Personal Retirement Investment and Savings Management Plan
for Certain Represented Employees of ABB Inc.

Notes to Financial Statements

December 31, 2010

1. Description of the Plan

The Personal Retirement Investment and Savings Management Plan for Certain Represented Employees of ABB Inc. (the “Plan”) is a defined contribution plan covering individuals who are employed by ABB, Inc. (“ABB”, the “Company” or “Employer”) and are members of certain unions that have adopted the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended. Participants should refer to the Summary Plan Description for a complete description of Plan provisions.

The assets of the Plan are held in the ABB Inc. Defined Contribution Plans Master Trust (“Master Trust”) along with the assets of the Personal Retirement Investment and Savings Management Plan for Employees of ABB Inc. (“PRISM”). Fidelity Management Trust Company (“Fidelity”) is the Trustee of the Master Trust. The Trustee maintains separate accounts for each plan. Accordingly, investment income and administrative expenses are separately reflected in each Plan’s accounting records.

On August 25, 2008, ABB purchased Kuhlman Electric Corporation (“Kuhlman”). On December 31, 2009, assets from certain Kuhlman’s 401(k) plans (Crystal Springs Hourly Employees 401(k) and Versailles Union Employees 401(k) Plans) were transferred to the Plan.

Eligibility

All employees who are members of the unions that have adopted the Plan are eligible for participation in the Plan. Employees are eligible to participate at any time following the date an hour of service is first performed.

Contributions

Participants elect to make contributions to the Plan through payroll deductions in whole percentages from 1% to 50% of their annual compensation (as defined in the Plan, subject to Internal Revenue Service limitations) on a pre-tax or after-tax basis. The aggregate amount of this deferral shall not exceed 50% of annual compensation. Over age 50 catch-up contributions can be made by eligible participants in whole percentages from 1% to 100% of their annual compensation (as defined in the Plan, subject to Internal Revenue Service limitations). The Company’s contribution, where applicable, is generally equal to 50% of the participants’ contributions made during the year, up to 6% of their annual compensation. However, different levels of Employer contributions may occur based upon the participant’s union membership. All of the Plan’s investment options are participant directed.

1. Description of the Plan (continued)

Vesting

All employee contributions and earnings thereon are fully vested at all times. Matching Employer contributions and earnings thereon generally become 50% vested after the employee has completed two years of service and 100% vested after three years of service.

Participant Accounts

Each participant's account is credited with the participant's contributions and an allocation of: (i) the Company's contribution and (ii) Plan earnings or losses. Allocations of the earnings or losses are based on participants' account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Payment of Benefits

Upon termination of employment, retirement, or death, the participant or beneficiary may receive a lump-sum cash distribution, or quarterly or annual installments, depending upon the nature of the event and total vested value of the participant's account, as defined by the Plan, or may elect to have the payment of benefits deferred up to age 70½ at which time distributions must commence.

Hardship Withdrawals

A participant may withdraw tax-deferred contributions for (a) medical expenses, (b) purchase of a principal residence, (c) payment of tuition expenses for educational fees and room and board expenses for post secondary education, (d) to prevent eviction from principal residence, or (e) any other reason set forth by the Commissioner of the Internal Revenue Service conditional upon satisfactory demonstration of the need and approval by the Company.

Participant Loans

The Plan allows a participant to have up to two loans outstanding at any time. The minimum loan is \$1,000 and the total amount of a participant's loan shall not exceed the lesser of:

- 50% of the participant's fully vested account balance; or

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

- \$50,000, reduced by the participant's highest outstanding loan balance from the Plan during the one-year period ending on the day before the new loan is made.

Loans are repaid from payroll deductions. Interest rates on the loans are equal to the prime interest rate plus 1% on the first business day of the month preceding the calendar quarter in which the loan becomes effective. Loan interest rates ranged from 3.25% to 4.25% in both 2010 and 2009. Participants may elect to repay loans over a period of one to five years. If the purpose of the loan is to purchase the participant's principal residence, the loan may be repaid over a period of up to twenty years.

Forfeitures

Forfeitures of terminated participants' non-vested accounts are used to pay expenses of the Plan. At December 31, 2010 and 2009, forfeited non-vested accounts totaled \$3,171 and \$502, respectively.

Administrative Expenses

Administrative expenses are paid by the Plan or the Company, at the discretion of the Company. Brokerage fees and transfer taxes incurred in connection with the purchase or sale of securities by the Trustee are added to the cost thereof or deducted from the proceeds thereof, as the case may be.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

2. Summary of Significant Accounting Policies

Investment Valuation and Income Recognition

Fair value, as used for financial statement purposes, represents market or current value as reported by the Trustee (see Note 5). Assets of the Master Trust consist principally of mutual fund investments stated at quoted market value, short-term investments with market value equivalent to cost, investments held by registered investment companies at fair value, common stock stated at the quoted market value and contracts with insurance and investment companies, which are part of the Income Fund, stated at contract value. Contract value represents contributions made under the contract, plus interest at the contract rate, less funds used to pay benefits and administrative expenses of the contract.

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The fair value of the participation units in common collective trusts is based on quoted redemption values on the last business day of the Plan's year-end.

Investment contracts held by a defined contribution plan or master trust are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan or master trust attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Master Trust invests in investment contracts through a common collective trust. The statements of net assets available for benefits present the fair value of the Income Fund and the adjustment from fair value to contract value. The fair value of the Master Trust's interest in the Income Fund is based on information reported by the issuer of the common collective trust at year-end. The contract value of the Income Fund represents contributions plus earnings, less participant withdrawals and administrative expenses.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Personal Retirement Investment and Savings Management Plan
for Certain Represented Employees of ABB Inc.

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

The fair value of the contracts with investment and insurance companies at December 31, 2010 and 2009 was \$29,866,000 and \$31,992,301, respectively. There are no reserves against contract value for credit risk of the contract issuer or otherwise in the Master Trust. The average yields for these contracts were 2.42% and 2.39% for the years ended December 31, 2010 and 2009, respectively. The crediting interest rate ranged from 2.14% and 2.83% and 1.05% to 3.00% and for the years ended December 31, 2010 and 2009, respectively. The crediting interest rate is reset quarterly.

Securities Lending

The Income Fund participated in the Trustee's Securities Lending Program for its U.S. securities during 2010 and 2009. On June 3, 2010, the Income Fund terminated its participation in the securities lending program. These securities were lent to certain unrelated third-party brokers in exchange for collateral, usually in the form of cash. Collateralization levels were equal to a percentage of the market value of the borrowed securities. For U.S. securities, collateral were not less than 102%. Collateral received was invested in a short-term collateral reinvestment fund that was managed by BNY Mellon's Global Security Lending Group, and the fund consisted of high quality short-term investments. The value of loaned securities amounted to \$0 and \$15,881,135 at December 31, 2010 and 2009, respectively.

Risks and Uncertainties

The Master Trust invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Personal Retirement Investment and Savings Management Plan
for Certain Represented Employees of ABB Inc.

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Payment of Benefits

Benefits are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2010 or 2009.

If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

New Accounting Pronouncements

In January 2010, the FASB issued Accounting Standards Update 2010-06, *Improving Disclosures about Fair Value Measurements*, (ASU 2010-06). ASU 2010-06 amended ASC 820 to clarify certain existing fair value disclosures and require a number of additional disclosures. The guidance in ASU 2010-06 clarified that disclosures should be presented separately for each “class” of assets and liabilities measured at fair value and provided guidance on how to determine the appropriate classes of assets and liabilities to be presented. ASU 2010-06 also clarified the requirement for entities to disclose information about both the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements. In addition, ASU 2010-06 introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2 and 3 of the fair value hierarchy and present information regarding the purchases, sales, issuances and settlements of Level 3 assets and liabilities on a gross basis. With the exception of the requirement to present changes in Level 3 measurements on a gross basis, which is delayed until 2011, the guidance in ASU 2010-06 becomes effective for reporting periods beginning after December 15, 2009. Since ASU 2010-06 only affects fair value measurement disclosures, adoption of ASU 2010-06 did not affect on the Plan’s net assets available for benefits or its changes in net assets available for benefits.

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

In September 2010, the FASB issued Accounting Standards Update 2010-25, *Reporting Loans to Participants by Defined Contribution Pension Plans*, (ASU 2010-25). ASU 2010-25 requires participant loans to be measured at their unpaid principal balance plus any accrued by unpaid interest and classified as notes receivable from participants. Previously loans were measured at fair value and classified as investments. ASU 2010-25 is effective for fiscal years ending after December 15, 2010 and is required to be applied retrospectively. Adoption of ASU 2010-25 did not change the value of participant loans from the amount previously reported as of December 31, 2009. Participant loans have been reclassified to notes receivable from participants as of December 31, 2009.

In May 2011, the FASB issued Accounting Standards Update 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs*, (ASU 2011-04). ASU 2011-04 amended ASC 820, *Fair Value Measurements and Disclosures*, to converge the fair value measurement guidance in US generally accepted accounting principles (GAAP) and International Financial Reporting Standards (IFRSs). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

Subsequent Events

Management evaluated subsequent events for the Plan through September 30, 2011, the date the financial statements were available to be issued.

3. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated April 24, 2001, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the "Code"), and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the Internal Revenue Service, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax exempt.

Personal Retirement Investment and Savings Management Plan
for Certain Represented Employees of ABB Inc.

Notes to Financial Statements (continued)

3. Income Tax Status (continued)

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

4. Investments

All investment information disclosed in the accompanying financial statements including investments held at December 31, 2010 and 2009 and the Plan interest in Master Trust investment gain for the years then ended, were obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the Trustee.

At December 31, 2010 and 2009, the Plan had a 4.03% and 4.12% interest in the net assets of the Master Trust.

The following tables present the net assets for the Master Trust and the net investment gain/(loss) for the Master Trust.

5. Fair Value Measurements

Investments held by the Plan are stated at fair value. ASC 820, *Fair Value Measurements and Disclosures*, (“ASC 820”) requires enhanced disclosures about investments that are measured and reported at fair value. ASC 820 clarifies the definition of fair value for financial reporting, establishes a framework for measuring fair value and requires additional disclosures about the use of fair value measurements.

The hierarchy established under ASC 820 gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). As required by ASC 820, the Master Trust investments are classified within the fair value hierarchy based on the lowest level of input that is significant to the fair value measurement. The three levels of the fair value hierarchy under ASC 820, and its applicability to the Master Trust’s investments, are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2 – Quoted prices for similar assets or liabilities, or inputs that are observable, either directly or indirectly, for substantially the full term through corroboration with observable market data. Level 2 includes investments valued at quoted prices adjusted for legal and contractual restrictions specific to the security.

Level 3 – Pricing inputs are unobservable for the asset or liability, that is, inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability. Level 3 includes private investments that are supported by little or no market activity.

The methods used to measure the fair value calculation may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Master Trust believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. Following is a description of the valuation methodologies used for assets and liabilities measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual funds – Valued at the net asset value, based on quoted market prices in active markets, of shares held by the Plan at year end.

Common/collective trusts – Valued at net asset value as determined by the Trustee, except for certain investment contracts, which generally are valued at contract value. Contract value is cost plus accrued income less redemptions.

The following tables sets forth by level, within the fair value hierarchy, the Trust's assets at fair value as of December 31, 2010 and December 31, 2009:

- a. This is a conservative fixed income separately managed portfolio that seeks to provide a stable rate of return with preservation of principal and liquidity as primary objectives. The portfolio invests in a variety of stable value products including guaranteed investment contracts (GICs) and synthetic GICs or wrap contracts issued by insurance companies and other financial institutions. Participant-directed redemptions have no restrictions; however, other circumstances, including Plan sponsor direction to liquidate all or part of the portfolio, may result in transactions occurring at other than contract value, with the potential for investors to experience a loss of principal.
- b. This category includes investments in highly diversified passively managed collective trusts that invest in U.S. issued bonds. There are currently no redemption restrictions on these investments.
- c. This category includes investments in highly diversified passively managed collective trusts that invest in U.S. common stocks. There are currently no redemption restrictions on these investments.
- d. This category includes investments in highly diversified passively managed collective trusts that invest in international common stocks. There are currently no redemption restrictions on these investments.
