NOTE 1 DESCRIPTION OF PLAN

The following description of the Environmental Quality Management, Inc., 401(k) Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

GENERAL

The Plan is a defined contribution plan covering substantially all employees of Environmental Quality Management, Inc. and EQ Engineers, LLC (collectively the Company) on their date of hire who have attained age twenty one or older. The Company pays certain administrative costs of the Plan, and controls and manages the operation and administration of the Plan. Fidelity Management Trust Company serves as the trustee of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

CONTRIBUTIONS

Each year, participants may contribute up to 60 percent of annual compensation as defined by the Plan. During the 2010 tax year, participants could contribute up to \$16,500 if the participant's age is 49 or less, and \$22,000 if the participant's age is 50 or above. (This figure will be adjusted in the future by the Secretary of the Treasury for cost of living increases). Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers a collective trust and thirty five mutual funds as investment options for participants.

The Company may contribute a discretionary matching amount in its sole judgment. This additional contribution, if any, will be allocated to all qualified participants eligible to receive a contribution of this type as set forth in the Plan. Matching contributions and matching contributions designated as "qualified matching contributions" will be nonforfeitable and subject to withdrawal restrictions.

The Company may contribute a discretionary nonelective amount determined in its sole judgment. This additional contribution, if any, will be allocated to all qualified participants eligible to receive a contribution of this type as set forth in the Plan. Nonelective contributions designated as "qualified nonelective contributions" will be nonforfeitable and subject to withdrawal restrictions.

PARTICIPANT ACCOUNTS

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

VESTING

Participants are immediately vested in their contributions, rollover contributions, and the Company's matching contributions, qualified matching contributions and qualified nonelective contributions plus actual earnings thereon. Vesting in the Company's nonelective contributions is based on years of continuous service. A participant is 100 percent vested after six years of credited service. The Plan defines "one year of service" as a 12 month period in which the employee works 1,000 hours of service.

PARTICIPANT LOANS

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of \$50,000 or 50 percent of their vested account balance, whichever is less. The loans are secured by 50 percent of the participant's account balance and bear interest at a rate equal to that which the Company's principal bank would charge on a similar loan and must be repaid within no more than five years, except for certain principal residence related loans. Principal and interest are payable ratably over the term of the loan not less frequently than quarterly.

NOTES TO FINANCIAL STATEMENTS

---

PAYMENT OF BENEFITS

On termination, a participant (or participant's beneficiary in the event of death) will receive a lump-sum amount equal to the value of the participant's vested account balance.

FORFEITED ACCOUNTS

Forfeitures of Company contributions are used to pay administrative expenses and reduce Company contributions for the Plan year in which they occur. At December 31, 2010, and 2009, there were no forfeited nonvested accounts.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies followed in the preparation of these financial statements. The financial statements and notes are the representation of the Plan's management, who is responsible for their integrity and objectivity. The policies conform to accounting principles generally accepted in the United States of America and have been consistently applied.

**BASIS OF ACCOUNTING**

The financial statements of the Plan are prepared using the accrual basis of accounting.

**PAYMENT OF BENEFITS**

Benefits are recorded when paid.

**INVESTMENT VALUATION AND INCOME RECOGNITION**

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

**FAIR VALUE MEASUREMENTS**

The Fair Value Measurements and Disclosures Topic of the Financial Accounting Standards Board Accounting Standards Codification, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB Accounting Standards Codification are described below:

**Level 1**

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

**Level 2**

Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

**Level 3**

Inputs to the valuation methodology are unobservable and significant to the fair value.

ENVIRONMENTAL QUALITY MANAGEMENT, INC., 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

FAIR VALUE MEASUREMENTS (CONT'D)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010, and December 31, 2009.

Value of interests in registered investment companies (mutual funds) are valued at the net asset value (NAV) of shares held by the plan at year end (Level 1).

Collective trusts are valued at the closing price reported on the active market on which the underlying investments of the collective trust are traded or are based on the contractual terms of the underlying guaranteed investment contract (Level 2).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2010, and December 31, 2009:

|                                                                  | QUOTED PRICES IN<br>ACTIVE MARKETS FOR<br>IDENTICAL ASSETS<br>(LEVEL1) | SIGNIFICANT OTHER<br>OBSERVABLE INPUTS<br>(LEVEL2) | TOTAL               |
