The Newport Group, Inc. 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of The Newport Group, Inc. 401(k) Plan (the "Plan"), as amended and restated effective January 1, 2009, provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions:

General: The Plan is a defined contribution plan covering all eligible employees of The Newport Group, Inc. and related participating employers (the "Company" or "Employer") who are age of 21 or older and have completed at least one month of service as of the next enrollment date. Union employees, nonresident aliens and leased employees are excluded from participation. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions: Each participant may contribute, on a pre-tax basis, any amount of their qualified annual compensation, as defined by the Plan, up to the Internal Revenue Code (IRC) maximum limits. The maximum allowable pre-tax voluntary contribution, as determined by the Internal Revenue Service, was \$16,500 for 2010. Eligible employees are automatically enrolled in the Plan to defer 4% of their annual compensation. At any time, participants may select an alternative deferral amount or elect not to defer under the Plan. Participants who have attained the age of 50 before the end of the Plan year are eligible to make "catch-up" contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Contributions are subject to limitations.

The Company matches a designated percentage of each participant's compensation. The match consists of a 50% match of each participant's contributions that do not exceed 2% of their total compensation. The Company may also make a discretionary profit-sharing contribution, to be determined annually, to the Plan. No discretionary profit sharing contributions were made to the Plan for the year ended December 31, 2010.

Participant accounts: Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution and an allocation of the Company's contribution and Plan earnings; and charged with withdrawals and an allocation of Plan losses and administrative expenses. Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants hired prior to June 1, 2008 are immediately vested in their contributions, qualified non-elective contributions and employer matching contributions plus actual earnings thereon. Participants hired on or after June 1, 2008 are immediately vested in their contributions and qualified non-elective contributions and become vested in employer matching contributions following the completion of three years of service. Vesting in the Company's non-elective profit sharing contributions is based on years of service, begins after one year at 20% per year, and participants are 100% vested after five years of credited service. Regardless of years of service, participants become 100% vested in their accounts upon reaching normal retirement age, death or permanent disability.

Investment options: Upon enrollment in the Plan, participants may direct the investment of their account balances into a variety of investment options as more fully described in the Plan's literature. Participants may also elect a self-directed account option. Participants may change their investment options daily via the Internet or telephone.

Notes to Financial Statements

Note 1. Description of Plan (Continued)

Payment of benefits: The entire vested balance of a participant's account may be distributed upon termination of employment for any reason. The normal retirement age, as defined by the Plan, is 59 ½. Upon termination of employment, a participant may elect to receive distribution of their vested account in a lump-sum or in installment payments, or have the amount remain invested in the account if the balance is greater than \$1,000. Participants may request hardship withdrawals of elective deferrals. Rollover contributions may be withdrawn at any time. Elective deferrals and vested employer contributions may be withdrawn upon attainment of age 59 ½. Vested benefits in amounts less than \$1,000 are distributed in a lump-sum amount without the participant's election.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of \$1,000, up to the lesser of 50% of the participant's vested balance or \$50,000. Each loan is documented in the form of a promissory note signed by the participant and are collateralized by the balance in the participant's account and bear interest at fixed rates from 4.25% to 9.25%. Loan terms are usually a maximum of five years, except for loans to be used for the purchase of a principal residence, which may be more than five years. Principal and interest are paid ratably through payroll deductions. A participant may have a maximum of one outstanding loan.

Forfeited accounts: Any non-vested account balance remaining after the distribution of a terminated participant's vested account balance is forfeited. At December 31, 2010 and 2009, forfeited non-vested account totaled \$6,479 and \$1,085, respectively. These accounts will be used to pay Plan expenses or reduce future employer contributions to the Plan. For the year ended December 31, 2010, no forfeitures were used.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The accompanying financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis for fully benefit-responsive investment contracts. The Schwab Stable Value Fund Institutional II, a common collective trust, is a fully benefit-responsive investment contract. The average yield on the contract was 2.8% for the year ended December 31, 2010.

Use of estimates: The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Note 2. Summary of Significant Accounting Policies (Continued)

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest is recorded when earned. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payments of benefits: Benefits are recorded when paid.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

In September 2010, the Financial Accounting Standards Board ("FASB") issued an amendment, *Plan Accounting—Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans* (ASU 2010-25), which provides guidance on how loans to participants should be classified and measured by defined contribution pension plans. This amendment requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. This amendment was effective for periods ending after December 15, 2010, with early adoption permitted. This amendment requires retrospective application to all periods presented.

This amendment was adopted for the year ended December 31, 2010, and retrospectively applied to December 31, 2009. Prior year amounts and disclosures have been revised to reflect the retrospective application of adopting this new amendment. The adoption resulted in a reclassification of participant loans totaling \$501,809 from investments to notes receivable from participants as of December 31, 2009. There was no impact to net assets as of December 31, 2009 as a result of the adoption.

Administrative expenses: Certain administrative expenses of the Plan are paid by the Company.

Recent accounting pronouncements: In January 2010, FASB issued Accounting Standards Update ("ASU") No. 2010-6, *Fair Value Measurements and Disclosures – Improving Disclosures About Fair Value Measurements*, which requires new disclosures and reasons for transfers between Level 1 and Level 2 measurements under the fair value hierarchy. This amendment also clarifies that disclosures about inputs and valuation techniques are required for both Level 2 and Level 3 measurements. With the exception of the following sentences, the amendment is effective and was adopted for the year ended December 31, 2010. The amendment further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances and settlements instead of netting these changes. This portion of the amendment is effective for periods beginning on or after December 15, 2010 and has not yet been adopted.

In May 2011, the FASB issued Accounting Standards Update ASU No. 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*. The ASU amended ASC 820, *Fair Value Measurements and Disclosures*, to clarify the application of existing fair value measurement requirements and change particular principles in ASC 820. In addition, the ASU requires additional fair value disclosures. The amendments are effective for annual periods beginning after December 15, 2011, and should be applied prospectively. Plan management has not evaluated the effect the provisions of ASU 2011-04 will have on the Plan's financial statements.

Note 3. Information Certified and Provided by Trustee

The following is a summary of the Plan's asset information, as of December 31, 2010 and 2009, and for the year ended December 31, 2010, included throughout the Plan's financial statements and supplemental schedule, was prepared by or derived from information certified or provided by Charles Schwab Trust Company, ("Charles Schwab"), the trustee under the Plan, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets and asset activity is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to this information, except for comparing such certified information to information included in the Plan's financial statements and supplemental schedule.

The following table presents the assets held by the Plan as of December 31, 2010 and 2009, which were certified by the Trustee. Single investments representing more than 5% of the Plan's net assets are separately identified:

Note 3. Information Certified and Provided by Trustee (Continued)

Charles Schwab also certified to the completeness and accuracy of \$2,276,162 of net appreciation in fair value of investments, \$449,767 of interest and dividend income related to the aforementioned investments, and \$28,056 of interest related to notes receivable from participants for the year ended December 31, 2010.

During 2010, the Plan's investments (including gains and losses on investment bought and sold, as well as held during the year) appreciated as follows:

Mutual funds	\$ 1,968,423
Common collective trusts	277,794
Common stock	29,945
	<u>\$ 2,276,162</u>

Note 4. Fair Value Measurements

FASB Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 – Inputs to the valuation methodology include:
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value:

Shares of registered investment companies (mutual funds): Valued at quoted market prices, representing the net asset value ("NAV") of shares held by the plan at year end.

Common collective trusts: Units held in common collective trust funds are valued using the net asset value per unit as determined by the issuer of the fund, based on the fair value of the underlying investments.

Common stock: Valued using quoted prices in active markets.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets measured at fair value as of December 31, 2010 and 2009:

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

(a) The Schwab Stable Value Fund Institutional II seeks to maintain principal value, protect against market price volatility, obtain consistent income return and provide liquidity for benefit payments and withdrawals. The Stable Value Fund invests primarily in investment contracts issued by insurance companies, banks and other financial institutions, and other instruments authorized by the fund document.

(b) The Schwab Institutional Large Cap Value seeks long-term growth of principal and income. The fund invests primarily in a diversified portfolio of common stocks of large capitalization companies.

Note 5. Plan Termination

Although there has been no expressed intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in the Company's matching and discretionary non-elective contributions.

Note 6. Tax Status

The Plan adopted a non-standardized profit sharing plan sponsored by Newport Retirement Services, Inc. The non-standardized profit sharing plan has received an opinion letter, dated March 31, 2008, from the Internal Revenue Service as to the non-standardized profit sharing plan's qualified status. The non-standardized profit sharing plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provision of the Internal Revenue Code.

Management evaluated the Plan's tax positions in accordance with the guidance on accounting for uncertainty in income taxes and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require recognition or disclosure in the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by U.S. federal, state, or local tax authorities for years before 2007.

Note 7. Risks and Uncertainties

The Plan invests in various investment securities. Investments securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Plan's financial statements.

Note 8. Related Party Transactions

The Plan's assets are held by Charles Schwab. Charles Schwab is the trustee as defined by the Plan and, therefore, transactions with Charles Schwab qualify as party-in-interest transactions. Fees paid to Charles Schwab by the Plan for investment management and administrative services amounted to \$405 for the year ended December 31, 2010.
