NOTES TO FINANCIAL STATEMENTS

December 31, 2010 and 2009

NOTE 1 - PLAN DESCRIPTION

The following description of the Educate Corporate Centers Holdings, Inc. 401(k) Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions. Copies of this summary are available from Educate Corporate Centers Holdings, Inc. (the Company) or Plan sponsor.

General

The Plan, which was effective as of June 16, 2007, was established to permit participants to take advantage of the benefits of Section 401(k) of the Internal Revenue Code (IRC). The Plan is a defined contribution plan covering substantially all employees of the Company. Participants must complete one year of service with 800 hours of service, and be employed as of the last day of the Plan year in order to be eligible for employer matching and discretionary contributions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). All investment programs are fully participant-directed. At December 31, 2010, the Plan offers 17 investment options into which participants may direct their investments. Participants have the opportunity to change their investment options daily.

This Plan was developed as the result of a reorganization of another 401(k) plan.

Contributions

Participants may contribute any percentage of their pretax annual compensation, not to exceed net take home pay, as defined by the Plan. For 2010 and 2009, the maximum statutory limit for employee deferrals is $16,500. For 2010 and 2009, employees 50 years of age or older could defer a maximum of $22,000. In addition, employees may rollover distributions received from other plans. The Company makes a discretionary matching equal to a percentage of the amount of the compensation that the participant elected to contribute, up to a maximum of 6% of the participant's compensation. The discretionary matching contribution percentage for 2010 and 2009 was 0% and 25%, respectively, of the first 6% of the compensation contributions. Discretionary matching contributions made by the Company for the year ended December 31, 2010 and 2009 were $0 and $38,669, respectively (of which $0 and $12,068, respectively, were funds from nonvested forfeited accounts).

Participant Accounts

Each participant account is credited with the participant's contribution and an allocation of: (a) the Company's contribution; (b) Plan earnings; and (c) forfeitures of additional Company discretionary contributions related to terminated participants' nonvested accounts, if any. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Participants are immediately vested in their contributions plus earnings thereon. Vesting in the Company's discretionary matching contributions plus earnings thereon is based on years of continuous service at a rate of 33-⅓% per year, including the first year of service. A participant is 100% vested after three years of service.

Participant Loans

Participants may borrow from their account balances a minimum of $1,000, up to a maximum of the lesser of $50,000 or 50% of their vested account balance. Principal and interest are repaid ratably through payroll deductions over loan terms, which generally do not exceed five years. Interest is charged between 4.25% and 9.25% on all outstanding loans as of December 31, 2010.

Payment of Benefits

Participants may withdraw voluntary after tax contributions, qualified rollovers, and transfers into the Plan, and earnings thereon, at any time. Pre-tax deferrals, vested employer-matching contributions, and vested employer discretionary contributions, if any, may be withdrawn upon attaining age 59-½ or employment termination. All employee contributions may be withdrawn upon termination of employment. Upon termination of service, participants received a lump sum payment of benefits. Hardship withdrawals are allowed but are limited to certain types of contributions, as defined.

Forfeited Accounts

Forfeited balances of terminated participants' nonvested accounts may be used first to reduce expenses related to the administration of the Plan and then to reduce future employer contributions. As of December 31, 2010 and 2009, the balance of the nonvested accounts available to reduce further employer contributions was $3,681 and $9,563, respectively.

Parties-in-Interest

Certain Plan investments are shares of mutual funds managed by American Funds, the third party administrator as defined by the Plan. These transactions qualify as exempt party-in-interest transactions.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates that affect the reported amounts in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investments

The Plan's investments are stated at fair value. Quoted market prices of shares of mutual funds are used to value these investments. Participants' loans are valued at their outstanding balance, which approximates fair value.

Investments in units of collective trust and are valued at the respective net asset values. The fair value of the investment contracts at December 31, 2010 and 2009 was $477,029 and $607,419, respectively. Contract values represent contributions and reinvested income, less any withdrawals, plus accrued interest, because these investments have fully benefit-responsive features. At December 31, 2010 and 2009, there are no reserves against contract values for credit risk of contract issuers or otherwise. The crediting rate for these investment contracts is reset biannually by the issuer, the crediting rate was 3.261% and 3.887% at December 31, 2010 and 2009, respectively.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold and held during the year.

The methods described above produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Administrative expenses are paid by the Plan. The participant is responsible for certain costs and expenses attributed to their individual participant account. The Company performs various administrative services for the Plan, including maintenance of participants' payroll records. The investment fees of the Trustee are paid by the Plan, while substantially all other expenses, after considering forfeitures, are paid by the Company.

Income Taxes

The Plan has received a determination letter from the Internal Revenue Service dated March 31, 2008, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

Reclassifications

Certain items from the prior year financial statements have been reclassified to conform to the current year presentation.

Recently Issued Accounting Pronouncements

In September 2010, the FASB issued Accounting Standards Update (ASU) No. 2010-25, "Reporting Loans to Participants by Defined Contribution Pension Plans" (ASU 2010-25) in order to clarify how loans to participants should be classified and measured by defined contribution pension plans. The amendment to the accounting guidance requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid balance plus any accrued but unpaid interest. Effective for fiscal years ending after December 15, 2010, the Plan elected to adopt ASU 2010-25 as of the year ended December 31, 2010, as permitted by the FASB. The effect of ASU-2010-25 has also been retroactively applied to the accompanying statements of net assets available for benefits as of the year ended December 31, 2009. The adoption of ASU 2010-25 did not have a material impact on the Plan's financial statements.

Subsequent Events

Material subsequent events have been considered for disclosure and recognition in these financial statements through September 26, 2011.

NOTE 3 - FAIR VALUE MEASURE

Financial Accounting Standards Board (FASB) guidance for fair value measurement and disclosure provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB guidance are described as follows:

- Level 1 - Observable inputs such as quoted prices (unadjusted) in active markets for identical assets or liabilities;

- Level 2 - Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active; or

- Level 3 - Unobservable inputs that reflect the reporting entity's own assumptions.

Investments measured at fair value on a recurring basis consisted of the following types of instruments as of December 31, 2010 and 2009 (Level 1, 2, and 3 inputs are defined above):

NOTE 5 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
