To the Trustees
The M7 Aerospace 401(k) Plan
San Antonio, Texas

We were engaged to audit the accompanying statements of net assets available for benefits of The M7 Aerospace 401(k) Plan (Plan) as of December 31, 2010 and 2009, and the related statement of changes in net assets available for benefits for the year ended December 31, 2010, and the accompanying supplemental schedule. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Prudential Retirement Insurance & Annuity Company and DWS Trust Company, the trustees of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that DWS Trust Company held the Plan's investment assets and executed investment transactions from February 1, 2009 to December 31, 2010, and that Prudential Retirement Insurance & Annuity Company held the Plan's investment assets and executed investment transactions for the period January 1, 2009 to January 31, 2009. The Plan administrator has obtained certifications from the trustees as of December 31, 2010 and 2009, that the information provided to the Plan administrator by the trustees is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

As discussed in Note 5, the Plan changed its method of accounting for notes receivable from participants.

The M7 Aerospace 401(k) Plan

Notes to Financial Statements

December 31, 2010 and 2009

Note 1: Description of the Plan

The following description of The M7 Aerospace 401(k) Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined-contribution plan which covers all employees of The M7 Aerospace, LP (Company), following the date on which they become an employee. An employee is considered an eligible employee for matching contributions as of the enrollment date coinciding with, or next following, the date on which the employee has completed six months of continuous service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year participants may contribute from 0% to 50% of eligible pre-tax compensation and 0% to 25% of eligible after-tax compensation as defined in the Plan. Pre-tax and after-tax contributions cannot exceed 75% of compensation for the Plan year. The employer contributes 50% of a participant's contributions that do not exceed 6% of that participant's compensation. The employer may also make discretionary contributions.

Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants who have reached age 50 by the end of the Plan year and who have already made the maximum elective deferral may make additional pre-tax "catch-up" contributions.

Participant Investment Account Options

Investment account options available include various funds. Each participant has the option of directing his contributions into any of the separate investment accounts.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution and Plan earnings and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

The M7 Aerospace 401(k) Plan

Notes to Financial Statements

December 31, 2010 and 2009

Vesting

Participants are immediately vested in their voluntary contributions and actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus earnings thereon, is based on years of continuous service. A participant is fully vested after five years of credited service.

Payment of Benefits

Upon termination of service, a participant may elect to receive a lump-sum distribution equal to the value of the participant's vested interest in his/her account. Any balance under \$1,000 is automatically paid out as soon as administratively possible. Hardship withdrawals are also available subject to certain limitations.

Notes Receivable from Participants

Participants may borrow from their account a minimum amount of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 4.25% to 9.25%, which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are paid through payroll deductions. The loans are repayable over a period not to exceed five years with the exception of a loan for the purchase of a principal residence.

Notes receivable from participants are reported at amortized principal balance plus accrued but unpaid interest. Notes receivable from participants that become delinquent are charged off to the participants as distributions.

Excess Contributions Payable

Contributions received from participants are net of payments of \$54,324 made in 2011 to certain active participants to return to them excess defined contributions as required to satisfy the relevant nondiscrimination provisions of the Plan. The amount is also included in the Plan's statements of net assets available for benefits as excess contributions payable at December 31, 2010.

Plan Termination

Although it has not expressed an intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

The M7 Aerospace 401(k) Plan

Notes to Financial Statements

December 31, 2010 and 2009

Forfeitures

At December 31, 2010 and 2009, forfeited non-vested accounts totaled \$-0- and \$43,334, respectively. These accounts may be used to reduce future employer contributions and pay the expenses of the Plan. During 2010, \$181,317 of forfeited non-vested funds were used to reduce Plan contributions or expenses.

Expenses of the Plan

The Plan's administrative expenses are paid by either the Plan or the Company as provided by the Plan document.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

As described in Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and SOP 94-4-1, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans* (FSP), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The FSP requires the statements of net assets available for benefits to present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The fair value of the guaranteed investment contract is calculated by discounting the related cash flows based on the current yields of similar instruments with comparable durations. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

The M7 Aerospace 401(k) Plan

Notes to Financial Statements

December 31, 2010 and 2009

Valuation of Investments and Income Recognition

Registered investment companies are valued at the net asset value (NAV) of shares held by the Plan at year-end.

As of December 31, 2010, the estimated fair value of the investment in the DWS Stable Value Fund approximated the contract value in the statements of net assets available for benefits. The interest crediting rate was 2.80% at December 31, 2010. The average yield earned for the fund as of the year ended December 31, 2010, was 2.35%. The average yield with an adjustment to reflect the actual interest rate credited to participants for the fund for the year ended December 31, 2010, was 2.61%. The minimum crediting interest rate under the terms of the contract is 0%.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan at the Company's discretion.

Note 3: Certification by Plan Trustees

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, the trustees have certified that the following information included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and notes receivable from participants as shown in the statements of net assets available for benefits and related disclosures as of December 31, 2010 and 2009
- Investment income and interest income from notes receivable from participants as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2010
- Investment information included in the accompanying schedule of assets (held at end of year) as of December 31, 2010

The Plan's independent auditors did not perform auditing procedures with respect to this information except for comparing such information to the related information included in the financial statements and supplemental schedule.

---------------------------------	-------------------

Note 5: Change in Accounting Principle

During 2010, the Plan adopted the provisions of ASU 2010-25, *Reporting Loans to Participants by Defined Contribution Pension Plans*. The ASU requires loans to participants to be reported as notes receivable from participants at unpaid principal plus accrued but unpaid interest instead of being reported as part of investments at fair value as they were under previous guidance.

Note 6: Fair Value of Plan Assets

ASC Topic 820, *Fair Value Measurements*, defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Topic 820 also establishes a fair value hierarchy which requires a plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets, quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full-term of the assets
- Level 3** Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no changes in the methodologies used at December 31, 2010 and 2009.

The M7 Aerospace 401(k) Plan

Notes to Financial Statements

December 31, 2010 and 2009

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. Level 1 securities include registered investment companies which are valued at the net asset value (NAV) of shares held by the Plan at year-end. If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics or discounted cash flows. Level 2 securities include common/collective trust and guaranteed income funds. Common/collective trust and guaranteed income funds are fully-responsive investment contracts. The fair value of fully benefit-responsive investment contracts is calculated by the issuer using a discounted cash flow model which considers (i) recent fee bids as determined by recognized dealers, (ii) discount rate, and (iii) the duration of the underlying portfolio securities. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy. There are no Level 3 securities.

The following table presents the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the FASB ASC 820 fair value hierarchy in which the fair value measurements fall at December 31:

Note 7: Party-In-interest Transactions

Certain Plan investments are shares of mutual funds managed by DWS Trust Company. DWS Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

The Company paid certain administrative expenses related to the Plan for the year ended December 31, 2010.

Note 8: Tax Status

The Plan adopted an Internal Revenue Service (IRS) approved plan under the ADP Volume Submitter Program, which has received an opinion letter from the IRS as to qualified status. The Plan administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of Internal Revenue Code (IRC).

The M7 Aerospace 401(k) Plan

Notes to Financial Statements

Note 9: Risk and Uncertainties

The Plan invests in various investment securities. Investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect the participants' account balances and amounts reported in the statements of net assets available for benefits.

Note 11: Significant Estimates and Concentrations

Current Economic Conditions

The current protracted economic decline continues to present employee benefit plans with difficult circumstances and challenges, which in some cases have resulted in large and unanticipated declines in the fair value of investments. The financial statements have been prepared using values and information currently available to the Plan.

Given the volatility of current economic conditions, the values of assets recorded in the financial statements could change rapidly, resulting in material future adjustments in investment values that could negatively impact the Plan.

Note 12: Subsequent Events

Subsequent events have been evaluated through October 5, 2011, which is the date the financial statements were available to be issued.
