NOTES TO FINANCIAL STATEMENTS
As of December 31, 2010 and 2009

1. Description of Plan

The following brief description of the Atrium Companies, Inc. 401(k) Plan (the "Plan") is provided as general information only. Participants should refer to the Plan document for a more comprehensive description of the Plan's provisions.

General
The Plan is a defined contribution plan available to all employees of Atrium Companies, Inc. (the "Company"), except those employed by the New Boston or Palestine locations or covered by a collective bargaining agreement, who have reached 21 years of age and completed three months of service. Employees are automatically enrolled in the Plan upon meeting the eligibility criteria at a default pre-tax deferral rate of 1%. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions
Participants may contribute up to 100 percent of their annual pretax compensation to the Plan, subject to Internal Revenue Service ("IRS") limitations. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Company, at the discretion of its Board of Directors, may contribute to the Plan a percentage of each participant's before tax contribution (limited to 4 percent of the participant's compensation, as defined) and may also contribute an additional amount to be credited to all participants in the same proportion of each participant's salary to the total salary of all participants. The Company's percentage contributions are credited to the accounts of participants at the same time as the participant's before-tax contributions. Additional Company contributions are credited to the accounts of participants who are employed by the Company on December 31 of the Plan year. No Company contributions were made for the year ended December 31, 2010.

Participant Accounts
Each participant's account is credited with the participant's contributions, allocations of Plan earnings and the participant's allocation of any Company contributions. Participant accounts are also charged with an allocation of certain administrative expenses. Contributions and earnings are allocated among investment options as selected by the participant.

Vesting
Participants are immediately vested in their deferral contributions plus actual earnings thereon. The Company matching contributions, earnings thereon, and any additional discretionary Company contributions vest over a five-year period based on years of service as follows:

Completed Years of Vesting Service	Vesting Percentage
1	20
2	40
3	60
4	80
5	100

NOTES TO FINANCIAL STATEMENTS
As of December 31, 2010 and 2009

1. Description of Plan (continued)

Forfeitures
The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Forfeited balances of terminated participants' nonvested accounts may be used to reduce future administrative expenses or Company contributions. For the years ended December 31, 2010 and 2009, forfeitures were $15,565 and $38,183, respectively. No forfeiture amounts were used to reduce administrative expenses or Company contributions in 2010 or 2009. At December 31, 2010 and 2009, unallocated forfeited nonvested accounts totaling $159,272 and $127,368, respectively, were available to offset future administrative expenses or Company contributions.

Participants Loans
Participants may borrow from their accounts a minimum of $1,000 up to a maximum of the lesser of $50,000 or 50 percent of their vested account balance. Loans are collateralized by the participant's account balance and bear interest at a fixed rate based on the prevailing rate on the date of funding. Interest rates ranged from 5.25% to 11.5% as of December 31, 2010 and 2009. Principal repayments and the interest on outstanding balances are deducted ratably from the participant's pay. Participants may not have more than one loan outstanding at a time.

Payments of Benefits
Upon termination of service due to death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account, in either a lump sum or annual installments. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution, subject to minimum balance distribution requirements. A participant may withdraw part of the vested interest in his or her account upon attainment of age 59 1/2, subject to Plan provisions.

Administrative Expenses
The Company pays certain administrative expenses incurred by the Plan, including recordkeeping, trustee and audit fees. Transaction costs borne by the Plan are charged to the individual participant who initiated the transaction to which the charge relates by reducing the participant's account balance.

NOTES TO FINANCIAL STATEMENTS
As of December 31, 2010 and 2009

2. Summary of Significant Accounting Policies

Basis of Accounting
The financial statements of the Plan are prepared under the accrual method of accounting.

Payment of Benefits
Benefits are recorded when paid.

Investment Valuation and Income Recognition
Investments in mutual funds are stated at fair value based on quoted market prices on the last trading day of the Plan year. Investments in pooled separate accounts are stated at their net asset value ("NAV"), which is based on the market value of the underlying investments. The guaranteed investment contracts are presented at fair value, which represents the amount the plan sponsor would receive if they terminated the contract at the reporting date, which is book value less an early withdrawal charge (See Note 3 for further information).

The Plan presents, in the Statement of Changes in Net Assets Available for Plan Benefits, the net appreciation (depreciation) in the fair value of investments, which consists of the realized and unrealized gains or losses on those investments.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis.

Notes Receivable from Participants
Notes receivable from participants represent loans and are stated at amortized cost. Interest income is recorded on the accrual basis.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties
The Plan provides for various options in any combination of specified investments. The underlying investments may include stocks, bonds, fixed income securities, mutual funds and other investment securities. Such investments are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities in the near term could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Plan Benefits.

NOTES TO FINANCIAL STATEMENTS
As of December 31, 2010 and 2009

2. Summary of Significant Accounting Policies

Reclassifications
Effective January 1, 2010, the Plan adopted the Financial Accounting Standards Board ("FASB") authoritative guidance on reporting loans to participants by defined contribution plans. In accordance with the provisions, participant loans are required to be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principle balance, plus any accrued but unpaid interest. The adoption requires reclassification of participant loans from investments to notes receivable from participants on the statements of net assets available for benefits as of December 31, 2010 and 2009. Accordingly, 2009 financial statements have been reclassified to conform to the 2010 presentation. There was no impact on net assets available for benefits or changes in net assets available for benefits.

Subsequent Events
Subsequent events have been evaluated through the date of the independent auditor report.

3. Investments

The fair value of investments that represent 5 percent or more of the Plan's net assets available for benefits as of December 31, 2010 and 2009 are summarized as follows:

	2010		2009	
Principal Money Market Separate Account	$ 6,963,583		$ 8,368,827	
Principal Bond & Mortgage Separate Account	3,621,227		3,382,270	
Guaranteed Investment Contracts	3,358,773		4,208,946	
Principal Large Cap S&P 500 Index Account	4,171,615		4,002,779	
Principal International Smallcap Account	2,214,339		1,870,759	*
Janus Aspen Forty Institutional Fund	1,930,755	*	2,220,423	

*Amount represents less than 5% or more of the Plan's net assets. Information was presented for comparative purposes.

Investment Contracts with Insurance Company
The Plan has entered into various guaranteed investment contracts with The Principal Life Insurance Company ("Principal"). Principal maintains the contracts in a general account. The accounts are credited with earnings on the underlying investment contracts and charged for participant withdrawals and administrative expenses. These contracts promise contract value for a benefit event; however, there is a possible market value adjustment when funds are withdrawn prior to their maturity. Thus, they are not considered fully benefit responsive and are therefore included in the financial statements at fair value as reported by Principal. Interest is credited to the accounts daily and compounded annually on the last day of each year.

Net Change in Fair Value
During 2010 the Plan's investments (including investments bought, sold, and held during the year) appreciated in value by $3,844,263 as follows:

	2010
Mutual fund accounts	$ 1,054,993
Pooled separate accounts	2,779,121
Guaranteed investment contract	10,149
Net appreciation in fair value of investments	$ 3,844,263

3. Investments (continued)

Information Certified by the Trustee (unaudited)
The Company elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the following information included in the accompanying financial statements and supplemental schedule has been certified by The Principal Life Insurance Company, the trustee, as being complete and accurate:

	2010	2009
Separate accounts and mutual funds, at fair value	$ 35,536,870	$ 33,707,183
Guaranteed investment contracts, at fair value	3,358,773	4,208,946
Participant loans, at amortized cost	1,759,252	1,676,441

	2010
Net appreciation in fair value of investments	$ 3,844,263
Dividend income from mutual funds	120,066
Interest and other income	78,659
Interest income from participant loans	100,292

4. Fair Value Measurements

The fair value hierarchy prioritizes the inputs used to measure fair value, giving the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy are described below:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

4. Fair Value Measurements (continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

Pooled separate accounts: Valued at the net asset value (or unit value) of the units held by the Plan at year-end based on information reported by the custodian. The NAV of each of the separate accounts is calculated in a manner consistent with the U.S. GAAP for investment companies and is determinative of their fair value and represent the price at which the Plan would be able to initiate a transaction. Several of the separate accounts invest in publicly quoted mutual funds or actively managed stocks. Some of the separate accounts also invest in fixed income securities. The fair value of the underlying mutual funds or stocks and of the underlying securities, which is based on quoted prices of similar assets, is used to determine the NAV of the separate account which is not publicly traded. Investments in these funds can be redeemed daily upon request. There were no significant unfunded commitments as of December 31, 2010.

Mutual funds: The fair value of mutual funds is determined by quoted market prices on nationally recognized securities exchanges which represent the net asset value of shares held by the Plan at year end.

Guaranteed investment contracts: The guaranteed interest accounts cannot be sold to a third-party, thus, the only option to exit the guaranteed interest accounts is to withdraw the funds prior to maturity. The fair value of the account is the value paid when funds are withdrawn prior to their maturity. The fair value of the guaranteed interest accounts is reflected in Level 3 and the valuation is based on the applicable interest rate. If the applicable interest rate is greater than the interest rate on the account, the fair value is the contract value reduced by a percentage. This percentage is equal to the difference between the applicable interest rate and the interest rate on the account, multiplied by the number of years (including fractional parts of a year) until the maturity date. If the applicable interest rate is equal to or less than the interest rate on the account, the fair value is equal to the contract value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTES TO FINANCIAL STATEMENTS
As of December 31, 2010 and 2009

4. Fair Value Measurements (continued)

(1) Fixed Income funds invest in bonds, or debt of a company or government entity (including U.S. and Non-U.S.).
(2) International Equity funds invest in stocks or shares of ownership in companies with their principal place of business or office outside of the United States.
(3) Large U.S. Equity funds invest in stocks, or shares of ownership in large, well-established, U.S. companies.
(4) Short-Term Fixed Income funds invest in short-term fixed-income investment options that are largely liquid and are designed to not lose much value.
(5) Small/Mid/Specialty funds invest in common stock of small or midsize U.S. Companies or the common stock of specialized U.S. Companies.
(6) Asset Allocation funds invest in a combination of funds that invest in U.S. stocks, international stocks, U.S. bonds and other fixed-income investments using asset allocation strategies based on a conservative, moderate or target date allocation methodology.

The table below sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31:

	2010	2009
Balance, beginning of the year	$ 4,208,946	$ 4,610,441
Unrealized gains or (losses)	10,148	(23,661)
Interest credited	78,657	128,584
Purchases, sales, issuances, and settlements (net)	(938,978)	(506,418)
Balance, end of the year	$ 3,358,773	$ 4,208,946

5. Related Party Transactions

Plan investments include shares of guaranteed investment contracts and pooled separate accounts managed by Principal. Principal is the trustee, as defined by the Plan, and therefore, these investments qualify as party-in-interest investments.

6. Plan Termination

The Plan has been established with the intention that it will continue and be a permanent plan. However, although it has not expressed any intent to do so, the Company has the right under the Plan to terminate it at any time, subject to the provisions of ERISA. In the event the Plan terminates, participants would become fully vested in their account balances.

7. Tax Status

The Plan uses a prototype plan document sponsored by Principal. Principal received a favorable determination letter dated March 31, 2008, from the Internal Revenue Service ("IRS") stating that the prototype document satisfies the applicable provisions of the Internal Revenue Code ("IRC"). The Plan itself has not received a determination letter from the IRS. However, Plan management believes the Plan, as adopted and amended, is operating within the guidelines of the IRC. Accordingly, no provision for federal income taxes has been provided in the accompanying financial statements.
