XLHealth Corporation 401(k) Profit Sharing Plan

Notes To Financial Statements

December 31, 2010 And 2009

1. DESCRIPTION OF PLAN

The following description of the XLHealth Corporation 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

GENERAL - The Plan is a defined contribution plan covering all employees of XLHealth Corporation (the Company) who are not covered by a collective bargaining agreement or considered leased employees. The Plan is subject to the Employee Retirement Income Security Act of 1974 (ERISA).

CONTRIBUTIONS - Each year, the participants may contribute an amount up to the maximum dollar amount permissible under the Internal Revenue Code. The Company may make a discretionary match to the employee's contribution in an amount to be determined by the employer. The Company may, in its discretion, contribute an additional amount to the plan, to be distributed among participants pro rata based upon compensation within limitations as determined by Internal Revenue Service regulations. The Company is required to make a Safe Harbor Matching Contribution equal to 100% of applicable contributions up to 4% of compensation as defined in the plan documents.

PARTICIPANT ACCOUNTS AND FORFEITURES - Each participant's account is credited with the participant's contribution and an allocation of the Company's discretionary contribution, if any, and Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account. Any forfeitures of participants' accounts shall serve to reduce the employer contribution. At December 31, 2010 and 2009, forfeited non-vested accounts totaled \$1,971 and \$692, respectively. These accounts will be used to reduce future employer contributions.

VESTING - Participants are immediately vested in their salary deferral, safe harbor contributions, rollover contributions, and related earnings. Participants vest in the Company's matching and profit sharing contributions according to the following schedule:

Years of Continuous Service	Percent Vested
1	25%
2	50%
3	75%
4	100%

INVESTMENT CLASSIFICATION - All investments are fully participant directed. Participants have the right to individually select the percentage of their accounts to be invested among different classifications of investments made available to them through a registered investment company.

PAYMENT OF BENEFITS - Upon termination, the participant or beneficiary will receive the benefits in a lump-sum amount equal to the value of the participant's vested interest in his or her account. The Plan allows for automatic lump-sum distributions of participant vested account balances which do not exceed \$5,000. If the lump-sum distributions of participant vested account balances exceed \$5,000, then the participant must consent to the lump-sum distribution.

NOTES RECEIVABLE FROM PARTICIPANTS - The Plan allows participants to borrow up to the lesser of \$50,000 or one-half of the participant's vested account balance. The loans are secured by the participant's vested balance. Such loans bear interest at the available market financing rates. The specific terms and conditions of the loan are established by the plan administrator.

2. SUMMARY OF ACCOUNTING POLICIES

BASIS OF PRESENTATION - The accompanying financial statements of the Plan have been presented on the accrual basis of accounting. All expenses of administration may be paid from the Plan unless paid by the employer. These expenses include any expenses incidental to the functioning of the plan administrator.

INVESTMENT VALUATION - The assets of the Plan have been determined through the use of fair values. Fair values are based on published market information. Purchases and sales of investments are recorded on a trade date basis. Unrealized increases and decreases in the fair value of the investments are recognized in the financial statements in the period in which such changes occur.

USE OF ESTIMATES - The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

NOTES RECEIVABLE FROM PARTICIPANTS - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

PAYMENT OF BENEFITS - Benefits are recorded when paid.

3. INCOME TAX

The Company adopted a prototype standardized Plan which received a favorable determination letter dated October 21, 2002, which stated that the Plan and related Trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC").

Effective January 1, 2009, the Plan adopted FASB Accounting Standards Codification (ASC) 740, *Income Taxes*, which clarified the accounting for uncertainty in income taxes. Based on its evaluation, the Plan has concluded that there are no significant uncertain tax positions requiring recognition in the financial statements. No interest or penalties have been recorded as a result of tax uncertainties. The tax years ended December 31, 2007 through December 31, 2010 remain open to examination by tax jurisdictions to which the Plan is subject.

4. FAIR VALUE MEASUREMENTS

ASC 820, *Fair Value Measurements and Disclosures* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are as described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include: <ul style="list-style-type: none">• quoted prices for similar assets or liabilities in active markets;• quoted prices for identical or similar assets or liabilities in inactive markets;

4. FAIR VALUE MEASUREMENTS (CONTINUED)

- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual Funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:
