ICON CENTRAL LABORATORIES 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010

Note 1 - Description of Plan

The following description of ICON Central Laboratories 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan, which was established in 1997, is a defined contribution 401(k) salary plan covering substantially all employees who are age eighteen or older and who have completed one month of service. The Plan's sponsor is ICON Central Laboratories (the "Sponsor").

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

The Plan allows the participants to contribute a specified percentage of their salary. Participants are allowed to contribute from 1% to 75% of their salary on a pre-tax basis, not to exceed the limitations set forth by the Internal Revenue Service. A participant's total pre-tax contribution may not exceed \$16,500 for the year ended December 31, 2010. Additionally, participants who attain age 50 by the end of the Plan year may make an additional pre-tax catch-up contribution of up to \$5,500 for the year ended December 31, 2010. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Sponsor has the option to make discretionary contributions to the Plan. In 2010, the Sponsor made contributions to the Plan in an amount equal to \$.50 for every \$1.00 contributed, up to an amount equivalent to the first 4% of the participant's base compensation contributed to the Plan.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocation of the employer's contribution and Plan earnings and charged with an allocation of administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Participants shall have a vested percentage in their employer contribution accounts according to a graded vesting schedule based on years of service. Participants are 100% vested after five years of service.

ICON CENTRAL LABORATORIES 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010

Note 1 - Description of Plan (cont'd.)

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to the lesser of 50% of their vested account balance or \$50,000. If a loan was taken in the previous 12 months, the amount of the highest outstanding loan balance is deductible from the amount the participant may borrow. Loans are subject to interest charges equal to the annual effective prime rate plus 1%.

Loans must normally be repaid within such period as agreed to between the participant and the Plan, up to a maximum of five years. However, if the loan is made for the purchase or construction of a principal place of residence, the repayment period may be over twenty years. Repayment will normally be made through payroll deductions. Any outstanding loans must be fully repaid when employment terminates. At December 31, 2010, interest rates range from 5.25% to 10.25% per annum, with loans having various maturity dates.

Payment of Benefits

Participants are eligible to receive benefit payments when they reach normal retirement age. Participants can receive either a lump-sum payment or partial withdrawals. On termination of service, a participant may elect to receive a lump-sum payment or partial withdrawals. In all cases, payment of benefits less than \$5,000 is made in a lump-sum. Participants who attain age 59 ½ while working are eligible for in-service distributions of their vested balance. Benefit payments are also permitted for death, disability and hardship.

Forfeitures

At December 31, 2010 and 2009, forfeited nonvested accounts totaled \$215 and \$8,382, respectively. These accounts will be used to reduce future employer contributions. Also, in 2010, employer contributions were reduced by \$41,975 from forfeited nonvested accounts.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Excess Contributions Payable

The Plan is required to return contributions received during the Plan year in excess of the Internal Revenue Code limits. The amounts due to participants at December 31, 2010 and 2009 were \$0 and \$1,951, respectively.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

New Accounting Pronouncements

In September 2010, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2010-25, *Plan Accounting - Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans*.

This ASU applies to any defined contribution pension plan that allows participant loans. The amendments in this ASU require that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. This ASU was issued as a result of the consensus reached by the EITF in Issue No. 10-C, "Reporting Loans to Participants by Defined Contribution Pension Plans," at its meeting of September 16, 2010.

The amendments in this ASU are effective for fiscal years ending after December 15, 2010, and should be applied retrospectively to all prior periods presented. Early adoption is permitted. The presentation of participant loans has been adjusted in these financial statements to comply with ASU No. 2010-25.

Note 4 - Guaranteed Income Fund

The Plan entered into an investment with Prudential Retirement Insurance and Annuity Company. Under the terms of the contract, Prudential Retirement Insurance and Annuity Company maintains contributions in a general account. The account is credited with earnings on the underlying investments and is charged for Plan withdrawals and administrative expenses. The contract is included in the financial statements at fair value, which equals the contract value, as reported to the Plan by Prudential Retirement Insurance and Annuity Company. The contract value represents contributions made under the contract, plus earnings, less Plan withdrawals and investment fees. The average yield earned by the Plan and credited to participants was 2.85% for the years ended December 31, 2010 and 2009.

Note 6 - Fair Value Measurements

FASB Accounting Standards Codification ("ASC") Topic 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

**ICON CENTRAL LABORATORIES 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010**

Note 6 - Fair Value Measurements (cont'd.)

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2010 and 2009.

The Level 1 inputs relate to mutual funds whose underlying assets are valued at the net asset value (NAV) of shares held by the Plan at year end.

The Level 2 inputs relate to the guaranteed income fund which is valued at contract value including deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees (see Note 4).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 7 - Related Party Transactions

Certain Plan investments are shares of mutual funds managed by Prudential Retirement Insurance and Annuity Company, the trustee as defined by the Plan. Therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment services amounted to \$32,385 for the year ended December 31, 2010.

Note 8 - Plan Termination

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

**ICON CENTRAL LABORATORIES 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS

Note 9 - Tax Status

The Plan is a prototype plan that has received a determination letter dated September 23, 1998 issued by the National Office of the Internal Revenue Service that the Plan is qualified under Code Section 401. The Plan has been amended since receiving the determination letter; however, the Plan administrator believes that the Plan is currently designed and is being operated in compliance with the applicable requirements of the Internal Revenue Code.

Note 10 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as Interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the accompanying Statements of Net Assets Available for Benefits.
