Report of Independent Auditors

The Board of Directors
MAHLE Industries Manchester
Hourly Retirement Savings Plan

We were engaged to audit the accompanying statements of assets available for benefits of the MAHLE Industries Manchester Hourly Retirement Savings Plan as of December 31, 2010 and 2009, and the related statements of changes in assets available for benefits for the years then ended, and the supplemental schedule of assets (held at end of year) as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 4, which was certified by Massachusetts Mutual Life Insurance Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of December 31, 2010 and 2009, and for the years then ended, that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the investment information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

MAHLE Industries Manchester
Hourly Retirement Savings Plan

Notes to Financial Statements

December 31, 2010 and 2009

1. Description of Plan

The following description of the MAHLE Industries Manchester Hourly Retirement Savings Plan (the Plan) provides general information about the Plan's provisions. MAHLE Industries, Incorporated (the Company) is the Plan sponsor. Participants should refer to the plan document and summary plan description for a more complete description of the Plan's provisions, copies of which may be obtained from the Plan sponsor.

General

The Plan is a defined contribution employee benefit plan that provides benefits to the Company's employees who are members of the collective bargaining unit represented by District #9, International Association of Machinists and Aerospace Workers (the Union) at the Manchester, Missouri facility. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

During 2008, the Company announced intentions to close the Manchester plant, and the plant was subsequently closed in June 2009. During 2010, the Company announced that the Plan will merge into the MAHLE Industries, Inc. 401(k) Asset Accumulation Plan effective January 1, 2011. The merged Plan will continue in operation until all benefits due under the Plan have been paid.

Participation

Prior to 2010, eligible employees were able to participate in the Plan as of the first day of the month following the date they complete their 120-day probationary period with the Company.

Contributions

Prior to 2010, the Company made a matching contribution equal to 100% of participant contributions up to 3.5% of the participant's compensation.

Participants were able to defer up to 25% of their compensation on a pretax basis, as defined in the Plan. Catch-up contributions for participants age 50 or over were allowed.

1. Description of Plan (continued)

Contributions are limited to the maximum amounts allowed under the Internal Revenue Code (IRC).

Participant Accounts

Participants' accounts are credited with their compensation deferrals, employer contributions made on behalf of the participants, and earnings based on the performance of the investment options selected by the participants.

Participants may direct contributions into their accounts among the investment options available and may change their selection at any time at their discretion.

Vesting

Participants are immediately vested in their accounts, including employer contributions, at all times.

Payment of Benefits

In accordance with the Plan's provisions, upon retirement after attaining normal retirement age, earlier termination of employment, or disability, participating employees may receive payment of their account balance in a lump sum, monthly or annual installments, or an annuity contract providing for equal monthly payments over a certain period, not exceeding ten years. Upon a participant's death, the designated beneficiary of the participant is entitled to receive payment of the participant's account balance in a lump sum or any of the other forms of payment offered under the Plan.

If the participant's account balance is $1,000 or less, payment will be made in a lump sum without the participant's consent. If the account balance is over $1,000 but not greater than $5,000, payment will be made to an individual retirement account at Massachusetts Mutual Life Insurance Company (MassMutual) or such other provider as the Company designates in accordance with Department of Labor guidelines, unless the participant request a different disposition of his account balance within the applicable election period.

1. Description of Plan (continued)

In-service distributions from the compensation deferral and employer matching accounts are allowed for participants after attaining age 59 1/2. A participant rollover account is available for distribution upon request.

Hardship Withdrawals

Subject to IRC regulations and approval by the plan administrator, participants may make hardship withdrawals up to the amount of the participant's contributions and employer matching contributions.

Participant Loans

The Plan may extend loans to participants. Participant loans will not be made for less than $1,000 or exceed the lesser of 50% of the participant's account balance, 100% of the participant's account exclusive of earnings, or $50,000, less the highest amount of outstanding loan balance to the participant for the previous 12-month period. The loan term will not be longer than 60 months unless the loan is used to acquire a principal residence in which case the term may not exceed 180 months. Interest is charged on loans at the rate equal to 1% above the prime rate.

As participant loans are repaid, the amounts are allocated to the investment funds according to the participants' most recent election with respect to current contributions.

Administration

The Plan is administered by the Benefits Committee of the Company. MassMutual is the custodian of the Plan and manages the Plan's assets in accordance with the terms of the trust agreement.

Administrative Expenses

Generally, the Company pays all expenses, including fees for professional services associated with the administration of the Plan.

2. Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Contributions

Employee contributions are recorded at the end of each pay period when the amounts are withheld from the participant's compensation. Employer contributions are recorded in the period in which they become obligations of the Company.

Benefit Payments

Benefit payments to participants are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2010 or 2009. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced, and a benefit payment is recorded.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 5 for further discussion of fair value measurements.

2. Significant Accounting Policies (continued)

The Plan invests in a fully benefit-responsive guaranteed investment contract (GIC). This investment contract is recorded at fair value; however, since this contract is fully benefit-responsive, an adjustment is reflected in the statements of assets available for benefits to present this investment at contract value. Contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value of the fully benefit-responsive investment contract represents contributions plus earnings, less participant withdrawals and administrative expenses. See Note 6 for further discussion of the fully benefit-responsive investment contract.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net realized and unrealized appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

2. Significant Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principals in the United States requires the plan administrator to make estimates that affect the amounts reported in the financial statements, accompanying notes, and supplemental schedules. Actual results could differ from those estimates.

New Accounting Pronouncements

In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2010-06, *Improving Disclosures about Fair Value Measurements.* ASU 2010-06 amends ASC 820 to clarify certain existing fair value disclosures and require a number of additional disclosures. The guidance in ASU 2010-06 clarifies that disclosures should be presented separately for each "class" of assets and liabilities measured at fair value and provides guidance on how to determine the appropriate classes of assets and liabilities to be presented. ASU 2010-06 also clarifies the requirement for entities to disclose information about both the valuation techniques and the inputs used in estimating Level 2 and Level 3 fair value measurements. In addition, ASU 2010-06 introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2, and 3 of the fair value hierarchy and present information regarding the purchases, sales, issuances, and settlements of Level 3 assets and liabilities on a gross basis. With the exception of the requirement to present changes in Level 3 measurements on a gross basis, which is delayed until 2011, the guidance in ASU 2010-06 is effective for reporting periods beginning after December 15, 2009. Since ASU 2010-06 only affects fair value measurement disclosures, adoption of ASU 2010-06 did not affect the Plan's assets available for benefits or its changes in assets available for benefits.

In September 2010, the FASB issued ASU 2010-25, *Reporting Loans to Participants by Defined Contribution Pension Plans.* ASU 2010-25 requires participant loans to be measured at their unpaid principal balance plus any accrued but unpaid interest and classified as notes receivable from participants. Previously, loans were measured at fair value and classified as investments. ASU 2010-25 is effective for fiscal years ending after December 15, 2010, and is required to be applied retrospectively. Adoption of ASU 2010-25 did not change the value of participant loans from the amount previously reported as of December 31, 2009. Participant loans have been reclassified to notes receivable from participants as of December 31, 2009.

3. Plan Merger

Effective January 1, 2011, the MAHLE Industries Manchester Hourly Retirement Savings Plan was merged into the MAHLE Industries, Inc. 401(k) Asset Accumulation Plan. Former participants in the Plan began participating in the MAHLE Industries, Inc. 401(k) Asset Accumulation Plan effective January 1, 2011. A reconciliation of assets available for benefits per the financial statements to the Form 5500 has been prepared at Note 10.

4. Investments

All investment information disclosed in the accompanying financial statements and supplemental schedules, including investments held, notes receivable from participants, and the adjustment from fair value to contract value for the fully benefit-responsive investment contract at December 31, 2010 and 2009, and net appreciation in fair value of investments, interest, dividends, and interest income on notes receivable from participants for the years then ended, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by MassMutual, the custodian of the Plan.

The fair values of the Plan's participant-directed investments that represent 5% or more of assets available for benefits are as follows:

	December 31	
	2010	**2009**
Pooled separate accounts:		
Destination Retirement 2020	**$ 89,760**	$ 108,143
Growth America	**250,396**	280,792
Select Fundamental Value	**109,355**	128,342
Premier Core Bond	**192,853**	209,454
MassMutual Fixed Interest Fund*	**1,047,165**	1,076,008

* Investment stated at fair value (see Note 2). Contract value was $1,030,026 and $1,084,947 at December 31, 2010 and 2009, respectively.

5. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

- *Level 1* – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

- *Level 2* – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

  - Quoted prices for similar assets and liabilities in active markets

  - Quoted prices for identical or similar assets or liabilities in markets that are not active

  - Observable inputs other than quoted prices that are used in the valuation of the assets or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)

  - Inputs that are derived principally from or corroborated by observable market data by correlation or other means

- *Level 3* – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based the lowest level input that is significant to the fair value measurement in its entirety.

5. Fair Value Measurements (continued)

Following is a description of the valuation methodologies used for the Plan's assets measured at fair value as of December 31, 2010:

Investment Contract (Fixed Interest Fund and Guaranteed Income Fund) – These investments are recorded at contract value, which approximates fair value. See Note 6 for further information related to the valuation of these investments.

Pooled Separate Accounts – Pooled separate accounts are valued on a net unit value basis as determined by the account issuer on the last business day of the plan year. The fair values of these investments are determined by reference to the respective fund's underlying assets, with the account issuer specifying the source(s) to use for underlying investment asset prices. The investments underlying the Plan's pooled separate accounts may be one or more mutual funds, a common collective trust, or a portfolio of securities.

Registered Investment Companies – Registered investment companies are valued on the net asset value in an observable market.

5. Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets carried at fair value as of December 31, 2010:

6. Fully Benefit-Responsive Investment Contract With Insurance Company

The Plan invests in a fully benefit-responsive guaranteed investment contract, the MassMutual Fixed Interest Fund. The MassMutual Fixed Interest Fund is a market value separate account investment option with a general investment account guarantee that provides a stated rate of return and insulates participants' accounts from daily fluctuations in the market. Under the terms of the group annuity contract, participants may direct permitted withdrawal and/or transfer transactions of all or a portion of their account balance at contract value. There are no reserves against contract values for credit risk of MassMutual or otherwise.

The crediting interest rates are based on a formula agreed upon with the issuer, but they may not be less than 3%. Such interest rates are reviewed on a semiannual basis for resetting. The average yield and crediting interest rates on the contract were 3.81% and 3.85% for 2010 and 2009, respectively. The average yield earned is calculated by dividing the annual interest credited to the Plan during the plan year by the average annual fair value. The average interest rate credited to participants is calculated by dividing the annual interest credited to the participants during the plan year by the average annual fair value. The key factors that influence future interest crediting rates could include the following: the level of market interest rates; the amount and timing of participant contributions, transfers, and withdrawals into/out of the contract; and the duration of the underlying investments backing the contract. The resulting gains and losses in the fair value of the investment contract relative to the contract value are reflected in the statement of assets available for plan benefits as adjustment from fair value to contract value for interest in guaranteed investment contract relating to fully benefit-responsive investment contracts.

Certain events may limit the ability of the Plan to transact at contract value. Such events include but may not be limited to the following: (1) temporary absence; (2) change in position or other occurrence qualifying as a temporary break in service under the Plan; (3) transfer or other change of position resulting in employment by an entity controlling, controlled by, or under other common control with the employer; or (4) cessation of an employment relationship resulting from a reorganization, merger, layoff, or the sale of discontinuance of all or any part of the plan sponsor's business.

7. Income Tax Status of the Plan

The Plan received a determination letter from the Internal Revenue Service (IRS) dated December 14, 2006, stating that the Plan is qualified under Section 401(a) of the IRC and therefore the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualified status. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and therefore believes the Plan, as amended, is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2007.

8. Related-Party Transactions

Certain of the Plan's assets are invested in funds managed by the custodian of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transaction rules under ERISA.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of assets available for benefits.

10. Reconciliation of Financial Statements to the Form 5500

The following is a reconciliation of assets available for benefits per the financial statements at December 31, 2010, to the Form 5500:

	December 2010
Assets available for benefits per the financial statements	$ 1,740,502
Less: Assets transferred out of the plan effective January 1, 2011	(1,740,502)
Net assets available for benefits per the Form 5500	$ –

11. Subsequent Events

Effective January 1, 2011, the Company merged the Plan into the MAHLE Industries, Inc. 401(k) Asset Accumulation Plan. Contributions to the Plan ceased as of January 1, 2011. As a result of this merger, net assets in the amount of $1,740,502 were transferred to the MAHLE Industries, Inc. Plan on January 1, 2011. All provisions of the Plan will remain the same.

The plan administrator evaluated subsequent events for the Plan through September 28, 2011, the date the financial statements were available to be issued.
