Participants and Plan Administrator
True Value Company Savings and
Compensation Deferral Plan

We were engaged to audit the accompanying statements of net assets available for benefits of the True Value Company Savings and Compensation Deferral Plan (the "Plan") as of December 31, 2010 and 2009, the related statement of changes in net assets available for benefits for the year ended December 31, 2010, and the supplemental schedule as of December 31, 2010, as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in note 6, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the trustee holds the certified Plan assets and executes the related transactions. The Plan administrator has obtained certifications from the trustee as of December 31, 2010 and 2009, and for the year ended December 31, 2010, that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America as established by the American Institute of Certified Public Accountants and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

TRUE VALUE COMPANY
SAVINGS AND COMPENSATION DEFERRAL PLAN
NOTES TO FINANCIAL STATEMENTS

1. Description of the Plan

The True Value Company Savings and Compensation Deferral Plan (the "Plan"), is a defined-contribution retirement plan established for regular employees of True Value Company and its participating subsidiaries and affiliated corporations (the "Company" or "Plan sponsor"). Union employees are not participants in the Plan unless participation is specifically provided for in the collective bargaining agreement. The Plan is administered by the Retirement Committee, which is appointed by the Company from among its employees. The Plan is subject to the provisions of the Employee Retirement Income and Security Act of 1974 ("ERISA"), as amended. Participation in the Plan is voluntary after completion of ninety days of service with the Company and participants are allowed to contribute to their accounts up to 50% of their annual compensation, up to the Internal Revenue Service ("IRS") maximum allowable annual contribution. Eligible associates who reach at least age 50 during the plan year and who are making the maximum IRS pre-tax contributions are eligible to make an additional "catch-up" contribution up to the limits set within the Economic Growth and Tax Relief Reconciliation Act (EGTRRA). Contributions are made exclusively under the Compensation Deferral Option.

Under the Compensation Deferral Option, the participants are not subject to federal or state income taxes on the portion of their salaries contributed and Company contributions made on their behalf to the Plan or the related earnings until the participants receive distributions of such amounts from the Plan.

Effective January 1, 2007, the Plan was redesigned as a "safe harbor" plan. Under the "safe harbor" plan design: 1) the enrolled associates will be provided a dollar for dollar Company match up to five percent (5%) of their contributions; 2) the Company match will be made for each pay period rather than being an annual one-time match; 3) the Company match portion is immediately and 100% vested in the associates accounts. There is also the potential for participants' to earn an additional company match of 1% of their contributions based upon the financial performance of the Company. All Company match contributions made to participants in years prior to 2007 are 100% vested on January 1, 2007. At January 1, 2007, associates covered by a collective bargaining agreement were not included in this redesigned Plan until agreed to through the bargaining process, and continued with the provisions of the previous Plan. As of December 31, 2008, all plans under collective bargaining agreements have been redesigned as "safe harbor" plans.

Participants are always 100% vested in their own contributions as well as any earnings on self-contributions. Prior to January 1, 2007, Company matching contributions and any earnings thereon were vested 20% for each year of service after one year of continuous service. Participants would become fully vested in case of termination due to permanent disability, upon death, loss of employment due to facility closing, termination after reaching normal retirement age, or five years of continuous service with the Company. Company contributions forfeited by nonvested terminated participants were retained by the Plan and used to reduce subsequent matching contributions made by the Company. Effective January 1, 2007, Company matching contributions are 100% vested when earned by the participant.

Participants may borrow up to 50% of the participant's vested account balance. The minimum loan amount is $1,000, and a loan may not exceed $50,000. Any outstanding loan balances over the previous twelve months may reduce the amount available to borrow.

The Plan maintains separate accounts for each participant with Fidelity Management Trust Company ("Fidelity"). Participant accounts are adjusted daily for contributions, investment income or losses, net realized and unrealized appreciation or depreciation in the fair value of investments and administrative expenses of the Plan. Participants direct the investment of their account balances among any of the multiple investment options.

Upon death, disability or retirement, the full vested value of each participant's account becomes payable to the participant or his or her beneficiary in either:

- A lump sum, or
- In the case of a participant (or beneficiary) with an account balance on January 1, 1989, by payment in a series of quarterly installments over a period of fifteen years (or, if less, the life expectancy of the participant and his designated beneficiary; provided that, if such beneficiary is not the participant's spouse and is more than ten years younger than the participant, the installments shall be paid over a period not exceeding the joint life expectancy of the participant and a beneficiary ten years younger than the participant).

A participant whose employment with the Company is terminated, except as described above, is entitled to the vested portion of their account balance. The distribution can be based on the above methods or can be rolled over to an eligible retirement plan or, if the vested balance exceeds $5,000, the funds can be left in the Plan until normal retirement age.

A participant may withdraw vested balances from specific eligible sources from the Plan while continuing in service with the Company. Any withdrawal can only be taken in the following order: first, any after-tax contributions rolled into the plan from the prior Cotter Plan or Servistar Plan; second, if age 59 ½ or older, income deferral contributions and earnings; and third, for an eligible financial hardship only, income deferral contributions (but not earnings on those contributions). Any nonvested portion of the participant's account remaining after withdrawal of their vested balance shall continue to vest as long as the participant remains employed by the Company.

The Company anticipates that the Plan will continue without interruption but reserves the right to discontinue the Plan at any time, subject to the provisions of ERISA. In the event that the Plan is terminated, the participant accounts will be fully vested, and each participant will be entitled to a distribution equal to his or her contributions and his or her share of Company contributions, investment income or loss and net realized and unrealized appreciation or depreciation in the fair value of the investments.

2. Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value (see Note 4 – Fair Value Measurements for additional information). Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

As described in Financial Accounting Standards Board Accounting Standards Codification (ASC) 946-210-45, *"Fully Benefit-Responsive Investment Contracts"*, investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Plan invests in investment contracts through a collective trust ("CT"). As required by the ASC, the statements of net assets available for benefits present the fair value of the investment in the CT as well as the adjustment of the investment in the CT from fair value to contract value relating to the investment contacts. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest and dividend income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Delinquent loans are reclassified as distributions based upon the terms of the Plan document.

Contributions

Participant contributions are made via payroll deductions and are recorded as soon as administratively possible, primarily in the period the deductions are made. Company contributions are recorded when accrued by the Company in accordance with the Plan agreement.

Benefit Payments

Benefit payments to participants are recorded upon distribution.

Plan Expenses

All outside expenses incurred in the administration of the Plan's assets may be deducted from Plan forfeitures as incurred except for fees charged by the independent auditors which are paid by the Company. Outside expenses not paid with forfeitures will be paid by the Company. Certain expenses, such as loan application and loan administration, are paid by individual participants.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

3. New Accounting Pronouncements

In January 2010, the FASB issued an amendment, Fair Value Measurements and Disclosures (Topic 820) – Improving Disclosures about Fair Value Measurements (ASU 2010-06), which requires new disclosures about fair value measurements, including reasons for transfers of financial assets and liabilities between Levels 1 and 2 of the fair value measurement hierarchy. This amendment also requires fair value measurement disclosures for each class of financial assets and liabilities, and disclosures about inputs and valuation techniques are required for both Level 2 and Level 3 measurements. It further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuance and settlements instead of netting these changes. The guidance related to the reconciliation of Level 3 measurements is effective for periods beginning on or after December 15, 2010. The Plan had no investments classified as Level 3 for years ended December 31, 2010 or 2009.

In September 2010, FASB issued an amendment, Plan Accounting – Defined Contribution Pension Plans (Topic 952): Reporting Loans to Participants by Defined Contribution Pension Plans which provides guidance on how loans to participants should be classified and measured by defined contribution plans. That guidance requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. The plan adopted this new guidance in its December 31, 2010 financial statements and has reclassified participant loans of $3,652,873 for the year ended December 31, 2009 from investments to notes receivable from participants. Net assets of the Plan were not affected by the adoption of the new guidance.

No other accounting standards issued in 2010 were applicable to the Plan's Financial Statements.

4. Fair Value Measurements

Financial Accounting Standards Board Accounting Standards Codification 820, *"Fair Value Measurements and Disclosures"* (ASC 820), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820-10-35 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual Funds:

Shares of mutual funds are valued based on net asset value ("NAV") of the fund in active markets and classified within Level 1 of the fair value hierarchy.

Interest in Collective Trusts – Stable Value fund:

Investments valued at NAV as a practical expedient as of December 31, 2010, consisted of the Fidelity Management Trust Company Managed Income Portfolio II. This fund seeks to preserve principal investment while earning interest income. The fund will try to maintain a stable $1 unit price, but it cannot guarantee that it will be able to do so. The yield of the fund will fluctuate. The fund invests in investment contracts (wrap contracts) issued by insurance companies and other financial institutions, fixed income securities and money market funds to provide daily liquidity.

The NAV of the fund is determined using the market value or fair value, if market data is unavailable, of the underlying securities. The fund allows for daily liquidity with no additional days notice required for redemption for participant-directed transactions. Were the Plan to initiate a full redemption of the fund, the investment advisor reserves the right to temporarily delay withdrawal from the trust for up to 12 months in order to ensure that securities liquidations will be carried out in an orderly manner. This investment is classified within Level 2 of the fair value hierarchy.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2010:

5. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Assets Available for Benefits.

6. Information Certified by the Trustee

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity, the Trustee, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2010 and 2009.

- Interest and dividends, interest income on notes receivable from participants and net realized and unrealized appreciation in fair value of mutual funds, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2010.

- Schedule H, line 4i - schedule of assets (held at end of year) - December 31, 2010.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

7. Investments

The value of individual investments included in net assets available for benefits that represent 5% or more of the Plan's assets are as follows:

	December 31, 2010	December 31, 2009
Fidelity Investments		
Managed Income Portfolio II Fund *	$28,573,754	$28,935,064
Contrafund	22,268,058	19,798,592
Spartan U.S. Equity Index Fund	21,228,143	18,441,509
Fidelity Freedom 2020 **	9,871,033	-
Intermediate Bond Fund	9,036,230	8,071,701
Fidelity Freedom 2015 **	8,521,955	-
Balanced Fund	-	8,886,914
Diversified International Fund**	-	6,885,017

* Fair value of the Managed Income Portfolio II Fund is $28,858,714 and $28,576,032 as of December 31, 2010 and 2009, respectively.

** These funds had balances that did not exceed 5% of Plan assets at December 31, 2009, and are thus not shown for that year.

8. Reconciliation to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements as of December 31, 2010 and 2009, to Form 5500:

	2010	2009
Net assets available for benefits per the financial statements	$152,612,712	$134,044,901
Adjustment from contract value to fair value for interest in collective trust relating to fully benefit-responsive investment contracts	284,960	(359,032)
Net assets available for benefits per the Form 5500	$152,897,672	$133,685,869

The following is a reconciliation of net increase per the financial statements for the year ended December 31, 2010, to Form 5500:

	2010
Total net increase per the financial statements	$18,567,811
Adjustment from contract value to fair value for interest in collective trust relating to fully benefit-responsive investment contracts:	
- 2009	359,032
- 2010	284,960
Total net income per the Form 5500	$19,211,803

9. Forfeited Accounts

As of December 31, 2010 and 2009, forfeited non-vested accounts totaled $49,788 and $44,096, respectively. For the year ended December 31, 2010, $2,243 was used for Plan expenses. The additional forfeited accounts balance may be used to reduce employer contributions and other Plan expenses due for 2011 and subsequent years.

10. Income Tax Status

The IRS issued a ruling on June 30, 2008, that the Plan qualifies under Section 401(a) of the Internal Revenue Code ("IRC") and, therefore, the related trust is not subject to tax under present income tax law. The Plan was amended since submitting the determination letter application. However, The Retirement Committee believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other applicable taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

11. Related Parties

Certain Plan investments are shares of mutual funds and collective trusts managed by Fidelity Investments, an affiliated Company of Fidelity, and therefore, these transactions qualify as party-in-interest transactions.

12. Subsequent Events

The Plan evaluates subsequent events occurring between the most recent balance sheet date and the date that the financial statements are available to be issued in order to determine whether the subsequent events are to be recorded in and/or disclosed in the Plan's financial statements and footnotes. As of October 4, 2011, no disclosure for subsequent events is required.
