N.A.N.I. PHYSICIANS SERVICES PROFIT SHARING
AND RETIREMENT SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS

1. Description of Plan

The following description of Nephrology Associates of Northern Illinois, Ltd. and Nephrology Associates of Northern Indiana, P.C. (collectively N.A.N.I. Physicians Services) (the Company) Profit Sharing and Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all eligible employees of the Company who have 1,000 hours of service in a twelve-month period and are age 19 or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended by subsequent legislation.

Contributions - Each year participants may contribute up to 15% of pretax annual compensation, as defined in the Plan, not to exceed the annual federal statutory limits of $16,500 in 2010 and 2009. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions up to $5,500 per plan year in 2010 and 2009. Participants may also contribute rollover amounts representing distributions from other qualified defined benefit or contribution plans. The Company may make discretionary matching and profit sharing contributions to the participants' accounts.

Participant Accounts - Each participant's account is credited with the participant's contributions and allocations of (*a*) the Company's contributions and (*b*) Plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants receive quarterly statements detailing the activity in their accounts.

Vesting - Participants are vested immediately in their contributions. Vesting in the employer contributions is based on years of continuous service. A participant is 100% vested after six years of service based on a graduated vesting schedule.

Notes Receivable from Participants - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the plan administrator. Interest rates range from 4.25% to 9.25% at December 31, 2010 and 2009. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits - On termination of service due to death, disability or retirement, or other reasons, a participant may elect to receive an amount equal to the value of the participant's vested interest in a lump-sum amount or in the form of an annuity. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeitures - At December 31, 2010 and 2009, forfeited non-vested accounts totaled $9,936 and $4,219, respectively. These accounts can be used to reduce Company contributions. During 2010, the Company did not use any forfeitures. During 2009, the Company elected to use the forfeitures to offset employer contributions.

2. Summary of Significant Accounting Policies

Basis of Accounting - The financial statements of the Plan are prepared under the accrual method of accounting.

Contributions - Contributions from the Company are accrued in the period in which they become obligations of the Company. Participant contributions are recorded by the Plan when they are withheld by the Company from the participant's pay.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - Certain administrative expenses of the Plan are paid by the Company. Other administrative expenses are incurred and paid by participants in connection with certain transactions.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition - Shares of registered investment companies are valued at quoted market prices which represent net asset value of shares held by the Plan. The Plan's interest in the common/collective trust is valued at contract value based on information reported by the investment advisor. Notes receivables from participants are valued at cost which approximates fair value.

Purchases and sales of securities are reflected on a trade-date basis. The realized gains or losses on the sale of securities are based upon average cost. Income from investments is recorded as earned on the accrual basis. Dividends are recorded on the ex-dividend date.

The Plan provides for investments that, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

The common/collective trust invests in the Merrill Lynch Retirement Preservation Trust (RPT) which invests primarily in guaranteed instruments contracts, money market investments, and alternative investment securities. The investments are credited with earnings on underlying investments and charged for Plan withdrawals and administrative expenses. The value of the investment is not guaranteed. The plan administrator does not believe that any events would likely limit the Plan's ability to transact at contract value.

Reporting Participant Loans – In September 2010, the Financial Accounting Standards Board (FASB) issued guidance in Accounting Standards Codification No. 962, *Plan Accounting – Defined Contribution Pension Plans*, amending the reporting and disclosure requirements related to participant loans for defined contribution pension plans. The guidance requires that loans issued to participants be reported as notes receivable, segregated from plan investments, and be measured at their unpaid principal balances plus any accrued but unpaid interest. This guidance was effective for reporting periods ending after December 15, 2010, and is to be applied retrospectively to all periods presented. The adoption of

this guidance by the Plan resulted in a reclassification from investments to notes receivable from participants of $147,604 and $152,952 as of December 31, 2010 and 2009, respectively. Adoption had no effect on the Plan's net assets available for benefits.

Fair Value Measurements – In January 2010, the FASB issued guidance in Accounting Standards Codification No. 820, *Fair Value Measurements and Disclosures*, amending the disclosure requirements related to recurring and nonrecurring fair value measurements. The guidance requires new disclosures on the transfers of assets and liabilities between fair value measurement hierarchy levels, including the reasons for and the timing of the transfers. The new accounting guidance also clarifies existing disclosure requirements regarding the level of disaggregation of fair value measurements and disclosure of significant inputs and valuation techniques utilized. The Plan adopted these disclosure requirements in 2010. Additionally, beginning in 2011, the guidance requires separate presentation of purchases, sales, issuances, and settlements in the Level 3 reconciliation table. The Plan intends on adopting these disclosure requirements in 2011.

3. Information Certified by the Plan's Trustees

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Bank of America, N.A., the current trustee of the Plan, has certified the information outlined below as complete and accurate as of and for the year ended December 31, 2010, and as of December 31, 2009 and for the period from June 16, 2009 to December 31, 2009. Great West Retirement Services FASCore LLC, the former trustee of the Plan, has certified the information outlined below as complete and accurate for the period from January 1, 2009 to June 15, 2009.

- Investments, at fair value, and notes receivable from participants at December 31, 2010 and 2009 as presented on the statements of net assets available for benefits and supplemental schedule of assets (held at end of year) as of December 31, 2010.

- Investment income, interest from participants notes receivable, and the related investment activity for the years ended December 31, 2010 and 2009.

5. Fair Value Measurements

Generally accepted accounting principles provide a uniform framework for the definition, measurement and disclosure of fair value measurements. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The financial accounting standards establish a fair value hierarchy which requires a plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The financial accounting standards describe three levels of inputs that may be used to measure fair value:

Level 1: Quoted market prices (unadjusted) for identical assets or liabilities in active markets that the plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted market prices in markets that are not active, and other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

5. Fair Value Measurements (Cont.)

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

The fair value of shares of registered investment companies is determined by obtaining quoted market prices on nationally recognized securities exchanges (Level 1 inputs).

The fair value of the Plan's common collective trust has been estimated based on multiplying the Plan's contract value in RPT by a ratio of net assets at fair value divided by the net assets at contract value for the entire investment balance (Level 2 inputs).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

6. Tax Status

The Plan obtained is covered under Bank of America Merrill Lynch's Prototype Non-standardized Plan determination letter dated March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code.

7. Related Party Transactions

Certain Plan investments are managed by Bank of America, N.A., the trustee of the Plan, or its affiliated entities and, therefore, these transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan during 2010 and 2009 for legal, accounting and other professional services rendered by parties-in-interest were based on customary and reasonable rates for such services.

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.
