Refreshment Services, Inc. 401(k) Plan

NOTES TO FINANCIAL STATEMENTS

December 31, 2010 and 2009

NOTE A - DESCRIPTION OF PLAN

The following description of the Refreshment Services, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General

The Plan is a defined contribution plan covering all full-time employees of Refreshment Services, Inc. (the Company) who have one year of service, are age nineteen or older with 1,000 hours of service. The Plan also covers some union employees. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

2. Contributions

Each year, participants may contribute a portion of their salary not to exceed the limits prescribed by law. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company contributes 100% of the first 3% of base compensation that a participant contributes to the Plan. Additional amounts may be contributed at the option of the Company's board of directors. There were no additional amounts contributed by the Company during 2010 or 2009. Contributions are subject to certain limitations.

3. Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contribution and, (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

4. Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested, on a graded basis, after six years of credited service.

NOTE A - DESCRIPTION OF PLAN - Continued

5. Investment Options

Upon enrollment in the Plan, a participant may direct contributions to selected investments as made available and determined by the Plan's Trustees. Participants may change their investment options at any time pursuant to procedures established in the Plan document.

6. Payment of Benefits

On termination of service due to death, disability or retirement, a participant, or his or her beneficiary, may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a ten-year period. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

7. Forfeited Accounts

At December 31, 2010 and 2009, forfeited nonvested accounts totaled $ 503 and $ -0-, respectively. These amounts will be used to reduce future employer contributions.

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

2. Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Quoted market prices are used to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year end. The fair value of fixed income funds is based on the fair value of its underlying contracts, primarily guaranteed investment contracts (GIC's) and synthetic GIC's. The fair value of these underlying contracts is determined based on the present value of the contracts' expected cash flows, discounted by current market interest rates for like-duration and like-quality investments.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

3. Fully Benefit-Responsive Investment Contracts

In accordance with the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 946-210-45 through 946-210-55 (formerly referred to as FASB Staff Position AAG INV-1 and Statement of Position 94-4-1, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans*), traditional and synthetic GICs are included at fair value in participant-directed investments in the statements of net assets available for benefits, and an additional line item is presented representing the adjustment from fair value to contract value. The statement of changes in net assets available for benefits is presented on a contract-value basis.

4. Participant Notes Receivable

The Plan allows loans to participants and their beneficiaries. Participant loans are stated at their unpaid balance, which approximates fair value. At December 31, 2010 and 2009, the interest rate charged on unpaid participant loan balances ranged between 4.25% and 9.25%.

5. Payment of Benefits

Benefits are recorded when paid.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

6. Subsequent Events

The Plan assessed events that have occurred subsequent to December 31, 2010 through October 6, 2011, the date the financial statements were available to be issued, for potential recognition and disclosure in the financial statements. No events have occurred that would require adjustment to or disclosure in the financial statements.

7. Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions. Those estimates and assumptions affect the reported amount of assets and liabilities, the disclosures of contingent assets and liabilities, and the reported revenues and expenses. Actual results could vary from the estimates that were used.

NOTE D - INFORMATION PREPARED AND CERTIFIED BY THE CUSTODIAN

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520-103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by The Charles Schwab Trust Company (the Custodian), except for comparing such certified information as complete and accurate by the Custodian to information included in the Plan's financial statements and supplementary information.

	2010
Investments	
At fair value	$ 6,887,710
At contract value	2,404,891
Investment income for the year ended	
Net investment gain from investments at fair value	751,645
Net earnings on common/collective investment trust	64,837

NOTE E - FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT

The Plan has entered into a fully benefit-responsive investment contract with Metlife Managed Group GIC Trust (the Metlife GIC Trust). The Metlife GIC Trust maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The Metlife GIC Trust is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note B, because the Metlife GIC Trust is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by the Metlife GIC Trust, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

NOTE E - FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT - Continued

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, and it may not be less than zero percent. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with plan), (2) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

Average Yields	2010	2009
Based on actual earnings	8.97%	15.01%
Based on interest rate credited to participants	3.73%	3.80%

NOTE F - FAIR VALUES OF FINANCIAL INSTRUMENTS

As required by FASB ASC 820, *Fair Value Measurement and Disclosures* (FASB 820), the Plan assesses the inputs used to measure fair value using a three-tier hierarchy based on the extent to which inputs used in measuring fair value are observable in the market.

Basis of fair value measurement:

Level 1 - Values are based on unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets. An active market is a market in which transactions for the asset occur with sufficient frequency and volume to provide pricing information on an ongoing basis.

NOTE F - FAIR VALUES OF FINANCIAL INSTRUMENTS - Continued

Level 2 - Values are based on (a) quoted prices for similar assets or liabilities in active markets; (b) quoted prices for identical or similar assets or liabilities in non-active markets; or (c) valuation models whose inputs are observable, directly or indirectly, for substantially the full term of the asset or liability.

Level 3 - Values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement.

The following table sets forth by level within the fair value hierarchy a summary of investment assets by major categorization on the basis of the nature and risk of the investments measured at fair value on a recurring basis at December 31, 2010 and 2009, respectively. As required by FASB ASC 820, assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

NOTE H - RELATED-PARTY TRANSACTIONS

Certain plan investments are shares of mutual funds managed by Charles Schwab Trust Company. Charles Schwab Trust Company is the Plan custodian. Additionally, the Company provides certain administrative services at no cost to the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transaction rules under ERISA.

NOTE I - INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Company that the Plan related Trusts are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the initial determination, the Plan's administration believes that the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC.

The Plan follows accounting principles generally accepted in the United States of America related to the accounting for uncertainty in income taxes which sets a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken in a tax return. Tax positions for the open tax years as of December 31, 2010 were reviewed, and it was determined that no provision for uncertain tax positions is required.

NOTE J - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
