INDEPENDENT AUDITORS' REPORT

To the Trustees and Participants
Rim Logistics, Ltd 401(k) Plan
Roselle, Illinois

We have audited the accompanying statements of net assets available for benefits of the Rim Logistics, Ltd 401(k) Plan as of December 31, 2010 and 2009, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Rim Logistics, Ltd 401(k) Plan as of December 31, 2010 and 2009, and the changes in net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America.

RIM LOGISTICS, LTD 401(k) PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2010

Note 1 - Description of the Plan

The following description of the Rim Logistics, Ltd (Company) 401(k) Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all employees of Rim Logistics, Ltd and International Packing & Crating, LLC if they have completed 2 months of service and attained eighteen years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act (ERISA).

Contributions - Each year, participants decide whether to make contributions on a pre-tax basis when participants enroll in the plan. The IRS limits the maximum amounts that can be contributed as salary deferral. The limits are $16,500 in 2010 and 2009. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. In addition to participants' salary deferrals, the Company may make discretionary contributions to the Plan.

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of service. A participant is 100 percent vested after four years of credited service. Those employees eligible to share in the allocation of the Company's matching contribution for the Plan must complete more than 500 hours of service during the Plan year or, be employed as of the last day of the Plan year. The Company's contributions vest according to the following schedule:

Years of Vesting Service	Percent Vested
Less than 1	0%
1 but less than 2	25%
2 but less than 3	50%
3 but less than 4	75%
4 or more	100%

Participant Loans - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of 50 percent of their account balance or $50,000, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates that range from 3.25 percent to 8.25 percent, which is commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through monthly payroll deductions.

Note 1 - Description of the Plan (Continued)

Payment of Benefits - On termination of service due to death, disability or retirement, a participant may receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts - At December 31, 2010 and 2009, forfeited non-vested accounts totaled $1,680 and $1,649, respectively. These accounts will be used to pay plan expenses.

Note 2 - Significant Accounting Policies

Basis of Accounting - The Plan's financial statements are presented on the accrual basis of accounting.

Investment Valuation and Income Recognition - Investments are stated at fair market value using, where available, quoted market prices of a national securities exchange. Net unrealized appreciation or depreciation for the period is included in the Statement of Changes in Net Assets. See Note 8 for discussion of fair value measurements. Purchases and sales of securities are reflected on a settlement date basis. Interest earned is recognized as it accrues.

Participant Loans - Participant loans are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from these estimates.

Payment of Benefits - Benefits are recorded when paid.

Subsequent Events - The Plan has evaluated subsequent events through July 14, 2011, the date the financial statements were available to be issued.

Note 3 - Investments

The following presents investments at December 31, 2010 and 2009 that represent 5% or more of the Plan's net assets:

	2010	2009
Van Kempen Equity & Income Fund	$ 321,771	$ 255,312
American Funds Growth Fund	182,984	154,133
Munder Mid Cap Core Growth	121,427	86,031
MFS Value Fund	103,040	82,969
MFS Global Total Return Fund	87,856	70,028
JP Morgan High Yield Fund	86,083	-
BlackRock Small Cap Growth II	83,277	63,347
Thornburg International Value Fund	-	58,633
Totals	$ 986,438	$ 770,453

During the years ended December 31, 2010 and 2009, the Plan's investments in mutual funds (including gains and losses on investments bought and sold, as well as held during the year) appreciated in values by $137,875 and $193,536, respectively.

Note 4 - Related Party Transaction

Certain Plan investment management fees and insurance expenses are paid for by the Company. These transactions qualify as exempt party-in-interest transactions.

Note 5 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA.

Note 6 - Reconciliation of Financial Statements to Schedule H of Form 5500

The net assets available for benefits and benefits paid to participants per the financial statements at December 31, 2010 and 2009 are the same as Schedule H of Form 5500.

Note 7 - Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated August 7, 2001, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be

taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2004.

Note 8 - Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures* (formerly FASB Statement No. 157, *Fair Value Measurements*), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual Funds: Valued at the net asset value (NAV) of shares held by the Plan at year-end.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 9 - Risks and Uncertainties

The Plan invests in a variety of investment funds. Investments in general are exposed to various risks, such as interest rate, credit, and overall volatility risk. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.
