Participants may also contribute amounts representing catch-up contributions (if age 50 or older). Both eligible employees and employees who would be eligible except they do not meet the service requirement may make rollover contributions into the Plan.

The Company contributes 50% of the first 6% of eligible compensation contributed by the participant.

Participant Accounts

Each participant's account is credited with participant and Company contributions and an allocation of Plan earnings. Plan earnings are allocated based upon participant account balances in the respective investment options. The benefit to which a participant is entitled is the vested balance that can be provided from the participant's account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. After five years of service with the Company, a participant will become 100% vested in Company contributions on the date they are contributed. Forfeited balances of terminated participants' nonvested accounts are used to reduce future Company contributions. Forfeited nonvested accounts totaled \$14,676 and \$13,812 at December 31, 2010 and 2009, respectively.

Distributions

Distributions can generally be made only upon termination of service, retirement, death, disability, hardship or attainment of age 59 1/2, as defined. Distributions are made in a lump-sum or installment payments. Participants who terminate employment and whose account balances do not exceed \$5,000 shall receive an automatic transfer to a qualified IRA if the balance exceeds \$1,000, or else an immediate, lump-sum cash distribution.

Investment Options

A participant may direct contributions in 1% increments in any of the investment options offered by the Plan which include mutual funds and collective trusts, as well as the Bosch Stable Value Fund, which holds a liquidity fund and several synthetic guaranteed investment contracts. Participants may change their investment options daily. The Plan's investments are held by Mercer Trust Company (the "Trustee").

Notes Receivable From Participants

Participants may borrow from their Plan accounts a minimum of \$1,000 up to a maximum of the lesser of \$50,000 (subject to certain limitations as defined in the Plan document) or 50% of their vested account balance. All loans are amortized over a reasonable period of time, generally not to exceed five years, and are payable immediately upon termination. The loans are secured by the vested balance in the participant's account and bear interest at a rate commensurate with local prevailing rates at inception. Notes receivable from participants are valued at their outstanding balances, plus accrued interest, which approximate fair value. Principal and interest are to be paid through payroll deductions.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participant accounts would become fully vested and would be distributed to the participants.

Administrative Expenses

Administrative expenses, consisting principally of investment management, recordkeeping, and audit fees are paid by the Company.

2. Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting and in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year end. Units of collective trusts are valued at the net asset value of units held by the Plan at year end, based on information reported by the investment advisor using the audited financial statements of the collective trusts.

**Bosch Rexroth Corporation Mecman
Division, Lexington Facility 401(k) Plan
for Bargaining Unit Employees
Notes to Financial Statements
December 31, 2010 and 2009**

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts within the Bosch Stable Value Fund option. The Statements of Net Assets Available for Benefits present the fair value as well as the adjustment from fair value to contract value relating to the investment contracts. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The Plan presents in the Statements of Changes in Net Assets Available for Benefits the net appreciation in the fair value of its investments which consists of the gains and losses on investments bought and sold as well as held during the year.

Synthetic Guaranteed Investment Contracts

The Plan holds synthetic guaranteed investment contracts ("GICs") as part of the Bosch Stable Value Fund. The synthetic GICs provide for a fixed return on principal over a specified time through fully benefit-responsive wrapper contracts issued by AIG Financial Products, Royal Bank of Canada, and State Street Bank. The assets underlying the synthetic GICs substantially consist of an intermediate bond collective trust fund.

The fair value of the synthetic GICs equals the total of the fair value of the underlying assets plus the fair value of the wrapper contracts. The fair value of the wrapper contracts is computed using a replacement cost approach that incorporates a comparison of the current fee rate on similar wrapper contracts to the fee being paid by the Plan. Using this approach, the fair value of the wrapper contracts was \$1,809 and \$0 at December 31, 2010 and 2009, respectively.

Fully benefit-responsive synthetic GICs are valued at contract value, rather than fair value, for determining the net assets available for benefits. Contract value represents contributions, plus earnings, less participant withdrawals and administrative expenses. The wrapper contracts used by the Plan are fully benefit-responsive because the wrapper contract issuers are contractually obligated to make up any shortfall in the event that the underlying asset portfolio has been liquidated and is inadequate to cover participant withdrawals and transfers at contract value. There are currently no reserves against contract values for credit risk of the contract issuers or any other risk.

The crediting interest rate, which is reset quarterly, based on a formula agreed upon with each wrapper contract issuer, can never fall below zero. The crediting rate formula smoothes the impact of interest rate changes on participant returns by amortizing any difference between market value and book value over a period of years equal to the duration of the portfolio benchmark. The average yield on the synthetic GICs based on annualized earnings was approximately 3.32% and 4.29% at December 31, 2010 and 2009, respectively. The average interest rate credited to participants on the synthetic GICs was approximately 2.38% and 2.50%, respectively, for the years ended December 31, 2010 and 2009. The credit ratings for AIG Financial Products were A- at both December 31, 2010 and 2009, the credit ratings for Royal Bank of Canada were AA- at both December 31, 2010 and 2009, and the credit ratings for State Street Bank were AA- at both December 31, 2010 and 2009.

Certain events limit the ability of the Plan to transact at contract value with the issuer. These events include restructurings, early retirement plans, divestitures, bankruptcies or as the result of legal, tax or regulatory changes. The Plan administrator believes that the occurrence of any such event is remote.

The providers of the wrapper contracts can only terminate at a value different than contract value under an event of default (that was not remedied) such as failure to follow the terms of the contract.

Benefit Payments

Benefits are recorded when paid.

Adoption of New Accounting Pronouncements

Fair Value Measurements

In January 2010, the FASB issued authoritative guidance intended to improve disclosures about fair value measurements. The guidance requires entities to disclose significant transfers in and out of fair value hierarchy levels and reasons for the transfers and to present information about purchases, sales, issuances and settlements separately in the reconciliation of fair value measurements using significant unobservable inputs (Level 3). Additionally, the guidance clarifies that a reporting entity should provide fair value measurements for each class of assets and liabilities and disclose the inputs and valuation techniques used for fair value measurements using significant other observable inputs (Level 2) and significant unobservable inputs (Level 3). This guidance is effective for annual periods beginning after December 15, 2009 except for disclosures about purchases, sales, issuances and settlements in the Level 3 reconciliation, which will be effective for annual periods beginning after December 15, 2010. As this guidance provides only disclosure requirements, the adoption of the standard did not impact the Plan's financial statements.

The Company has expanded disclosures in Note 4 to comply with the aforementioned fair value guidance.

Reporting Loans to Participants

In September 2010, the FASB issued authoritative guidance that amends the classification, measurement and disclosure requirements for loans to participants by defined contribution plans. The revised guidance requires participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. Additionally, fair value disclosures are no longer required for loans to participants. This guidance was effective for annual periods ending after December 15, 2010 and was required to be applied retrospectively. As a result of the adoption, the Plan reclassified \$88,315 from Investments, at fair value to Notes receivable from participants at December 31, 2009 and reclassified \$3,328 from Dividend and interest income derived from investment activities to Interest income on notes receivable from participants for the year ended December 31, 2009.

3. Certification

The Trustee of the Plan holds the Plan's investments and notes receivable from participants and executes all related transactions. Information disclosed in the accompanying financial statements and schedule, including investments and notes receivable from participants held at December 31, 2010 and 2009, net appreciation in fair value of investments, dividend and interest income, and interest income on notes receivable from participants for the years ended December 31, 2010 and 2009, and the investment information presented below was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Mercer Trust Company, the Trustee.

The investments within the Bosch Stable Value Fund were certified at their contract value of \$748,639 and \$679,758 at December 31, 2010 and 2009, respectively. The fair value and adjustment from fair value to contract value of \$11,250 and \$37,983 at December 31, 2010 and 2009, respectively, were not certified.

The fair value of individual investments that represent 5% or more of the Plan's net assets is as follows at December 31:

	2010	2009
JPMorgan Intermediate Bond Fund	\$ 726,366	\$ 634,911
American Funds Growth Fund of America	344,332	266,030
NTGI-QM Collective Daily Aggregate Bond Index Fund	177,388	159,573
State Street Global Advisors International Alpha Select Fund	240,302	197,547
JPMorgan SmartRetirement 2010 Fund	*	107,962
JPMorgan Small Cap Equity Select Fund	116,501	*

* Below 5% threshold

The Plan's investments, including investments bought and sold as well as held during the year, appreciated in fair value as follows:

	2010	2009
Mutual funds	\$ 71,638	\$ 110,689
Collective trusts	83,227	120,295
	<u>\$ 154,865</u>	<u>\$ 230,984</u>

4. Fair Value Measurements

The FASB established a framework to increase consistency and comparability in fair value measurements. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

For a description of the valuation methodologies used for assets measured at fair value see Investment Valuation and Income Recognition under Note 2.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Common collective trusts consist of pools of investments used by institutional investors to obtain equity and fixed income market exposures by investing in funds which are intended to mirror indices such as the Standard & Poor's Index, Barclay's Capital Aggregate Index, MSCI EAFE Index and MSCI Emerging Markets Index. They are valued on the basis of the relative interest of each participating investor in the fair value of the underlying assets of each of the respective common collective trusts. The underlying assets are valued based on the NAV as provided by the investment account manager and are classified in level 2 of the fair value hierarchy. Certain of these investments can only be traded within a certain window within each monthly period. Common collective trusts included in the Plan and their relative benchmarks include:

Common Collective Trust	Description	Benchmark
JPMorgan Liquidity Fund	Short term cash investments	90 day U.S. treasury bill
JPMorgan Intermediate Bond Fund	Diversified bond fund	Barclays Capital Intermediate Aggregate Index
JPMorgan SmartRetirement 2010 Fund	Diversified target date fund	S&P Target Date 2010 Index
JPMorgan SmartRetirement 2015 Fund	Diversified target date fund	S&P Target Date 2015 Index
JPMorgan SmartRetirement 2020 Fund	Diversified target date fund	S&P Target Date 2020 Index

NTGI-QM Collective Daily Aggregate Bond Index Fund	U.S. bond and debt investments	Barclays Capital Aggregate Index
State Street Global Advisors International Alpha Select Fund	International stock investment	MSCI EAFE Index

There are no unfunded commitments related to these funds as of December 31, 2010.

Level 3 Gains and Losses

The following tables set forth a summary of changes in the fair value of the Plan's Level 3 investment assets for the years ended December 31, 2010 and December 31, 2009:

5. Tax Status

The Internal Revenue Service has determined and informed the Company in a letter dated February 27, 2003, that the Plan and related trust are designed in accordance with applicable sections of the Code. Although the Plan has been amended since receiving the determination letter, the plan administrator and the plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code and therefore believe that the Plan is qualified and the related trust is tax-exempt. The Plan submitted a Request for Compliance Statement on January 21, 2011.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes that the Plan is generally no longer subject to income tax examinations for plan years beginning prior to January 1, 2007.

6. Party-in-Interest Transactions

Notes receivable from participants qualify as exempt party-in-interest transactions.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

8. Subsequent Event

Effective March 28, 2011 the plan administrator made changes to the Plan's investment fund options as set forth in the following table.

Original Investment Option	New Investment Option
American Century Equity Growth Fund	Northern Trust Collective S&P 500 Index Fund
JPMorgan Equity Index Fund	Northern Trust Collective S&P 500 Index Fund

The Plan has evaluated the events and transactions that have occurred through October 3, 2011, the date the financial statements were available to be issued, and concluded there were no other subsequent events to recognize or disclose.
