. Contributions receivable represent deferrals withheld from participant's paychecks plus the related employer match for the month of December. These amounts were paid in cash in the following year.

Note B – Summary of significant accounting policies (cont'd)

Operating expenses. Operating expenses consist of fees for auditing, recordkeeping and other administrative services. Some fees are deducted from participant accounts in accordance with the plan documents for services received, however most costs are paid by the employer. The Company pays a portion of the plan operating expenses each year.

Note C – Reconciliation of financial statements to Form 5500

There were no differences between the form 5500 and these financial statements for the years ended December 31, 2010 and 2009.

Note D – Tax status

The IRS has determined and informed the Employer by a letter dated November 4, 1999, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Code. The Plan administrator has analyzed the tax positions taken by the Plan, and have concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

Note E – Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note F – Risk/uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note G – Related party transactions

Certain Plan investments are shares of mutual funds managed by The Charles Schwab Trust Company, the Custodian as defined in the Plan, and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the year ended December 31, 2010 were $10,399.

Note H – Information certified by the plan's custodian

Plan assets are held by The Charles Schwab Trust Company, the Custodian. The Custodian holds the Plan's investment assets and executes investment transactions in accordance with the Plan documents. The information provided by the Custodian is certified as complete and accurate in accordance with 29 CF 2520.103-5c of the Department of Labor's Rules and Regulations for Reporting and disclosure under Employee Retirement Income Security Act of 1974. The Custodian's certification covers all information as shown below, and the supplemental schedules.

	Year ended December 31,

*Nonparticipant-directed investments.

Note J – Common/collective investment trusts

The Stable Value Fund J (the Fund) is a collective trust fund operated in accordance with Regulation 9.18 of the Comptroller of the Currency. Regulation 9.18 describes asset valuation, method of admission and withdrawal, investment limitations and requirements, and allowable and prohibited charges to the Fund. Wells Fargo Bank, N.A. (the Bank), a subsidiary of Wells Fargo & Company, serves as trustee, custodian, and administrator for the Fund. Galliard Capital Management, Inc. (Galliard), a subsidiary of the Bank, serves as investment advisor. All of the Funds are invested in the Wells Fargo Stable Return Fund G.

The Wells Fargo Stable Return Fund G invests in investment contracts and security-backed contracts. An investment contract is a contract issued by a financial institution to provide a stated rate of return to the buyer of the contract for a specified period of time. A security-backed contract has similar characteristics as a traditional investment contract and is comprised of two parts: the first part is a fixed-income security or portfolio of fixed-income securities; the second part is a contract value guarantee (wrapper) provided by a third party. Wrappers provide contract value payments for certain participant-initiated withdrawals and transfers, a floor crediting rate, and return of fully accrued contract value at maturity.

There are several risks specific to investment contracts. One of the primary risks involved is credit risk of the contract issuer. Credit risk for security-backed contracts includes risks arising from the potential inability of the issuer to meet the terms of the contract wrapper and the potential default of the underlying fixed-income securities. Secondly, liquidity is limited because of the unique characteristics of investment contracts and the absence of an actively traded secondary market. Interest rate risk is also present because rates may be fixed with these products.

Wells Fargo Stable Return Fund G carries its investments at contract value. Wells Fargo Stable Return Fund G applies the provisions of FASB ASC Sections 946-210-45 and 946-210-50 for stable value investment funds.

The yield earned by the Fund at December 31, 2010 and 2009 was 2.38% and 3.40%, respectively. This represents the annualized earning of all investments in the Fund, including the earnings recorded at the underlying collective trust funds, divided by the fair value of all investments in the Fund at December 31, 2010 and 2009, respectively.

The yield earned by the Fund with an adjustment to reflect the actual interest rate credited to participants in the Fund at December 31, 2010 and 2009 was 2.90% and 3.32%, respectively. This represents tha annualized earnings credited to participants in the Fund, divided by the fair value of all investments in the Fund at December 31, 2010 and 2009, respectively.

Note K – Non-participant directed investments

Information about the net assets and the significant components of the changes in net assets relating to the non-participant-directed investments is as follows:

	December 31, 2010	December 31, 2009
Net assets:		
Partnership interest	$ 229,795	$ 231,208
Cash	69,088	86,706
	$ 298,883	$ 317,914
Changes in net assets:		
Net appreciation (loss), interest, etc.	$ (1,413)	$ (3,517)
Benefits paid to participants	(45,444)	(35,330)
Income from partnership	30,297	24,310
Administrative expenses	(2,471)	0
	$ (19,031)	$ (14,537)

Cash is measured by quoted market prices. All other investments by independent appraisals. The plan holds a 12.93% interest in a general partnership whose assets are a building, land and cash. There are no liabilities.

Note L – Fair value measurements

The carrying values of various financial instruments, such as cash, participants' contribution receivable, and accounts payable approximate their fair value due to their short maturity.

The authoritative accounting standards establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Note L – Fair value measurements (cont'd)

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Common stocks, corporate bonds and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the plan at year end.

Collective trust funds: Valued at net asset value, exclusive of the adjustment to contract value. The use of the net asset value as fair value is deemed appropriate as the collective trust funds do not have finite lives, unfunded commitments relating to these types of investments, or significant restrictions on redemptions.

Partnership interest: Valued by independent appraisal.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010.

	Level 1	Level 2	Level 3	Total
Mutual funds				
Equity	$ 7,713,988	$ 0	$ 0	$ 7,713,988
International	1,112,318	0	0	1,112,318

Partnership interest	0	229,795	0	229,795
Common/collective investment trusts	0	95,738	0	95,738
Total assets at fair value	$ 9,293,095	$ 325,533	$ 0	$ 9,618,628

Note L – Fair value measurements (cont'd)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009.

	Level 1	Level 2	Level 3	Total
Mutual funds				
Equity	$ 6,649,572	$ 0	$ 0	$ 6,649,572
International	1,198,230	0	0	1,198,230
Fixed income	745,190	0	0	745,190
Partnership interest	0	231,208	0	231,208

Total assets at fair value	$ 8,592,992	$ 357,359	$ 0	$ 8,950,351

Gains and losses (realized and unrealized) included in changes in net assets available for plan benefits for the year ended December 31, 2010 and 2009 are reported in net appreciation in fair value of investments and net appreciation (loss) in partnership investment.

Note M – Date of management's review

Plan management reviewed its operations and transactions occurring since December 31, 2010 through September 27, 2011, the date of which the financial statements were issued, and did not identify any subsequent events.
