Plan Administrator EKOS Corporation 401(k) Plan

We were engaged to audit the accompanying statements of net assets available for benefits of EKOS Corporation 401(k) Plan (the Plan) as of December 31, 2010 and 2009, and the related statement of changes in net assets available for benefits for the year ended December 31, 2010, and the supplemental Schedule H, line 4i – Schedule of Assets (held at end of year) as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note C, which was certified by Fidelity Management Trust Company, the Trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained certifications from the Trustee as of December 31, 2010 and 2009, and for the year ended December 31, 2010, that the information provided to the Plan Administrator by the Trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and schedule, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

#### NOTES TO FINANCIAL STATEMENTS

For the years ended December 31, 2010 and 2009

#### NOTE A - DESCRIPTION OF PLAN

The following description of the EKOS Corporation 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

#### 1. General

The Plan is a defined contribution plan, established February 1, 1999, covering all eligible employees of EKOS Corporation (the Company). The Plan provides for contributions pursuant to Section 401(a) of the Internal Revenue Code and is subject to the provisions of the Employee Retirement Income Security Act of 1974.

#### 2. Eligibility

Employees become eligible for the Plan the first day of the month subsequent to hire date. Participants may enter the Plan on the first day of each Plan Year and the first day of the fourth, seventh, and tenth month of each Plan Year.

#### 3. <u>Contributions</u>

Plan participants may contribute up to 60% of their qualified compensation to the Plan, subject to Internal Revenue Code regulations. Participants may also contribute amounts representing rollover distributions from other qualified plans.

The Company does not match contributions made by participants. The Company may make qualified non-elective contributions and profit sharing contributions at the discretion of the Board of Directors. There were no discretionary contributions for the year ended December 31, 2010.

#### 4. Participant Accounts

Participants' accounts are credited with their contributions, any Company contributions and earnings on the investment funds in their accounts. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

#### 5. <u>Vesting</u>

Participants' contributions, employer-qualified non-elective contributions and all earnings thereon are 100% vested at all times. Employer profit sharing contributions vest at 25% for each year of service and are 100% vested after four years.

In the event of death, disability, or retirement at the age of 65, participants become fully vested in all of their accounts, regardless of the vesting percentage attained at that date.

#### NOTES TO FINANCIAL STATEMENTS

For the years ended December 31, 2010 and 2009

#### NOTE A - DESCRIPTION OF PLAN - Continued

#### 6. <u>Investment Options</u>

Participants may select one or more predetermined investment options for the investing of contributions and earnings. Contributions are deposited directly into the participant-elected investment vehicles by the trustee and custodian of the Plan.

#### 7. <u>Notes Receivable from Participants</u>

Plan participants may borrow from their fund accounts, generally for periods not to exceed five years, a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. If loans are for the purchase of a primary residence, repayment periods can be up to 10 years. Interest is paid by the borrower at a rate determined by the administrator based on the prevailing interest rates for loans made under similar circumstances. Interest payments become part of the participant's account balance.

#### 8. Distribution of Benefits

Upon retirement, disability, or termination, a participant may elect to take a distribution up to the vested balance of the participant's account, which is paid as a lump sum payment of cash, rollover the vested balance into another qualified plan, or a combination of distribution and rollover. The Plan has the option to distribute all account balances less than \$1,000 upon participant termination without participant consent. Upon death, the stated beneficiary is entitled to receive the account balance. The Plan also allows hardship withdrawals, subject to a \$500 minimum, to meet certain defined financial needs.

#### 9. <u>Tax Status</u>

The Company has adopted a Prototype Standardized Profit Sharing/401(k) Plan with a deferral arrangement, which received a favorable opinion letter from the Internal Revenue Service on December 5, 2001. The opinion letter stated that the Plan and its related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has since been amended and restated. In the opinion of the Plan Administrator, the Plan and its related trust are designed and currently operating in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2007.

#### NOTES TO FINANCIAL STATEMENTS

For the years ended December 31, 2010 and 2009

#### NOTE A - DESCRIPTION OF PLAN - Continued

#### 10. Forfeitures

Forfeitures of nonvested account balances may be used to pay administrative expenses under the Plan or to reduce future employer contributions. There were no forfeitures in 2010.

#### 11. <u>Administrative Expenses</u>

The Plan's administrator fees are paid by the Plan Sponsor.

#### NOTE B - SUMMARY OF ACCOUNTING POLICIES

#### 1. <u>Basis of Accounting</u>

The financial statements of the Plan are prepared on the accrual basis of accounting. Benefits are recorded when paid.

#### 2. <u>Investment Valuation and Income Recognition</u>

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note E for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest and dividend income are accrued as earned. Net appreciation or depreciation in fair value is the net gain or loss on disposition of investments plus the net unrealized increase or decrease in fair value during the year for investments held at year end.

#### 3. Risks and Uncertainties

The Plan invests in various investment securities which are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and changes therein.

#### 4. Payment of Benefits

Benefits are recorded when paid.

#### 5. Contributions

Employee contributions are recorded in the period during which the Company makes payroll deductions from the Plan participants' earnings. There are presently no employer contributions.

#### NOTES TO FINANCIAL STATEMENTS

For the years ended December 31, 2010 and 2009

#### NOTE B - SUMMARY OF ACCOUNTING POLICIES - Continued

#### 6. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

#### 7. New Accounting Standards

In January 2010, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Updated ("ASU") No. 2010-06, *Improving Disdosures about Fair Value Measurements* that requires new fair value measurement classification disclosures and clarifies existing disclosures. The guidance requires disclosures about transfers into and out of Levels 1 and 2 of the fair value hierarchy, and separate disclosures about purchases, sales, issuances and settlements relating to Level 3 measurements. It also clarifies the existing fair value disclosures regarding valuation techniques, inputs used in those valuation models and at what level of detail fair value disclosures should be provided. The Company adopted ASU 2010-06 as of January 1, 2010, except for the disclosures about purchases, sales, issuances, and settlements in the roll forward of activity in Level 3 fair value measurements. Those disclosures are effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years. Early application is permitted. The adoption of the remaining disclosure requirements in ASU 2010-06 will not impact the Plan's fair value disclosures.

In September 2010, FASB issued an amendment, Plan Accounting – Defined Contribution Pension Plans (Topic 962): *Reporting Loans to Participants by Defined Contribution Pension Plans*, which provides guidance on how loans to participants should be classified and measured by defined contribution plans. That guidance requires participant loans to be classified as notes receivable from participants, which are segregated from plan investments and this new guidance in its December 31, 2010 financial statements and has reclassified participant's loans of \$20,774 for the year ended December 31, 2009, from investments to notes receivable from participants. Net assets of the Plan were not affected by the adoption of the new guidance.

#### NOTE C - CERTIFIED INVESTMENT INFORMATION

The Plan Administrator has obtained certification from Fidelity Management Trust Company, Trustee of the Plan, that the following unaudited information included in the Plan's financial statements and supplemental schedule is complete and accurate:

- Investment assets and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2010 and 2009.
- Trust transactions, including investment income, securities transactions and interest income on notes
  receivable from participants, as shown in the statement of changes in net assets available for benefits for
  the year ended December 31, 2010.

#### NOTES TO FINANCIAL STATEMENTS

#### For the years ended December 31, 2010 and 2009

#### NOTE C - CERTIFIED INVESTMENT INFORMATION - Continued

• Information included on Schedule H, Line 4i, Schedule of assets (held at end of year) as of December 31, 2010.

The Plan Administrator elected the method of compliance permitted by Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Under the provisions of ERISA, information certified by a trust company or an insurance company need not be subjected to independent audit.

#### NOTE D - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net increase in net assets per the financial statements to the Form 5500:

	2010		 2009	
Total net increase in net assets per the financial statements Adjustments for 2009 refundable excess contributions	\$	508,750 (31,698)	\$ 568,914 31,698	
Total net increase in net assets per the Form 5500	\$	477,052	\$ 600,612	

#### NOTE E - FAIR VALUE MEASUREMENTS

ASC 820, Fair Value Measurements and Disclosures, (formerly FASB Statement No. 157) establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB Statement No. 157 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or
	liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include
	<ul> <li>quoted prices for similar assets or liabilities in active markets;</li> </ul>
	<ul> <li>quoted prices for identical or similar assets or liabilities in inactive markets;</li> </ul>
	<ul> <li>inputs other than quoted prices that are observable for the asset or liability;</li> </ul>
	<ul> <li>inputs that are derived principally from or corroborated by observable market data by correlation or other means.</li> </ul>
	If the asset or liability has a specified (contractual) term, the level 2 input must be observable
	for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value
	maguramant

#### NOTES TO FINANCIAL STATEMENTS

For the years ended December 31, 2010 and 2009

#### NOTE E - FAIR VALUE MEASUREMENTS - Continued

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010.

*Mutual funds*: Valued at the quoted market value of the fund, which represents the net asset value (NAV) of shares held by the plan at year end.

Money market funds: Valued at cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010:

#### NOTE F - PLAN TERMINATION

In the event of Plan termination, the net assets will be available for the exclusive use of the participants. All employer contributions will be considered vested upon termination of the Plan, regardless of each participant's vested status at the date of termination. The complete provisions covering the Plan termination are included in the Plan document, which is available to all participants.

#### NOTE G - PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by an entity affiliated with Fidelity Management Trust Company, the trustee of the Plan. These transactions qualify as party-in-interest transactions.

#### NOTES TO FINANCIAL STATEMENTS

For the years ended December 31, 2010 and 2009

#### NOTE H - INVESTMENTS IN EXCESS OF 5% OF NET ASSETS

Plan Administrator EKOS Corporation 401(k) Plan

We were engaged to audit the accompanying statements of net assets available for benefits of EKOS Corporation 401(k) Plan (the Plan) as of December 31, 2010 and 2009, and the related statement of changes in net assets available for benefits for the year ended December 31, 2010, and the supplemental Schedule H, line 4i – Schedule of Assets (held at end of year) as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note C, which was certified by Fidelity Management Trust Company, the Trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained certifications from the Trustee as of December 31, 2010 and 2009, and for the year ended December 31, 2010, that the information provided to the Plan Administrator by the Trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and schedule, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

#### NOTES TO FINANCIAL STATEMENTS

For the years ended December 31, 2010 and 2009

#### NOTE A - DESCRIPTION OF PLAN

The following description of the EKOS Corporation 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

#### 1. General

The Plan is a defined contribution plan, established February 1, 1999, covering all eligible employees of EKOS Corporation (the Company). The Plan provides for contributions pursuant to Section 401(a) of the Internal Revenue Code and is subject to the provisions of the Employee Retirement Income Security Act of 1974.

#### 2. Eligibility

Employees become eligible for the Plan the first day of the month subsequent to hire date. Participants may enter the Plan on the first day of each Plan Year and the first day of the fourth, seventh, and tenth month of each Plan Year.

#### 3. <u>Contributions</u>

Plan participants may contribute up to 60% of their qualified compensation to the Plan, subject to Internal Revenue Code regulations. Participants may also contribute amounts representing rollover distributions from other qualified plans.

The Company does not match contributions made by participants. The Company may make qualified non-elective contributions and profit sharing contributions at the discretion of the Board of Directors. There were no discretionary contributions for the year ended December 31, 2010.

#### 4. Participant Accounts

Participants' accounts are credited with their contributions, any Company contributions and earnings on the investment funds in their accounts. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

#### 5. <u>Vesting</u>

Participants' contributions, employer-qualified non-elective contributions and all earnings thereon are 100% vested at all times. Employer profit sharing contributions vest at 25% for each year of service and are 100% vested after four years.

In the event of death, disability, or retirement at the age of 65, participants become fully vested in all of their accounts, regardless of the vesting percentage attained at that date.

#### NOTES TO FINANCIAL STATEMENTS

For the years ended December 31, 2010 and 2009

#### NOTE A - DESCRIPTION OF PLAN - Continued

#### 6. <u>Investment Options</u>

Participants may select one or more predetermined investment options for the investing of contributions and earnings. Contributions are deposited directly into the participant-elected investment vehicles by the trustee and custodian of the Plan.

#### 7. <u>Notes Receivable from Participants</u>

Plan participants may borrow from their fund accounts, generally for periods not to exceed five years, a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. If loans are for the purchase of a primary residence, repayment periods can be up to 10 years. Interest is paid by the borrower at a rate determined by the administrator based on the prevailing interest rates for loans made under similar circumstances. Interest payments become part of the participant's account balance.

#### 8. Distribution of Benefits

Upon retirement, disability, or termination, a participant may elect to take a distribution up to the vested balance of the participant's account, which is paid as a lump sum payment of cash, rollover the vested balance into another qualified plan, or a combination of distribution and rollover. The Plan has the option to distribute all account balances less than \$1,000 upon participant termination without participant consent. Upon death, the stated beneficiary is entitled to receive the account balance. The Plan also allows hardship withdrawals, subject to a \$500 minimum, to meet certain defined financial needs.

#### 9. <u>Tax Status</u>

The Company has adopted a Prototype Standardized Profit Sharing/401(k) Plan with a deferral arrangement, which received a favorable opinion letter from the Internal Revenue Service on December 5, 2001. The opinion letter stated that the Plan and its related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has since been amended and restated. In the opinion of the Plan Administrator, the Plan and its related trust are designed and currently operating in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2007.

#### NOTES TO FINANCIAL STATEMENTS

For the years ended December 31, 2010 and 2009

#### NOTE A - DESCRIPTION OF PLAN - Continued

#### 10. Forfeitures

Forfeitures of nonvested account balances may be used to pay administrative expenses under the Plan or to reduce future employer contributions. There were no forfeitures in 2010.

#### 11. <u>Administrative Expenses</u>

The Plan's administrator fees are paid by the Plan Sponsor.

#### NOTE B - SUMMARY OF ACCOUNTING POLICIES

#### 1. <u>Basis of Accounting</u>

The financial statements of the Plan are prepared on the accrual basis of accounting. Benefits are recorded when paid.

#### 2. <u>Investment Valuation and Income Recognition</u>

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note E for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest and dividend income are accrued as earned. Net appreciation or depreciation in fair value is the net gain or loss on disposition of investments plus the net unrealized increase or decrease in fair value during the year for investments held at year end.

#### 3. Risks and Uncertainties

The Plan invests in various investment securities which are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and changes therein.

#### 4. Payment of Benefits

Benefits are recorded when paid.

#### 5. Contributions

Employee contributions are recorded in the period during which the Company makes payroll deductions from the Plan participants' earnings. There are presently no employer contributions.

#### NOTES TO FINANCIAL STATEMENTS

For the years ended December 31, 2010 and 2009

#### NOTE B - SUMMARY OF ACCOUNTING POLICIES - Continued

#### 6. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

#### 7. New Accounting Standards

In January 2010, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Updated ("ASU") No. 2010-06, *Improving Disdosures about Fair Value Measurements* that requires new fair value measurement classification disclosures and clarifies existing disclosures. The guidance requires disclosures about transfers into and out of Levels 1 and 2 of the fair value hierarchy, and separate disclosures about purchases, sales, issuances and settlements relating to Level 3 measurements. It also clarifies the existing fair value disclosures regarding valuation techniques, inputs used in those valuation models and at what level of detail fair value disclosures should be provided. The Company adopted ASU 2010-06 as of January 1, 2010, except for the disclosures about purchases, sales, issuances, and settlements in the roll forward of activity in Level 3 fair value measurements. Those disclosures are effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years. Early application is permitted. The adoption of the remaining disclosure requirements in ASU 2010-06 will not impact the Plan's fair value disclosures.

In September 2010, FASB issued an amendment, Plan Accounting – Defined Contribution Pension Plans (Topic 962): *Reporting Loans to Participants by Defined Contribution Pension Plans*, which provides guidance on how loans to participants should be classified and measured by defined contribution plans. That guidance requires participant loans to be classified as notes receivable from participants, which are segregated from plan investments and this new guidance in its December 31, 2010 financial statements and has reclassified participant's loans of \$20,774 for the year ended December 31, 2009, from investments to notes receivable from participants. Net assets of the Plan were not affected by the adoption of the new guidance.

#### NOTE C - CERTIFIED INVESTMENT INFORMATION

The Plan Administrator has obtained certification from Fidelity Management Trust Company, Trustee of the Plan, that the following unaudited information included in the Plan's financial statements and supplemental schedule is complete and accurate:

- Investment assets and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2010 and 2009.
- Trust transactions, including investment income, securities transactions and interest income on notes
  receivable from participants, as shown in the statement of changes in net assets available for benefits for
  the year ended December 31, 2010.

#### NOTES TO FINANCIAL STATEMENTS

#### For the years ended December 31, 2010 and 2009

#### NOTE C - CERTIFIED INVESTMENT INFORMATION - Continued

• Information included on Schedule H, Line 4i, Schedule of assets (held at end of year) as of December 31, 2010.

The Plan Administrator elected the method of compliance permitted by Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Under the provisions of ERISA, information certified by a trust company or an insurance company need not be subjected to independent audit.

#### NOTE D - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net increase in net assets per the financial statements to the Form 5500:

	 2010	 2009
Total net increase in net assets per the financial statements Adjustments for 2009 refundable excess contributions	\$ 508,750 (31,698)	\$ 568,914 31,698
Total net increase in net assets per the Form 5500	\$ 477,052	\$ 600,612

#### NOTE E - FAIR VALUE MEASUREMENTS

ASC 820, Fair Value Measurements and Disclosures, (formerly FASB Statement No. 157) establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB Statement No. 157 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or
	liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include
	<ul> <li>quoted prices for similar assets or liabilities in active markets;</li> </ul>
	<ul> <li>quoted prices for identical or similar assets or liabilities in inactive markets;</li> </ul>
	<ul> <li>inputs other than quoted prices that are observable for the asset or liability;</li> </ul>
	<ul> <li>inputs that are derived principally from or corroborated by observable market data by correlation or other means.</li> </ul>
	If the asset or liability has a specified (contractual) term, the level 2 input must be observable
	for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value
	maguramant

#### NOTES TO FINANCIAL STATEMENTS

For the years ended December 31, 2010 and 2009

#### NOTE E - FAIR VALUE MEASUREMENTS - Continued

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010.

*Mutual funds*: Valued at the quoted market value of the fund, which represents the net asset value (NAV) of shares held by the plan at year end.

Money market funds: Valued at cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010:

	Assets at Fair Value as of December 31, 2010

Plan Administrator EKOS Corporation 401(k) Plan

We were engaged to audit the accompanying statements of net assets available for benefits of EKOS Corporation 401(k) Plan (the Plan) as of December 31, 2010 and 2009, and the related statement of changes in net assets available for benefits for the year ended December 31, 2010, and the supplemental Schedule H, line 4i – Schedule of Assets (held at end of year) as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note C, which was certified by Fidelity Management Trust Company, the Trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained certifications from the Trustee as of December 31, 2010 and 2009, and for the year ended December 31, 2010, that the information provided to the Plan Administrator by the Trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and schedule, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

#### NOTES TO FINANCIAL STATEMENTS

For the years ended December 31, 2010 and 2009

#### NOTE A - DESCRIPTION OF PLAN

The following description of the EKOS Corporation 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

#### 1. General

The Plan is a defined contribution plan, established February 1, 1999, covering all eligible employees of EKOS Corporation (the Company). The Plan provides for contributions pursuant to Section 401(a) of the Internal Revenue Code and is subject to the provisions of the Employee Retirement Income Security Act of 1974.

#### 2. Eligibility

Employees become eligible for the Plan the first day of the month subsequent to hire date. Participants may enter the Plan on the first day of each Plan Year and the first day of the fourth, seventh, and tenth month of each Plan Year.

#### 3. <u>Contributions</u>

Plan participants may contribute up to 60% of their qualified compensation to the Plan, subject to Internal Revenue Code regulations. Participants may also contribute amounts representing rollover distributions from other qualified plans.

The Company does not match contributions made by participants. The Company may make qualified non-elective contributions and profit sharing contributions at the discretion of the Board of Directors. There were no discretionary contributions for the year ended December 31, 2010.

#### 4. Participant Accounts

Participants' accounts are credited with their contributions, any Company contributions and earnings on the investment funds in their accounts. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

#### 5. <u>Vesting</u>

Participants' contributions, employer-qualified non-elective contributions and all earnings thereon are 100% vested at all times. Employer profit sharing contributions vest at 25% for each year of service and are 100% vested after four years.

In the event of death, disability, or retirement at the age of 65, participants become fully vested in all of their accounts, regardless of the vesting percentage attained at that date.

#### NOTES TO FINANCIAL STATEMENTS

For the years ended December 31, 2010 and 2009

#### NOTE A - DESCRIPTION OF PLAN - Continued

#### 6. <u>Investment Options</u>

Participants may select one or more predetermined investment options for the investing of contributions and earnings. Contributions are deposited directly into the participant-elected investment vehicles by the trustee and custodian of the Plan.

#### 7. <u>Notes Receivable from Participants</u>

Plan participants may borrow from their fund accounts, generally for periods not to exceed five years, a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. If loans are for the purchase of a primary residence, repayment periods can be up to 10 years. Interest is paid by the borrower at a rate determined by the administrator based on the prevailing interest rates for loans made under similar circumstances. Interest payments become part of the participant's account balance.

#### 8. Distribution of Benefits

Upon retirement, disability, or termination, a participant may elect to take a distribution up to the vested balance of the participant's account, which is paid as a lump sum payment of cash, rollover the vested balance into another qualified plan, or a combination of distribution and rollover. The Plan has the option to distribute all account balances less than \$1,000 upon participant termination without participant consent. Upon death, the stated beneficiary is entitled to receive the account balance. The Plan also allows hardship withdrawals, subject to a \$500 minimum, to meet certain defined financial needs.

#### 9. <u>Tax Status</u>

The Company has adopted a Prototype Standardized Profit Sharing/401(k) Plan with a deferral arrangement, which received a favorable opinion letter from the Internal Revenue Service on December 5, 2001. The opinion letter stated that the Plan and its related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has since been amended and restated. In the opinion of the Plan Administrator, the Plan and its related trust are designed and currently operating in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2007.

#### NOTES TO FINANCIAL STATEMENTS

For the years ended December 31, 2010 and 2009

#### NOTE A - DESCRIPTION OF PLAN - Continued

#### 10. Forfeitures

Forfeitures of nonvested account balances may be used to pay administrative expenses under the Plan or to reduce future employer contributions. There were no forfeitures in 2010.

#### 11. <u>Administrative Expenses</u>

The Plan's administrator fees are paid by the Plan Sponsor.

#### NOTE B - SUMMARY OF ACCOUNTING POLICIES

#### 1. <u>Basis of Accounting</u>

The financial statements of the Plan are prepared on the accrual basis of accounting. Benefits are recorded when paid.

#### 2. <u>Investment Valuation and Income Recognition</u>

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note E for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest and dividend income are accrued as earned. Net appreciation or depreciation in fair value is the net gain or loss on disposition of investments plus the net unrealized increase or decrease in fair value during the year for investments held at year end.

#### 3. Risks and Uncertainties

The Plan invests in various investment securities which are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and changes therein.

#### 4. Payment of Benefits

Benefits are recorded when paid.

#### 5. Contributions

Employee contributions are recorded in the period during which the Company makes payroll deductions from the Plan participants' earnings. There are presently no employer contributions.

#### NOTES TO FINANCIAL STATEMENTS

For the years ended December 31, 2010 and 2009

#### NOTE B - SUMMARY OF ACCOUNTING POLICIES - Continued

#### 6. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

#### 7. New Accounting Standards

In January 2010, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Updated ("ASU") No. 2010-06, *Improving Disdosures about Fair Value Measurements* that requires new fair value measurement classification disclosures and clarifies existing disclosures. The guidance requires disclosures about transfers into and out of Levels 1 and 2 of the fair value hierarchy, and separate disclosures about purchases, sales, issuances and settlements relating to Level 3 measurements. It also clarifies the existing fair value disclosures regarding valuation techniques, inputs used in those valuation models and at what level of detail fair value disclosures should be provided. The Company adopted ASU 2010-06 as of January 1, 2010, except for the disclosures about purchases, sales, issuances, and settlements in the roll forward of activity in Level 3 fair value measurements. Those disclosures are effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years. Early application is permitted. The adoption of the remaining disclosure requirements in ASU 2010-06 will not impact the Plan's fair value disclosures.

In September 2010, FASB issued an amendment, Plan Accounting – Defined Contribution Pension Plans (Topic 962): *Reporting Loans to Participants by Defined Contribution Pension Plans*, which provides guidance on how loans to participants should be classified and measured by defined contribution plans. That guidance requires participant loans to be classified as notes receivable from participants, which are segregated from plan investments and this new guidance in its December 31, 2010 financial statements and has reclassified participant's loans of \$20,774 for the year ended December 31, 2009, from investments to notes receivable from participants. Net assets of the Plan were not affected by the adoption of the new guidance.

#### NOTE C - CERTIFIED INVESTMENT INFORMATION

The Plan Administrator has obtained certification from Fidelity Management Trust Company, Trustee of the Plan, that the following unaudited information included in the Plan's financial statements and supplemental schedule is complete and accurate:

- Investment assets and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2010 and 2009.
- Trust transactions, including investment income, securities transactions and interest income on notes
  receivable from participants, as shown in the statement of changes in net assets available for benefits for
  the year ended December 31, 2010.

#### NOTES TO FINANCIAL STATEMENTS

#### For the years ended December 31, 2010 and 2009

#### NOTE C - CERTIFIED INVESTMENT INFORMATION - Continued

• Information included on Schedule H, Line 4i, Schedule of assets (held at end of year) as of December 31, 2010.

The Plan Administrator elected the method of compliance permitted by Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Under the provisions of ERISA, information certified by a trust company or an insurance company need not be subjected to independent audit.

#### NOTE D - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net increase in net assets per the financial statements to the Form 5500:

	 2010	 2009
Total net increase in net assets per the financial statements Adjustments for 2009 refundable excess contributions	\$ 508,750 (31,698)	\$ 568,914 31,698
Total net increase in net assets per the Form 5500	\$ 477,052	\$ 600,612

#### NOTE E - FAIR VALUE MEASUREMENTS

ASC 820, Fair Value Measurements and Disclosures, (formerly FASB Statement No. 157) establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB Statement No. 157 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or
	liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include
	<ul> <li>quoted prices for similar assets or liabilities in active markets;</li> </ul>
	<ul> <li>quoted prices for identical or similar assets or liabilities in inactive markets;</li> </ul>
	<ul> <li>inputs other than quoted prices that are observable for the asset or liability;</li> </ul>
	<ul> <li>inputs that are derived principally from or corroborated by observable market data by correlation or other means.</li> </ul>
	If the asset or liability has a specified (contractual) term, the level 2 input must be observable
	for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value
	maguramant

#### NOTES TO FINANCIAL STATEMENTS

For the years ended December 31, 2010 and 2009

#### NOTE E - FAIR VALUE MEASUREMENTS - Continued

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010.

*Mutual funds*: Valued at the quoted market value of the fund, which represents the net asset value (NAV) of shares held by the plan at year end.

Money market funds: Valued at cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010:

#### NOTE F - PLAN TERMINATION

In the event of Plan termination, the net assets will be available for the exclusive use of the participants. All employer contributions will be considered vested upon termination of the Plan, regardless of each participant's vested status at the date of termination. The complete provisions covering the Plan termination are included in the Plan document, which is available to all participants.

#### NOTE G - PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by an entity affiliated with Fidelity Management Trust Company, the trustee of the Plan. These transactions qualify as party-in-interest transactions.

#### NOTES TO FINANCIAL STATEMENTS

For the years ended December 31, 2010 and 2009

#### NOTE H - INVESTMENTS IN EXCESS OF 5% OF NET ASSETS

The following table presents the fair value of individual investments that represent 5% or more of the Plan's net assets at December 31:

	 2010 2009		2009
Spartan U.S. Equity Index Fund	\$ 350,615	\$	284,731
