Falcon International Bank 401(k) Plan

Notes to Financial Statements

1. Description of Plan

The following description of Falcon International Bank 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan which covers substantially all full time employees of Falcon International Bank (the "Plan Sponsor" or the "Bank") who have completed 90 days of service and are age 18 or older. The employee may enter the Plan on the first day of any month following the date eligibility is met. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may elect to contribute up to 100% of eligible compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Contributions are subject to certain limitations. Effective February 2009, the Plan Sponsor discontinued making matching contributions, and the Plan was amended to reflect this change.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Bank's contributions and Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions and actual earnings thereon. Participants become 20% vested in the Bank's contributions and earnings thereon after two years of service, increasing 20% per year. A participant is 100% vested after six years of credited service.

Notes Receivable From Participants

Participants may borrow from their fund accounts a minimum of \$500 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest, as determined by the Plan administrator. Principal and interest are paid through payroll deductions.

Notes to Financial Statements

1. Description of Plan (continued)

Payment of Benefits

On termination of service, a participant may elect to receive a lump-sum distribution equal to the value of the participant's vested interest in his or her account. Any balance under \$500 is automatically paid out as soon as administratively possible. Hardship withdrawals are also available subject to certain limitations.

Forfeited Accounts

At December 31, 2010 and 2009, forfeited nonvested accounts totaled \$13,088 and \$4,911, respectively. These accounts will be used to reduce future employer contributions and pay the expenses of the Plan. During 2010 and 2009, employer contributions were reduced by \$0 and \$927 from forfeited nonvested accounts, respectively.

Expenses of the Plan

Plan fees and expenses, including fees and expenses connected with providing administrative services by external service providers, are paid from Plan assets.

2. Summary of Significant Accounting Policies

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Basis of Accounting

The financial statements of the Plan are prepared on the accrual method of accounting.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be recognized to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 4 for disclosure of the fair value measurements.

Falcon International Bank 401(k) Plan

Notes to Financial Statements

2. Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition (continued)

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required, the statements of net assets available for benefits present the fair value of the investment contracts, as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statements of changes in net assets available for benefits are prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Recent Accounting Pronouncement

Reporting Loans to Participants by Defined Contribution Pension Plans

In September 2010, the Financial Accounting Standards Board's ("FASB") Accounting Standards Codification ("ASC") issued an amendment, *Plan Accounting – Defined Contribution Plans: Reporting Loans to Participants by Defined Contribution Pension Plans*, which provides guidance on how loans to participants should be classified and measured by defined contribution pension plans. This amendment requires participant loans to be classified as notes receivable from participants, which are segregated from Plan investments and measured at their unpaid principal balance plus any accrued, but unpaid interest. This amendment is effective for periods ending after December 15, 2010. This amendment requires retrospective application to all periods presented.

This amendment was adopted for the year ended December 31, 2010 and retrospectively applied to December 31, 2009. Prior year amounts and disclosures have been revised to reflect the retrospective application of adopting this new amendment. The adoption resulted in a reclassification of participant loans totaling \$342,720 and \$393,446, from investments to notes receivable as of December 31, 2010 and 2009, respectively. There was no impact to net assets as of December 31, 2010 or 2009 as a result of this adoption.

Subsequent Events

The Plan has evaluated subsequent events through October 4, 2011, the date the financial statements were available to be issued.

Reclassification

Certain reclassifications have been made in the prior year's financial statements to conform to the current year's presentation.

3. Investments

The Plan's investments are held by State Street Bank and Trust Company. The following presents investments that represent 5% or more of the Plan's net assets:

	December 31,	
	2010	2009
State Street Bank and Trust Company:		
SSgA Stable Value Fund	\$ 771,082	\$ 754,518
Invesco Developing Markets Fund	541,556	443,084

Janus Forty Fund	238,248	206,206
SSgA International Index Fund	205,895	183,501

The Plan's investments, including gains and losses on investments bought and sold, as well as held during the year, appreciated in fair value by \$224,052 and \$457,194 as follows:

	Years Ended December 31,	
	2010	2009

4. Fair Value Measurements

FASB's ASC, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB's ASC, *Fair Value Measurements and Disclosures*, are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, Level 2 inputs must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009:

- Common collective trusts – Valued as determined by the issuer based on quoted market values of the underlying investments held at year end.
- Mutual funds – Valued at the net asset value of shares held by the Plan at year-end.
- Stable value fund – Valued at fair value by discounting the related cash flows based on the current yields of similar instruments with comparable durations, considering the creditworthiness of the issuer.

Falcon International Bank 401(k) Plan

Notes to Financial Statements

4. Fair Value Measurements (continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan's investments, measured at fair value by the three levels described above, at December 31, 2010 and 2009 are as follows:

	Total Fair Value Measurement at December 31, 2010	Level 1	Level 2	Level 3
Assets:				
Mutual funds	\$ 1,989,975	\$ 1,989,975	\$ -	\$ -
Stable value fund	771,082		771,082	
Common collective trust funds	270,774		270,774	-
Total assets	<u>\$ 3,031,831</u>	<u>\$ 1,989,975</u>	<u>\$ 1,041,856</u>	<u>\$ -</u>
	Total Fair Value Measurement at December 31, 2009	Level 1	Level 2	Level 3
Assets:				
Mutual funds	\$ 1,702,744	\$ 1,702,744	\$ -	\$ -
Stable value fund	754,518		754,518	
Common collective trust funds	238,851	-	238,851	-
Total assets	<u>\$ 2,696,113</u>	<u>\$ 1,702,744</u>	<u>\$ 993,369</u>	<u>\$ -</u>

5. Investment Contract With Stable Value Fund

The Plan has entered into a benefit-responsive guaranteed investment contract with State Street Global Advisors ("State Street"). State Street maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statements of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by State Street, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2010 and 2009 totaled \$771,082 and \$754,518, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 0.00%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan); (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures, or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan; or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The stable value fund does not permit the issuer to terminate the agreement prior to the scheduled maturity date.

Falcon International Bank 401(k) Plan

Notes to Financial Statements

5. Investment Contract With Stable Value Fund (continued)

The average yields consist of the following:

	Years Ended December 31,	
	2010	2009
Based on actual earnings	1.10%	3.04%
Based on interest rate credited to participants	1.85%	3.25%

6. Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds managed by State Street Trust Company. State Street Trust Company is the custodian, as defined by the Plan and, therefore, these investments qualify as party-in-interest transactions.

7. Plan Termination

Although it has not expressed intent to do so, the Bank has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employee contributions.

8. Tax Status

The Plan's underlying Plan document has received a determination letter from the Internal Revenue Service dated March 31, 2008, stating that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (the "IRC"). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. With few exceptions, the Plan is no longer subject to United States federal or state income tax examinations by tax authorities for years before 2007.

Notes to Financial Statements

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500:

	December 31,	
	2010	2009

Dear Plan Administrator:

Statement on Auditing Standards No. 114, *The Auditor's Communications With Those Charged With Governance*, requires the auditor to communicate certain matters to keep those charged with governance adequately informed about matters related to the financial statement audit that are, in our professional judgment, significant and relevant to the responsibilities of those charged with governance in overseeing the financial reporting process. The following summarizes these communications.

Auditors' Responsibility Under Professional Standards

Our responsibility under auditing standards generally accepted in the United States of America, except as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 has been described to you in our arrangement letter dated May 5, 2011.

Adoption of, or Changes in, Accounting Policies

Management has the ultimate responsibility for the appropriateness of the accounting policies used by Falcon International Bank 401(k) Plan (the "Plan"). Following is a description of significant accounting policies or their application that were either initially selected or changed during the year. During 2010, the Plan adopted Financial Accounting Standards Board Accounting Standards Codification, *Plan Accounting – Defined Contribution Plans: Reporting Loans to Participants by Defined Contribution Pension Plans*. Information on this standard can be found in note 2 to the financial statements.

Significant or Unusual Transactions

We did not identify any significant or unusual transactions or significant accounting policies in controversial or emerging areas for which there is a lack of authoritative guidance or consensus.

Management's Judgments and Accounting Estimates

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's current judgments. Those judgments are normally based on knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ markedly from management's current judgments.

The most sensitive accounting estimate affecting the financial statements is the contract value of the stable value investment. The statements of net assets available for benefits present the fair value of the investment contracts, as well as the adjustment of fully benefit-responsive investment contracts from fair value to contract value. The statements of changes in net assets available for benefit are prepared on the contract value basis.

Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attribute to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. We evaluated the key factors and assumptions used to develop the fair value measurement and determined that it is reasonable in relation to the basic financial statements taken as a whole.

Financial Statement Disclosures

Certain financial statement disclosures involve significant judgment and are particularly sensitive because of their significance to financial statement users. The most sensitive disclosures affecting the Plan's financial statements relates to the investment option of benefit-responsive investment contract with State Street Bank and Trust Company and the requirements of fair value measurement and disclosure.

<i>To accrue employee contributions receivable at year-end.</i>		
Investments	8,428	
Fair value to contract value		8,428
<i>To adjust from fair value to contract value for fully benefit-responsive investment contracts.</i>		

Uncorrected Misstatements

During the course of our audit, we accumulated uncorrected misstatements that were determined by management to be immaterial, both individually and in the aggregate, to the statements of net assets available for benefits and changes in net assets available for benefits, and to the related financial statement disclosures.

Other Information in Documents Containing Audited Financial Statements

Our responsibility for other information in documents containing the Plan's financial statements and our auditors' report does not extend beyond the financial information referred to in our auditors' report. However, we read the Plan's Form 5500 filing for consistency with information in the financial statements. We have provided our comments to management. We are not aware of other documents that contain the audited financial statements.

Disagreements with Management

We encountered no disagreements with management over the application of significant accounting principles, the basis for management's judgments on any significant matters, the scope of the audit, or significant disclosures to be included in the financial statements.

Consultations with Other Accountants

We are not aware of any consultations management had with other accountants about accounting or auditing matters.

Significant Issues Discussed With Management

Difficulties Encountered in Performing the Audit

We did not encounter any difficulties in dealing with management during the audit.

Certain Written Communications Between Management and Our Firm

Copies of certain written communications between our firm and the management of the Plan are attached.

RECOMMENDATIONS REGARDING THE INTERNAL CONTROL STRUCTURE

This letter includes comments and recommendations with respect to matters that came to our attention while planning and performing our audit of the financial statements of the Plan as of and for the year ended December 31, 2010, except for performing any of the normal auditing procedures on assets certified by the custodian as provided under Section 2520.103-8 of the United States DOL Rules and Regulations. These items are offered as constructive recommendations to be considered as part of the ongoing process of modifying and improving the Plan's practices and procedures.

In planning and performing our audit of the financial statements of the Plan as of and for the year ended December 31, 2010, in accordance with auditing standards generally accepted in the United States of America, we considered the Plan's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we do not express an opinion on the effectiveness of the Plan's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses.

To the Plan Administrator
Falcon International Bank 401(k) Plan
Laredo, Texas

October 4, 2011 – page 5

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. We consider the following deficiency to be a control deficiency:

Plan Forfeitures

Observation

We noted the forfeiture account was previously used to reduce employer contributions, but no forfeitures have been used since employer contributions ceased.

Recommendation

We recommend management consider utilizing the forfeiture account to offset Plan expenses, since the organization elected to discontinue the employer match.

This report is intended solely for the information and use of the Plan administrator, management, and others within Falcon International Bank 401(k) Plan and is not intended to be, and should not be, used by anyone other than these specified parties.

We thank you and your staff for the courteous assistance provided to us during the engagement and look forward to working with you in the future. Please do not hesitate to contact us if you have any questions or comments.
