Independent Auditors' Report

To the Participants of and Plan Administrator
of the Thermadyne Group, Inc. Retirement Plan
St. Louis, Missouri

We were engaged to audit the financial statements and supplemental schedules of Thermadyne Group, Inc. Retirement Plan (the "Plan") as of December 31, 2010, and for the year then ended, as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management. The financial statements of the Plan as of December 31, 2009 were audited by other auditors. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed the other auditors not to perform, and they did not perform, any auditing procedures with respect to the information certified by State Street Bank and Trust Company and Aetna Life Insurance Company, the asset custodians of the Plan. Their report, dated June 25, 2010, indicated that (a) because of the significance of the information that they did not audit, they were unable to, and did not, express an opinion on the financial statements taken as a whole and (b) the form and content of the information included in the financial statements other than that derived from the information certified by the custodians, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note B, which was certified by State Street Bank and Trust Company and Aetna Life Insurance Company, the asset custodians of the Plan, except for comparing such information with the related information included in the 2010 financial statements and supplemental schedule. We have been informed by the Plan administrator that the asset custodians hold the Plan's investment assets and execute investment transactions. The Plan administrator has obtained a certification from the asset custodians as of and for the year ended December 31, 2010, that the information provided to the Plan administrator by the asset custodians is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the asset custodians, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note A - Plan Description

The following description of the Thermadyne Group, Inc. Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit pension plan covering employees of Thermadyne, Inc. (the "Company" or "Employer") and certain participating affiliated companies. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Plan Frozen

Effective January 1, 1990, participation in the Plan was frozen and all benefit accruals ceased as of December 31, 1989, except for former members of the Stooddy Hourly Plan. At that time, all covered employees became eligible in the Thermadyne Group, Inc. 401(k) Retirement Plan, a defined contribution employee benefit plan maintained by the Company. On December 31, 1994, participation and benefits for the former members of the Stooddy Hourly Plan and the Pension Plan of Stooddy Deloro Stelitte, Inc. were also frozen.

Pension Benefits

Participants are eligible for normal retirement benefits at the later of age 65 or 5 years of vesting service, as defined. The normal retirement benefit in any year is equal to the sum of 1 ½% of current service earnings for such year not to exceed \$500, and 2% of current service earnings in excess of \$500 for such year. The normal retirement benefit is the sum of benefits earned each year. Benefit accruals ceased as of December 31, 1989, except for former members of the Stooddy Hourly Plan whose benefit accruals ceased December 31, 1994. Benefits are pro-rated for fractional years of service.

Participants who are at least 55 years of age and have performed a minimum of 10 years of vesting service, as defined, can receive early retirement benefits. Benefits paid before the normal retirement date are reduced by rates defined in the Plan document that are a function of the length of time the participant's retirement date precedes the normal retirement date.

Note A - Description of Plan (Continued)

Death and Disability Benefits

A participant is eligible for certain disability benefits upon total disability as defined in the Company's long-term disability plan. The disability benefit is determined in the same manner as the deferred vested benefit and is calculated on the participant's date of disability.

The surviving spouse of a participant in active service who qualified for a vested benefit receives a benefit based on the 100% joint and survivor annuity at the time of payment. Reduced payments may begin prior to age 65. The reduction is the same as for early retirement for the first 10 years which the starting date of payments precedes the participant's normal retirement date.

Former Participants of The Stoodly Hourly Plan and The Pension Plan of Stoodly Deloro Stelitte, Inc.

The pension benefits and death and disability benefits described above may be determined differently for the former participants of the Pension Plan of Stoodly Deloro Stelitte, Inc. and the Stoodly Hourly Plan. Participants should refer to the Plan Agreement for a more complete description of pension benefits.

Note B - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosures of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Note B - Summary of Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note E for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Any unrealized gains and losses are included in changes in net assets for the year.

Administrative Expenses

Plan expenses are paid by the Plan unless the Company, in its sole discretion, elects at any time to pay part or all of such expenses.

Certifications by Asset Custodians on Behalf of Plan Trustee

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"). Accordingly, as permitted under such election, the Plan administrator has obtained certifications from State Street Bank and Trust Company ("State Street") and Aetna Life Insurance Company ("Aetna") the asset custodians on behalf of the Plan trustee that all of the information provided by the asset custodians and included in the accompanying financial statements and schedules is complete and accurate. All of the investment information disclosed in the accompanying financial statements and supplemental schedules, including investments held at December 31, 2010 and net appreciation (depreciation) in fair value of investments, interest and dividends for the years ended December 31, 2010 and 2009, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the asset custodians.

Note B - Summary of Significant Accounting Policies (Continued)

Actuarial Present Value of Accumulated Plan Benefits

Accumulated Plan benefits are those estimated future periodic payments, including lump-sum distributions that are attributable, under the Plan's provisions to the services rendered by the employees through the valuation date. Accumulated Plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries; (b) beneficiaries of employees who have died; and (c) present employees or their beneficiaries. Benefits under the Plan are based on each employee's compensation during their years of credited service. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included to the extent they are deemed attributable to employee services rendered to the valuation date.

The actuarial present value of accumulated Plan benefits is that amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death, disability, withdrawal, or retirements) between the valuation date and the expected date of payment. The actuarial present value of accumulated Plan benefits has been calculated by the consulting actuaries, Diversified Investment Advisors, as of January 1, 2010. Significant assumptions underlying the actuarial computation included (a) interest at 8% per annum, compounded annually; (b) life expectancy of participants based on the RP-2000 Mortality Table for males and females; and (c) normal retirement age of 65. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

Payments of Benefits

Benefit payments are recorded upon distribution.

Subsequent Events

The Plan has evaluated subsequent events through September 19, 2011, the date the financial statements were available to be issued.

Note C - Funding Policy

In conjunction with amendments to freeze participation and benefit accruals for the Plan, the Company ceased all normal contributions to the Plan. The Plan remains subject to the full funding limitation of Section 412(b) of the Internal Revenue Code. This requires that contributions should be made to the Plan such that no deficiency on an accrual basis exists in the funding standard accounts at the end of the Plan year.

The actuarial cost method used to determine annual contributions for pension benefits payable under the Plan is referred to as the Unit Credit Cost Method. The normal cost is equal to the liability at the beginning of the Plan year, adjusted for interest to the end of the year. Actuarial gains and losses are reflected in the unfunded actuarial accrued liability.

Note D - Investments

The following table presents investments that represent 5% or more of the Plan's net assets at December 31:

	<u>2010</u>	<u>2009</u>

Note E - Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include other observable inputs, including quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Collective trusts: Valued at the NAV of shares of a bank collective trust held by the Plan at year-end. The NAV is based on the fair value of the underlying investments held by the fund. Participant transactions (issuances and redemptions) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Note E - Fair Value Measurements (Continued)

Aetna investment contract: The investment contract is recorded based on a determination on an annual basis from Aetna.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2010:

Note G - Contract with Insurance Company

The Company entered into an investment contract with Aetna under which the Plan deposited approximately \$400,000 several years ago. Aetna maintains the contributions in an unallocated fund to which it adds interest based on established interest rates. In 2010 and 2009, the average annual effective interest rate used for reporting was 5.77% and 5.92%, respectively. At the direction of the Plan's administrator, a single premium to buy an annuity for a retiring employee is withdrawn by Aetna from the unallocated fund. Purchased annuities are contracts under which Aetna is obligated to pay benefits to named employees or their beneficiaries. The premium rates for such annuities to be purchased in the future and maximum administrative expense charges against the funds are guaranteed by Aetna.

Note H - Tax Status

The Internal Revenue Service has determined and informed the Company by letter dated January 30, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subjected to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

Note I - Plan Termination

While the Company has not expressed any intent to terminate the Plan or discontinue contributions, it is free to do so at any time, subject to the provisions set forth in ERISA. Should the Plan be terminated at some future time, each participant who is an employee on the date of termination shall have a 100% vested and nonforfeitable right to benefits accrued. All assets of the Plan shall be allocated by the Company among participants, surviving spouses and joint annuitants in the manner prescribed by Section 4011(a) of ERISA. Any residual assets of the Plan remaining after such allocation may be distributed to the Company if all liabilities of the Plan to participants, surviving spouses and joint annuitants have been satisfied and such a distribution does not contravene any provision of law. Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (the "PBGC") if the Plan terminates. Generally, the PBGC guarantees certain vested normal age retirement benefits, early retirement benefits and certain disability and survivor pensions. However the PBGC does not guarantee all types of benefits under covered plans.

Whether all participants receive their benefits, should the Plan terminate at some future time, will depend on the sufficiency at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the level of the benefits guaranteed by the PBGC.

Note J - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets in liquidation available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

A ACTUARIAL COST METHOD

The actuarial cost method used to determine the target normal cost, target liability and required contribution amounts for the plan is the Traditional Unit Credit Actuarial Cost Method. Under this method, both the target normal cost and target liability are based on the annual accrual of benefits as accruals occur each year.

The target liability for each active plan participant is equal to the actuarial present value of the participant's accrued benefit as of the valuation date. The total target liability of the plan is equal to the sum of such liabilities as determined for each active participant plus the actuarial present value of benefits being paid, or due to be paid, to retirees, beneficiaries and former participants with deferred vested benefits.

The target normal cost for each active participant is equal to the actuarial present value of the benefit expected to be earned during the year starting on the valuation date. The total target normal cost of the plan is the sum of the target normal costs for each active plan participant.

All employees who are plan participants on a valuation date are included in the actuarial valuation.

B ASSET VALUATION METHOD

The actuarial value of assets is equal to the market value of assets on the valuation date reduced by the sum of:

1. 66.67% of gains and losses of the prior year;
2. 33.33% of gains and losses of the second prior year.

Investment gains and losses are determined by the excess or deficiency of the expected return over the actual return on the market value (including employer contributions receivable for any given year). However, the expected return on assets may be limited by certain statutory interest rates.

The actuarial valuation of assets is further constrained to be not less than 90% or more than 110% of market value (including employer contributions receivable).

Plan Year: January 1, 2010 to December 31, 2010

A. Non-Stoody Deloro Stellite, Inc. Participants

Effective Date September 9, 1987.

Participation Participation was frozen on December 31, 1989.

Prior to that, all employees who were participants in the PALCO Retirement Plan on September 8, 1987 and who became employees of the Company on September 9, 1987 became participants in the Plan on that date.

After September 8, 1987, an employee became a participant on the first day of the month following twelve consecutive months of service as a full-time employee. An employee who was not a full-time employee became a participant at the end of one year of service in which 1,000 hours of service was granted.

Service

Vesting Service One year of service is credited for each calendar year in which an employee receives credit for at least 1,000 hours of service based on a 190 hours per month equivalency. Service for this purpose is measured from date of hire.

Credited Service Credited service accruals ceased on December 31, 1989.

Credited service is used to determine the amount of benefit payable from the Plan. One year of credited service was granted for each calendar year in which an employee received credit for 2,280 hours of service based on a 190 hours per month equivalency, provided however, that no credited service was granted prior to April 1, 1986 and for employment with a predecessor company unless otherwise specified in the Plan.

Current Service Earnings

Current Service Earnings are not credited after December 31, 1989. In general, Current Service Earnings are the January 1 monthly base rate of pay.

Normal Retirement Benefit

Eligibility

Age 65.

Amount

Benefit accruals ceased as of December 31, 1989.

The monthly benefit accrued in any year is equal to the sum of (a) and (b) as follows:

- (a) 1.5% of Current Service Earnings for such year not in excess of \$500, and
- (b) 2.0% of Current Service Earnings for such year in excess of \$500.

The benefit is prorated for fractional years of credited service.

The normal retirement benefit is the sum of benefits accrued each year.

Early Retirement Benefit

Eligibility

Age 55 and 10 years of service.

Amount

Reduced by 6% for each of the first 3 years, 5% for each of the next 2 years, 4% for each of the next 3 years, and 3% for the next 2 years by which the starting date of payments precedes the normal retirement date.

Deferred Vested Benefit

Eligibility

5 years of service.

Amount

The deferred vested benefit is determined in the same manner as the early retirement benefit calculated on a participant's date of termination.

Disability Benefit

<i>Eligibility</i>	Total disability as defined in the Company's long term disability plan.
<i>Amount</i>	The disability benefit is determined in the same manner as the deferred vested benefit calculated on the participant's date of disability.

Pre-Retirement Death Benefit

<i>Eligibility</i>	Death in active service of a married participant who qualified for a vested benefit.
<i>Amount</i>	The surviving spouse receives a benefit based on the 100% joint and survivor annuity option at the time of payment. Reduced payments may begin prior to age 65. The reduction is the same as for early retirement for the first 10 years by which the starting date of payments precedes the participant's normal retirement date; thereafter, the reduction increases by 3% a year.

Form of Payment

<i>Normal</i>	Single: Straight life annuity. Married: Unreduced 50% joint and survivor annuity.
<i>Elective</i>	66-2/ 3%, 75% and 100% joint and survivor annuity available, if married. Period certain benefit to a maximum guaranteed period of the lesser of life expectancy and 10 years. If the actuarially equivalent single sum value of the accrued benefit does not exceed \$7,500, a lump sum distribution in lieu of monthly payments.
