INDEPENDENT AUDITORS' REPORT

To the 401(k) Profit Sharing Committee
Quest Software, Inc. 401(k) Profit Sharing Plan

We were engaged to audit the statements of net assets available for plan benefits (modified-cash basis) of Quest Software, Inc. 401(k) Profit Sharing Plan (the "Plan") as of December 31, 2010 and 2009, the related statement of changes in net assets available for plan benefits (modified-cash basis) for the year ended December 31, 2010, and the supplemental schedule as of December 31, 2010, as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by Section 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the 401(k) Profit Sharing Committee instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Notes 4 and 5, which were certified by Fidelity Investments Institutional Operations Company, Inc. of Massachusetts, the custodian of the Plan's assets, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the 401(k) Profit Sharing Committee that the custodian holds the Plan's investment assets and executes investment transactions. The 401(k) Profit Sharing Committee has obtained certifications from the custodian that the information as of December 31, 2010 and 2009, and for the year ended December 31, 2010, provided to the 401(k) Profit Sharing Committee by the custodian is complete and accurate.

As described in Note 2 to the financial statements, these financial statements were prepared on a modified-cash basis, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

Because of the significance of the information that we did not audit, we are unable to express, and do not express, an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

QUEST SOFTWARE, INC.
401(K) PROFIT SHARING PLAN

Notes to Financial Statements
As of and for the Year Ended December 31, 2010

1. Plan Description

The following description of the Quest Software, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan's agreement for a complete description of the Plan's provisions.

General

The Plan commenced activity on January 1, 1995, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan is a defined contribution plan covering substantially all employees of Quest Software, Inc., the Plan's sponsor (the "Company"), who are age 21 or older. There is no minimum service requirement.

Plan Mergers

In January 2009 and June 2009, the Plan merged with three defined contribution plans, whereby all assets were transferred to the Plan as a result of two different 2007 acquisitions and one 2008 acquisition made by the Company.

In December 2010, the Plan merged with an additional defined contribution plan, whereby all the assets were transferred to the Plan as a result of an acquisition in 2010 made by the Company.

The former participants of the acquired plans became participants of the Plan, subject to the Plan's eligibility requirements at the time assets were transferred.

Automatic Enrollment

Effective January 2, 2009, automatic enrollment in the Plan was implemented for all new hires in the United States who meet eligibility requirements.

Participant Contributions

Participants may elect to contribute up to 100% of annual compensation, not to exceed the maximum allowed under the Internal Revenue Code (the "IRC"). Participants are fully vested in their contributions to the Plan.

1. Plan Description (Continued)

Company Contributions

The Company may elect to make matching contributions to the Plan in the amount of 50% of the participant's election, up to a maximum of $2,500 per participant. Company contributions fully vest and are non-forfeitable after the participant has completed three years of service. During the year ended December 31, 2010, the Company contributed $2,519,368 to the Plan.

Participant Accounts and Forfeitures

Each participant's account is credited with the participant's contributions and allocations of (a) Company contributions and (b) Individual investment earnings, less withdrawals and an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. Forfeited balances of terminated participants' nonvested accounts may be used to reduce future Company contributions. The Company used $77,243 of forfeited funds to reduce the Company's discretionary contributions on February 12, 2010 based on 2009 employee earnings. Total forfeited balances included in investments in the accompanying financial statements at December 31, 2010 and 2009 were $86,328 and $77,243, respectively.

Vesting

Participants are immediately vested in their contributions, plus actual earnings thereon. Company contributions and related earnings vest after three years at the rate of 50% after the second year and 100% after the third year in the Plan. If a participant's employment is terminated before full vesting of Company contributions and related earnings are attained, the amount not vested is forfeited and may be used to reduce future Company contributions. Company contributions and related earnings also become fully vested if the participant reaches age 65, dies, or becomes disabled.

Benefits Paid to Participants

Participants may withdraw all or a portion of their contributions for reason of retirement, death, disability or financial hardship (as defined by the Plan's agreement), or if they terminate employment with the Company. Participants generally receive withdrawals in a lump-sum payment. Any withdrawals by participants prior to terminating employment with the Company and prior to age 59½ are subject to ordinary personal income taxes and penalty. Additionally, withdrawals by terminated participants, prior to the attainment of age 59½, which are not rolled over into another qualified investment vehicle, are also subject to ordinary income taxes.

1. Plan Description (Continued)

Loans to Participants

Participants may borrow the lesser of a cumulative $50,000 or 50% of the value of their total vested benefits. Loans bear interest at prime plus 1%, have scheduled repayment terms, and are collateralized by the participant's vested balance in the Plan. The interest rate for loans made during 2010 was 4.25% and interest rates for all loans outstanding as of December 31, 2010 ranged from 4.25% to 10.25%. Under the terms of the Plan's agreement, when an employee is terminated, all outstanding loan balances become payable upon demand. As of December 31, 2010 and 2009, the Plan had loans outstanding of $2,123,819 and $1,771,257, respectively, and no loans were in default.

Plan Administration

The Plan is administered by the 401(k) Profit Sharing Committee of the Company. The investment custodian for the Plan was Fidelity Investments Institutional Operations Company, Inc. of Massachusetts ("Fidelity") for the Plan years ended December 31, 2010 and 2009.

Termination Provision

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth by ERISA. In the event of any termination of the Plan or upon complete or partial discontinuance of contributions, the accounts of each affected participant shall become fully vested.

Investment Options

Upon enrollment in the Plan, a participant may direct employee contributions into any of 19 investment options. Participants may change their investment options any time. However, participants can only change their contribution at the start of each payroll period. Participants may terminate and resume contributions at any time.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements were prepared on a modified-cash basis of accounting; consequently, certain investment income and contributions and related assets are recognized when received, rather than when earned and certain expenses are recognized when paid, rather than when obligations are incurred.

2. Summary of Significant Accounting Policies (continued)

Basis of Accounting (continued)

Investments, however, are stated at fair value. Because of these differences, the accompanying financial statements are not intended to be presented in conformity with accounting principles generally accepted in the United States of America.

Use of Estimates

In preparing financial statements in conformity with accounting principles generally accepted in the United States of America, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Recent Accounting Pronouncements

In September 2010, the Financial Accounting Standards Board issued amended guidance on reporting loans to participants, which clarified how loans to participants should be measured and classified. The new guidance requires that participant loans be measured at their unpaid principal balance plus any accrued but unpaid interest and classified as notes receivable from participants, which is segregated from investments. Previous guidance required that participant loans be measured at fair value and classified within investments. The amended guidance is effective for annual reporting periods ending after December 15, 2010 and requires retrospective application to all prior periods presented. The Plan adopted the amended guidance for financial reporting purposes as of and for the year ended December 31, 2010, including retrospective application to prior periods presented. The adoption of such guidance impacted the classification of participant loans on the Plan's statement of net assets available for benefits but had no impact on the statement of changes in net assets available for benefits.

Valuation of Investments

Investments are stated at fair value. Investment gains and losses (realized and unrealized) are included in net appreciation or depreciation in fair value of investments in the accompanying financial statements.

Shares of pooled separate accounts are valued at the underlying net asset value of shares held by the Plan at year-end. The Fidelity Stable Value Fund primarily invests in benefit-responsive investment contracts. These investment contracts are entered into with

insurance companies, banks and other financial institutions and they represent investments that have fixed income securities paired with benefit-responsive wrap contracts. Wrap contracts are issued by high-quality financial institutions and they provide a fixed rate of interest for a specified period of time and enable the fund to pay participant-initiated withdrawals at book value.

In accordance with Accounting Standards Codification ("ASC") 946 (formerly FSP AAG INV-1) and ASC 962 (formerly SOP 94-4, "Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans"), the statements of net assets available for plan benefits present investment contracts at fair value, as well as an additional line showing an adjustment of the fully benefit-responsive investment contract from fair value to contract value. The statement of changes in net assets available for benefits are presented at contract basis and are not affected by ASC 946 and ASC 962. The fair value of the Fidelity Stable Value Fund represents the Plan's share of the fair value of the underlying net assets of the fund. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses for the fund's investments in insurance contracts and fair value for the fund investments in externally managed affiliated collective investment funds and other investments (primarily debt obligations). The adjustment from fair value to contact value for fully benefit-responsive investment contracts was $(77,011) and $145,381 as of December 31, 2010 and 2009, respectively.

In certain circumstances, the amount withdrawn from the fully benefit-responsive investment contracts would be payable at fair value rather than at contract value. These events include termination of the Plan, a material adverse change to the provisions of the Plan, if the employer elects to withdraw from a contract in order to switch to a different investment provider, or if the terms of a successor plan (in the event of the spin-off or sale of a division) do not meet the contract issuer's underwriting criteria for issuance of a similar contract. As of December 31, 2010 and 2009, such circumstances resulting in the payment of benefits at market value rather than contract value are not considered to be probable.

Benefit Payments

Benefit payments are recognized when paid.

2. Summary of Significant Accounting Policies (Continued)

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest.

Administrative Expenses

The Plan's expenses are paid by the Company or the Plan, as provided by the Plan's agreement. The Plan incurred $190,346 in investment advisory and management fees for the year ended December 31, 2010.

Subsequent Events

The Company evaluated events occurring between the end of the most recent fiscal year and October 5, 2011, the date the financial statements and supplemental schedule were available to be issued.

3. Income Tax Status

The Plan was established using a prototype 401(k) plan designed by Fidelity. The Internal Revenue Service has determined, and informed Fidelity by letter dated December 5, 2001, that the prototype 401(k) plan was designed in accordance with applicable sections of the IRC. Although the Plan has been amended since the issuance of the determination letter, the Company believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the accompanying financial statements.

4. Asset Information Certified by the Plan Custodian (Unaudited)

In accordance with the 401(k) Profit Sharing Committee's instructions, and as permitted by Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, certain investment information, which the asset custodian of the Plan has certified as complete and accurate, was not audited. Information certified by the custodian as complete and accurate and not audited consists of the following:

a. Statements of Net Assets Available for Plan Benefits as of December 31, 2010 and 2009 – total investments of $110,453,435 and $85,783,186, respectively.

b. Statement of Changes in Net Assets Available for Plan Benefits for the year ended December 31, 2010 – total additions from investments of $13,388,070.

c. Supplemental Schedule of Assets as of December 31, 2010 – total investments of $110,453,435.

5. Investments

Effective January 1, 2008, the Plan adopted ASC 820 Fair Value Measurements and Disclosures (formerly, Statement of Financial Accounting Standards No. 157, "Fair Value Measurements"). ASC 820 defines fair value as the price that the plan would receive to sell an asset, or pay to transfer a liability, in an orderly transaction between market participants at the measurement date. ASC 820 also establishes a framework for measuring fair value, and a three-level hierarchy for fair value measurements based upon the transparency of inputs to the valuation of an asset or liability. Inputs may be observable or unobservable and refer broadly to the assumptions that market participants would use in pricing the asset or liability. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from sources independent of the reporting entity.

Unobservable inputs reflect the reporting entity's own assumptions about the assumptions that market participants would use in pricing the asset or liability developed based on the best information available under the circumstances. The Plan's investments are assigned a level based upon the observability of the inputs which are significant to the overall valuation. The three-tier hierarchy of inputs is summarized below.

Level 1: Valuation for assets and liabilities traded in active exchange markets. Valuations are obtained from readily available pricing sources for market transactions involving identical assets or liabilities.

Level 2: Valuations for assets and liabilities traded in less active dealer or broker markets. Valuations are obtained from third party pricing services for identical or comparable assets or liabilities.

Level 3: Valuations for assets and liabilities that are derived from other valuation methodologies, including option pricing models, discounted cash flow models, and similar techniques, and not based on market exchange, dealer, or broker traded transactions. These valuations incorporate certain assumptions and projections in determining the fair value assigned to such assets or liabilities.

Investments in the Plan are measured and reported at fair value on a recurring basis using the following valuation technique:

(a) Market Approach – uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities.

5. Investments (Continued)

The following table represents the fair value hierarchy for investments measured at fair value on a recurring basis as of December 31, 2010 and 2009.

Total	$ 85,783,186	$ 20,629	$ 85,762,557	$ -

The fully benefit-responsive investment contracts carry a crediting interest rate established at inception and reset periodically (typically quarterly) to approximate the interest earnings of the underlying investments, subject to certain minimums. For the year ended December 31, 2010, the average yield and the average crediting interest rate on the investment contracts were 1.06 percent and 1.21 percent, respectively. For the year ended December 31, 2009, the average yield and the average crediting interest rate on the investment contracts were 1.39 percent and 0.92 percent, respectively.

5. Investments (Continued)

The following summary of the Plan's individual investments, whose fair value exceeded 5% of net assets available for Plan benefits as of December 31, 2010 and 2009, was derived from unaudited information certified by the Plan's custodian and furnished to the 401(k) Profit Sharing Committee.

6. Risks and Uncertainties

The Plan provides for various investment options in pooled separate accounts offering various allocations of stocks, bonds, fixed income securities and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the accompanying Statements of Net Assets Available for Plan Benefits (modified-cash basis) and the Statement of Changes in Net Assets Available for Plan Benefits (modified-cash basis).

7. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of amounts presented in the accompanying financial statements to the Form 5500 as of December 31, 2010:

	2010	2009

Add: Receivables not recognized on Form 5500 at December 31, 2009	51,345
Contributions per Form 5500	$ 15,660,732

8. Party-In-Interest Transactions

Certain Plan investments held during 2010 and 2009 are held in investments managed by the Plan's asset custodian, and therefore, these transactions qualify as permitted party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of investment returns on the related investment. Certain administrative functions are performed by officers and employees of the Company. No such officer or employee receives compensation from the Plan, nor does the Company allocate any costs to the Plan for such services.

9. Subsequent Event

Plan Merger

In January 2011, the Company acquired BakBone Software Incorporated ("BakBone"). On June 1, 2011, BakBone's defined contribution plan merged into the Quest Software, Inc. Profit Sharing 401(k) Plan.

To the 401(k) Profit Sharing Committee
Quest Software, Inc. 401(k) Profit Sharing Plan

We were engaged to audit the statements of net assets available for plan benefits (modified-cash basis) of Quest Software, Inc. 401(k) Profit Sharing Plan (the "Plan") as of December 31, 2010 and 2009, the related statement of changes in net assets available for plan benefits (modified-cash basis) for the year ended December 31, 2010, and the supplemental schedule as of December 31, 2010, as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by Section 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the 401(k) Profit Sharing Committee instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Notes 4 and 5, which were certified by Fidelity Investments Institutional Operations Company, Inc. of Massachusetts, the custodian of the Plan's assets, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the 401(k) Profit Sharing Committee that the custodian holds the Plan's investment assets and executes investment transactions. The 401(k) Profit Sharing Committee has obtained certifications from the custodian that the information as of December 31, 2010 and 2009, and for the year ended December 31, 2010, provided to the 401(k) Profit Sharing Committee by the custodian is complete and accurate.

As described in Note 2 to the financial statements, these financial statements were prepared on a modified-cash basis, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

Because of the significance of the information that we did not audit, we are unable to express, and do not express, an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

QUEST SOFTWARE, INC.
401(K) PROFIT SHARING PLAN

Notes to Financial Statements
As of and for the Year Ended December 31, 2010

1. Plan Description

The following description of the Quest Software, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan's agreement for a complete description of the Plan's provisions.

General

The Plan commenced activity on January 1, 1995, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan is a defined contribution plan covering substantially all employees of Quest Software, Inc., the Plan's sponsor (the "Company"), who are age 21 or older. There is no minimum service requirement.

Plan Mergers

In January 2009 and June 2009, the Plan merged with three defined contribution plans, whereby all assets were transferred to the Plan as a result of two different 2007 acquisitions and one 2008 acquisition made by the Company.

In December 2010, the Plan merged with an additional defined contribution plan, whereby all the assets were transferred to the Plan as a result of an acquisition in 2010 made by the Company.

The former participants of the acquired plans became participants of the Plan, subject to the Plan's eligibility requirements at the time assets were transferred.

Automatic Enrollment

Effective January 2, 2009, automatic enrollment in the Plan was implemented for all new hires in the United States who meet eligibility requirements.

Participant Contributions

Participants may elect to contribute up to 100% of annual compensation, not to exceed the maximum allowed under the Internal Revenue Code (the "IRC"). Participants are fully vested in their contributions to the Plan.

1. Plan Description (Continued)

Company Contributions

The Company may elect to make matching contributions to the Plan in the amount of 50% of the participant's election, up to a maximum of $2,500 per participant. Company contributions fully vest and are non-forfeitable after the participant has completed three years of service. During the year ended December 31, 2010, the Company contributed $2,519,368 to the Plan.

Participant Accounts and Forfeitures

Each participant's account is credited with the participant's contributions and allocations of (a) Company contributions and (b) Individual investment earnings, less withdrawals and an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. Forfeited balances of terminated participants' nonvested accounts may be used to reduce future Company contributions. The Company used $77,243 of forfeited funds to reduce the Company's discretionary contributions on February 12, 2010 based on 2009 employee earnings. Total forfeited balances included in investments in the accompanying financial statements at December 31, 2010 and 2009 were $86,328 and $77,243, respectively.

Vesting

Participants are immediately vested in their contributions, plus actual earnings thereon. Company contributions and related earnings vest after three years at the rate of 50% after the second year and 100% after the third year in the Plan. If a participant's employment is terminated before full vesting of Company contributions and related earnings are attained, the amount not vested is forfeited and may be used to reduce future Company contributions. Company contributions and related earnings also become fully vested if the participant reaches age 65, dies, or becomes disabled.

Benefits Paid to Participants

Participants may withdraw all or a portion of their contributions for reason of retirement, death, disability or financial hardship (as defined by the Plan's agreement), or if they terminate employment with the Company. Participants generally receive withdrawals in a lump-sum payment. Any withdrawals by participants prior to terminating employment with the Company and prior to age 59½ are subject to ordinary personal income taxes and penalty. Additionally, withdrawals by terminated participants, prior to the attainment of age 59½, which are not rolled over into another qualified investment vehicle, are also subject to ordinary income taxes.

1. Plan Description (Continued)

Loans to Participants

Participants may borrow the lesser of a cumulative $50,000 or 50% of the value of their total vested benefits. Loans bear interest at prime plus 1%, have scheduled repayment terms, and are collateralized by the participant's vested balance in the Plan. The interest rate for loans made during 2010 was 4.25% and interest rates for all loans outstanding as of December 31, 2010 ranged from 4.25% to 10.25%. Under the terms of the Plan's agreement, when an employee is terminated, all outstanding loan balances become payable upon demand. As of December 31, 2010 and 2009, the Plan had loans outstanding of $2,123,819 and $1,771,257, respectively, and no loans were in default.

Plan Administration

The Plan is administered by the 401(k) Profit Sharing Committee of the Company. The investment custodian for the Plan was Fidelity Investments Institutional Operations Company, Inc. of Massachusetts ("Fidelity") for the Plan years ended December 31, 2010 and 2009.

Termination Provision

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth by ERISA. In the event of any termination of the Plan or upon complete or partial discontinuance of contributions, the accounts of each affected participant shall become fully vested.

Investment Options

Upon enrollment in the Plan, a participant may direct employee contributions into any of 19 investment options. Participants may change their investment options any time. However, participants can only change their contribution at the start of each payroll period. Participants may terminate and resume contributions at any time.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements were prepared on a modified-cash basis of accounting; consequently, certain investment income and contributions and related assets are recognized when received, rather than when earned and certain expenses are recognized when paid, rather than when obligations are incurred.

2. Summary of Significant Accounting Policies (continued)

Basis of Accounting (continued)

Investments, however, are stated at fair value. Because of these differences, the accompanying financial statements are not intended to be presented in conformity with accounting principles generally accepted in the United States of America.

Use of Estimates

In preparing financial statements in conformity with accounting principles generally accepted in the United States of America, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Recent Accounting Pronouncements

In September 2010, the Financial Accounting Standards Board issued amended guidance on reporting loans to participants, which clarified how loans to participants should be measured and classified. The new guidance requires that participant loans be measured at their unpaid principal balance plus any accrued but unpaid interest and classified as notes receivable from participants, which is segregated from investments. Previous guidance required that participant loans be measured at fair value and classified within investments. The amended guidance is effective for annual reporting periods ending after December 15, 2010 and requires retrospective application to all prior periods presented. The Plan adopted the amended guidance for financial reporting purposes as of and for the year ended December 31, 2010, including retrospective application to prior periods presented. The adoption of such guidance impacted the classification of participant loans on the Plan's statement of net assets available for benefits but had no impact on the statement of changes in net assets available for benefits.

Valuation of Investments

Investments are stated at fair value. Investment gains and losses (realized and unrealized) are included in net appreciation or depreciation in fair value of investments in the accompanying financial statements.

Shares of pooled separate accounts are valued at the underlying net asset value of shares held by the Plan at year-end. The Fidelity Stable Value Fund primarily invests in benefit-responsive investment contracts. These investment contracts are entered into with

insurance companies, banks and other financial institutions and they represent investments that have fixed income securities paired with benefit-responsive wrap contracts. Wrap contracts are issued by high-quality financial institutions and they provide a fixed rate of interest for a specified period of time and enable the fund to pay participant-initiated withdrawals at book value.

In accordance with Accounting Standards Codification ("ASC") 946 (formerly FSP AAG INV-1) and ASC 962 (formerly SOP 94-4, "Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans"), the statements of net assets available for plan benefits present investment contracts at fair value, as well as an additional line showing an adjustment of the fully benefit-responsive investment contract from fair value to contract value. The statement of changes in net assets available for benefits are presented at contract basis and are not affected by ASC 946 and ASC 962. The fair value of the Fidelity Stable Value Fund represents the Plan's share of the fair value of the underlying net assets of the fund. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses for the fund's investments in insurance contracts and fair value for the fund investments in externally managed affiliated collective investment funds and other investments (primarily debt obligations). The adjustment from fair value to contact value for fully benefit-responsive investment contracts was $(77,011) and $145,381 as of December 31, 2010 and 2009, respectively.

In certain circumstances, the amount withdrawn from the fully benefit-responsive investment contracts would be payable at fair value rather than at contract value. These events include termination of the Plan, a material adverse change to the provisions of the Plan, if the employer elects to withdraw from a contract in order to switch to a different investment provider, or if the terms of a successor plan (in the event of the spin-off or sale of a division) do not meet the contract issuer's underwriting criteria for issuance of a similar contract. As of December 31, 2010 and 2009, such circumstances resulting in the payment of benefits at market value rather than contract value are not considered to be probable.

Benefit Payments

Benefit payments are recognized when paid.

2. Summary of Significant Accounting Policies (Continued)

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest.

Administrative Expenses

The Plan's expenses are paid by the Company or the Plan, as provided by the Plan's agreement. The Plan incurred $190,346 in investment advisory and management fees for the year ended December 31, 2010.

Subsequent Events

The Company evaluated events occurring between the end of the most recent fiscal year and October 5, 2011, the date the financial statements and supplemental schedule were available to be issued.

3. Income Tax Status

The Plan was established using a prototype 401(k) plan designed by Fidelity. The Internal Revenue Service has determined, and informed Fidelity by letter dated December 5, 2001, that the prototype 401(k) plan was designed in accordance with applicable sections of the IRC. Although the Plan has been amended since the issuance of the determination letter, the Company believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the accompanying financial statements.

4. Asset Information Certified by the Plan Custodian (Unaudited)

In accordance with the 401(k) Profit Sharing Committee's instructions, and as permitted by Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, certain investment information, which the asset custodian of the Plan has certified as complete and accurate, was not audited. Information certified by the custodian as complete and accurate and not audited consists of the following:

a. Statements of Net Assets Available for Plan Benefits as of December 31, 2010 and 2009 – total investments of $110,453,435 and $85,783,186, respectively.

b. Statement of Changes in Net Assets Available for Plan Benefits for the year ended December 31, 2010 – total additions from investments of $13,388,070.

c. Supplemental Schedule of Assets as of December 31, 2010 – total investments of $110,453,435.

5. Investments

Effective January 1, 2008, the Plan adopted ASC 820 Fair Value Measurements and Disclosures (formerly, Statement of Financial Accounting Standards No. 157, "Fair Value Measurements"). ASC 820 defines fair value as the price that the plan would receive to sell an asset, or pay to transfer a liability, in an orderly transaction between market participants at the measurement date. ASC 820 also establishes a framework for measuring fair value, and a three-level hierarchy for fair value measurements based upon the transparency of inputs to the valuation of an asset or liability. Inputs may be observable or unobservable and refer broadly to the assumptions that market participants would use in pricing the asset or liability. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from sources independent of the reporting entity.

Unobservable inputs reflect the reporting entity's own assumptions about the assumptions that market participants would use in pricing the asset or liability developed based on the best information available under the circumstances. The Plan's investments are assigned a level based upon the observability of the inputs which are significant to the overall valuation. The three-tier hierarchy of inputs is summarized below.

Level 1: Valuation for assets and liabilities traded in active exchange markets. Valuations are obtained from readily available pricing sources for market transactions involving identical assets or liabilities.

Level 2: Valuations for assets and liabilities traded in less active dealer or broker markets. Valuations are obtained from third party pricing services for identical or comparable assets or liabilities.

Level 3: Valuations for assets and liabilities that are derived from other valuation methodologies, including option pricing models, discounted cash flow models, and similar techniques, and not based on market exchange, dealer, or broker traded transactions. These valuations incorporate certain assumptions and projections in determining the fair value assigned to such assets or liabilities.

Investments in the Plan are measured and reported at fair value on a recurring basis using the following valuation technique:

(a) Market Approach – uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities.

5. Investments (Continued)

The following table represents the fair value hierarchy for investments measured at fair value on a recurring basis as of December 31, 2010 and 2009.

	December 31, 2010			
	Total	**Level 1**	**Level 2**	**Level 3**

Total	$ 85,783,186	$ 20,629	$ 85,762,557	$ -

The fully benefit-responsive investment contracts carry a crediting interest rate established at inception and reset periodically (typically quarterly) to approximate the interest earnings of the underlying investments, subject to certain minimums. For the year ended December 31, 2010, the average yield and the average crediting interest rate on the investment contracts were 1.06 percent and 1.21 percent, respectively. For the year ended December 31, 2009, the average yield and the average crediting interest rate on the investment contracts were 1.39 percent and 0.92 percent, respectively.

5. Investments (Continued)

The following summary of the Plan's individual investments, whose fair value exceeded 5% of net assets available for Plan benefits as of December 31, 2010 and 2009, was derived from unaudited information certified by the Plan's custodian and furnished to the 401(k) Profit Sharing Committee.

6. Risks and Uncertainties

The Plan provides for various investment options in pooled separate accounts offering various allocations of stocks, bonds, fixed income securities and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the accompanying Statements of Net Assets Available for Plan Benefits (modified-cash basis) and the Statement of Changes in Net Assets Available for Plan Benefits (modified-cash basis).

7. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of amounts presented in the accompanying financial statements to the Form 5500 as of December 31, 2010:

	2010	2009
Contributions receivable per the financial statements	$ 20,389	$ 51,345

The following is a reconciliation of amounts presented in the accompanying financial statements to the Form 5500 for the year ended December 31, 2010:

Investment additions per the financial statements	$ 13,388,070
Add: Adjustment from fair value to contract value for fully benefit-responsive investment contracts at December 31, 2010	77,011
Investment income per Form 5500	$ 13,465,081
Contributions per the financial statements	$ 15,609,387
Add: Receivables not recognized on Form 5500 at December 31, 2009	51,345
Contributions per Form 5500	$ 15,660,732

8. Party-In-Interest Transactions

Certain Plan investments held during 2010 and 2009 are held in investments managed by the Plan's asset custodian, and therefore, these transactions qualify as permitted party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of investment returns on the related investment. Certain administrative functions are performed by officers and employees of the Company. No such officer or employee receives compensation from the Plan, nor does the Company allocate any costs to the Plan for such services.

9. Subsequent Event

Plan Merger

In January 2011, the Company acquired BakBone Software Incorporated ("BakBone"). On June 1, 2011, BakBone's defined contribution plan merged into the Quest Software, Inc. Profit Sharing 401(k) Plan.
