Report of Independent Auditors

To the Benefits Committee of the
Aleris 401(k) Plan

We were engaged to audit the accompanying statements of net assets available for benefits of the Aleris 401(k) Plan (formerly Aleris International, Inc. 401(k) Plan) as of December 31, 2010 and 2009, and the related statement of changes in net assets available for benefits for the year ended December 31, 2010, and the supplemental schedule of assets (held at end of year) as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 3, which was certified by Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2010 and 2009, and for the year ended December 31, 2010, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the investment information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Aleris 401(k) Plan (formerly Aleris International, Inc. 401(k) Plan)

Notes to Financial Statements

December 31, 2010

1. Description of the Plan

The following description of the Aleris 401(k) Plan (the “Plan”) is provided for general information only. Participants should refer to the plan document for a complete description of the Plan’s provisions.

On June 1, 2010, Aleris International, Inc. emerged from bankruptcy proceedings under Chapter 11 of the United States Bankruptcy Code.

Effective June 1, 2010, the Plan was restated to incorporate the effects of the Economic Growth and Tax Relief Reconciliation Act (“EGTRRA”) of 2001. In conjunction with the required restatement, the Plan’s name was changed from the Aleris International, Inc. 401(k) Plan to the Aleris 401(k) Plan, and Aleris Ohio Management, Inc. (the “Plan Sponsor”), a subsidiary of Aleris International, Inc., became the Plan Sponsor.

General

The Plan is a defined contribution plan covering all eligible employees of Aleris Ohio Management, Inc. and other adopting subsidiaries of Aleris International, Inc. (collectively as the “Company”). An employee covered by a collective bargaining agreement which does not provide for participation in the Plan is an excluded, or non-eligible, employee. Other excluded employees are leased employees or a nonresident alien with no U.S. source income. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

The Plan allows for participation immediately following an employee’s hire date.

Plan Administration

Overall responsibility for administering the Plan rests with the Plan Sponsor’s Benefits Committee, which is appointed by the Board of Directors of the Company. Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company (the “Trustee”) is the trustee of the Plan and is responsible for the management and control of the Plan’s assets.

Contributions

An employee’s pretax contributions to the Plan may not exceed certain Internal Revenue Service (“IRS”) maximum amounts. The maximum amount was \$16,500 in both 2010 and 2009. Employees who were 50 years of age or older by the end of the plan year, and were making the maximum elective contribution for the year, were eligible to make additional pretax contributions (“Catch-up Contributions”) of up to \$5,500 in both 2010 and 2009. The Plan also provides that participants may roll over all or part of a qualified total distribution from another tax-qualified plan.

Effective July 1, 2010, matching contributions for participants are remitted to the Plan in an amount equal to 100% of the first 3% of an employee’s salary deferral contributions, plus 50% of the next 2% of an employee’s salary deferral contributions. This matching contribution is determined each payroll period.

The Company may make a discretionary contribution each plan year, the amount of which is determined and authorized by resolution of the Board of Directors. The contribution is allocated to each participant based on the compensation of the participant. There was no discretionary contribution for 2010.

Aleris 401(k) Plan (formerly Aleris International, Inc. 401(k) Plan)

Notes to Financial Statements (continued)

Effective January 1, 2011, the Plan was amended to provide for an additional annual employer contribution ("Retirement Contribution") based on a participant's age as of the last day of the plan year, as follows:

- Participant's age less than 35 – 0.5% of annual compensation as defined by the Plan
- Participant's age 35 – 49 – 1.0% of annual compensation as defined by the Plan
- Participant's age 50 and older – 1.5% of annual compensation as defined by the Plan

There was no Retirement Contribution for the year ended December 31, 2010.

Participant Accounts

Participants are immediately vested in that portion of their account equal to the value of the elective deferral contributions, Company matching contributions, and rollover amounts in such participant's account. Upon death, disability, or attainment of normal retirement age, as defined in the Plan, a participant shall have a vested interest of 100% in the Retirement Contributions and discretionary contributions in their account. Each participant's account is credited with their contribution, Company contributions, and actual earnings thereon. Participants direct their accounts into various investment options offered by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Loans to Participants

The Plan permits participants to borrow from their account a minimum of \$1,000 and up to the lesser of \$50,000 or 50% of their vested account balance. Loans must be paid through payroll deductions over a period of time not to exceed five years, unless used for the purchase of a primary residence. The interest rate for all loans is equal to the prime interest rate published in the Wall Street Journal, plus 1%. A loan is deemed to be in default if principal and interest are not paid in 90 days after the loan payment is due.

Vesting Provision

Retirement Contributions and discretionary contributions vest in accordance with the following:

For members in the former Commonwealth Industries, Inc. 401(k) Plan prior to January 1, 2007, 3 years of service or more, 100%. For members in the former Corus Aluminum Corporation Savings and Investment Plan prior to January 1, 2007, 1 year of service 33%, 2 years of service 66%, and 3 or more years of service 100%. For all others:

Completed Years of Service	Less than 1	1	2	3	4	5 or more
Percentage of Vested Interest	None	20%	40%	60%	80%	100%

Forfeited Accounts

Forfeited balances are used: first, to restore participant's forfeitures; second, to reduce future Company contributions; and, third, to reduce expenses of the Company incurred in the operation of the Plan. There was \$42,474 and \$303,212 remaining in the forfeiture account as of December 31, 2010 and 2009, respectively. \$350,823 of forfeited balances was used to reduce Company contributions and administrative expenses during the year ended December 31, 2010.

Aleris 401(k) Plan (formerly Aleris International, Inc. 401(k) Plan)

Notes to Financial Statements (continued)

Withdrawals During Employment

A participant may withdraw any part of their vested account resulting from voluntary contributions or rollover contributions during the year. A participant who has attained age 59 ½ may withdraw any part of their vested account that results from elective deferral contributions or matching contributions at any time. A participant may withdraw any part of their vested account that results from elective deferral contributions in the event of financial hardship due to an immediate and heavy financial need. The hardship withdrawal shall be authorized only for an immediate and heavy financial need limited to medical expenses, educational expenses for the next 12 months of post-secondary education for the participant, purchase of, or prevention of foreclosure upon a participant's home or any other distribution that is deemed by the Commissioner of the IRS to be made on account of immediate and heavy financial need.

Benefits Provision

Upon termination of service, death, disability, or retirement, a participant (or beneficiary) could elect to receive their vested balance in a rollover or lump-sum distribution, or, upon termination of service or retirement, could elect to receive their vested balance under an annuity (as provided by the Plan.)

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of a termination, all participant accounts shall be fully vested and nonforfeitable.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan have been prepared using the accrual method. Subsequent events for the Plan have been evaluated through October 3, 2011, which represents the date the financial statements were available to be issued.

Reclassifications

Certain prior year amounts in the statements of net assets available for benefits have been reclassified to conform to the current year presentation.

Notes Receivable From Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2010 or 2009. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and the accompanying notes and supplemental schedule. Actual results could differ from those estimates.

Aleris 401(k) Plan (formerly Aleris International, Inc. 401(k) Plan)

Notes to Financial Statements (continued)

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Investment Valuation and Income Recognition

Investments held by the Plan are recorded at fair value under Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures* ("ASC 820"), using quoted market prices and significant other observable and unobservable inputs. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy distinguishes between (1) market participant assumptions developed based on market data obtained from independent sources (observable inputs) and (2) an entity's own assumptions about market participant assumptions developed based on the best information available in the circumstances (unobservable inputs). The fair value hierarchy consists of three broad levels, which gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, including quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; inputs other than quoted prices that are observable for the asset or liability (e.g., interest rates); and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 – Fair value is based on prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable. These inputs reflect management's judgment about the assumptions that a market participant would use in pricing the investment and are based on the best available information, some of which may be internally developed.

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measure in its entirety. Following is a description of the valuation methodologies used for assets measured at fair value.

Pooled separate accounts: Valued at fair value estimated by the issuer, which has been determined based on the unit values of the fund which are determined by dividing the fund's net assets at fair value by its units outstanding at the valuation date.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the Plan at year-end based on quoted market prices.

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer (see Note 4).

The Plan invests in a fully benefit-responsive guaranteed investment contract with Principal Life Insurance Company ("Principal") (the "Principal Contract"). Principal maintains a general account, which is credited with contributions and earnings on the underlying investments and charged for participant withdrawals and administrative

Aleris 401(k) Plan (formerly Aleris International, Inc. 401(k) Plan)

Notes to Financial Statements (continued)

expenses. The Principal Contract is fully benefit-responsive. Principal Contract investments are recorded at fair value; however, because they are fully benefit-responsive, an adjustment to contract value is reflected in the statements of net assets available for benefits to present these investments at contract value. Contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value represents contributions plus earnings, less participant withdrawals and administrative expenses.

The Plan invests in various pooled separate accounts (refer to Note 3 for a list of investments grouped by major asset class). There are no redemption restrictions on these investments. There are no unfunded commitments.

In September 2009, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update 2009-12, *Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)* (“ASU 2009-12”). ASU 2009-12 amended ASC 820 to allow entities to use NAV per share (or its equivalent), as a practical expedient, to measure fair value when the investment does not have a readily determinable fair value and the net asset value is calculated in a manner consistent with investment company accounting. The Plan has utilized the practical expedient to measure the fair value of the pooled separate accounts investments within the scope of ASU 2009-12 based on the investment’s NAV. A description of the significant investment strategies is as follows:

Large U.S. equity: This asset class is generally comprised of investment options that invest in stocks, or shares of ownership in large, well-established, U.S. companies. These investment options typically carry more risk than fixed income investment options but have the potential for higher returns over longer time periods. They may be an appropriate choice for long-term investors who are seeking the potential for growth. All investment options in this category have the potential to lose value.

Small/Mid U.S. equity: This asset class is generally comprised of investment options that invest in stocks, or shares of ownership in small to medium-sized U.S. companies. These investment options typically carry more risk than larger U.S. equity investment options but have the potential for higher returns. They may be an appropriate choice for long-term investors who are seeking the potential for growth. All investment options in this category have the potential to lose value.

International equity: This asset class is comprised of investment options that invest in stocks, or shares of ownership in companies with their principal place of business or office outside the United States. These investment options often carry more risk than U.S. equity investment options but may have the potential for higher returns. They may be an appropriate choice for long-term investors who are seeking the potential for growth. All investment options in this category have the potential to lose value.

Fixed income: This asset class is generally comprised of investment options that invest in bonds, or debt of a company or government entity (including U.S. and Non-U.S.). It may also include real estate investment options that directly own property. These investment options typically carry more risk than short-term fixed income investment options (including, for real estate investment options, liquidity risk), but less overall risk than equities. All investment options in this category have the potential to lose value.

Balanced funds: This asset class is generally comprised of a combination of fixed income and equity investment options. These investment options may include balanced, asset allocation, target-date, and target-risk investment options. Although typically lower risk than investment options that invest solely in equities, all investment options in this category have the potential to lose value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan’s gains and losses on investments bought and sold as well as held during the year.

Benefit Payments

Benefits are recorded when paid.

New Accounting Pronouncements

In January 2010, the FASB issued ASU 2010-06, *Improving Disclosures about Fair Value Measurements* ("ASU 2010-06"). ASU 2010-06 amended ASC 820 to clarify certain existing fair value disclosures and require a number of additional disclosures. The guidance in ASU 2010-06 clarified that disclosures should be presented separately for each "class" of assets and liabilities measured at fair value and provided guidance on how to determine the appropriate classes of assets and liabilities to be presented. ASU 2010-06 also clarified the requirement for entities to disclose information about both the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements. In addition, ASU 2010-06 introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2 and 3 of the fair value hierarchy and present information regarding the purchases, sales, issuances and settlements of Level 3 assets and liabilities on a gross basis. With the exception of the requirement to present changes in Level 3 measurements on a gross basis, which is delayed until 2011, the guidance in ASU 2010-06 became effective for the Plan for the year ended December 31, 2010. Since ASU 2010-06 only pertains to fair value measurement disclosures, adoption of ASU 2010-06 did not affect the Plan's net assets available for benefits or its changes in net assets available for benefits.

In September 2010, the FASB issued ASU 2010-25, *Reporting Loans to Participants by Defined Contribution Pension Plans* ("ASU 2010-25"), which is effective for the Plan for the year ended December 31, 2010. ASU 2010-25 requires that participant loans be classified as notes receivable from participants and measured at their unpaid principal balance plus accrued but unpaid interest. Previously, participant loans were classified as plan investments, and were subject to the fair value measurement and disclosure requirements of ASC 820. The adoption of ASU 2010-25, which was applied retrospectively, did not change the value of participant loans from the amount previously reported as of December 31, 2009. Participant loans have been reclassified from investments to notes receivable from participants as of December 31, 2009.

In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs* ("ASU 2011-04"). ASU 2011-04 amended ASC 820 to converge the fair value measurement guidance in U.S. generally accepted accounting principles and International Financial Reporting Standards. Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

3. Investments

All investment information disclosed in the accompanying financial statements and supplemental schedule including investments held, notes receivable from participants and the adjustment from fair value to contract value for fully benefit-responsive investment contracts at December 31, 2010 and 2009, and net appreciation in fair value of investments, interest and dividends and interest income on notes receivable from participants for the year ended December 31, 2010, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by the Trustee.

4. Investment Contract With Insurance Company

The Principal Contract is included in the financial statements at contract value as reported to the Plan by the Trustee. Contract value represents contributions made to the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and interest based on a specified interest rate that is guaranteed to the Plan. As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for the guaranteed investment contract.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 1.5 percent. Such interest rates are reviewed on a quarterly basis for resetting.

Aleris 401(k) Plan (formerly Aleris International, Inc. 401(k) Plan)

Notes to Financial Statements (continued)

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary), either of which cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The Principal Contract does not permit Principal to terminate the agreement prior to the scheduled maturity date.

Average yields:	2010	2009
Based on actual earnings	3.46%	3.67%
Based on interest rates credited to participants	3.46%	3.67%

5. Administrative Expenses

All administrative expenses are paid by the Plan, except for audit fees that are paid by the Plan Sponsor.

6. Tax Status

The IRS determined and informed the Company by a letter dated January 28, 2003, that the Plan and related trust were designed in accordance with applicable sections of the Internal Revenue Code (the "Code"). The Plan was amended and restated since the date of the determination letter. Once qualified, the Plan is required to operate in conformity with the Code to maintain qualification. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes the Plan, as amended and restated, is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

7. Transactions With Parties in Interest

Several investments of the Plan are investment funds managed by the Trustee. Purchases and sales of investment units of such funds qualify as party-in-interest transactions, as defined by ERISA. Loans to participants are also considered party-in-interest transactions as such participants are employed by the Plan Sponsor.
