Independent Auditors' Report

To the Participants of and Plan Administrator
of the Thermadyne 401(k) Retirement Plan
St. Louis, Missouri

We were engaged to audit the financial statements of the Thermadyne 401(k) Retirement Plan as of and for the year ended December 31, 2010, and the supplemental schedule as of December 31, 2010, as listed in the accompanying table of contents. These financial statements and the supplemental schedule are the responsibility of the Plan's management.

The financial statements and supplemental schedule of the Plan as of December 31, 2009 were audited by other auditors. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed the other auditors not to perform, and they did not perform, any auditing procedures with respect to the information certified by State Street Bank & Trust Company, the trustee of the Plan. Their report, dated July 1, 2010, indicated that (a) because of the significance of the information that they did not audit, they were unable to, and did not, express an opinion on the financial statements taken as a whole and (b) the form and content of the information included in the financial statements other than that derived from the information certified by the trustee, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note C, which was certified by State Street Bank & Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2010 and 2009, that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit in the Plan's 2010 financial statements and the supplemental schedule that we did not audit, we were unable to, and do not, express an opinion on the accompanying 2010 financial statements and the supplemental schedule taken as a whole. The form and content of the information included in the 2010 financial statements and the supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

THERMADYNE 401(k) RETIREMENT PLAN

Notes to Financial Statements

December 31, 2010

(See Independent Auditors' Report)

Note A - Plan Description

The following description of the Thermadyne 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering employees of Thermadyne Holdings Corporation (the "Company" or "Employer") who meet the eligibility requirements of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

Participants may contribute up to 50% of their annual compensation to the Plan, not to exceed certain dollar limits established by the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and a guaranteed investment contract as investment options for participants. The Company may make discretionary matching and profit sharing contributions. Effective April 1, 2009, the Company suspended its matching contributions.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions, if any and (b) plan earnings, and charged with an allocation of certain administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately fully vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. Participants vest 25% after one year of eligible service and an additional 25% for each of the next three years of service.

Note A - Description of Plan (Continued)

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of \$50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates based upon prevailing market rates for loans of similar purpose and duration as determined by the Plan administrator. Principle and interest is paid ratably through monthly payroll deductions.

Payment of Benefits

On termination of service due to retirement (on or after attainment of age 65), a participant may receive a lump-sum distribution equal to the full current value of his account. For termination of service for any other reason, a participant may receive the value of the vested interest in his account as a lump-sum distribution.

Forfeited Accounts

Benefits forfeited by participants are used to reduce future Company contributions to the Plan. At December 31, 2010 and 2009, unallocated forfeitures totaled \$27,633 and \$154,301. Forfeitures used totaled \$165,306 and \$46,416 during the Plan years ended December 31, 2010 and 2009.

Note B - Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

THERMADYNE 401(k) RETIREMENT PLAN

Notes to Financial Statements - Continued

December 31, 2010

(See Independent Auditors' Report)

Note B - Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition (Continued)

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully-benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in an investment contract through a collective trust. Contract value for this collective trust is based on the net asset value of the fund as reported by the investment advisor. The Statement of Net Assets Available for Benefits presents the fair value of the investment in the collective trust as well as the adjustment of the investment in the collective trust from fair value to contract value relating to the investment contracts. The Statements of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Any unrealized gains and losses are included in changes in net assets for the year.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures. Actual results may vary from reported amounts.

Payment of Benefits

Benefits are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Note B - Significant Accounting Policies (Continued)

New Accounting Pronouncement

In September 2010, the FASB released Accounting Standards Update No. 2010-25 ("ASU 2010-25"), *Plan Accounting – Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Plans*, which provide guidance on how loans to participants should be classified and measured by defined contribution pension plans. This update requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their principal balance plus any accrued but unpaid interest. This update requires retrospective application to all periods presented. ASU 2010-25 was adopted for the year ended December 31, 2010. The December 31, 2009 amounts and disclosures have been revised to reflect the retrospective application of adopting ASU 2010-25.

Subsequent Events

The Plan has evaluated subsequent events through September 19, 2011, the date the financial statements were available to be issued.

Note C - Investments

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, State Street Bank and Trust Company ("State Street"), the trustee of the Plan, has certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2010 and 2009, and the supplemental Schedule H, line 4i-Schedule of Assets (Held at End of Year) as of December 31, 2010; and the information related to investment activity reflected in the statements of changes in net assets available for benefits for the years ended December 31, 2010 and 2009.

The following investments represent 5% or more of the Plan's net assets:

Note C - Investments (Continued)

During 2010 and 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$3,497,500 and \$6,967,980 as follows:

	<u>2010</u>	<u>2009</u>
Mutual funds	\$3,277,992	\$6,698,097
Collective Trust	<u>219,508</u>	<u>269,883</u>
	<u>\$3,497,500</u>	<u>\$6,967,980</u>

Note D - Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include other observable inputs, including quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

THERMADYNE 401(k) RETIREMENT PLAN

Notes to Financial Statements - Continued

December 31, 2010

(See Independent Auditors' Report)

Note D - Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies at December 31, 2010 and 2009.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Collective Trust: Valued at the NAV of shares of a bank collective trust held by the Plan at year-end. The NAV is based on the fair value of the underlying investments held by the fund. Participant transactions (issuances and redemptions) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2010:

Investments at Fair Value As of December 31, 2010				
	Total	Level 1	Level 2	Level 3

Note D - Fair Value Measurements (Continued)

The following table sets forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2009:

Investments at Fair Value As of December 31, 2009				
	Total	Level 1	Level 2	Level 3
Cash and money market funds	\$ 154,301	\$ 154,301	\$ -	\$ -
Investments with mutual funds				
International Funds	2,499,471	2,499,471	-	-

Total	\$42,668,067	\$33,034,752	\$ 9,633,315	\$ -

Note E - Fully Benefit Responsive Investment

The Plan has a fully benefit-responsive investment with Diversified Investment Advisors ("Diversified"). Diversified maintains the contributions with a collective trust investment. The trust is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Diversified is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. Because the investment is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to this investment. This investment is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by Diversified, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of this investment at December 31, 2010 and 2009 was \$9,330,242 and \$9,633,315, respectively. The crediting interest rate is based on a formula agreed upon with Diversified, but it may not be less than 4 percent. Such interest rates are reviewed on a quarterly basis for resetting.

THERMADYNE 401(k) RETIREMENT PLAN

Notes to Financial Statements - Continued

December 31, 2010

(See Independent Auditors' Report)

Note E - Fully Benefit Responsive Investment (Continued)

Certain events limit the ability of the plan to transact at contract value with Diversified. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the plan's ability to transact at contract value with participants are probable of occurring. The average yield on this investment is based on actual earnings at December 31, 2010 and 2009 was 2.90% and 3.32%, respectively. The average yield on the contract based on interest rate credited to participants at December 31, 2010 and 2009 was 2.90% and 3.32%, respectively.

Note F - Related Party Transactions

Certain Plan investments are shares of mutual funds and collective trust accounts managed by State Street Bank and Trust Company ("SSBT"). SSBT is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for services totaled \$11,175 and \$12,000 for the years ended December 31, 2010 and 2009, respectively.

Note G - Plan Termination

While the Company has not expressed any interest to terminate the Plan or discontinue operations, it is free to do so at any time, subject to the provisions set forth in ERISA. Upon a complete or partial termination of the Plan, any participant who is then an employee would become 100% vested in all Company matching and discretionary contributions and the income thereon without regard to years of service.

Note H - Tax Status

The Internal Revenue Service has determined and informed the Company by a determination letter, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

THERMADYNE 401(k) RETIREMENT PLAN

Notes to Financial Statements - Continued

December 31, 2010

(See Independent Auditors' Report)

Note H - Tax Status (Continued)

The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subjected to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

Note I - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
