INDEPENDENT AUDITORS' REPORT

To the Plan Administrator and Participants
Severn Trent 401(k) Savings Plan

We were engaged to audit the accompanying statement of net assets available for benefits of Severn Trent 401(k) Savings Plan (the "Plan") as of December 31, 2010, the related statement of changes in net assets available for benefits for the year ended December 31, 2010, and the supplemental schedule of assets held for investment purposes as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management. Amper, Politziner & Mattia, LLP, whose practice was combined with the practice of Eisner LLP to form EisnerAmper LLP as of August 16, 2010, was engaged to audit the December 31, 2009 financial statements of the Plan. As permitted by 29 CFR 2520.103-8 of the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the Plan administrator instructed Amper, Politziner & Mattia, LLP not to perform, and they did not perform, any auditing procedures with respect to the information certified by Prudential Trust Company and Wells Fargo Bank Minnesota, N.A., the trustees of the Plan. Their report, dated July 30, 2010, indicated that (a) because of the significance of the information that they did not audit, they were unable to, and did not, express an opinion on the 2009 financial statements and supplemental schedule taken as a whole, and (b) the form and content of the 2009 information included in the financial statements, other than that derived from the information certified by the trustees, were presented in compliance with the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

As permitted by 29 CFR 2520.103-8 of the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information discussed in Note C, which was certified by The Prudential Insurance Company of America, Prudential Trust Company and Wells Fargo Bank Minnesota, N.A., the insurance company and trustees of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the insurance company and trustees hold the Plan's investment assets and execute investment transactions. The Plan administrator has obtained certifications from the insurance company and trustees as of December 31, 2010, and for the year ended December 31, 2010, that the information provided to the Plan administrator by the insurance company and trustees is complete and accurate.

Because of the significance of the information in the Plan's 2010 financial statements and supplemental schedule that we did not audit, we are unable to, and do not, express an opinion on the accompanying 2010 financial statements and supplemental schedule taken as a whole. The form and content of the information included in the 2010 financial statements and supplemental schedule, other than that derived from the information certified by the insurance company and trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

SEVERN TRENT 401(k) SAVINGS PLAN

Notes to Financial Statements December 31, 2010 and 2009

NOTE A - DESCRIPTION OF THE PLAN

The following description of Severn Trent 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

[1] General:

The Plan is a defined contribution plan covering all nonunion employees, as defined (no employee covered by a collective bargaining agreement shall be eligible to participate in the Plan unless such agreement specifically provides for participation), of Severn Trent Services, Inc. (the "Company"), and all related United States subsidiaries of Severn Trent Services (DEL), Inc. (the "Related Companies"), the parent of the Company. Employees are immediately eligible to enter the Plan upon their date of hire.

The Plan provides an automatic enrollment feature. Effective January 1, 2006, automatic enrollment was implemented for newly eligible employees and rehires. Effective July 1, 2007, automatic enrollment was implemented for all employees who never affirmatively took any action regarding the Plan, regardless of their date of hire. As such, their compensation is automatically reduced by 3%. An employee who previously selected not to participate was not automatically enrolled. Effective as of July 1, 2008, participants automatically have their employee savings contributions increased annually by 1%, up to a maximum of 6%. This auto escalation feature of the Plan was temporarily suspended in 2009 and reinstated in 2010.

The Plan is subject to the provisions of the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA").

[2] Contributions:

Participants may contribute up to 100% of pre-tax annual compensation and may make catch-up contributions, as defined by the Plan. In addition, participants may contribute up to 15% of after-tax compensation, as defined by the Plan. In no event may participant pre-tax and after-tax contributions exceed any statutory limitations. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

The Company matches 50% of the participant's pre-tax contributions, up to 6% of base compensation. Additional discretionary profit-sharing contributions may be made at the discretion of the Company's board of directors. To be eligible for discretionary profit-sharing contributions, a participant must work 1,000 hours in the given Plan year and be employed on the last day of the Plan year. There were no discretionary contributions made in 2010 or 2009. Participants may change their contribution percentages daily. Participants direct the investment of participant and employer contributions.

[3] Participant accounts:

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions and (b) Plan earnings, and charged with an allocation of administrative expenses, if any. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes to Financial Statements December 31, 2010 and 2009

NOTE A - DESCRIPTION OF THE PLAN (CONTINUED)

[4] Vesting:

Participants are immediately vested in their contributions, plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts, plus actual earnings thereon, is as follows:

<u>Years of Service</u>	<u>Vesting</u>
1 year	20%
2 years	40%
3 years	60%
4 years	80%
5 years	100%

[5] Notes receivable from participants:

Participants may borrow from their fund accounts a minimum of \$1,000, up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from one to five years; however, terms may exceed five years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are paid ratably through payroll deductions. Interest rates ranged from 4.25% to 9.75% during the year.

[6] Payment of benefits:

On termination of service, a participant or beneficiary shall receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. However, participants who had account balances under a prior plan of any of the Related Companies may elect to receive the portion of their accounts attributable to the prior plan in the form permitted under the prior plan.

If the value of the account of a participant who retired, terminated employment, became disabled, or died, is \$1,000 or less, the Plan administrator may distribute the participant's account without his/her consent.

[7] Forfeitures:

Forfeited non-vested accounts are used to reduce future Company contributions. During the year ended December 31, 2010, forfeitures of approximately \$88,000 were used to reduce employer contributions. Forfeited non-vested accounts available to reduce future employer contributions at December 31, 2010 and 2009 were approximately \$82,000 and \$44,000, respectively.

SEVERN TRENT 401(k) SAVINGS PLAN

Notes to Financial Statements December 31, 2010 and 2009

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

[1] Basis of accounting:

The financial statements are prepared under the accrual method of accounting.

[2] Notes receivable from participants:

In September 2010, the Financial Accounting Standards Board ("FASB") issued new guidance that requires participant loans be classified as notes receivable from participants in the financial statements of a defined contribution pension plan, measured at the unpaid principal balance plus accrued, but unpaid interest. The Plan adopted the new guidance, which is effective for fiscal years ending after December 15, 2010, and is applied retrospectively, by reclassifying participant loans on the statements of net assets available for benefits for all years presented. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

[3] Fully benefit-responsive investment contract:

As required by the *Defined Contribution Pension Plan* topic of the FASB Codification, investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by the topic, the 2009 statement of net assets available for benefits presents the fair value of the investment contract, as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

The Plan invested in the Stable Value Fund A, which is a collective trust fund that invested 100% in Wells Fargo Stable Return Fund G, as of December 31, 2009. The Wells Fargo Stable Return Fund G primarily invests in investment contracts, including traditional guaranteed investment contracts ("GICs") and security-backed contracts issued by insurance companies and other financial institutions. The estimated fair value of the collective trust fund is net asset value. The use of net asset value as fair value is deemed appropriate, as collective trust funds do not have finite lives, unfunded commitments relating to these types of investments, or significant restrictions on redemptions.

In October 2009, the Company notified the custodian that the Plan requested to redeem all units in the fund held by the Plan. The distribution occurred in October 2010.

Participant-initiated requests for withdrawals from the Stable Value Fund A were processed on a daily basis. Participants could not transfer monies out of the fund to a competing fund directly or indirectly before 90 days after being withdrawn. When the Plan sponsor requested to redeem all units in the fund held by the Plan, such distribution was scheduled to be made in a lump sum no later than 12 months from receipt of such request.

The yield earned by the Stable Value Fund A at December 31 2009 was 3.4%. The yield earned by the Stable Value Fund A with an adjustment to reflect the actual interest rate credited to participants in the fund at December 31, 2009 was 43.32%.

[4] Subsequent events:

The Plan has evaluated subsequent events through September 19, 2011, the date the financial statements were available to be issued.

SEVERN TRENT 401(k) SAVINGS PLAN

Notes to Financial Statements December 31, 2010 and 2009

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

[5] Investment valuation and income recognition:

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note E for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

[6] Payment of benefits:

Benefits are recorded when paid.

[7] Plan expenses:

Substantially all expenses, with the exception of participant loan fees, incurred in connection with the administration of the Plan, are paid by the Company.

[8] Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and when applicable, disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

NOTE C - INVESTMENT CERTIFICATION

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, The Prudential Insurance Company of America, Prudential Trust Company and Wells Fargo Bank Minnesota, N.A., the insurance company and trustees, have certified the completeness and accuracy of all investments and related investment activity and notes receivable from participants in the accompanying financial statements and supplemental schedule.

SEVERN TRENT 401(k) SAVINGS PLAN

Notes to Financial Statements December 31, 2010 and 2009

NOTE E - FAIR VALUE MEASUREMENTS

FASB's Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements), and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include: (1) quoted prices for similar assets or liabilities in active markets; (2) quoted prices for identical or similar assets or liabilities in inactive markets; (3) inputs other than quoted prices that are observable for the asset or liability; or (4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

In January 2010, the FASB issued amended guidance on fair value measurements. The Plan has adopted the amended provisions that are effective for interim and annual reporting periods beginning after December 15, 2009 regarding disclosures of significant transfers in and out of Level 1 and Level 2 assets, and description of the reasons for the transfers. Additional disclosures that are effective for fiscal years beginning after December 15, 2010 regarding reporting purchases, sales, issuances, and settlements for Level 3 assets on a gross basis should not have a significant impact on the Plan's financial statements.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual funds – Valued at the net asset value ("NAV") of shares held by the Plan at year end.

Collective trust fund – The Prudential Stable Value Fund (the "Fund") is a collective trust fund, which is valued at the unit value of the trust. Unit prices of the trust are based on the market value of the underlying assets.

Guaranteed income fund – Valued at contract value, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE E - FAIR VALUE MEASUREMENTS (CONTINUED)

Changes in fair value levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Company evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2010, there were no significant transfers in or out of Levels 1, 2 or 3.

Level 3 Gains and Losses

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2010:

Level 3 Assets for the Year Ended December 31, 2010

	January 1, 2010	Interest Income	Purchases, Sales, Issuances and Settlements (Net)	Transfers In and/or Out of Level 3	December 31, 2010
Guaranteed income fund	\$ -	\$ 62,987	\$ 12,065,498	\$ -	\$ 12,128,485

NOTE F - GUARANTEED INCOME FUND

The Plan has entered into an investment contract with Prudential Retirement Insurance and Annuity Company ("PRIAC"), a wholly owned subsidiary of the The Prudential Insurance Company of America, regarding the guaranteed investment contract. The Guaranteed Income Fund, a fully benefit-responsive investment, is a stable value product, and principal and interest are fully guaranteed by PRIAC. The minimum crediting rate is 1.5%. For the year ended December 31, 2010, the average yield earned and credited to participants was 2.7%. Interest rates are reset on a semiannual basis. Generally, there are not any events that could limit the ability of the Plan to transact at the contract value within 90 days. There are not any events that allow the issuer to terminate the contract and which require the Company to settle at an amount different than contract value paid either within 90 days or over time. If the contract were to be terminated, the valuation date would be 90 days after the date PRIAC receives all information necessary to make the disbursement, or 90 days after the date PRIAC recovers all outstanding expenses under the agreement, if any.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

As required by the *Defined Contribution Pension Plans* topic of the FASB Codification, investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attributable for that portion of the net asset available for benefits of a defined contribution plan to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Per Prudential Retirement Insurance and Annuity Company, this product is not a traditional guaranteed investment contract, and therefore there are not any known cash flows that could be discounted. As a result, the fair value equals the contract value.

Notes to Financial Statements December 31, 2010 and 2009

NOTE G - TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated January 12, 2009, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the tax determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by a government authority. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

NOTE H - PARTY-IN-INTEREST TRANSACTIONS

Certain investments are shares of registered investment companies and guaranteed income fund managed by The Prudential Insurance Company of America, Prudential Trust Company and Wells Fargo Bank Minnesota, N.A. The Prudential Insurance Company of America, Prudential Trust Company and Wells Fargo Bank Minnesota, N.A. are the insurance company and Plan's trustees and, therefore, these transactions qualify as party-in-interest.

NOTE I - RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks, as well as risk related to the financial strength of the insurance company. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Users of these financial statements should be aware that the financial markets' volatility may significantly impact the subsequent valuation of the Plan's investments. Accordingly, the valuation of investments at December 31, 2010 may not necessarily be indicative of amounts that could be realized in a current market exchange.

NOTE J - MUTUAL FUND FEES

Investments in mutual funds are subject to sales charges in the form of front-end loads, back-end loads or 12b-1 fees. 12b-1 fees, which are ongoing fees allowable under Section 12b-1 of the Investment Company Act of 1940, are annual fees deducted to pay for marketing and distribution costs of the funds. These fees are deducted prior to the allocation of the Plan's investment earnings activity, and thus not separately identifiable as an expense.

NOTE K - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

INDEPENDENT AUDITORS' REPORT

To the Plan Administrator and Participants
Severn Trent 401(k) Savings Plan

We were engaged to audit the accompanying statement of net assets available for benefits of Severn Trent 401(k) Savings Plan (the "Plan") as of December 31, 2010, the related statement of changes in net assets available for benefits for the year ended December 31, 2010, and the supplemental schedule of assets held for investment purposes as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management. Amper, Politziner & Mattia, LLP, whose practice was combined with the practice of Eisner LLP to form EisnerAmper LLP as of August 16, 2010, was engaged to audit the December 31, 2009 financial statements of the Plan. As permitted by 29 CFR 2520.103-8 of the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the Plan administrator instructed Amper, Politziner & Mattia, LLP not to perform, and they did not perform, any auditing procedures with respect to the information certified by Prudential Trust Company and Wells Fargo Bank Minnesota, N.A., the trustees of the Plan. Their report, dated July 30, 2010, indicated that (a) because of the significance of the information that they did not audit, they were unable to, and did not, express an opinion on the 2009 financial statements and supplemental schedule taken as a whole, and (b) the form and content of the 2009 information included in the financial statements, other than that derived from the information certified by the trustees, were presented in compliance with the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

As permitted by 29 CFR 2520.103-8 of the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information discussed in Note C, which was certified by The Prudential Insurance Company of America, Prudential Trust Company and Wells Fargo Bank Minnesota, N.A., the insurance company and trustees of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the insurance company and trustees hold the Plan's investment assets and execute investment transactions. The Plan administrator has obtained certifications from the insurance company and trustees as of December 31, 2010, and for the year ended December 31, 2010, that the information provided to the Plan administrator by the insurance company and trustees is complete and accurate.

Because of the significance of the information in the Plan's 2010 financial statements and supplemental schedule that we did not audit, we are unable to, and do not, express an opinion on the accompanying 2010 financial statements and supplemental schedule taken as a whole. The form and content of the information included in the 2010 financial statements and supplemental schedule, other than that derived from the information certified by the insurance company and trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

SEVERN TRENT 401(k) SAVINGS PLAN

Notes to Financial Statements December 31, 2010 and 2009

NOTE A - DESCRIPTION OF THE PLAN

The following description of Severn Trent 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

[1] General:

The Plan is a defined contribution plan covering all nonunion employees, as defined (no employee covered by a collective bargaining agreement shall be eligible to participate in the Plan unless such agreement specifically provides for participation), of Severn Trent Services, Inc. (the "Company"), and all related United States subsidiaries of Severn Trent Services (DEL), Inc. (the "Related Companies"), the parent of the Company. Employees are immediately eligible to enter the Plan upon their date of hire.

The Plan provides an automatic enrollment feature. Effective January 1, 2006, automatic enrollment was implemented for newly eligible employees and rehires. Effective July 1, 2007, automatic enrollment was implemented for all employees who never affirmatively took any action regarding the Plan, regardless of their date of hire. As such, their compensation is automatically reduced by 3%. An employee who previously selected not to participate was not automatically enrolled. Effective as of July 1, 2008, participants automatically have their employee savings contributions increased annually by 1%, up to a maximum of 6%. This auto escalation feature of the Plan was temporarily suspended in 2009 and reinstated in 2010.

The Plan is subject to the provisions of the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA").

[2] Contributions:

Participants may contribute up to 100% of pre-tax annual compensation and may make catch-up contributions, as defined by the Plan. In addition, participants may contribute up to 15% of after-tax compensation, as defined by the Plan. In no event may participant pre-tax and after-tax contributions exceed any statutory limitations. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

The Company matches 50% of the participant's pre-tax contributions, up to 6% of base compensation. Additional discretionary profit-sharing contributions may be made at the discretion of the Company's board of directors. To be eligible for discretionary profit-sharing contributions, a participant must work 1,000 hours in the given Plan year and be employed on the last day of the Plan year. There were no discretionary contributions made in 2010 or 2009. Participants may change their contribution percentages daily. Participants direct the investment of participant and employer contributions.

[3] Participant accounts:

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions and (b) Plan earnings, and charged with an allocation of administrative expenses, if any. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

SEVERN TRENT 401(k) SAVINGS PLAN

Notes to Financial Statements December 31, 2010 and 2009

NOTE A - DESCRIPTION OF THE PLAN (CONTINUED)

[4] Vesting:

Participants are immediately vested in their contributions, plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts, plus actual earnings thereon, is as follows:

<u>Years of Service</u>	<u>Vesting</u>
1 year	20%
2 years	40%
3 years	60%
4 years	80%
5 years	100%

[5] Notes receivable from participants:

Participants may borrow from their fund accounts a minimum of \$1,000, up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from one to five years; however, terms may exceed five years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are paid ratably through payroll deductions. Interest rates ranged from 4.25% to 9.75% during the year.

[6] Payment of benefits:

On termination of service, a participant or beneficiary shall receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. However, participants who had account balances under a prior plan of any of the Related Companies may elect to receive the portion of their accounts attributable to the prior plan in the form permitted under the prior plan.

If the value of the account of a participant who retired, terminated employment, became disabled, or died, is \$1,000 or less, the Plan administrator may distribute the participant's account without his/her consent.

[7] Forfeitures:

Forfeited non-vested accounts are used to reduce future Company contributions. During the year ended December 31, 2010, forfeitures of approximately \$88,000 were used to reduce employer contributions. Forfeited non-vested accounts available to reduce future employer contributions at December 31, 2010 and 2009 were approximately \$82,000 and \$44,000, respectively.

SEVERN TRENT 401(k) SAVINGS PLAN

Notes to Financial Statements December 31, 2010 and 2009

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

[1] Basis of accounting:

The financial statements are prepared under the accrual method of accounting.

[2] Notes receivable from participants:

In September 2010, the Financial Accounting Standards Board ("FASB") issued new guidance that requires participant loans be classified as notes receivable from participants in the financial statements of a defined contribution pension plan, measured at the unpaid principal balance plus accrued, but unpaid interest. The Plan adopted the new guidance, which is effective for fiscal years ending after December 15, 2010, and is applied retrospectively, by reclassifying participant loans on the statements of net assets available for benefits for all years presented. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

[3] Fully benefit-responsive investment contract:

As required by the *Defined Contribution Pension Plan* topic of the FASB Codification, investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by the topic, the 2009 statement of net assets available for benefits presents the fair value of the investment contract, as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

The Plan invested in the Stable Value Fund A, which is a collective trust fund that invested 100% in Wells Fargo Stable Return Fund G, as of December 31, 2009. The Wells Fargo Stable Return Fund G primarily invests in investment contracts, including traditional guaranteed investment contracts ("GICs") and security-backed contracts issued by insurance companies and other financial institutions. The estimated fair value of the collective trust fund is net asset value. The use of net asset value as fair value is deemed appropriate, as collective trust funds do not have finite lives, unfunded commitments relating to these types of investments, or significant restrictions on redemptions.

In October 2009, the Company notified the custodian that the Plan requested to redeem all units in the fund held by the Plan. The distribution occurred in October 2010.

Participant-initiated requests for withdrawals from the Stable Value Fund A were processed on a daily basis. Participants could not transfer monies out of the fund to a competing fund directly or indirectly before 90 days after being withdrawn. When the Plan sponsor requested to redeem all units in the fund held by the Plan, such distribution was scheduled to be made in a lump sum no later than 12 months from receipt of such request.

The yield earned by the Stable Value Fund A at December 31 2009 was 3.4%. The yield earned by the Stable Value Fund A with an adjustment to reflect the actual interest rate credited to participants in the fund at December 31, 2009 was 43.32%.

[4] Subsequent events:

The Plan has evaluated subsequent events through September 19, 2011, the date the financial statements were available to be issued.

SEVERN TRENT 401(k) SAVINGS PLAN

Notes to Financial Statements December 31, 2010 and 2009

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

[5] Investment valuation and income recognition:

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note E for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

[6] Payment of benefits:

Benefits are recorded when paid.

[7] Plan expenses:

Substantially all expenses, with the exception of participant loan fees, incurred in connection with the administration of the Plan, are paid by the Company.

[8] Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and when applicable, disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

NOTE C - INVESTMENT CERTIFICATION

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, The Prudential Insurance Company of America, Prudential Trust Company and Wells Fargo Bank Minnesota, N.A., the insurance company and trustees, have certified the completeness and accuracy of all investments and related investment activity and notes receivable from participants in the accompanying financial statements and supplemental schedule.

SEVERN TRENT 401(k) SAVINGS PLAN

Notes to Financial Statements December 31, 2010 and 2009

NOTE E - FAIR VALUE MEASUREMENTS

FASB's Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements), and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include: (1) quoted prices for similar assets or liabilities in active markets; (2) quoted prices for identical or similar assets or liabilities in inactive markets; (3) inputs other than quoted prices that are observable for the asset or liability; or (4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

In January 2010, the FASB issued amended guidance on fair value measurements. The Plan has adopted the amended provisions that are effective for interim and annual reporting periods beginning after December 15, 2009 regarding disclosures of significant transfers in and out of Level 1 and Level 2 assets, and description of the reasons for the transfers. Additional disclosures that are effective for fiscal years beginning after December 15, 2010 regarding reporting purchases, sales, issuances, and settlements for Level 3 assets on a gross basis should not have a significant impact on the Plan's financial statements.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual funds – Valued at the net asset value ("NAV") of shares held by the Plan at year end.

Collective trust fund – The Prudential Stable Value Fund (the "Fund") is a collective trust fund, which is valued at the unit value of the trust. Unit prices of the trust are based on the market value of the underlying assets.

Guaranteed income fund – Valued at contract value, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Changes in fair value levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Company evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2010, there were no significant transfers in or out of Levels 1, 2 or 3.

Level 3 Gains and Losses

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2010:

Level 3 Assets for the Year Ended December 31, 2010

	January 1, 2010	Interest Income	Purchases, Sales, Issuances and Settlements (Net)	Transfers In and/or Out of Level 3	December 31, 2010
Guaranteed income fund	\$ -	\$ 62,987	\$ 12,065,498	\$ -	\$ 12,128,485

NOTE F - GUARANTEED INCOME FUND

The Plan has entered into an investment contract with Prudential Retirement Insurance and Annuity Company ("PRIAC"), a wholly owned subsidiary of the The Prudential Insurance Company of America, regarding the guaranteed investment contract. The Guaranteed Income Fund, a fully benefit-responsive investment, is a stable value product, and principal and interest are fully guaranteed by PRIAC. The minimum crediting rate is 1.5%. For the year ended December 31, 2010, the average yield earned and credited to participants was 2.7%. Interest rates are reset on a semiannual basis. Generally, there are not any events that could limit the ability of the Plan to transact at the contract value within 90 days. There are not any events that allow the issuer to terminate the contract and which require the Company to settle at an amount different than contract value paid either within 90 days or over time. If the contract were to be terminated, the valuation date would be 90 days after the date PRIAC receives all information necessary to make the disbursement, or 90 days after the date PRIAC recovers all outstanding expenses under the agreement, if any.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

As required by the *Defined Contribution Pension Plans* topic of the FASB Codification, investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attributable for that portion of the net asset available for benefits of a defined contribution plan to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Per Prudential Retirement Insurance and Annuity Company, this product is not a traditional guaranteed investment contract, and therefore there are not any known cash flows that could be discounted. As a result, the fair value equals the contract value.

NOTE G - TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated January 12, 2009, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the tax determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by a government authority. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

NOTE H - PARTY-IN-INTEREST TRANSACTIONS

Certain investments are shares of registered investment companies and guaranteed income fund managed by The Prudential Insurance Company of America, Prudential Trust Company and Wells Fargo Bank Minnesota, N.A. The Prudential Insurance Company of America, Prudential Trust Company and Wells Fargo Bank Minnesota, N.A. are the insurance company and Plan's trustees and, therefore, these transactions qualify as party-in-interest.

NOTE I - RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks, as well as risk related to the financial strength of the insurance company. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Users of these financial statements should be aware that the financial markets' volatility may significantly impact the subsequent valuation of the Plan's investments. Accordingly, the valuation of investments at December 31, 2010 may not necessarily be indicative of amounts that could be realized in a current market exchange.

NOTE J - MUTUAL FUND FEES

Investments in mutual funds are subject to sales charges in the form of front-end loads, back-end loads or 12b-1 fees. 12b-1 fees, which are ongoing fees allowable under Section 12b-1 of the Investment Company Act of 1940, are annual fees deducted to pay for marketing and distribution costs of the funds. These fees are deducted prior to the allocation of the Plan's investment earnings activity, and thus not separately identifiable as an expense.

NOTE K - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

INDEPENDENT AUDITORS' REPORT

To the Plan Administrator and Participants
Severn Trent 401(k) Savings Plan

We were engaged to audit the accompanying statement of net assets available for benefits of Severn Trent 401(k) Savings Plan (the "Plan") as of December 31, 2010, the related statement of changes in net assets available for benefits for the year ended December 31, 2010, and the supplemental schedule of assets held for investment purposes as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management. Amper, Politziner & Mattia, LLP, whose practice was combined with the practice of Eisner LLP to form EisnerAmper LLP as of August 16, 2010, was engaged to audit the December 31, 2009 financial statements of the Plan. As permitted by 29 CFR 2520.103-8 of the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the Plan administrator instructed Amper, Politziner & Mattia, LLP not to perform, and they did not perform, any auditing procedures with respect to the information certified by Prudential Trust Company and Wells Fargo Bank Minnesota, N.A., the trustees of the Plan. Their report, dated July 30, 2010, indicated that (a) because of the significance of the information that they did not audit, they were unable to, and did not, express an opinion on the 2009 financial statements and supplemental schedule taken as a whole, and (b) the form and content of the 2009 information included in the financial statements, other than that derived from the information certified by the trustees, were presented in compliance with the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

As permitted by 29 CFR 2520.103-8 of the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information discussed in Note C, which was certified by The Prudential Insurance Company of America, Prudential Trust Company and Wells Fargo Bank Minnesota, N.A., the insurance company and trustees of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the insurance company and trustees hold the Plan's investment assets and execute investment transactions. The Plan administrator has obtained certifications from the insurance company and trustees as of December 31, 2010, and for the year ended December 31, 2010, that the information provided to the Plan administrator by the insurance company and trustees is complete and accurate.

Because of the significance of the information in the Plan's 2010 financial statements and supplemental schedule that we did not audit, we are unable to, and do not, express an opinion on the accompanying 2010 financial statements and supplemental schedule taken as a whole. The form and content of the information included in the 2010 financial statements and supplemental schedule, other than that derived from the information certified by the insurance company and trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

SEVERN TRENT 401(k) SAVINGS PLAN

Notes to Financial Statements December 31, 2010 and 2009

NOTE A - DESCRIPTION OF THE PLAN

The following description of Severn Trent 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

[1] General:

The Plan is a defined contribution plan covering all nonunion employees, as defined (no employee covered by a collective bargaining agreement shall be eligible to participate in the Plan unless such agreement specifically provides for participation), of Severn Trent Services, Inc. (the "Company"), and all related United States subsidiaries of Severn Trent Services (DEL), Inc. (the "Related Companies"), the parent of the Company. Employees are immediately eligible to enter the Plan upon their date of hire.

The Plan provides an automatic enrollment feature. Effective January 1, 2006, automatic enrollment was implemented for newly eligible employees and rehires. Effective July 1, 2007, automatic enrollment was implemented for all employees who never affirmatively took any action regarding the Plan, regardless of their date of hire. As such, their compensation is automatically reduced by 3%. An employee who previously selected not to participate was not automatically enrolled. Effective as of July 1, 2008, participants automatically have their employee savings contributions increased annually by 1%, up to a maximum of 6%. This auto escalation feature of the Plan was temporarily suspended in 2009 and reinstated in 2010.

The Plan is subject to the provisions of the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA").

[2] Contributions:

Participants may contribute up to 100% of pre-tax annual compensation and may make catch-up contributions, as defined by the Plan. In addition, participants may contribute up to 15% of after-tax compensation, as defined by the Plan. In no event may participant pre-tax and after-tax contributions exceed any statutory limitations. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

The Company matches 50% of the participant's pre-tax contributions, up to 6% of base compensation. Additional discretionary profit-sharing contributions may be made at the discretion of the Company's board of directors. To be eligible for discretionary profit-sharing contributions, a participant must work 1,000 hours in the given Plan year and be employed on the last day of the Plan year. There were no discretionary contributions made in 2010 or 2009. Participants may change their contribution percentages daily. Participants direct the investment of participant and employer contributions.

[3] Participant accounts:

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions and (b) Plan earnings, and charged with an allocation of administrative expenses, if any. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes to Financial Statements December 31, 2010 and 2009

NOTE A - DESCRIPTION OF THE PLAN (CONTINUED)

[4] Vesting:

Participants are immediately vested in their contributions, plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts, plus actual earnings thereon, is as follows:

<u>Years of Service</u>	<u>Vesting</u>
1 year	20%
2 years	40%
3 years	60%
4 years	80%
5 years	100%

[5] Notes receivable from participants:

Participants may borrow from their fund accounts a minimum of \$1,000, up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from one to five years; however, terms may exceed five years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are paid ratably through payroll deductions. Interest rates ranged from 4.25% to 9.75% during the year.

[6] Payment of benefits:

On termination of service, a participant or beneficiary shall receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. However, participants who had account balances under a prior plan of any of the Related Companies may elect to receive the portion of their accounts attributable to the prior plan in the form permitted under the prior plan.

If the value of the account of a participant who retired, terminated employment, became disabled, or died, is \$1,000 or less, the Plan administrator may distribute the participant's account without his/her consent.

[7] Forfeitures:

Forfeited non-vested accounts are used to reduce future Company contributions. During the year ended December 31, 2010, forfeitures of approximately \$88,000 were used to reduce employer contributions. Forfeited non-vested accounts available to reduce future employer contributions at December 31, 2010 and 2009 were approximately \$82,000 and \$44,000, respectively.

SEVERN TRENT 401(k) SAVINGS PLAN

Notes to Financial Statements December 31, 2010 and 2009

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

[1] Basis of accounting:

The financial statements are prepared under the accrual method of accounting.

[2] Notes receivable from participants:

In September 2010, the Financial Accounting Standards Board ("FASB") issued new guidance that requires participant loans be classified as notes receivable from participants in the financial statements of a defined contribution pension plan, measured at the unpaid principal balance plus accrued, but unpaid interest. The Plan adopted the new guidance, which is effective for fiscal years ending after December 15, 2010, and is applied retrospectively, by reclassifying participant loans on the statements of net assets available for benefits for all years presented. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

[3] Fully benefit-responsive investment contract:

As required by the *Defined Contribution Pension Plan* topic of the FASB Codification, investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by the topic, the 2009 statement of net assets available for benefits presents the fair value of the investment contract, as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

The Plan invested in the Stable Value Fund A, which is a collective trust fund that invested 100% in Wells Fargo Stable Return Fund G, as of December 31, 2009. The Wells Fargo Stable Return Fund G primarily invests in investment contracts, including traditional guaranteed investment contracts ("GICs") and security-backed contracts issued by insurance companies and other financial institutions. The estimated fair value of the collective trust fund is net asset value. The use of net asset value as fair value is deemed appropriate, as collective trust funds do not have finite lives, unfunded commitments relating to these types of investments, or significant restrictions on redemptions.

In October 2009, the Company notified the custodian that the Plan requested to redeem all units in the fund held by the Plan. The distribution occurred in October 2010.

Participant-initiated requests for withdrawals from the Stable Value Fund A were processed on a daily basis. Participants could not transfer monies out of the fund to a competing fund directly or indirectly before 90 days after being withdrawn. When the Plan sponsor requested to redeem all units in the fund held by the Plan, such distribution was scheduled to be made in a lump sum no later than 12 months from receipt of such request.

The yield earned by the Stable Value Fund A at December 31 2009 was 3.4%. The yield earned by the Stable Value Fund A with an adjustment to reflect the actual interest rate credited to participants in the fund at December 31, 2009 was 43.32%.

[4] Subsequent events:

The Plan has evaluated subsequent events through September 19, 2011, the date the financial statements were available to be issued.

SEVERN TRENT 401(k) SAVINGS PLAN

Notes to Financial Statements December 31, 2010 and 2009

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

[5] Investment valuation and income recognition:

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note E for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

[6] Payment of benefits:

Benefits are recorded when paid.

[7] Plan expenses:

Substantially all expenses, with the exception of participant loan fees, incurred in connection with the administration of the Plan, are paid by the Company.

[8] Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and when applicable, disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

NOTE C - INVESTMENT CERTIFICATION

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, The Prudential Insurance Company of America, Prudential Trust Company and Wells Fargo Bank Minnesota, N.A., the insurance company and trustees, have certified the completeness and accuracy of all investments and related investment activity and notes receivable from participants in the accompanying financial statements and supplemental schedule.

SEVERN TRENT 401(k) SAVINGS PLAN

Notes to Financial Statements December 31, 2010 and 2009

NOTE E - FAIR VALUE MEASUREMENTS

FASB's Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements), and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include: (1) quoted prices for similar assets or liabilities in active markets; (2) quoted prices for identical or similar assets or liabilities in inactive markets; (3) inputs other than quoted prices that are observable for the asset or liability; or (4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

In January 2010, the FASB issued amended guidance on fair value measurements. The Plan has adopted the amended provisions that are effective for interim and annual reporting periods beginning after December 15, 2009 regarding disclosures of significant transfers in and out of Level 1 and Level 2 assets, and description of the reasons for the transfers. Additional disclosures that are effective for fiscal years beginning after December 15, 2010 regarding reporting purchases, sales, issuances, and settlements for Level 3 assets on a gross basis should not have a significant impact on the Plan's financial statements.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual funds – Valued at the net asset value ("NAV") of shares held by the Plan at year end.

Collective trust fund – The Prudential Stable Value Fund (the "Fund") is a collective trust fund, which is valued at the unit value of the trust. Unit prices of the trust are based on the market value of the underlying assets.

Guaranteed income fund – Valued at contract value, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

SEVERN TRENT 401(k) SAVINGS PLAN

Notes to Financial Statements December 31, 2010 and 2009

NOTE E - FAIR VALUE MEASUREMENTS (CONTINUED)

Changes in fair value levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Company evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2010, there were no significant transfers in or out of Levels 1, 2 or 3.

Level 3 Gains and Losses

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2010:

Level 3 Assets for the Year Ended December 31, 2010

	January 1, 2010	Interest Income	Purchases, Sales, Issuances and Settlements (Net)	Transfers In and/or Out of Level 3	December 31, 2010
Guaranteed income fund	\$ -	\$ 62,987	\$ 12,065,498	\$ -	\$ 12,128,485

NOTE F - GUARANTEED INCOME FUND

The Plan has entered into an investment contract with Prudential Retirement Insurance and Annuity Company ("PRIAC"), a wholly owned subsidiary of the The Prudential Insurance Company of America, regarding the guaranteed investment contract. The Guaranteed Income Fund, a fully benefit-responsive investment, is a stable value product, and principal and interest are fully guaranteed by PRIAC. The minimum crediting rate is 1.5%. For the year ended December 31, 2010, the average yield earned and credited to participants was 2.7%. Interest rates are reset on a semiannual basis. Generally, there are not any events that could limit the ability of the Plan to transact at the contract value within 90 days. There are not any events that allow the issuer to terminate the contract and which require the Company to settle at an amount different than contract value paid either within 90 days or over time. If the contract were to be terminated, the valuation date would be 90 days after the date PRIAC receives all information necessary to make the disbursement, or 90 days after the date PRIAC recovers all outstanding expenses under the agreement, if any.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

As required by the *Defined Contribution Pension Plans* topic of the FASB Codification, investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attributable for that portion of the net asset available for benefits of a defined contribution plan to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Per Prudential Retirement Insurance and Annuity Company, this product is not a traditional guaranteed investment contract, and therefore there are not any known cash flows that could be discounted. As a result, the fair value equals the contract value.

SEVERN TRENT 401(k) SAVINGS PLAN

Notes to Financial Statements December 31, 2010 and 2009

NOTE G - TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated January 12, 2009, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the tax determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by a government authority. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

NOTE H - PARTY-IN-INTEREST TRANSACTIONS

Certain investments are shares of registered investment companies and guaranteed income fund managed by The Prudential Insurance Company of America, Prudential Trust Company and Wells Fargo Bank Minnesota, N.A. The Prudential Insurance Company of America, Prudential Trust Company and Wells Fargo Bank Minnesota, N.A. are the insurance company and Plan's trustees and, therefore, these transactions qualify as party-in-interest.

NOTE I - RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks, as well as risk related to the financial strength of the insurance company. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Users of these financial statements should be aware that the financial markets' volatility may significantly impact the subsequent valuation of the Plan's investments. Accordingly, the valuation of investments at December 31, 2010 may not necessarily be indicative of amounts that could be realized in a current market exchange.

NOTE J - MUTUAL FUND FEES

Investments in mutual funds are subject to sales charges in the form of front-end loads, back-end loads or 12b-1 fees. 12b-1 fees, which are ongoing fees allowable under Section 12b-1 of the Investment Company Act of 1940, are annual fees deducted to pay for marketing and distribution costs of the funds. These fees are deducted prior to the allocation of the Plan's investment earnings activity, and thus not separately identifiable as an expense.

NOTE K - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.
