NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010 AND 2009**

1. Description of Plan

The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

a. General

The Plan is a participant directed defined contribution plan covering all full-time employees of the Company who have ninety days of service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

b. Contributions

Each year participants may contribute pretax dollars subject to certain annual limitations. Participants are limited to a maximum of \$16,500 in salary reductions with an additional \$5,500 in catch up contributions for employees age 50 and older in each of the calendar years ended December 31, 2010 and 2009. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers investments through a life insurance company as investment options for participants. The Company contributes one hundred percent of deferrals up to six percent of base compensation that a participant contributes to the Plan.

c. Participant Loans

Participant loans are not permitted.

d. Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after six years of credited services.

e. Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, and, (b) Plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. Description of Plan - continued

f. Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments based on a predetermined length of time. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

g. Forfeited Accounts

At December 31, 2010 and 2009, forfeited nonvested accounts totaled \$1,175 and \$10,738, respectively. These accounts can be used to pay Plan expenses and to reduce future Company contributions.

2. Summary of Accounting Policies

a. Date of Management's Review

Subsequent events were evaluated through September 22, 2011, which is the date the financial statements were available to be issued.

b. Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

c. Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

d. Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

2. Summary of Accounting Policies - continued

e. Payment of Benefits

Benefits are recorded when paid.

f. Operating Expenses

All expenses of maintaining the Plan are paid by the Company.

3. Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying Statements of Net Assets Available for Benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets of identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. No Level 3 inputs were available to the Plan.

Level 1 Fair Value Measurements

The fair value of registered mutual funds is based on quoted market prices available in active markets for identical assets on the reporting date.

Level 2 Fair Value Measurements

The fair value of common and collective trusts are based on quoted prices for similar instruments in active markets, or quoted prices for identical or similar instruments in markets that are not active.

The Internal Revenue Service has determined that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities may occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.
