NOTE 1 – DESCRIPTION OF PLAN

The Golden Bank National Association 401(k) Retirement Savings Plan (the "Plan") is a defined contribution 401(k) profit sharing plan adopted by Golden Bank National Association (the "Company") effective January 1, 1989, and is restated effective August 24, 2009. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan is administered by the Company.

The summary of significant provisions of the Plan presented below provides general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

A. Eligibility – Employees of the Company are generally eligible to participate in the Plan after six (6) months of entry service and are age twenty-one (21) or older. Enrollment is on the first day of January, April, July and October after meeting the requirements.

B. Contributions – Participants may elect to make pre-tax contributions of at least one percent (1%) and up to one hundred percent (100%) of eligible compensations. However, each participant's annual contribution may not exceed the maximum amount allowed by federal law. Participants at least age fifty (50) by the end of the Plan year are allowed to make catch-up contributions. Rollovers from other qualified plans or individual retirement accounts ("IRAs") are allowed under certain circumstances. Participants may change their elective deferral contributions semi-yearly or stop their elective deferral contributions at any time.

   The Company's matching contribution is equal to one hundred percent (100%) of each participant's elective deferral contributions up to a maximum of five percent (5%) of each participant's eligible compensation.

   The Company may make discretionary contributions as determined annually by the Company. The discretionary contributions are allocated pro rata to all eligible participants based upon the proportion of the participant's compensation to the total compensation of all eligible participants, but the amount that may be contributed for each participant shall not exceed the maximum amount allowed by law. To be eligible for such contributions, a participant must be an active participant at any time during the Plan year. There was no discretionary contribution made by the Company for the year ended December 31, 2010.

C. Participant Accounts – Each participant's account is credited with their elective deferral amounts, the corresponding employer contributions, and an allocation of Plan earnings or losses. Participant accounts may also be charged with an allocation of certain administrative expenses. Investment income is allocated to participants daily based on the proportion that each participant's account balance bears to all participant account balances in each investment fund.

NOTE 1 – DESCRIPTION OF PLAN (CONTINUED)

D. Investment Options – Participants elect to have their contributions allocated among various investment options offered by the Plan. The Plan currently offers pooled separate accounts in mutual funds and a guaranteed investment contract as investment options for participants. Participants may change their investment mix during the year and such changes are subject to the restrictions made by the Company.

E. Vesting – Participants are vested immediately in their elective deferral contributions and rollover contributions plus actual Plan earnings or losses thereon. Vesting in the Company's contribution portion of their accounts plus actual Plan earnings or losses thereon is based on years of service, as defined by the Plan. Participants become one hundred percent (100%) vested in the Company's contributions after six (6) years of credited services.

F. Payment of Benefits – At termination or retirement, if a participant's vested account is $5,000 or less, it will be paid in a single lump-sum. Federal law requires the Plan to automatically roll a participant's vested account to an IRA in a direct rollover if 1) the participant's vested account is more than $1,000, 2) the participant has not reached age 65, or 3) the participant does not elect to have his vested account paid in a single sum or rolled to another retirement plan or an IRA of his choice in a direct rollover. If the vested account is more than $5,000, written consent must be given before the distribution can be made.

Hardship withdrawals may be made to satisfy certain immediate and heavy financial needs that participants may have, and such withdrawals can only be made from the elective deferral contributions, excluding the income earned on those contributions. Participants age 59½ or older may also withdraw all or any part of their vested account.

G. Forfeited Accounts – An amount a participant loses the right to is called a forfeiture. Forfeitures may be used to pay Plan expenses or reallocated to eligible participants as discretionary contributions. Forfeitures totaled $24,769 and $7,247 at December 31, 2010 and 2009, respectively, in net assets available for benefits. During 2010 Plan year, forfeiture of $7,108, including earnings from the account, were reallocated to the eligible participants.

H. Administrative Expenses – Certain administrative expenses incurred by the Plan are paid by the Company at its discretion, and any Plan expenses not paid by the Company are paid by the Plan. Investment management fees and other expenses that apply to specific investments are expenses related to the operation of the Plan and are adjustments to the investment rate that is credited to that specific investment. Specific fees may also be charged directly to a participant's account in response to transactions requested under the Plan.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

B. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires the Company to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

C. Recent Accounting Pronouncements

In January 2010, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2010-06, *Improving Disclosures About Fair Value Measurements*, which amends the FASB Accounting Standards Codification ("ASC") Topic 820, *Fair Value Measurements and Disclosures*. This amendment requires new disclosures on the value of and the reasons for transfers in and out of Levels 1 and 2 of the fair value hierarchy and additional disclosures about purchases, sales, issuances and settlements within Level 3 fair value measurements. ASU 2010-06 also clarifies existing disclosure requirements on levels of disaggregation and about input and valuation techniques. ASU 2010-06 is effective for interim and annual reporting periods beginning after December 19, 2009, except for the requirement to provide additional disclosures regarding Level 3 measurements which will be effective beginning after December 15, 2010.

D. Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

FASB ASC Topic 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 – Quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Investment Valuation and Income Recognition (Continued)

- Level 2 – Inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

- Level 3 – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. This includes certain pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Pooled Separate Accounts: Pooled Separate Accounts ("PSA") represent contributions invested in pools of domestic and international common stocks, high-quality short-term debt securities, real estate, private market bonds and mortgages, and high-yield fixed-income securities which are slightly below investment grade. The net asset value of PSAs is based on the market value of its underlying investments.

Guaranteed Investment Contract: The guaranteed investment contract represents unallocated group annuity contracts with Principal Life Insurance Company to provide a fixed rate of return. Due to the nature of these contracts, guaranteed interest accounts do not have specific underlying assets assigned. These contracts are non-benefit-responsive and are valued at fair value, which is the amount that the Plan participants would receive currently if they were to withdraw or transfer funds within the Plan prior to their maturity for an event other than death, disability, termination or retirement.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Investment Valuation and Income Recognition (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Investment Valuation and Income Recognition (Continued)

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2010.

	Guaranteed Investment Contract
Balance, beginning of year	$ 342,953
Unrealized losses relating to guaranteed investment contract still held at the reporting date	(140)
Interest credited	8,517
Purchases, issuances and settlements, net	129,904
BALANCE, END OF YEAR	$ 481,234

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Net appreciation of the fair value of the investments consists of unrealized appreciation or depreciation of investments held during the year and realized gain or loss on investments sold during the year.

E. Benefits Paid to Participants

Benefits are recorded when paid. There were no amounts allocated to participants who have elected to withdraw from the Plan as of December 31, 2010, but have not yet been paid.

F. Subsequent Events

The Plan has evaluated subsequent events through September 29, 2011, the date the financial statements were available to be issued.

NOTE 3 – INFORMATION CERTIFIED BY CUSTODIAN (UNAUDITED)

Investments and investment activities included in the accompanying statements of net assets available for benefits, the statement of changes in net assets available for benefits, and the supplemental schedule have been certified as accurate and complete by Principal Life Insurance Company (the "Custodian") as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Company instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information certified by the Custodian except for comparing the information to information included in the Plan's financial statements and supplemental schedule.

NOTE 4 – INVESTMENTS (UNAUDITED)

At December 31, 2010 and 2009, all investments of the Plan were participant-directed. The following presents investments that represent five percent (5%) or more of the Plan's net assets at December 31 at fair value:

	2010	2009

* Indicates a party-in-interest.

The following table presents the net appreciation (including investments bought, sold and held during the year) in fair value for each of the Plan's investment categories for the year ended December 31, 2010:

Pooled separate accounts	$ 735,455
Guaranteed investment contract	(140)
NET APPRECIATION IN FAIR VALUE OF INVESTMENTS	$ 735,315

NOTE 5 – RELATED PARTY TRANSACTIONS

Certain Plan investments are units of PSAs managed by the Custodian and, therefore, these transactions qualify as party-in-interest transactions. Such transactions are permitted under the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA. Fees paid by the Plan for the investment management services are netted against net appreciation in fair value of investments.

NOTE 6 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan. If the Plan is terminated, all participant accounts will be one hundred percent (100%) vested and nonforfeitable. Participant accounts will be held under the Plan and continue to be credited with investment earnings until it is used to provide benefits according to the terms of the Plan.

NOTE 7 – TAX STATUS

The Company adopted a prototype non-standardized profit sharing plan with a cash or deferral arrangement which received a favorable opinion letter dated March 31, 2008, in which the Internal Revenue Service ("IRS") stated that the form of the Plan is acceptable under Section 401 of the Internal Revenue Code ("IRC") for use by employers for the benefit of their employees. The Plan has been amended since receiving the opinion letter. However, the Company believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires the Company to evaluate tax provisions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Company has analyzed the tax provisions taken by the Plan and has concluded that as of December 31, 2010, there were no uncertain positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress. The Company believes it is no longer subject to income tax examinations for years that are considered closed for tax filing purposes.

NOTE 8 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities which are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
